Dr. T. T. Ram Mohan
Independent Director

Mr. Denys Charles Jean Marie Fougeroux De C (Denys De Campigneulles),
Alternate Director to Fathi Jerfel

Dear Investors,

In a world of constant change, our ability to adapt defines our progress. The past fiscal year brought significant global developments, including the return of Donald Trump as U.S. President and a renewed focus on protectionist trade policies. These shifts, along with persistent geopolitical tensions, including those along our national borders, rising inflation, and escalating climate concerns, contributed to a complex and uncertain global environment.

Amid these challenges, India has demonstrated remarkable resilience. Guided by prudent government policies and effective public–private collaboration, it continues to advance steadily. With a GDP of USD 4.3 trillion, it now ranks as the world's fourth-largest economy, following the United States, China, and Germany. This milestone underscores the robustness of the country's macroeconomic framework and the strength of domestic demand.

Building on this momentum, India's growth story has been supported by fiscal discipline, robust savings, increasing financialization, and favorable demographics. Reflecting this progress, the Indian Mutual Fund Industry's Assets Under Management (AUM) rose to ₹65.74 trillion in March 2025, a 23.11% increase from ₹53.40 trillion in March 2024. Investor folios also surged to 23.50 crore, marking a 32% year-on-year growth*.

At SBI Funds Management Limited, we take pride in having played a meaningful role in India's investment journey. As of March 31, 2025, our Assets Under Management crossed ₹10.67 lakh crore^, reaffirming our leadership in the industry. This growth is a testament to your continued trust and support. In FY25, we expanded our investor base significantly and introduced several new offerings to meet evolving needs. These included the launch of new funds, including the SBI Emergent India Fund in GIFT City, and the expansion of our Alternate Investment portfolio. As we look ahead, we remain focused on making investing more accessible and fostering broader participation across the country.

One of the key milestones this year was the launch of the Jan Nivesh SIP facility, which allows daily investments starting at just ₹250 through our digital platforms and fintech partners. This initiative enhances accessibility and supports our goal of promoting inclusive investing across the country. As part of our broader digital strategy, we also strengthened our technology platforms. Enhancements to the invesTap and Darpan apps have simplified transactions across asset classes, providing a more seamless and convenient experience.

Looking ahead, we remain committed to innovation, reach, and service excellence. Our focus areas include expanding our product offerings, growing our distribution network, and enhancing our digital infrastructure. We remain committed to sustainable growth, customer-focused solutions, and service excellence, irrespective of the challenges that may lie ahead.

Warm regards,

Nand Kishore
Managing Director & CEO

TRUSTEE REPORT

REPORT OF THE BOARD OF DIRECTORS OF SBI MUTUAL FUND TRUSTEE COMPANY PRIVATE LIMITED FOR THE YEAR 2024-25

The Directors of SBI Mutual Fund Trustee Company Private Limited are pleased to present the Audited Accounts in respect of the schemes of SBI Mutual Fund for the year ended March 31, 2025. The scheme-wise financial statements for the year 2024-25, are enclosed with the report of the auditors. The significant accounting policies through which the financial statements of the schemes are drawn and the explanatory notes to accounts of each of the schemes are also attached. The financial statements have been prepared as per the SEBI (Mutual Fund) Regulations 1996, in the manner required and exhibit a true and fair view of the operating results.

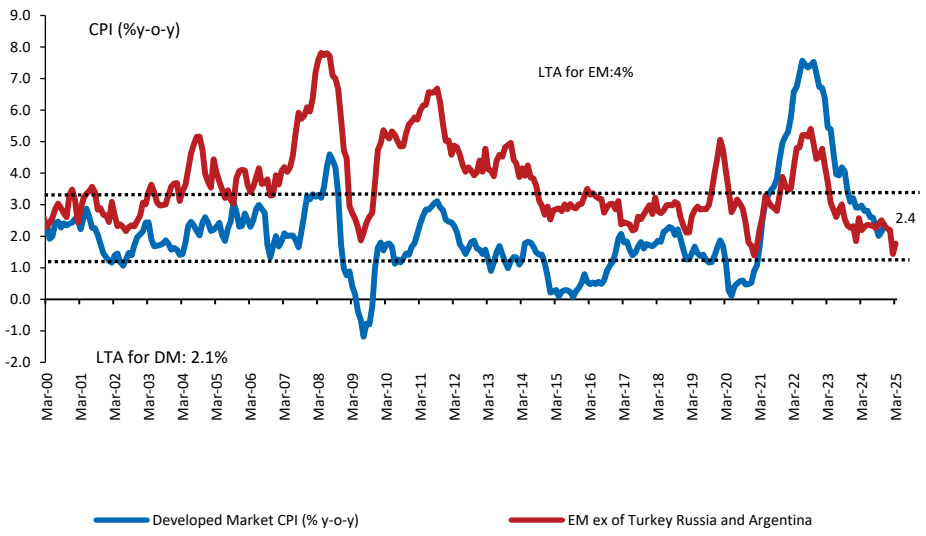
MARKET ENVIRONMENT

Global Macro

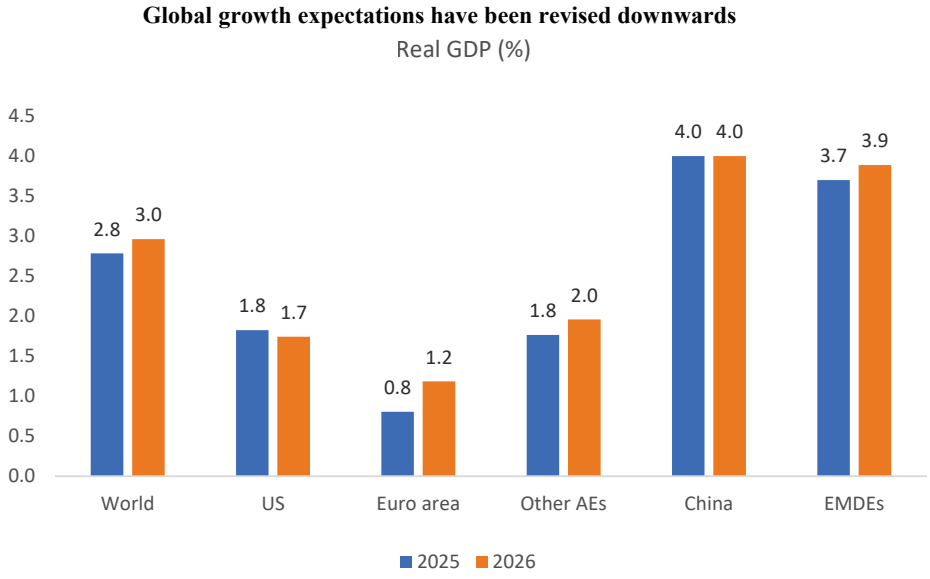
Last year was a balancing act for global central banks as they tried to keep inflation in check while supporting economic growth. Some took a softer approach and cut rates, while others held firm on their tight policies. The Federal Reserve and European Central Bank cautiously lowered rates to counter slowing growth, whereas the Bank of Japan finally moved away from its ultra-loose stance, inching rates upward.

Inflation has eased in many parts of the world, but it's still keeping policymakers on their toes. Barring a few exceptions, such as Turkey, Russia and Argentina, Emerging market inflation is in line with long term trends, and rather well behaved. That said, climate change and rising volatility in global food supply and prices are a perennial risk for EM economies. Global growth in 2024 landed at a modest 3.3%, with advanced economies slowing down while emerging markets showed impressive resilience. Governments worldwide are now walking the tightrope—trying to foster economic growth without letting already high debt levels spiral out of control.

EM inflation is better behaved



Global growth expectations have been revised downwards



Source: IMF World Economic Outlook Apr 2025, Bloomberg, SBIFM Research

Now, as we enter FY2025, global trade tensions are heating up with the unwinding of "Trump Trades." The U.S. has imposed arbitrary tariffs on all its trading partners, stirring uncertainty in supply chains and shaking up business confidence. In the near term, markets are laser-focused on growth concerns, and further retaliatory measures from other nations against U.S. exports could be on the horizon. If these tensions persist, inflation risks and even stagflation could become real headaches for developed-market central banks, severely limiting their policy options. Altogether, the shifting global trade landscape and tariff conflicts are expected to put a serious dent in global economic growth.

Indian Macro

In India, the economy showed signs of a moderate slowdown with real GDP expected for FY25 to be at 6.5%. The growth was dragged down by slowdown in spending around the general elections and relatively higher than typical weather anomalies in 2024 which derailed construction activity. Inflation softened while exports growth improved leading to a rise in India's share in world exports in 2024.

India's Real GDP growth rose to 6.2% y-o-y in Q3 FY25, a recovery from 5.6% in Q2. However, the details were mixed. The uptick was led by consumption spending and a contraction in imports, while fixed investment growth slowed further. Consumption most likely received a boost from festive demand and improved rural activity. Investment has been lackluster likely because lift-up in government spending started only from December. Private capex momentum has also moderated in recent months.

Q3 FY25 real GDP growth at 6.2% vs. 5.6% in Q2 FY25

	% Share in GDP (5Yr avg)	% y-o-y						% y-o-y

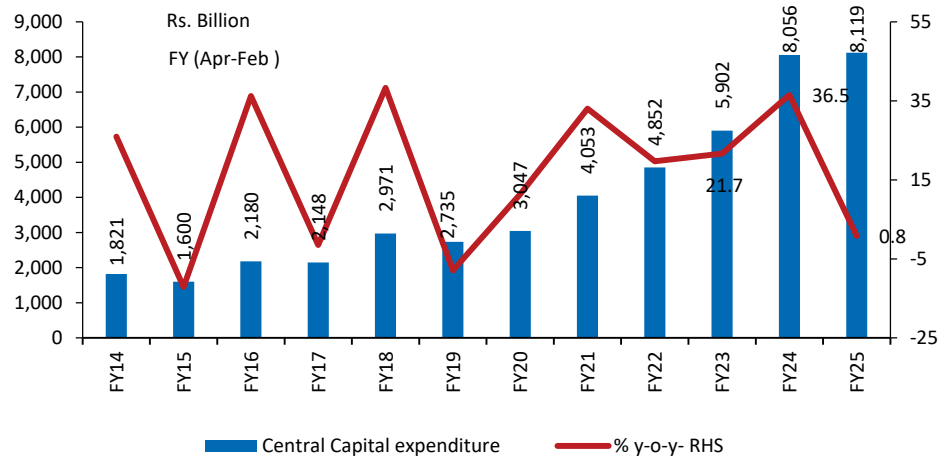
Source: CMIE Economic Outlook, SBIFM Research; NB: Change in Stock turned from negative to positive in FY22

As we move into FY 2026, easing credit supply to households, a likely improved agri income, some positive effects from personal income tax reduction, resumption of real estate and infra construction activity translating into better construction jobs, and contained inflationary pressures are expected to lead to a modest revival in consumption demand. One common argument for a better Indian economic growth in FY26 is placed around monetary easing (both rates, liquidity and regulatory) and that should help in revival of credit led growth. However, downside risks from external events could emerge that may keep growth outlook below potential, warranting policy support.

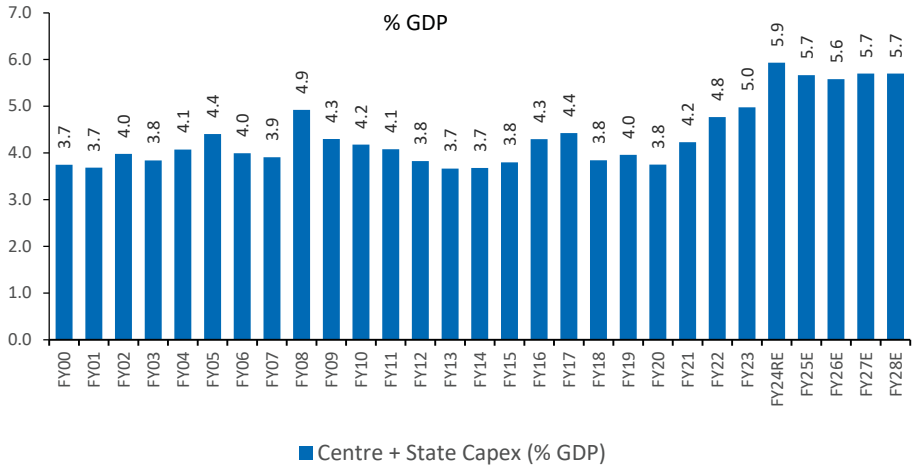
India's business environment in FY 2025 shows strong supply-side resilience with rising order inflows, improving coal output, cement production, and steel demand, but weak movement of goods signals subdued consumption. Despite recovering capital goods production and imports, business sentiment has moderated, and global tariff uncertainties threaten future investment cycles.

Central government expenditure declined 18% y-o-y in Feb- thereby turning out to be one more indicator to point at weakness in economic activity. FY25 fiscal deficit could be 4.7% of GDP vs. RE of 4.8% of GDP and BE of 4.9%, largely attributed to low realization in the capex target.

Central government expenditure declined 18% y-o-y in Feb 2025

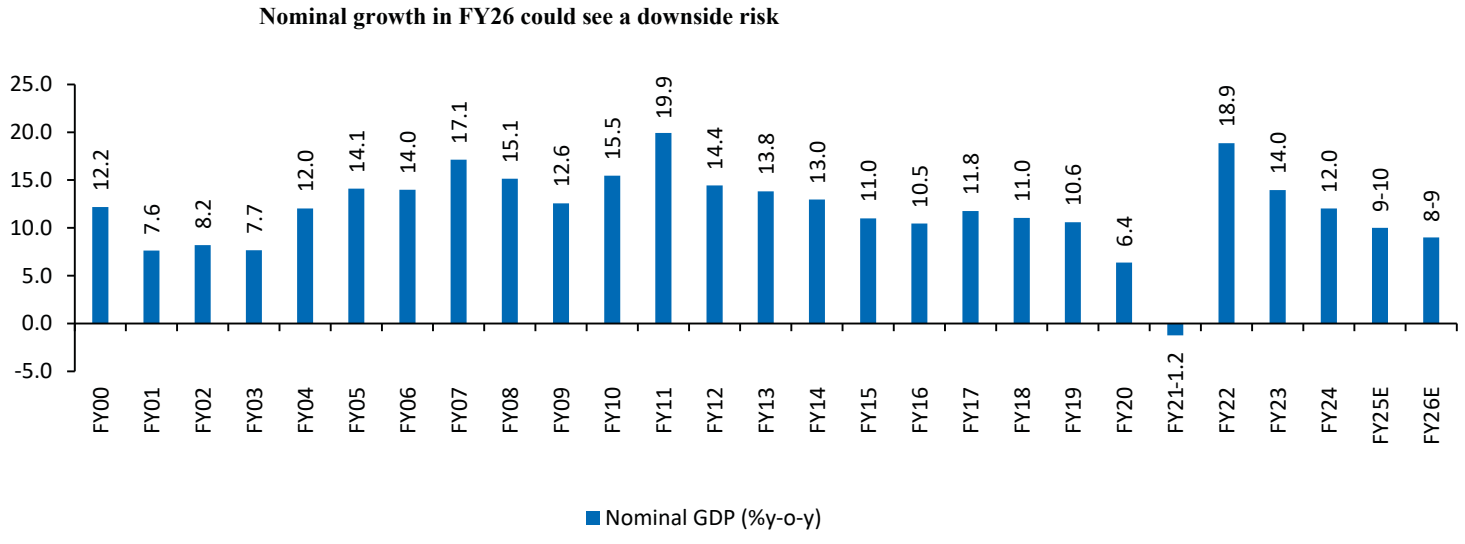


Government infrastructure thrust is plateauing



Source: RBI, CMIE Economic Outlook, SBIFM Research

While the government capex thrust would have plateaued, the order pipeline for corporates still appears to be healthy. The first half of FY26 will likely reflect a base effect due to lower government spending. As a result, growth will likely play a more prominent role in shaping monetary policy decisions for 2025. As a base case one should expect monetary conditions (rates, liquidity and regulations) to get growth supportive in FY26. Global growth backdrop also warrants policy support to growth. Nominal growth in FY26 is expected to moderate to 8-9% from 9-10% in FY25.



Source: CMIE Economic Outlook, SBIFM Research

India's retail inflation outlook looks sanguine. Two years of vegetable price rise would provide a strong favourable base. And it isn't like consumer demand is overheating, thus the core would stay under control (a modest rise built in estimates). No material rise in transportation cost is also a big help. Thus, India's retail inflation outlook creates an enabling environment to take growth supportive measures. We expect CPI to average under 4% in FY26.

On external account front, a dichotomy has emerged. The current account deficit remains modest (aided by healthy services exports, contained crude priced and a healthy flow of remittances), but capital inflows have fallen considerably. One of the most adverse developments for India is sharp fall in net FDI inflow and hence a deterioration of basic balance.

Overall, we believe rural consumption and higher government spending will lift GDP growth slightly over the next two quarters. In the last two years, fiscal policy was focused on consolidation, and monetary policy was centred on inflation and financial stability, while growth has taken a backseat. Both monetary and fiscal policy has increased their focus on growth.

RBI has initiated rate cutting, taking measures to support liquidity, easing regulatory restrictions on credit. On the fiscal side, while there is a continued fiscal consolidation, a better realization of spending targets vs. FY25 could be growth accretive. Between consumption and investment, investment could be a likely out-performer in FY26.

THE YEAR THAT WAS

The Indian Mutual Fund (MF) Industry witnessed a decent annual growth of 24.55%* in the Quarterly AAUM (Average Assets Under Management) during the year on the back of net inflows of assets.

Particulars (MF Industry)	**Reporting Year 2024-25**	**Previous Year 2023-24**
Total Assets mobilized (₹ in Crore)	1,37,03,351	1,14,28,216

MUTUAL FUND INDUSTRY – REGULATORY DEVELOPMENTS

During the year under review, the following key SEBI regulations, guidelines were announced for the Mutual Fund Industry.

1. SEBI allowed appointment of a dedicated fund manager to be optional in case of Commodity based funds such as Gold ETFs, Silver ETFs and other funds participating in commodities market and for making investment in overseas securities. However, the person appointed as fund manager of such funds should have adequate expertise and experience to manage investments in commodities market and in overseas securities.

2. Considering the increasing reach of digital technology, electronic mode now being the preferred mode of communication and as a green initiative measure and to streamline the regulatory guidelines on mode of dispatch of account statements, SEBI has decided to revisit the regulatory provisions and provide for email as default mode of dispatch for Consolidated Account Statement (CAS) by Depositories, Mutual Fund –Registrar and Transfer Agents (MF-RTAs) and holding statement by Depositories Participant (DP).

3. It was decided to streamline the extant prudential norm applicable to investments by passively managed Mutual Fund schemes in the group companies of their sponsors. Accordingly, the MF Regulations have been amended vide notification dated July 02, 2024, where in SEBI has relaxed the provisions restricting the MFs to make any investment in the listed securities of group companies of the sponsor which is in excess of 25 per cent of the net assets of the scheme, except for investments by equity oriented exchange traded funds (ETFs) and Index Funds and subject to such conditions as may be specified by SEBI.

4. SEBI during the year had issued a circular regarding SEBI (Prohibition of Insider Trading) Regulations, 2022, effective from November 1, 2024. In accordance with the revised regulations, the definition of "securities" has been expanded to encompass units of mutual funds, thereby bringing them within the scope of these regulations. Additionally, the amendments widens the definition for "connected person," mandate the maintenance of Unpublished Price Sensitive Information (UPSI) in a Structured Digital Database, and outline requirements for approvals and reporting mechanisms.

5. In order to address instances of market abuse including front running and fraudulent transactions in securities, SEBI issued guidelines for AMCs to put in place an institutional mechanism for identification and deterrence of potential market abuse including front-running and fraudulent transactions in securities. This mechanism shall consist of enhanced surveillance systems, internal control procedures, and escalation processes such that the overall mechanism is able to identify, monitor and address specific types of misconduct, including front running, insider trading, misuse of sensitive information, etc

6. In order to strengthen the cybersecurity measures in Indian securities market, and to ensure adequate cyber resiliency against cybersecurity incidents/ attacks, Cybersecurity and Cyber Resilience Framework (CSCRF) for SEBI Registered Entities (Res) has been formulated by SEBI. The CSCRF aims to provide standards and guidelines for strengthening cyber resilience and maintaining robust cybersecurity of SEBI REs. This framework shall supersede existing SEBI cybersecurity circulars/ guidelines/ advisories/ letters.

7. SEBI issued circular on flexibility in participation of Mutual Funds in Credit Default Swaps (CDS). In view of the above, it has been decided to allow greater flexibility to Mutual Funds to both buy and sell CDS with adequate risk management. Such flexibility to participate in CDS shall serve as an additional investment product for Mutual Funds and also aid in increasing liquidity in the corporate bond market.

8. SEBI has issued comprehensive 'Guidelines for the Internal Audit of Mutual Funds' aimed at strengthening governance and oversight within the mutual fund industry. These guidelines specifically address key areas, including the defined scope of the internal audit, the frequency with which audits must be conducted. Furthermore, the guidelines emphasize the independence of internal auditors to ensure objectivity and integrity in the audit process, and mandate the rotation of internal auditors to prevent familiarity risks and enhance audit effectiveness.

9. SEBI issued Circular on Disclosure of expenses, half yearly returns, yield and risk-o-meter of schemes of Mutual Funds. It specified that Disclosure of total recurring expenses should be provided separately for regular & direct plans apart from disclosure of total recurring expenses of the scheme in the half yearly financial statements for MF schemes.

10. SEBI has introduced regulatory framework for Specialized Investment Fund ('SIF') which is effective from April 01, 2025. It is a new asset class allowing mutual funds to employ advanced investment strategies. The funds can be structured as open-ended, closed-ended, or interval funds.

11. As various aspects of the existing regulatory framework may not be necessary for passive funds, a relaxed regime with light-touch provisions, SEBI has introduced "the MF Lite Framework" only for passive Mutual Fund schemes, with an intent to promote ease of entry, encourage new players, reduce compliance requirements, increase penetration, facilitate investment diversification, increase market liquidity and foster innovation.

12. SEBI introduced Circular on Revise and Revamp Nomination Facilities in the Indian Securities Market. SEBI vide the aforesaid circular revamped nomination and transmission for investors benefit. It has also brought clarity on nomination and transmission processes for Depositories and mutual funds.

13. SEBI issued a circular that mandates the disclosure of Risk-adjusted Return metrics, specifically the Information Ratio (IR), for mutual fund schemes. The goal is to provide investors with more comprehensive and comparable information on mutual fund schemes.

14. During the year, SEBI introduced MITRA (Mutual Fund Investment Tracing and Retrieval Assistant) platform that helps investors to trace inactive and unclaimed mutual fund folios. It allows easy tracking and retrieval of forgotten or unclaimed investments, improving access through a digital system. This service ensures investor protection by making the process efficient and transparent, in line with regulatory standards. The platform addresses issues like dormant accounts, unclaimed funds, and communication failures, helping investors recover their investments.

15. SEBI revised timelines for issuance of Consolidated Account Statement (CAS) by Depositories. The Revised timelines for Issuance of Consolidated Account Statement (CAS) by Depositories circular outlines new timelines for the issuance of CAS to investors.

16. During the year, AMFI introduced a detailed framework on Small Ticket Systematic Investment Plan – "Choti SIP" of Rs 250/- , to make mutual fund investing more accessible, especially for first-time investors to enter the mutual fund space. The Choti SIP will be restricted to three SIPs (one in each AMC). It shall be offered only in Growth option of the plan and under all schemes except for Debt Schemes, Sectoral & Thematic Schemes, Small cap and mid cap schemes.

17. SEBI has introduced new regulations to ensure timely deployment of funds collected by AMC during New Fund Offers (NFOs). AMCs are mandated to deploy the funds raised through NFOs in accordance with the scheme's asset allocation within 30 business days from the date of unit allotment. If the funds cannot be fully deployed within the initial 30 day period, AMCs may seek extension of an additional 30 business days. This extension requires approval from the AMC's Investment Committee, which must document and justify the reasons for the delay.

18. With an objective to facilitate ease of doing business for Mutual Funds, amendments to SEBI (Mutual Funds) Regulations, 1996 ('MF Regulations') were carried out to relax the regulatory framework relating to 'Alignment of interest of the Designated Employees of the AMCs with the interest of the unitholders'

BUSINESS PERFORMANCE OF SBI MUTUAL FUND

SBI Mutual Fund ('SBI MF' / the 'Fund') grew by 17.34% in terms of average AUM on a year-on-year basis in FY 2025. Our average assets under management grew by Rs. 158,584 Crs in absolute terms during the year. SBI MF further consolidated its leadership position is fifth straight year and top rank in the industry in terms of the average AUM during the year.

Profit after Tax (PAT) of SBIFM has increased from Rs. 2,063 Crs in FY 2024 to Rs. 2,531 Crs in FY 2025, an absolute growth of 23%.

SBI MF was the first mutual fund house to cross an Asset Under Management (AUM) of Rs. 10 Lakh Crs further cementing our leadership position. We have also added more than 62 Lakh new investors in this financial year.

The Company was managing the following Mutual Fund assets during the year:

Particulars	**Reporting Year 2024-25**	**Previous Year 2023-24**
Total Assets mobilized (₹ in crore)	26,75,639	24,11,449
Total Redemptions/ Repurchases (₹ in crore)	26,01,775	23,76,374
Net Inflows (₹ in crore)	73,864	35,075
Quarterly (Q4) Average AUM* (₹ in crore)	10,72,949	914,365
Average AUM Rank	1st	1st
Monthly SIP Value (₹ in crore)	3,812	3,007
Live SIPs (number in lakhs)	148.86	116.70
Fresh SIPs during the year (number in lakhs)	87.93	55.46

**Source-AMFI*

SBIFM continued to be the largest ETF Asset Manager in India, with QAAUM of ₹ 3,07,555 Crore.

SBI Mutual Fund launched twelve open-ended New Fund Offers (NFOs) during the year which include four ETF funds and one Fund of Funds. The total NFO mobilization was Rs. 18,420 crores from more than 10.74 Lakh applicants. Our NFO's namely SBI Innovative Opportunities Fund mobilized Rs. 7,646 Crore; SBI Automotive Opportunities Fund mobilized Rs. 5,598 Crores; and SBI Quant Fund mobilized Rs. 3,517 Crores.

SBI Mutual Fund – Schemes Performance: As on March 31, 2025, under the one-year return category:

1. 63% of our equity funds, 30% of debt funds were in the top two quartiles.
2. Our equity funds namely SBI Focused Equity Fund, SBI Blue Chip Fund, SBI Multicap Fund, SBI Banking and Financial Services Fund, SBI Technology Opportunities Fund, SBI PSU Fund, SBI Equity Hybrid Fund, SBI Magnum Children's Benefit Fund - Investment Plan were in the top quartile.
3. In the fixed income category, SBI Magnum Children Benefit Fund- savings was in the first quartile.

We have products available across all the open-ended SEBI defined categories, we may launch new funds across differentiated themes as well as under the passive categories.

Systematic Investment Plans (SIPs) have played a key role in the growth of mutual fund industry, ensuring stickiness and building long term relationships. The monthly SIP trigger of SBI MF showed a growth of 27% year-on-year.

The concept of Net Promoter Score (NPS) which was introduced in FY23 to gauge customer experience has seen an overall positive trend which results in positive brand perception and potential business growth.

Apart from the mutual fund activity, the business parameters of the Portfolio Management / Advisory services (including Retail PMS), Alternate Investment Funds, Off-shore Fund, Corporate Debt Market Development Fund (CDMDF) and SBI Investment Opportunities Fund (IFSC) based in Gift City Gujarat were as under:

(₹ in Crore)

Particulars	Reporting Year 2024-25	Previous Year 2023-24
Portfolio Management/Advisory Services (including Retail business)	15,50,963	13,62,421
Alternate Investment Fund	633	387
SBI Resurgent India Opportunities Fund (Off- Shore Fund)	584	519
Corporate Debt Market Development Fund (CDMDF)	4,424	3,510
SBI Investment Opportunities Fund (IFSC) based in Gift City Gujarat	65	51

Overall, along with the growth in the business volume, the Company was managing total assets of about ₹ 26,19,8706 Crores as on March 31, 2025 (₹ 22,84,806 Crores as on March 31, 2024).

DISTRIBUTION NETWORK

The Company works with a diverse set of distribution partners and currently has about 122,000 empanelled distributors which include mutual fund distributors, national distributors, banks (nationalized and private sector banks), investment advisers and fintech firms. During the year, we had a presence in 293 locations spread all over India with 1 overseas Point of Presence in Dubai.

DIGITAL INITIATIVES

Out Reach

- We engaged with 80 Lakh + Investors through our campaigns via email, whatsapp and app notifications.
- InvesTap – A total of 30 Lakh distinct users logged in to the app during the year. The app is now rated 4.5 + on both android and iOS store, the best in the Mutual Fund Industry.
- Website – A total of 47 lakh users visited the website during the year and 10 Lakh distinct users logged in to website app during the year.
- Partner App & Portal – 47,000 distributors engaged with the app during the whole year. This is over 52% of the distributor community

JanNivesh SIP

- Rolled out the JanNivesh Facility across the following platforms

  YONO – Curated Journey for customers using the YONO app.
- SBI MF Website & InvesTap

B2C New Feature launches

The following assets were launched / Upgraded this year:

- New Portal for institutional investors
- New Smart Statement
- 15+ New reports were added in the admin module to support the call center and other support staff at the branches.
- CDMDF Dislocation Management portal for Asset Management companies was introduced.
- Gift Portal for enabling investments for Minors
- New Payment Mode Launches – launched UPI services via a new Payment Gateway for improved user experience and to reduce dependency on a single payment gateway provider. This feature improved the monthly success rate of UPI payments by 15%.
- Extended mandate registration facility for NRI investors and Minors, and introduced a facility to utilise PAN based mandates registered through CAMS
- Introduced voice based search on InvesTap.
- Introduced the quick buy widget for third parties, to facilitate transaction fulfillment on any digital platform. This has been recently introduced on value research and money control.
- Built the tax estimation engine for redemptions – This gives an estimate of the taxes that may be applicable at the time of redemption. This also calculates the tax due on the redemptions done during the year.
- Introduced Goal Based SIPs to tag financial goals to SIPs. And introduced a new section for managing SIPs on the website.

- Accelerated Investment Journeys - Enhanced Quick Buy Journey on website and app to reduce the time taken to transact from over 2 minutes to under a minute. This reduced the cart abandonment rate by 20%.
- Enhanced the security of the login process
- Introduced new modes of STP – Swing, Flexi and CA STP
- Streamlined chatbot journeys for keywords to promote NFOs and other funds in focus, this increased the contribution of the chatbot by 4X.
- Modified the back-end processes for managing transactions effectively and reducing dependency on third parties like CAMS, Payment service providers.
- Developed various customized journeys to upsell to investors.
- Upgraded Smart Statement for improved insights and user experience.
- Upgraded the website dashboard which now loads in 2 seconds (CUG)
- Improved the document management process to reduce manual effort involved in managing regulatory compliance
- Enhanced the ETF website, to facilitate faster transactions and monitor iNAVs.

B2B Partner Facing Assets

- Integrated Mitra – YONO – to facilitate end to end digital investments, which are compliant with SEBI and RBI guidelines. This was also introduced for RRB banks as well.
- Built various features to increase distributor engagement on partner platforms
  - Multilingual Greetings for customers
  - Create custom plans which can be shared with investors
  - Milestone based badges for IFAs
- Introduced advanced analytical tools for distributors, empowering data-driven decision-making with
  - SIP Analysis report
  - Portfolio Analysis
  - Customer One View
  - Easy link usage stats
- Introduced new modes of STP – Swing, Flexi and CA STP. Along with a facility to register an STP with every fresh purchase.

FUTURE PLANS

1. **Business Development** – Financial year 2026 is expected to be challenging for the industry. The consolidation we witnessed in the later part of the last financial year is expected to continue in FY26 due to the uncertain global landscape and expected moderation in growth. In these challenging times, we would focus on building investor confidence and also work towards increasing our reach by encouraging individuals at the bottom of the pyramid to start their investment journey with mutual funds. We will also work on strategic initiatives to strengthen GIFT City operations and have our presence in key global jurisdictions. We will work on all these initiatives while keeping investor interest at the core.
2. **New Products** - New product launches on the mutual fund side would be based on the product gaps post analysing the market trends and investor interest. Passives and solution-oriented fund of funds would be the key segments for new products. We will also expand our product suite on the Alternatives segment – both AIF and PMS. We will continue to assess the evolving regulations in GIFT City in the coming year and plan to launch both in-bound and out-bound products suitable for varied investor needs.
3. **Increasing network of branches** – India still has a significant untapped potential for mutual funds to grow, specifically in the remote corners of the country. With a view to increase penetration levels and in line with our Jan Nivesh initiative, we plan to increase our physical presence across the country. We have added 8 branches in FY 25 and plan to increase this to another 100 new branches in the next 3-4 years.
4. **Building Blocks** – Being the market leaders in the mutual fund segment, we believe the next leg of growth for the business would hinge on identifying and creating presence in the new and emerging segments of the markets. With this in mind, we have identified Passives, Alternatives, Gift City and Offshore segments as the building blocks for future growth.
5. **Digital** – We will continue to invest in building digital assets that provide investors with the required solutions that simplifies their investment journey and make the investment experience seamless.

1. SCHEME PERFORMANCE & ITS JUSTIFICATION, FUTURE OUTLOOK AND OPERATIONS OF THE SCHEMES 2024-25

A. SCHEME PERFORMANCE & ITS JUSTIFICATION

The details of scheme wise performance as on March 31, 2025 are given in **Annexure-I**.

B. FUTURE OUTLOOK

Equity

The economic activity momentum was sluggish in H2FY25 with public sector capex not seeing the desired pick up after the general election in 1HFY25. Business sentiment has significantly moderated. Corporate capex is expected to grow at a slower pace in FY26, with government infrastructure projects plateauing and global growth risks from tariffs. Trade policy uncertainty may further weigh on trade and global growth. Key indicators like bank credit growth, GST collection, energy demand, and freight activity-- all show moderate growth. Though there are some sector-specific positives such as strong service sector exports and steel sector performance. Positive factors like better agricultural income, personal income tax cut, and resumption in construction activities should support modest consumption revival, with credit growth being the strongest driver if it picks up. In conclusion, a strong demand boost to push India's growth above 7% is currently lacking, which could impact earnings expectations.

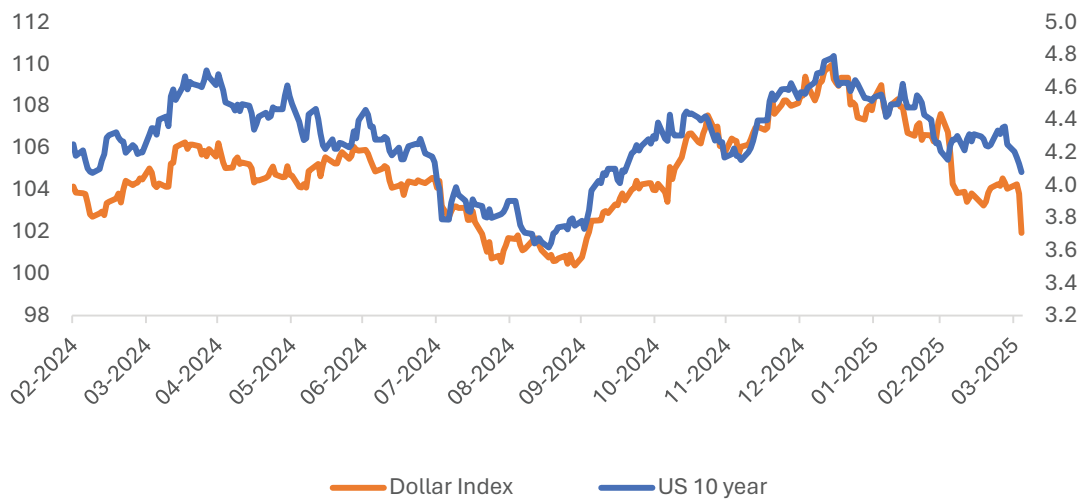
Indian equities exhibited some stability in the month of March after the sharp sell-off of the past few months. The Nifty and the Sensex ended the month with gains of 6.3% and 5.8% respectively even as risks around the much-feared Trump tariff announcements on 2nd April loomed large. The actual tariff announcements were significantly worse than feared. While the increase in tariffs was even sharper for some competing exporting countries in Asia and hence on a relative basis, tariffs on India did not look particularly bad, the absolute number at 27% for most Indian sectors (excluding primarily Pharma and IT services, and Auto which was separately covered in an earlier announcement), was quite steep. There is expectation that some of these tariffs could settle lower with bilateral negotiations between India and the US.

The immediate market reaction was a significant drop in US yields as well the US dollar. This could have helped cushion the initial reaction on global markets relative to the US markets. Emerging market (EM) equities and commodities, the two asset classes that have significantly underperformed the US for nearly one and a half decades, have been amongst the better performing asset classes so far in 2025 even amidst tariff risks. That said, the second order risks from the US tariff action are still significant. For one, US consumer sentiment could plummet and with the inflationary impact of tariffs, it could put the US economy into a recession and potentially stagflation, in turn adversely impacting global economy and financial markets. Global trade coming off is not good news either. In addition, prolonged uncertainty and slower global trade could dent corporate confidence and potentially derail corporate capital expenditure plans.

In this context, Indian equities will likely stay volatile in the foreseeable future. That said, on our asset allocation frameworks, two things have changed over the past few months. First, the price correction on equity indexes such as the Nifty and the Sensex, along with a sharp decline in Indian 10-year bond yields has brought headline index valuations closer to historical averages on our preferred gauge of earnings yield to bond yields spread. Second, the correction has also erased the exuberant readings on our proprietary equity sentiment measure and brought it back to neutral levels. To be sure it is not at a pessimistic extreme yet, nor are valuations outright cheap, but the current neutral readings on both measures and likely continued market turbulence may provide much saner entry levels for long term investors versus six months ago.

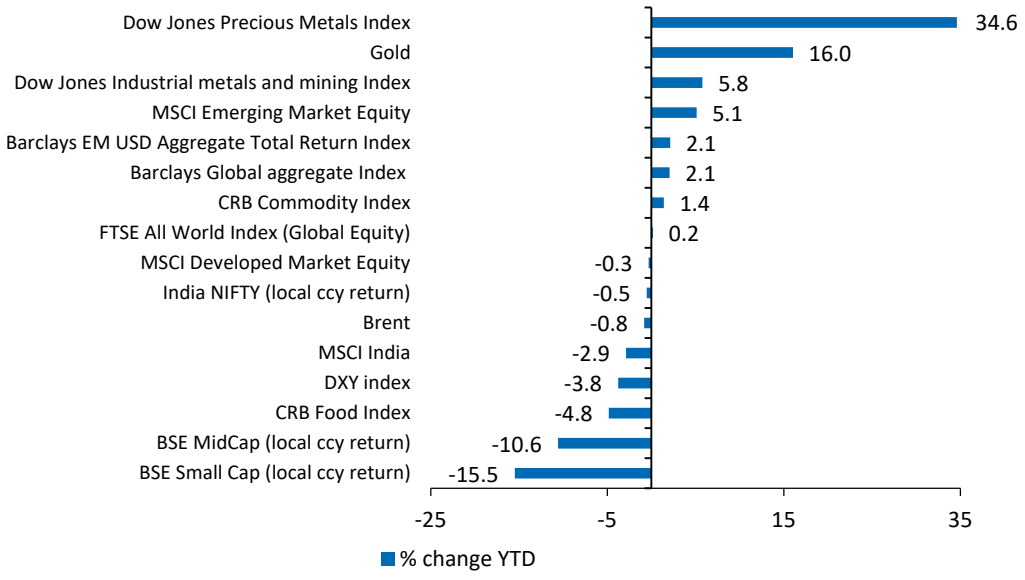
However, in view of heightened macro uncertainties and potential growth slowdown, we continue to advocate equity exposure through quality businesses, i.e. companies with strong business models, long-term earnings growth visibility, and sustainable cashflows.

US bond yields and US dollar continue to retreat



Source: SBIFM research, Bloomberg

Commodities and EM Equities have outperformed CYTD even amidst tariff uncertainties



Source: SBIFM research, Bloomberg. Data till March end.

Large cap valuations, on earnings yield to bond yield spread, moderate

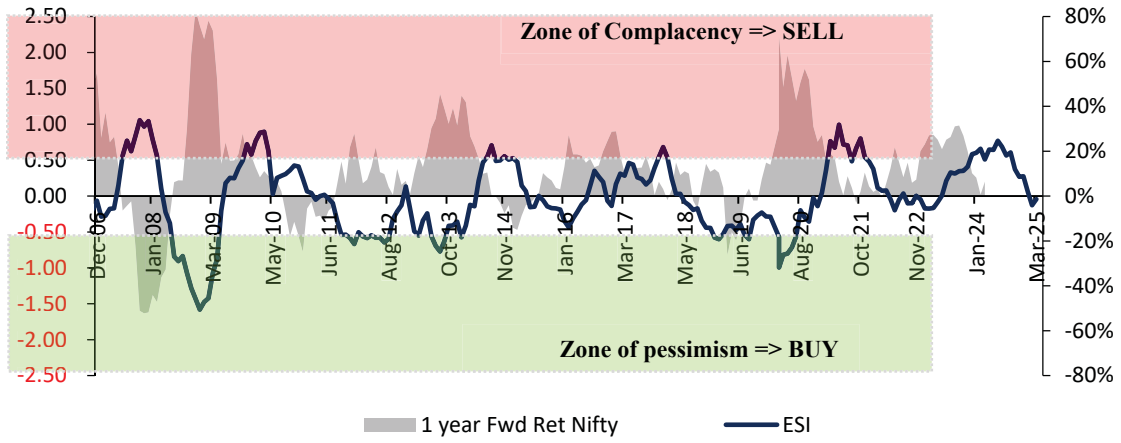
Equity market sentiment dips below zero for the first time in nearly two years



Source: Bloomberg, FactSet, SBIFM Research; Note: ESI stands for Equity Sentiment Index, our proprietary equity market sentiment measure.

Prefer Quality amidst the uncertainty

Source: FactSet, SBIFM Research. Returns are the difference in rolling 3-year CAGR returns of the average of top 2 quintiles on the two styles. The classification into quintiles is based on SBIFM's definition of the respective style/factor. A falling line indicates Quality's performance improving versus Value and vice versa.

Fixed Income

Over the last half of the fiscal, financial markets globally witnessed significant volatility and repricing with the first half witnessing optimism surrounding US exceptionalism and subsequent unwinding of the same over the last few months. RBI policy stance significantly shifted over the period as policy rates and stance evolved in line with the domestic growth- inflation matrix.

The relevance of forceful liquidity actions that supplement monetary policy action was reinforced over the last quarter in the domestic bond markets. Seasonality in supply pressure and liquidity flows were broadly neutralized as the combination of frictional and durable liquidity infusion measures led to a material softening in market yields as well as some tightening in spreads.

The initial impact of the RBI rate cut in February was muted as the central bank provided no guidance on liquidity actions. Subsequently the RBI scaled up the quantum of liquidity infusion through both durable and frictional measures including daily repo auctions. The impact of liquidity actions, with a cumulative durable liquidity injection of Rs 8.9 trillion (Including the additional Rs 800 bn OMO for April and the longer VRRR) since Dec 24 has clearly led to better transmission and would continue to be relevant going forward.

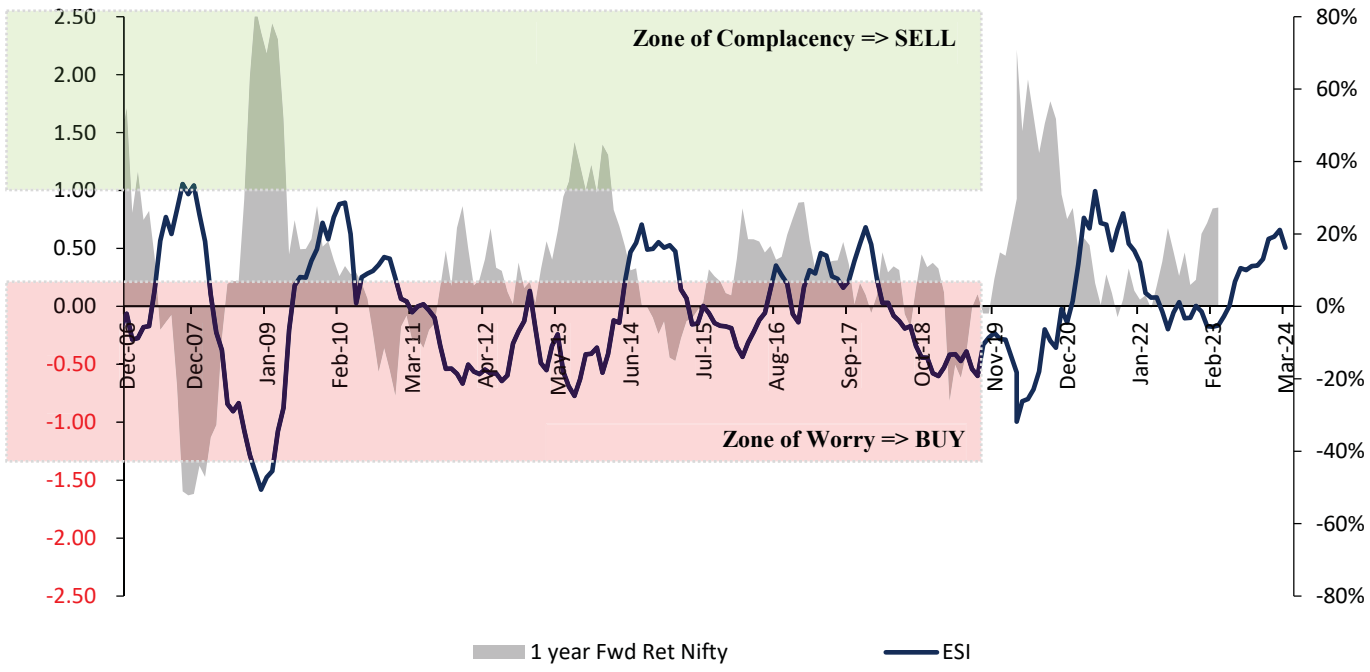
The RBI is widely expected to ease policy rates further in the upcoming review in April. With a policy rate setting at 6% and directional view on positive durable liquidity in the system, the recent transmission into market interest rates is expected to be sustained. At the same time, given that the neutral stance was linked to external uncertainties, there may possibly be no change in the stance as possibly being anticipated. Notwithstanding the same, incremental RBI actions have clearly been toward aligning system rates lower in line with the prevailing monetary policy signalling rate. Even as the terminal rate debates could keep emerging with varying estimates of additional easing, we anticipate that the cumulative easing will remain shallow. At the same time, the possible growth impact can and would most likely be managed through surplus overall liquidity. This would effectively result in periods where the effective overnight rate settings stay a bit below the Policy repo rate.

Equity sentiment index suggests heightened complacency



Source: Bloomberg, FactSet, SBIFM Research; Note: ESI stands for Equity Sentiment Index

Our equity sentiment measure has dipped slightly during the month, however, remaining high, reflecting complacency in the markets. Equity Sentiment as measured through our proprietary framework is a score considering a total of 14 sub factors covering various aspects of markets to arrive at a measure of market sentiment. The sentiment index works as a contrarian measure and has an inverse correlation to expected forward returns, especially at extremes.

C. OPERATIONS OF THE SCHEMES

During the year SBIMF Operations managed 129 Schemes of which 24 open ended equity schemes, 16 debt schemes, 6 hybrid schemes and 37 solution oriented and others. Fund house also managed 2 domestic fund of fund, 1 overseas fund and 1 overseas fund of fund.

The fund house also managed 42 close ended schemes of which 3 matured during the year.

SBI Mutual Fund continues to hold certain securities which were sold by it, but these have not yet been transferred by the buyers under their names. These securities do not belong to SBIMF but are held on behalf of the unknown buyers and not as Owners/Investors. Such securities are transferred to the buyers against claims after establishing the genuineness of the claim. The market value of such securities as on March 31, 2025 is ₹ 62.76 crore.

2. BRIEF BACKGROUND OF SPONSORS, TRUST, TRUSTEE CO. AND AMC CO.

A. State Bank of India

SBI Mutual Fund is sponsored by State Bank of India, one of the largest public sector banks in India. The Sponsor is the Settlor of the Mutual Fund Trust. The Sponsor has entrusted a sum of ₹ 5 Lakh to the Trustee as the initial contribution towards the corpus of the Mutual Fund.

The State Bank of India 'SBI' having its Corporate Office at State Bank Bhavan, Madame Cama Road, Mumbai - 400 021, is the largest public sector bank with 22937 branches in India and 244 foreign offices spread over 29 countries, the largest overseas network among all Indian banks.

SBI also has non-banking subsidiaries in India. State Bank of India holds 61.98% stake in SBI Funds Management Limited.

Financial Performance of the SBI (Sponsor) {past three years}:

Particulars	**2025**	**2024**	**2023**
Net Worth (₹ Cr.) (Paid up Capital and Reserves & Surplus)	3,89,071	3,24,715	2,76,563
Total Income (₹ Cr.)	5,24,172	4,66,813	3,68,719
Net Profit (₹ Cr.)	70,901	61,077	50,232

B. SBI Mutual Fund

SBI Mutual Fund (SBIMF) was set up as a Trust by the settlor, State Bank of India on June 29, 1987 with SBI Mutual Fund Trustee Company Private Limited (The Trustee Company) as a Trustee in accordance with the provisions of the Indian Trust Act, 1882 and is duly registered under the Registration Act, 1908. SBIMF was registered with SEBI on December 23, 1993 under Registration Code MF-009/93/3. The Trustee Company has entered into an Investment Management Agreement (IMA) dated May 14, 1993 appointing SBI Funds Management Limited (the AMC) to function as the Investment Manager for all the Schemes of SBI MF and thereafter executed a supplemental IMA on April 28, 2003 which was replaced by Restated and Amended Investment Management Agreement dated December 29, 2004. The same has been further replaced by the Restated and Amended Investment Management Agreement dated March 12, 2024.

C. SBI Mutual Fund Trustee Company Private Limited

The Trustee is the exclusive owner of the Trust Fund and holds the same in trust for the benefit of the unit holders. SBIMFTCPL is the Trustee to SBIMF vide the Restated and Amended Trust Deed dated December 29, 2004, to supervise the activities of the Fund. The Trustee has been discharging its duties and carrying out the responsibilities as provided in the SEBI Regulations and the Trust Deed.

The Trustee seeks to ensure that the Fund and the Schemes floated there under are managed by the AMC in accordance with the Trust Deed, Regulations, directions and guidelines issued by the SEBI, the Stock Exchanges, the Association of Mutual Funds in India and other regulatory agencies.

D. SBI Funds Management Limited

'SBI Funds Management Limited (SBIFML)' (previously known as SBI Funds Management Private Limited) was incorporated under the Companies Act, 1956 on February 7, 1992 as a private limited company, having its Registered Office at 9th Floor, Crescenzo, C-38 & 39, G Block, Bandra-Kurla Complex, Bandra (East), Mumbai – 400051. SBIFML was converted to public limited company on December 16, 2021. SBIFML has been appointed as the Asset Management Company of the SBI Mutual Fund by the Trustee vide Investment Management Agreement (IMA) dated May 14, 1993 and also a supplemental IMA thereto on April 28, 2003 and the same have been replaced by Restated and Amended Investment Management Agreement entered into between SBI Mutual Fund Trustee Company Private Limited (SBIMFTCPL) and SBIFML on December 29, 2004. The same has been further replaced by the Restated and Amended Investment Management Agreement dated March 12, 2024 entered into between SBIMFTCPL and SBIFML.

The net worth of the Company has increased to ₹ 8,28,227 lakh on a standalone basis as at the end of March 31, 2025 from ₹ 6,75,690 lakh as at the end of previous year. SBIFML is a joint venture between State Bank of India (SBI) and AMUNDI Asset Management (erstwhile Amundi S.A.), a leading European asset management company. A shareholder agreement in this regard has been entered on April 13, 2011 between SBI & AMUNDI Asset Management. Accordingly, SBI currently holds 61.98 % stake in SBIFML and the 36.40 % stake is held by AMUNDI Asset Management through a wholly owned subsidiary Amundi India Holding. Initially this holding of Amundi Asset Management was held by Societe Generale Asset Management S.A. ("SGAM"), a subsidiary of Societe Generale S.A ("SG") which was transferred to Amundi Asset Management in June 2011 with due approval of SEBI pursuant to SEBI (Mutual Funds) Regulations, 1996. AMUNDI Asset Management shall provide strategic support to the Company. SBI & AMUNDI Asset Management shall jointly develop the Company as an asset management company of international repute by adopting global best practices and maintaining international standards.

In terms of Investment Management Agreement, SBIFML has assumed the day to day investment management of the fund and in that capacity makes investment decisions and manages the SBI Mutual Fund schemes in accordance with the scheme objectives, Trust Deed, provisions of Investment Management Agreement and SEBI Regulations & Guidelines.

In addition to the investment management activity, SBI Funds Management Limited has also been granted a certificate of registration by SEBI as a Portfolio Manager with Registration Code INP000000852 under the erstwhile SEBI (Portfolio Managers) Regulations, 1993 subsequently replaced by SEBI (Portfolio Managers) Regulations, 2020.

Apart from this SBI Funds Management Limited has received an 'In-principle' approval from SEBI for SBI Resurgent India Opportunities Fund (Offshore Fund) vide letter no. IMD/RK/53940/2005 dated November 16, 2005.

SBI Funds Management Limited is also acting as Investment Manager of SBI Alternative Equity Fund which is registered with SEBI vide SEBI Registration number: IN/AIF3/15-16/0177, as a category III Alternative Investment Fund and SBI Alternative Debt Fund which is registered with SEBI vide Registration number: IN/AIF2/18-19/0563 as a category II Alternative Investment Fund under SEBI (Alternative Investment Funds) Regulations, 2012. Further, Corporate Debt Market Development Fund (CDMDF) is registered with SEBI as an AIF under AIF regulations vide registration number IN/AIFC/23-24/1317. SBI Funds Management Limited is the Investment Manager and Sponsor of CDMDF.

SEBI vide letter no. SEBI/HO/IMD-I1/IMD-II_DOF10/P/OW/2023/9253/1 dated March 3, 2023 had granted No Objection Certificate (NOC) to AMC in respect of additional business activity that can be carried out by the AMC in IFSC-GIFT City through its IFSC Branch. Accordingly, the AMC had set up its IFSC Branch for carrying out Fund Management activities at IFSC-GIFT City. International Financial Services Centres Authority (IFSCA) had granted certificate of registration dated November 28, 2022 to SBI Funds Management Limited (IFSC Branch) to carry out activities as a Fund Management Entity (Retail) under the IFSCA (Fund Management) Regulations, 2022. The registration number is IFSCA / FME/ III/ 2022-23/010.

Subsequently, SEBI has granted no objection vide letter no. SEBI/HO/IMD/IMD-RAC-1/OW/2023/36315/1 dated September 04, 2023 under Regulations 24(b) of SEBI (Mutual Funds) Regulations, 1996 to AMC for setting up wholly owned subsidiary company in IFSC-GIFT City. The AMC has incorporated a wholly owned subsidiary company in IFSC-GIFT City, viz. SBI Funds International (IFSC) Limited on February 07, 2024.

IFSCA has issued the Certificate of Registration dated June 27, 2024 bearing the same registration no. IFSCA / FME/ III/ 2022-23/010 in the name of SBI Funds International (IFSC) Limited. SBI Funds International (IFSC) Ltd. has become operational with effect from August 12, 2024, and is presently acting as Fund Management Entity in Gift city. The existing business of SBI Funds Management Limited (IFSC Branch) has been transferred to SBI Funds International (IFSC) Limited with effect from August 12, 2024. SEZ vide its order dated March 17, 2025 has approved the final exit of SBI Funds Management Limited (IFSC Branch) with effect from August 11, 2024 from SEZ-GIFT City.

The AMC certifies that there would be no conflict of interest between the Asset Management activity and these other activities.

3. INVESTMENT OBJECTIVES, BASIS AND POLICY OF INVESTMENT OF THE SCHEMES

The details of scheme wise investment objectives, basis and policy of investment are given in **Annexure-I**.

4. SIGNIFICANT ACCOUNTING POLICIES

Accounting Policies are in accordance with Securities Exchange Board of India (Mutual Fund) Regulations 1996 and amendments thereto. The Significant Accounting Policies form part of the Notes to the Accounts annexed to the Balance Sheet of the Schemes in the Full Annual Report which is disclosed on our website (www.sbimf.com).

The financial statements have been prepared in accordance with the Indian Accounting Standards (IND AS) and any addendum thereto, as notified by the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time. Further, the accounting policies and standards specified in the Ninth and Eleventh Schedules of SEBI (Mutual Funds) Regulations, 1996 and amendments thereto, as applicable (the "Regulations") are followed for preparation of the financial statement. In case of any conflict between the requirements of IND AS and the MF Regulations and guidelines issued thereunder, the requirements specified under the MF Regulations are followed.

9. INVESTOR EDUCATION

As India sees increasing financialization of assets, mutual funds are increasing in their acceptance. Investor awareness around mutual funds in India holds significant potential, particularly in light of recent market conditions and geopolitical uncertainties. Enhancing financial literacy is crucial for navigating volatility and making informed investment decisions. Regulatory efforts by AMFI and SEBI, along with targeted initiatives from fund houses, aim to improve accessibility and transparency, thereby fostering a resilient investor base. The current economic and market environment underscores the importance of diversified strategies across asset classes, including global investments, which mutual funds can facilitate. In these uncertain times, it is essential to highlight the full potential and versatility of mutual funds, enabling investors to make informed choices aligned with their financial goals.

Some of the major investor awareness activities undertaken by us during the year are mentioned as under:

a) Content development

i. **Articles** – Partnering with Outlook Money, a premier personal finance magazine in India, we launched the **'Mutual Fund Solution Series**.' This initiative educates investors on various mutual fund topics, such as **Hybrid Funds**, **Solution-Oriented Funds**, **Top-Up SIPs**, and **Systematic Transfer Plans**. We tailor this content for online mailers and WhatsApp, ensuring effective reach to both investors and distribution partners.

ii. **Videos** – With over 900 million internet users in India and an average daily smartphone usage of around 5 hours, the demand for digital content is clear. To capitalize on this, we created bite-sized content like **YouTube Shorts**, **Instagram Reels**, and **Infographic videos**. We also launched the podcast series "**Mind Over Money**" to simplify investment concepts for new and seasoned investors. Each episode covers topics like **ELSS, asset allocation, passive investing** and more. These efforts have boosted engagement, resulting in an 81% growth in our subscriber base, especially among youth and digital-savvy audiences.

b) **Social Media** – **Online Marketing & Social Media** – By March 2025, SBI Mutual Fund's social media followers around 1.1 million. We actively engaged Millennials, Gen Z, and DIY investors by enhancing our presence on major digital platforms, including emerging social media channels. We connected with our audience through **topical, interactive, infographic, and carousel posts** focused on **investor education for SIP, ELSS, and Multi Asset Allocation Funds**. Our efforts extended to prominent finance websites and specialized domains, with dedicated landing pages providing a seamless online experience. We introduced new interactive formats such as live online seminars, polls, quizzes, riddles, carousels, crosswords, and podcasts to foster continuous interaction and engagement.

c) **Public & Media Relations**: Our goal is to guide and inform investors through media interactions and articles across various platforms, highlighting the flexibility of mutual funds as an investment solution and establishing thought leadership for our fund house. Our PR efforts focus on engaging with both mainline and regional media, emphasizing key trends, and proactively building our reputation. Articles and podcasts from our Chief Economist and CIO – Fixed Income decode policy and government announcements, while insights from our Managing Director & CEO, Deputy Managing Director & Joint CEO and Investment team provide narratives on asset allocation and long-term investing. Our spokespersons share sector views based on current news to help investors make informed decisions. Additionally, we reach investors nationwide through topical articles in regional languages and media.

d) **Television** – As young people become more financially aware, their investment choices are expanding. **CNBC-TV18's investor awareness show**, **"Let's Talk Money," targets Millennials, Gen Y,** and **Gen Z**, eager to learn about personal finance. We partnered with the show to explore topics such as **Women & Investing, Factor Investing, Global Investing, and Planning Retirement with Mutual Funds.** The format included panel discussions featuring an SBI Mutual Fund spokesperson and an Investment Adviser or Distribution Partner.

e) **Media Campaigns**

i. In today's uncertain and volatile economic and geopolitical landscape, Multi Asset Allocation Funds have become increasingly important. These funds diversify investments across equity, fixed income, gold, and silver, allowing them to perform well in various market conditions. To highlight their benefits, we launched two key campaigns. The first was a **tactical campaign during IPL 2024**, leveraging the massive reach of cricket. We positioned Multi Asset Allocation Funds as an '**All-Rounder'** for portfolios, with ads featured in the sports pages of major English dailies like Times of India and Hindustan Times. The second was a nationwide multi-media campaign with the powerful message, "**Any time is a good time for Multi Asset Allocation Funds**." This extensive campaign spanned print, outdoor ads across 117 cities, TV, radio, online, and cinema, reaching a diverse audience in nine languages. These campaigns effectively showcased the versatility and stability of Multi Asset Allocation Funds, reinforcing that any time is a good time for Multi Asset Allocation Funds.

ii. As Mutual Funds become the ideal investment option for achieving financial goals, it's crucial for investors to keep their personal and investment details updated and error-free for a seamless experience. Our awareness initiative in print newspapers, published in seven languages (English and regional), urged investors to say **'I Do'** by ensuring their information is current to secure their investments and finances.

iii. We wanted to introduce young readers to basic concepts of money, savings, and investments with an aim to develop a solid foundation and a healthy money mindset from an early age. Partnering with Biplob Publications, we developed **'Saving and Investment Stories for Children**,' a series of engaging and educational books. These three books, designed for **ages 3-5, 6-8, and 9-12**, feature colourful illustrations and simple, relatable stories that make financial concepts fun and easy to understand.

iv. Mutual Funds are a versatile investment avenue that can help people from various backgrounds achieve their financial goals, whether it's retirement, a child's aspirations, or a new business venture. Our outdoor campaign, spanning 111 towns including T30 and B30 locations, featured advertisements highlighting different cohorts: a family preparing for their child's aspirations, a family's first business venture, and planning for retirement, all made '**Possible with Mutual Funds'**.

f) The AMC is committed to enhancing financial literacy across India. As of March 31, 2025, we have conducted 160 investor education sessions, reaching over 9,233 participants. Led by trained professionals, these sessions simplify key investment concepts such as mutual funds, financial goal planning, and wealth management. To make learning engaging, we incorporate presentations and video screenings. Our programs are conducted at diverse locations, including educational institutions, SBI branches, military bases, and corporate offices, in both online and offline formats. The positive feedback received highlights the program's impact in fostering financial awareness nationwide.

10. RISK MANAGEMENT

The Company follows an Enterprise Risk approach and has in place a Risk Management Policy duly approved by the Risk Management Committee of the Board and the Board of Directors of the AMC and Trustee Company. The Enterprise Risk control and governance framework, escalation, and monitoring mechanism is outlined in the Policy and is implemented within the Company. We are also cognizant of the external environment and attempt to follow a pro-active approach to risk management. Risk events that have occurred in the asset management/financial services industry are monitored for any possible learnings that can be implemented withing the organisation.

Over the past year, key risks such as Technology, Cyber Security, Talent, Business, Compliance, Liquidity, Credit, Outsourcing, etc. have been closely monitored and tracked at the Board level.

11. INFORMATION SECURITY

The Company has adopted digital strategies to achieve business growth as well as to offer clients a seamless customer experience. A dedicated information security team works towards managing the confidentiality, integrity, and availability of data across organization processes, covering all the people involved and securing all the applications and systems continuously. The IT and cyber security strategies are guided by the Technology Committee of the Board and the Board of Directors serves as the apex governance body. The Company has a continuous view on the emerging threat landscape and continues to invest in robust technology solutions.

Cyber security awareness and training of employees is conducted through various initiatives such as advisories issued by the Info-Sec team, mock phishing campaigns, training on cyber security, etc. Information Security Training is mandatory for all new joiners and every employee undergoes an annual refresher training. We have also enhanced the monitoring over critical vendors and shall continue to monitor the evolving threat landscape in order to adapt our security strategies with emerging threats.

12. LIABILITY AND RESPONSIBILITY OF TRUSTEE AND SETTLOR

The main responsibility of the Trustee is to safeguard the interest of the Unit holders and inter-alia ensure that SBI Funds Management Limited (SBIFM) functions in the interest of the investors and in accordance of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, the provisions of the Trust Deed and the Scheme Information Document of the respective schemes. From the information provided to the Trustee and the reviews the Trustee has undertaken, the Trustee believes SBIFM has operated in the interest of the Unit holders.

The settlor is not responsible or liable for any loss or shortfall resulting from the operation of the Schemes beyond the initial contribution of ₹ 5 lakh made by it towards setting of SBI Mutual Fund.

ACKNOWLEDGEMENT

The Directors take this opportunity to express their gratitude for the continued support and co-operation extended by the State Bank of India, AMUNDI, the Registrars & Transfer Agents, the Custodians, the multiple banks dealing with SBI Mutual Fund both for collections as well as payments, Government Agencies, Auditors, SEBI, AMFI, the Board of Directors of SBI Funds Management Limited, market intermediaries and the large body of investors in various schemes of the Fund.

For and on behalf of the Board of Directors
SBI Mutual Fund Trustee Company Pvt. Ltd.

Date: May 20, 2025

Annexure-I

Scheme Name	**SBI ESG EXCLUSIONARY STRATEGY FUND**
Allotment Date	Jan 01, 1991
Type of scheme	An open-ended Equity Scheme investing in companies following the ESG theme.
Investment Objective	The objective of the scheme is to provide investors with opportunities for long-term growth in capital through an active management of investments in a diversified basket of companies following Environmental, Social and Governance (ESG) criteria using exclusionary strategy. However, there is no assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	SBI ESG Exclusionary Strategy Fund shall follow the following strategy and process for stock selection: Exclusionary/Negative Screening based on adverse impact: The Fund excludes sectors with a negative social connotation like habit forming substances/practices like alcohol, tobacco, gambling and pornography. The fund also excludes controversial weapons that especially include weapons of mass destruction. The strategy will cover the following: i. Characteristic: Social adverse impact ii. Threshold/Conditions for exclusion: The fund shall not invest in companies in the above-mentioned sectors if they derive 5% or more consolidated revenue from such sectors iii. Reference: Ethical or Socially Responsible investors across the world tend to exclude sin stocks, as the companies involved are thought to be making money from exploiting human weaknesses and vices. These exclusions may arise from faith-based preferences, or an organisation's own interpretation of ethics or sustainability. The scheme shall use a blended approach and exclude sectors such as alcohol, tobacco, gambling, pornography, and controversial weapons. The scheme shall also exclude the lowest scoring companies on the empaneled ERP's framework that SBIFM subscribes to, at the time of purchase of the security. Decision-making process for Investing: The Fund will use a SEBI Registered third-party, ESG Ratings Provider for Ratings Reports, and other research to aid the decision-making process. The ESG ratings provider (ERP) follows a sector agnostic framework and provides weightages to environmental, social and governance pillars, with governance having the highest weight in accordance with the importance provided to the factors by the ERP's methodology. Companies are scored on a scale of 1-100, where 100 is the highest. Under "E" and "S" assessment, the final score is a combination of company scores and sector scores. The company scores assess a company's material parameters within the "E" or "S" pillars in relation to its peers within a sector, whereas the sector scores indicate how the sector fares relative to other sectors on "E" or "S" parameters. Controversial incidents invite a negative scoring or deflator on the "E", "S" or "G" pillar scores. The methodology of the ERP is available here: https://www.sbimf.com/docs/default-source/esg-fund-documents/esg_methodology.pdf SBI Funds Management also has a proprietary framework which is sector agnostic in construct but provides guidelines to rate parameters based on relevance to the business. Governance is the most highly weighted pillar as SBI FM believes that well governed companies with strong leadership are able to create environmental and social positive value too. SBI FM's ESG rating framework looks at ESG risks based on business activities and the mitigation measures taken by the company to avoid/reduce the impact. This is complemented by controversy tracking and all three components help in arriving at an ESG score. The Responsible Investment Policy explains the process in detail.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	223.5942	244.5466
	IDCW	69.9279	87.7911
Corpus (₹ in Crs)	291.42	**AAUM (₹ in Crs)**	5,698.33

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(9.5225)	7.9855	10.8158	22.4092	14.2623	N.A.*
Direct Growth (%)	(9.2530)	8.6448	11.5109	23.2557	14.1682	14.3709
Benchmark (%)	(11.2362)	6.0547	10.8641	23.9543		
Benchmark Name	NIFTY 100 ESG INDEX TRI					
Performance Justification (for 1 year period)	The fund is outperforming benchmark in the 1 year period due to stock selection in Financials (OW Kotak, ICICI Bank, Cholamandalam; UW Indusind Bank) and Capital Goods (OW Hitachi Energy). The fund is constructed with a 3–5 year perspective, focussed upon bottom-up research driven ideas which are either leaders on ESG or have shown promise on improving on material ESG issues.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Annexure-I

Scheme Name	**SBI LARGE & MIDCAP FUND**					
Allotment Date	Feb 28, 1993					
Type of scheme	An open ended equity scheme investing in both large cap and mid cap stocks.					
Investment Objective	To provide the investor with the opportunity of long term capital appreciation by investing in diversified portfolio comprising predominantly large cap and mid cap companies.					
Basis and Policy of Investment (Strategy)	The scheme follows a blend of growth and value style of investing. The fund will follow a combination of top down and bottom-up approach to stock-picking and choose companies across sectors. The scheme will invest in diversified portfolio of large cap and mid cap stocks. Large Cap: 1st -100th company in terms of full market capitalization. Mid Cap:101st to 250th company in terms of full market capitalization. The exposure to these will be as per limits/classification defined by AMFI/SEBI from time to time.

Corpus (₹ in Crs)	548.48	**AAUM (₹ in Crs)**	27,091.34			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(8.6332)	11.1980	15.9817	28.2971	14.8563	N.A.*
Direct Growth (%)	(8.2354)	12.1888	16.9805	29.3453	17.1792	16.1489
Benchmark (%)	(12.1005)	7.3302	16.4180	29.2508		
Benchmark Name	NIFTY Large Midcap 250 TRI					
Performance Justification (for 1 year period)	The fund has outperformed the benchmark over the last 1 year. There has been a reversal in relative performance compared to last FY as the momentum in markets have cooled off and returns are more reasonable. From an attribution point of view, positive attribution has been from Financials, Telecom and Consumer Durables. At stock level top three positive attributors were Muthoot Fin, Voltas and Coforge. Top negative attributors were Consumer Services and Power both UW's at sector level and Adani Energy, EPAM and BSE (being UW) at stock level.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Scheme Name	**SBI LONG TERM EQUITY FUND**					
Allotment Date	Mar 31, 1993					
Type of scheme	An open ended Equity Linked Saving Scheme with a statutory lock-in period of 3 years and tax benefit					
Investment Objective	The prime objective of scheme is to deliver the benefit of investment in a portfolio of equity shares, while offering deduction on such investment made in the scheme under section 80C of the Income-tax Act, 1961. It also seeks to distribute income periodically depending on distributable surplus.Investments in this scheme would be subject to a statutory lock-in of 3 years from the date of allotment to avail Section 80C benefits.					
Basis and Policy of Investment (Strategy)	Fund will be investing in equity & equity related instruments as also debt instruments, and money market instruments (such as money market, term/notice money market, repos, reverse repos and any alternative to the call money market as may be directed by the RBI). Investment shall also be made in Partly Convertible Debentures (PCDs) and bonds including those issued on rights basis subject to the condition that as far as possible the non-convertible portion of the debentures so acquired or subscribed shall be divested within a period of 12 months. The balance funds shall be invested in short term money market instruments or other liquid instruments or both. In line with CBDT guidelines, the Fund will invest at least 80% of the net assets in equity and equity related instruments.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	408.7368	440.8447

Benchmark (%)	(11.8411)	5.9644	13.7736	26.3340		
Benchmark Name	BSE 500 TRI					
Performance Justification (for 1 year period)	Fund outperformed its benchmark by 4.23% in regular plan over last one year on the back of both security selection and sector allocation. Our largest conviction sectors are Energy, Healthcare and Utilities and we are most under-weight Consumer Staples, Financials and Auto sectors.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Annexure-I

Scheme Name	**SBI MAGNUM GLOBAL FUND**					
Allotment Date	Sep 30, 1994					
Type of scheme	An open-ended Equity Scheme investing in companies following the MNC theme					
Investment Objective	To provide the investor with the opportunity of long term capital appreciation by investing in diversified portfolio comprising					
Basis and Policy of Investment (Strategy)	The fund will follow a bottom-up approach to stock-picking and choose companies across sectors/market capitalization which fall under the criteria of MNC. MNC Companies will be those: 1. Major Shareholding is by foreign entity, 2. Indian companies having over 50% turnover from regions outside India, 3. Foreign listed Companies					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	338.1613	371.8195			
	IDCW	103.3056	132.7265			
Corpus (₹ in Crs)	202.98	**AAUM (₹ in Crs)**	6,505.90			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(11.9286)	0.2785	6.9801	17.5536	13.8818	N.A.*
Direct Growth (%)	(11.6356)	0.9605	7.7212	18.4023	14.8022	14.5424
Benchmark (%)	(19.0889)	2.5142	14.3562	20.3813		
Benchmark Name	Nifty MNC TRI					
Performance Justification (for 1 year period)	With the change in definition wrt ownership of international stocks or those listed outside India, SBI Global Fund now invests only in 1) MNCs or companies that have a foreign pedigree and 2) Stocks that derive majority of their revenues from exports. While we are cognizant of the benchmark, we continue to run the fund with a bottom-up strategy within the above two mentioned buckets and expect that stock selection and higher-than-market targeted return will ensure outperformance from a longer-term perspective. The fund also continues to have a bias towards high quality long term growth oriented names. The underperformance this year can also partly be attributed to change in portfolio positioning on account of the ownership definition change.						

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Scheme Name	**SBI CONSUMPTION OPPORTUNITIES FUND**					
Allotment Date	Jul 05, 1999					
Type of scheme	An open ended equity scheme following consumption theme					
Investment Objective	To provide the investor with the opportunity of long term capital appreciation by investing in a diversified portfolio of equity and equity related securities in Consumption space.					
Basis and Policy of Investment (Strategy)	The fund will follow a bottom-up approach to stock-picking and choose companies within the Consumption space. The scheme will invest in stocks of companies engaged in: 1.Consumer durables 2.Consumer non-durables 3.Retail 4.Textiles 5.Auto OEM's 6.Media & entertainment 7.Hotels, resorts & travel services. 8.Education services 9.Airlines 10.E-commerce Consumer transportation & logistics services.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	293.0403	333.2871			
	IDCW	176.4315	234.6309

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(17.2781)	8.7083	16.1868	28.2663	15.4003	N.A.*
Direct Growth (%)	(16.8434)	9.8785	17.4365	29.6440	16.6625	14.3959
Benchmark (%)	(16.1829)	6.8785	17.4342	22.6705		
Benchmark Name	Nifty India Consumption TRI					
Performance Justification (for 1 year period)	The Fund outperformed the benchmark driven by positive attribution from bottom up ideas including Jubilant Foodworks, Page Industries, Doms Industries, Blue Star and Ganesha Ecosphere. Negative attribution was due to underweight position in Bharti Airtel and Mahindra & Mahindra and also relatively higher exposure towards small cap stocks which have underperformed during the year.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Annexure-I

Scheme Name	**SBI TECHNOLOGY OPPORTUNITIES FUND**
Allotment Date	Jul 05, 1999
Type of scheme	An open-ended Equity Scheme investing in technology and technology related sectors
Investment Objective	To provide the investor with the opportunity of long term capital appreciation by investing in a diversified portfolio of equity and equity related securities in technology and technology related companies.
Basis and Policy of Investment (Strategy)	The fund will follow a bottom-up approach to stock-picking and choose companies which are expected to derive benefit from development, use and advancement of technology. These will predominantly include companies in the following industries: · Technology services, including IT management, software, Data and IT Infrastructure services including Cloud computing, mobile computing infrastructure · Internet technology enabled services including e-commerce, technology platforms, IoT (Internet of Things) and other online services · Electronic technology, including computers, computer products, and electronic components. · Telecommunications, including networking, wireless, and wireline services, equipment and support; Media and information services, including the distribution of information and content providers IT products, hardware and components like PCs, Laptops, Servers, Chips, Semi-conductors etc.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	197.3274	224.0723
	IDCW	118.8278	159.1505
Corpus (₹ in Crs)	207.94	**AAUM (₹ in Crs)**	4,222.33

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(8.8948)	12.2673	8.1798	28.4958	N.A.	N.A.
Direct Growth (%)	(8.4223)	13.4619	9.3853	29.9325	20.4373	15.9933
Benchmark (%)	(11.2752)	9.5512	4.1174	24.1664		
Benchmark Name	BSE Teck TRI					
Performance Justification (for 1 year period)	The outperformance compared to benchmark over the past year was helped by concentrated calls within IT services (Infosys, Firstsource, Coforge) and exposure to services. Overall the IT index as well as the fund was impacted in the 4Q25 due to heightened uncertainty in macro environment in anticipation of US tariff commentary which directly impacts the end customers of IT service providers. Cash exposure was increased towards the end of the year to factor in the weak outlook. In addition the exposure to small and mid cap names had an adverse impact compared to the index during the quarter. Nevertheless, the relative fund performance improved through the year placing it in the top quartile among peer funds based on 1 year return.					

Scheme Name	**SBI HEALTHCARE OPPORTUNITIES FUND**
Allotment Date	Jul 05, 1999
Type of scheme	An open-ended Equity Scheme investing in healthcare sector
Investment Objective	To provide the investors with the opportunity of long term capital appreciation by investing in a diversified portfolio of equity and equity related securities in Healthcare space.
Basis and Policy of Investment (Strategy)	The fund will follow a bottom-up approach to stock-picking and choose companies within the healthcare space. The scheme will invest in stocks of companies engaged in: 1. Pharmaceuticals 2. Hospitals 3. Medical Equipment 4. Healthcare service providers 5. Biotechnology

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	411.0425	469.2238
	IDCW	258.9352	326.0031

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(2.0344)	19.8281	22.8650	29.2970	16.6872	15.0110
Direct Growth (%)	(1.5244)	21.0938	24.1781	30.7035	18.2476	14.9005
Benchmark (%)	(6.1894)	18.8112	20.2682	28.6091		
Benchmark Name	BSE Healthcare TRI					
Performance Justification (for 1 year period)	SBI Healthcare Opportunities Fund has generated a return of 19.82% under regular plan and 21.09% under direct plan during March 31, 2024 to March 31, 2025 as compared to a return of 18.81% for its benchmark (BSE Healthcare Index). Though the fund performance benefited by having positive active exposure in Ami Organics, KIMS, Max Healthcare, Suven Pharma and Jupiter Hospitals, the performance was also impacted due to not owning GSK Pharma and Ipca Labs. The fund continues to adopt a bottom up strategy of stock picking and currently continues to have a skew towards Healthcare services companies, CDMO and Domestic Pharma names.					

Annexure-I

Scheme Name	**SBI CONTRA FUND**					
Allotment Date	Jul 05, 1999					
Type of scheme	An open-ended Equity Scheme following contrarian investment strategy					
Investment Objective	To provide the investor with the opportunity of long term capital appreciation by investing in a diversified portfolio of equity and equity related securities following a contrarian investment strategy.					
Basis and Policy of Investment (Strategy)	The fund will follow a combination of top-down and bottom-up approach to stock-picking and choose companies within the contrarian investment theme.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	358.4757	390.4990			
	IDCW	62.1616	82.4123			
Corpus (₹ in Crs)	1,294.70	**AAUM (₹ in Crs)**	37,847.69			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(11.0975)	7.0281	21.4732	36.5315	19.1262	15.3849
Direct Growth (%)	(10.6974)	8.0244	22.5621	37.6395	16.6638	14.3067
Benchmark (%)	(11.8411)	5.9644	13.7736	26.3340		
Benchmark Name	BSE 500 TRI					
Performance Justification (for 1 year period)	Fund outperformed its benchmark by 1.06% in regular plan over past one year on the back of sector allocation. The fund runs a contrarian strategy which overlaps significantly with value philosophy. Top sector over weights are Utilities, Energy and Materials while top under-weight sectors are Financial Services, Capital Goods and Consumer Staples.					

Scheme Name	**SBI FOCUSED EQUITY FUND**					
Allotment Date	Sep 17, 2004					
Type of scheme	An open ended equity scheme investing in maximum 30 stocks across multicap space					
Investment Objective	The investment objective of the Scheme is to provide the investor with the opportunity of long term capital appreciation by investing in a concentrated portfolio of equity and equity related securities.					
Basis and Policy of Investment (Strategy)	The fund will follow a bottom-up approach to stock-picking and invest in companies across market capitalization and sectors. The fund will take high conviction bets and the total number of securities would be equal to or under 30.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	325.9750	365.1010			
	IDCW	59.6237	88.9715			
Corpus (₹ in Crs)	1,116.41	**AAUM (₹ in Crs)**	34,538.68			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(5.2787)	11.4083	11.7540	22.1490	18.4791	15.4374
Direct Growth (%)	(4.8968)	12.3295	12.7526	23.3329	15.6534	14.3067
Benchmark (%)	(11.8411)	5.9644	13.7736	26.3340		
Benchmark Name	BSE 500 TRI					
Performance Justification (for 1 year period)	The fund has a bias towards quality and growth and the strategy has had a defensive tilt in the last year or so. This has enabled better performance. Last year is also partly a mean reversion from the previous years when value as a factor did very well.					

Scheme Name	**SBI MAGNUM MIDCAP FUND**					
Allotment Date	Mar 29, 2005					
Type of scheme	An open ended equity scheme predominantly investing in mid cap stocks.					
Investment Objective	To provide investors with opportunities for long-term growth in capital along with the liquidity of an open-ended scheme by investing predominantly in a well diversified basket of equity stocks of Midcap companies.					
Basis and Policy of Investment (Strategy)	The scheme follows a blend of growth and value style of investing. The fund will follow a bottom-up approach to stock-picking and choose companies across sectors. The scheme will invest predominantly in diversified portfolio of mid cap stocks. Mid Cap means:101st to 250th company in terms of full market capitalization. The exposure will be as per limits/classification defined by AMFI/SEBI from time to time.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	219.2178	245.1002			
	IDCW	89.5754	138.9567			
Corpus (₹ in Crs)	957.13	**AAUM (₹ in Crs)**	20,491.17			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(11.9433)	8.5490	17.1538	33.1554	16.6755	N.A.*
Direct Growth (%)	(11.5687)	9.4921	18.1823	34.3378	19.4307	18.5110
Benchmark (%)	(14.1458)	8.1674	20.5758	34.6192		
Benchmark Name	Nifty Midcap 150 TRI					
Performance Justification (for 1 year period)	The fund saw significant improvement in the relative performance during FY25 as against FY24. The fund holding was skewed towards quality, the factor which turnaround last year. Also, the relatively defensive positioning has not been changed materially despite the correction as we still find the valuations of midcaps still expensive.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Annexure-I

Scheme Name	**SBI MAGNUM COMMA FUND**
Allotment Date	Aug 08, 2005
Type of scheme	An open ended equity scheme investing in commodity and commodity related sectors.
Investment Objective	To generate opportunities for growth along with possibility of consistent returns by investing predominantly in a portfolio of stocks of companies engaged in the commodity and commodity related businesses.
Basis and Policy of Investment (Strategy)	The scheme would at all times have an exposure of atleast 80% of its investments in stocks of companies engaged in the commodity and commodity related businesses (derived from commodities). The scheme could invest in companies providing inputs to commodity manufacturing companies. The scheme will invest in stocks of companies engaged in: 1.Oil & Gas (Petrochemicals, Power, and Gas etc.), 2.Metals (Zinc, Copper, Aluminum, Bullion, and Silver etc.), 3.Materials (Paper, jute, cement etc.) Agriculture (Sugar, Edible Oil, Soya, Tea and Tobacco etc.), 4.Textiles 5.Tea & Coffee

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	94.9040	102.4122
	IDCW	53.8685	58.2774
Corpus (₹ in Crs)	76.03	**AAUM (₹ in Crs)**	629.08

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(14.7792)	4.6984	9.5069	27.6299	12.1284	12.1836
Direct Growth (%)	(14.5152)	5.3275	10.1111	28.3544	13.5028	12.2817
Benchmark (%)	(13.4014)	2.5862	13.3982	31.5931		
Benchmark Name	Nifty Commodities TRI					
Performance Justification (for 1 year period)	Fund outperformed its benchmark by 2.1% in regular plan over past one year on the back of active stock selection bets. Commodities sector is facing volatility as rising prices are colliding with weak international demand. We however remain hopeful that sectors like metals and energy will drive returns going ahead and hence are reorienting the portfolio to benefit from this shift.					

Scheme Name	**SBI FLEXICAP FUND**
Allotment Date	Sep 29, 2005
Type of scheme	An open-ended Dynamic Equity Scheme investing across large cap, mid cap, small cap stocks.
Investment Objective	To provide investors with opportunities for long-term growth in capital along with the liquidity of an open-ended scheme through an active management of investments in a diversified basket of equity stocks spanning the entire market capitalization spectrum and in debt and money market instruments.
Basis and Policy of Investment (Strategy)	The scheme will follow a bottom-up approach to stock-picking and choose companies across sectors/styles. The scheme will invest in diversified portfolio of stocks across market capitalization. Large Cap Stocks – 1st -100th company in terms of full market capitalization. Mid Cap:101st to 250th company in terms of full market capitalization. Small Cap: 251st company onwards in terms of full market capitalization. The exposure across these stocks will be in line with limits/classification defined by AMFI/SEBI from time to time.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	101.2050	112.7598
	IDCW	45.3172	56.3607
Corpus (₹ in Crs)	2,115.84	**AAUM (₹ in Crs)**	21,790.69

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(11.3556)	4.9290	9.9209	22.2541	12.5924	13.6574
Direct Growth (%)	(10.9928)	5.8032	10.8666	23.3588	15.6456	14.2056
Benchmark (%)	(11.8411)	5.9644	13.7736	26.3340		
Benchmark Name	BSE 500 TRI					
Performance Justification (for 1 year period)	The fund underperformed its benchmark by 1.04% in regular plan over past one year on the back of inadequate sizing of security and sector bets and higher allocation to small and midcap stocks. We made changes to the fund management six months ago and feel that will yield positive results going forward.					

Annexure-I

Scheme Name	**SBI BLUE CHIP FUND**					
Allotment Date	Feb 14, 2006					
Type of scheme	An open ended equity scheme predominantly investing in large cap stocks					
Investment Objective	To provide investors with opportunities for long-term growth in capital through an active management of investments in a diversified basket of large cap equity stocks (as specified by SEBI/AMFI from time to time).					
Basis and Policy of Investment (Strategy)	The scheme follows a blend of growth and value style of investing. The scheme will follow a combination of top down and bottom-up approach to stock-picking and choose companies across sectors. The scheme will predominantly invest in diversified portfolio of large cap stocks. Large Cap Stocks are – 1st -100th company in terms of full market capitalization. This will be in line with limits/classification defined by AMFI/SEBI from time to time.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	86.5292	95.6547			
	IDCW	49.2250	62.0794

Regular Growth (%)	(8.7257)	8.1872	12.8757	23.7883	11.9364	12.9144
Direct Growth (%)	(8.4150)	8.9320	13.6693	24.6861	15.2986	13.6831
Benchmark (%)	(9.7350)	6.8207	13.0485	24.7852		
Benchmark Name	BSE 100 TRI					
Performance Justification (for 1 year period)	The fund has outperformed the benchmark over last year. Apart from stock and sector selection, the quality tilt has led to the outperformance. From an attribution point of view, positive attribution has been from Healthcare, Autos and Oil & Gas. At stock level top three positive attributors were Divis Lab, Reliance (being UW) and Tata Motors (Being UW). Top negative attributors were Consumer Services and Capital Goods both UW's at sector level and Bajaj Finance (being UW), Sona BLW and DLF at stock level.					

Scheme Name	**SBI INFRASTRUCTURE FUND**					
Allotment Date	Jul 06, 2007					
Type of scheme	An open ended equity scheme investing in infrastructure and allied sectors					
Investment Objective	To provide investors with opportunities for long-term growth in capital through an active management of investments in a diversified basket of equity stocks of companies directly or indirectly involved in the infrastructure growth in the Indian economy and in debt & money market instruments.					
Basis and Policy of Investment (Strategy)	The scheme will be positioned as a sectoral fund and not as a diversified equity fund. The scheme will invest in companies broadly within the following areas/sectors of the economy namely – 1. Airports 2. Banks, Financial Institutions, Term lending Institutions and NBFCs 3. Cement & Cement Products 4. Coal 5. Construction 6. Electrical & Electronic components 7. Engineering 8. Energy including Coal, Oil & Gas, Petroleum & Pipelines 9. Industrial Capital Goods & Products 10. Metals & Minerals 11. Ports 12. Power and Power equipment 13. Road & Railway initiatives 14. Telecommunication 15. Transportation 16. Urban Infrastructure including Housing & Commercial Infrastructure 17. Commercial Vehicles 18. Industrial Manufacturing 19. Logistic Service provider					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	45.9741	49.5073			
	IDCW	40.8977	43.8147			
Corpus (₹ in Crs)	1,008.33	**AAUM (₹ in Crs)**	4,313.26			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(15.9898)	1.7439	22.4745	32.8396	8.9755	5.7661
Direct Growth (%)	(15.5732)	2.6401	23.2053	33.6320	15.3171	11.5242
Benchmark (%)	(11.3766)	2.2744	20.0552	30.6098		
Benchmark Name	Nifty Infrastructure TRI					
Performance Justification (for 1 year period)	The Infrastructure fund performed broadly in-line with the benchmark. The fund is positioned for recovery in capex cycle of India, which intermittently slowed during FY25 on slowing government funded projects impacting fund performance in H2FY25. However, a sharp 6-fold jump in ordering for power is expected to drive capex from H2FY26. The fund has OW in capital goods, cement and financials sectors, and UW in O&G and telecom.					

Annexure-I

Scheme Name	**SBI PSU FUND**
Allotment Date	Jul 07, 2010
Type of scheme	An open-ended Equity scheme investing in PSU/PSU subsidiaries sector
Investment Objective	To provide investors with opportunities for long-term growth in capital along with the liquidity of an open-ended scheme through an active management of investments in a diversified basket of equity stocks of domestic Public Sector Undertakings (and their subsidiaries) and in debt and money market instruments issued by PSUs and others.
Basis and Policy of Investment (Strategy)	The primary strategy of the scheme would be to invest in the stocks of the PSU companies and their subsidiaries. The scheme may invest in quasi PSUs /subsidiaries of PSUs: 1. which could be part of PSU index 2. defined by management control or ability to appoint key managerial personnel and not necessarily by equity stake of 51% (but minimum PSU/ Central govt / state govt stake of 35% and highest among others is required).The scheme would endeavor to identify market opportunities and at the same time would sufficiently diversify its equity portfolio and control liquidity risks and non-systematic risks by selecting well researched stocks which have growth prospects on a long and mid-term basis in order to provide stability and possibility of returns in the scheme Investment in equities would be done through primary as well as secondary market, private placement / QIP, preferential/firm allotments or any other mode as may be prescribed/ available from time to time.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	29.8973	32.8165
	IDCW	29.8939	32.7685
Corpus (₹ in Crs)	1,524.37	**AAUM (₹ in Crs)**	4,084.69

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(11.8996)	5.9530	31.1990	31.4558	7.7117	7.7022
Direct Growth (%)	(11.4226)	7.1370	32.6467	32.7972	11.7861	11.1487
Benchmark (%)	(14.0088)	1.9238	32.6120	37.2871		
Benchmark Name	BSE PSU TRI					
Performance Justification (for 1 year period)	The fund is outperforming benchmark in the 1 year period mainly due to stock selection in Financials (OW GIC, HUDCO, SBI Cards, SBI Life). We currently have a relatively high largecap proportion, due to relatively more attractive risk-reward, in our view.					

Scheme Name	**SBI SMALLCAP FUND**
Allotment Date	Sep 09, 2009
Type of scheme	An open-ended Equity Scheme predominantly investing in small cap stocks
Investment Objective	To provide investors with opportunities for long-term growth in capital along with the liquidity of an open-ended scheme by investing predominantly in a well-diversified basket of equity stocks of small cap companies.
Basis and Policy of Investment (Strategy)	The scheme follows a blend of growth and value style of investing. The scheme will follow a bottom-up approach to stock-picking and choose companies within the small cap space. Small Cap means: 251st company onwards in terms of full market capitalization. The exposure will be as per limits/classification defined by AMFI/SEBI from time to time.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	156.4350	178.5628
	IDCW	92.4190	121.8767
Corpus (₹ in Crs)	1,894.41	**AAUM (₹ in Crs)**	31,278.03

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(16.8670)	5.4482	15.1842	30.7822	19.3223	11.7658
Direct Growth (%)	(16.5025)	6.4054	16.3272	32.1331	23.9501	14.0974
Benchmark (%)	(18.8928)	5.0402	17.5033	36.5220		
Benchmark Name	BSE 250 Small Cap Index TRI					
Performance Justification (for 1 year period)	The fund has marginally outperformed the benckmark on a 1-yr basis. We've had a negative view on small caps, as a space, on account of valuations which has led to a portfolio that has been high on cash and large cap futures and also relatively concentrated towards defensive ideas.					

Annexure-I

Scheme Name	**SBI BANKING AND FINANCIAL SERVICES FUND**
Allotment Date	Feb 26, 2015
Type of scheme	An open ended Equity Scheme investing in Banking and Financial Services sector
Investment Objective	The investment objective of the scheme is to generate long-term capital appreciation to unit holders from a portfolio that is invested predominantly in equity and equity related securities of companies engaged in banking and financial services. However, there can be no assurance that the investment objective of the Scheme will be realized.
Basis and Policy of Investment (Strategy)	The Scheme aims to maximize long-term capital appreciation by investing primarily in equity and equity related securities of companies engaged in Banking and Financial services. The portfolio manager will adopt an active management style to optimize returns. The scheme would invest in Banks as well as Non-banking Financial Services companies, Insurance companies, Rating agencies, Broking companies, Microfinance companies, Housing Finance, Wealth Management, Stock/ commodities exchange etc. Financial services companies are firms that are engaged in providing non-banking financial services to customers. The classification of Financial service companies will be largely guided by AMFI sector classification. The indicative list of industry under financial services includes: •Housing Finance •Micro Finance •Stock broking & Allied •Wealth Management •Rating Agencies •Asset Management Companies •Insurance Companies •Stock/ Commodities Exchange •Other NBFC's Any other company which may derive 70% or more of its revenue from companies engaged in financial services

Benchmark (%)	2.5450	20.6670	14.6134	22.8148		
Benchmark Name	Nifty Financial Services TRI					
Performance Justification (for 1 year period)	In the last 1 year, the fund underperformed the benchmark due to underweight positions in Bajaj Finance and Bajaj Finserv, while the fund had positive attribution from select private banks and NBFCs. The fund is run as a bottom-up research focused fund with a focus on finding opportunities where earnings outlook is strong and valuations are reasonable.					

Scheme Name	**SBI EQUITY MINIMUM VARIANCE FUND**
Allotment Date	Mar 19, 2019
Type of scheme	An Open Ended Equity Scheme following minimum variance theme
Investment Objective	To provide long term capital appreciation by investing in a diversified basket of companies in Nifty 50 Index while aiming for minimizing the portfolio volatility.
Basis and Policy of Investment (Strategy)	The scheme will invest in companies forming a part of Nifty 50 Index, weighting the stocks with the endeavor to minimise the variance of the portfolio.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	22.4643	22.9648
	IDCW	22.4679	22.9634

Benchmark (%)	(8.5113)	6.6536	11.7734	23.7233		
Benchmark Name	Nifty 50 TRI					
Performance Justification (for 1 year period)	SBI Equity Minimum Variance Fund scheme has generated a return of 0.4090% under regular plan & 0.7405% under direct plan for the year ended 31st March 2025, as compared to a return of 6.6536% delivered by its benchmark (Nifty 50 Index) for the same period. The scheme aims to minimize the portfolio volatility based on correlation & volatilities of the stocks in the portfolio. The scheme does not take any view on the market and follows a systematic/passive approach, with the portfolio being reviewed on a periodical basis.					

Annexure-I

Scheme Name	**SBI MULTICAP FUND**
Allotment Date	Mar 08, 2022
Type of scheme	An open ended equity scheme investing across large cap, mid cap, small cap stocks
Investment Objective	The investment objective of the scheme is to provide investors with opportunities for long term growth in capital from a diversified portfolio of equity and equity related instruments across market capitalization. However, there can be no assurance that the investment objective of the Scheme will be realized.
Basis and Policy of Investment (Strategy)	The scheme will follow a bottom-up approach to stock-picking and choose companies across sectors. The scheme will invest in diversified portfolio of stocks across market capitalization. Large Cap Stocks – 1st -100th company in terms of full market capitalization. Mid Cap:101st to 250th company in terms of full market capitalization. Small Cap: 251st company onwards in terms of full market capitalization. The exposure across these stocks will be in line with limits/classification defined by AMFI/SEBI from time to time.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	15.7388	16.2009
	IDCW	15.7414	16.2010
Corpus (₹ in Crs)	12,165.89	**AAUM (₹ in Crs)**	17,883.24

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(8.1948)	15.4794	15.2124	N.A.	15.9442	18.6543
Direct Growth (%)	(7.8201)	16.4242	16.2946	N.A.	17.0438	18.6543
Benchmark (%)	(12.9934)	6.8830	15.8248	N.A.		
Benchmark Name	NIFTY 500 Multicap 50:25:25 TRI					
Performance Justification (for 1 year period)	The fund has outperformed the benchmark over last year primarily because of superior stock selection. From an attribution point of view, positive attribution has been from Healthcare, Financials and Oil & Gas. At stock level top three positive attributors were Bluetsar, Divis Lab and Muthoot Finance. Top negative attributors were Capital Goods and Auto both UW's at sector level and Bajaj Finance (being UW), Sona BLW and HDFC Bank (being UW) at stock level.					

Scheme Name	**SBI DIVIDEND YIELD FUND**
Allotment Date	Mar 14, 2023
Type of scheme	An open ended equity scheme investing predominantly in dividend yielding stocks.
Investment Objective	The investment objective of the scheme is to provide investors with opportunities for capital appreciation and/or dividend distribution by investing predominantly in a well-diversified portfolio of equity and equity related instruments of dividend yielding companies. However, there can be no assurance that the investment objective of the Scheme will be realized.
Basis and Policy of Investment (Strategy)	The scheme would invest predominantly (at least 65% of the net assets) in companies that have a relatively high dividend yield, at the time of making the investment. Companies may also choose to do a buyback in addition to or as an alternative to dividend. This also constitutes a yield to shareholders and will be accordingly used while calculating dividend yield. The Scheme will consider dividend yielding stocks which have paid dividend (or done a buyback) in at least one of the three preceding financial years. While trailing dividend yield will be an important factor in selecting a stock, the fund manager will also consider on business fundamentals, industry outlook, absolute as well as relative valuations, quality of management, ESG parameters & various other fundamental factors. Further, to achieve diversification the Scheme may also invest residual net assets i.e. up to 35% of the net assets in companies other than Dividend Yielding Companies. The overall endeavour is to construct a portfolio with aggregate dividend yield that is at least 50% higher than that of the Nifty 50 Index. The scheme will follow a bottom-up approach to stock-picking and choose companies across sectors. The scheme will invest in diversified portfolio of stocks across market capitalization. Thus, the investment strategy of the Scheme would focus on identifying and investing in a basket of dividend yield companies from domestic as well as global universe.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	14.1388	14.4469
	IDCW	14.1386	14.4482
Corpus (₹ in Crs)	6,267.91	**AAUM (₹ in Crs)**	8,794.07

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(12.3838)	4.7342	N.A.	N.A.	18.4122	22.5824
Direct Growth (%)	(11.9500)	5.8063	N.A.	N.A.	19.6644	22.5824
Benchmark (%)	(11.6928)	6.3731	N.A.	N.A.		
Benchmark Name	Nifty 500 TRI					
Performance Justification (for 1 year period)	The fund has narrowed its underperformance to the benchmark on a 1 year basis (over the last 2 quarters). Key reasons for underperformance v/s benchmark in 1 year period were UW in Financial Services and Telecom; stock selection in Capital Goods (OW Grindwell, SKF, Cummins). We run the strategy more with an absolute return focus rather than a relative return one which we believe will likely generate steady long term returns with lower risk than a standard equity fund.					

Annexure-I

Scheme Name	**SBI ENERGY OPPORTUNITIES FUND**
Allotment Date	Feb 26, 2024
Type of scheme	An open-ended equity scheme following the energy theme
Investment Objective	The investment objective of the scheme is to provide investors with opportunities for long term capital appreciation by investing in equity and equity related instruments of companies engaging in activities such as exploration, production, distribution, transportation and processing of traditional & new energy including but not limited to sectors such as oil & gas, utilities and power. However, there is no assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The scheme aims to maximize long-term capital appreciation by investing (at least 80% of the net assets) in domestic and/or overseas companies engaging in activities such exploration, production, distribution, transportation and processing of traditional & new energy including but not limited to sectors such as oil & gas, utilities and power. The fund manager will adopt an active management style & will follow bottom-up approach to stock picking to optimize returns. The scheme will invest in diversified portfolio of stocks across market capitalization. The scheme will predominantly invest in the following sectors. The classification of companies will be largely guided by AMFI basic industry classification. The indicative list of the sectors includes: 1.Offshore Support Solution Drilling 2.Power - Transmission 3.Power Generation 4.Integrated Power Utilities 5.Trading - Gas 6.Trading - Coal 7.Lubricants 8.Oil Equipment & Services 9.LPG/CNG/PNG/LNG Supplier 10.Refineries & Marketing 11.Coal 12.Oil Exploration & Production 13.Gas Transmission/Marketing 14.Oil Storage & Transportation 15.Other Utilities 16.Power Trading

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	9.7158	9.8427
	IDCW	9.7160	9.8425
Corpus (₹ in Crs)	10,211.77	**AAUM (₹ in Crs)**	9,984.29

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**

Benchmark (%)	(23.0661)	(12.7732)	N.A.	N.A.		
Benchmark Name	Nifty Energy TRI					
Performance Justification (for 1 year period)	30% of Alpha came in from Power T&D plays. 20% of Alpha came from Underweight on Adani group . 15% Alpha came from overweight on Gas utilities. Remainder of the Alpha is quite spread out across many companies.					

Scheme Name	**SBI AUTOMOTIVE OPPORTUNITIES FUND**
Allotment Date	Jun 05, 2024
Type of scheme	An open ended equity scheme following automotive & allied
Investment Objective	The investment objective of the scheme is to generate long-term capital appreciation to unit holders from a portfolio that is invested in equity and equity related instruments of companies engaged in automotive & allied business activities theme. However, there is no assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The Scheme aims to maximize long-term capital appreciation by investing in primarily (atleast 80% of the net assets) in equity and equity related instruments of companies engaged in automotive & allied business activities theme. The fund manager will adopt an active management style & will follow bottom-up approach to stock picking to optimize returns. The scheme will invest in diversified portfolio of stocks across market capitalization. The classification of companies following the automotive & allied business activities theme will be largely guided by AMFI basic industry classification. The indicative list of sectors following automotive & allied business activities theme includes: •Automobile •Auto Dealer •Automobile components & equipment •Abrasives & Bearings •Tyres & Rubber products •2/3 wheelers •Tractors •Passenger vehicles & utility vehicles •Construction vehicles •Trading – Auto components •Commercials vehicles •Castings & forgings •Compressors, Pumps & Diesel Engines •Semiconductor & electronics companies catering to auto companies. •Dealers–Commercial Vehicles, Tractors, Construction Vehicles The Fund Manager will have the discretion to invest in all those sectors / areas which are engaged either directly or indirectly in the automotive & allied business activities theme. The investment strategy of the Scheme would focus on identifying and investing in companies engaged in automotive & allied business activities theme from domestic as well as global universe. Further, to achieve diversification the Scheme may also invest residual net assets i.e. up to 20% of the net assets in companies other than automotive & allied business activities theme. The scheme will predominantly be actively managed to achieve its investment objective.

Annexure-I

NAV Per Unit as on March 31, 2025	Option	Regular Plan	Direct Plan
	Growth	8.6301	8.7155
	IDCW	8.6302	8.7153
Corpus (₹ in Crs)	6,040.08	AAUM (₹ in Crs)	6,000.60

Performance	6 months	1 year	3 years	5 years	Since Inception Scheme	Since Inception Benchmark
Regular Growth (%)	(22.5222)	N.A.	N.A.	N.A.	(13.6990)	(11.6475)
Direct Growth (%)	(22.0766)	N.A.	N.A.	N.A.	(12.8450)	(11.6475)
Benchmark (%)	(21.1469)	N.A.	N.A.	N.A.		
Benchmark Name	Nifty Auto TRI					
Performance Justification (for 1 year period)	SBI Automotive Opportunities Fund was launched last year and has less than 1 year performance to speak about. On a 6 month basis, the Fund has generated a return of -22.5% under regular plan and -22.1% under direct plan during March 31, 2024 to March 31, 2025 as compared to a return of -21.1% for its benchmark (NSE Auto Index). For the Fund, the benchmark is large cap oriented, so is the fund with 60% of the fund invested in large caps and the rest in Small and Midcaps. Similarly, 55% of the fund is invested in OEMs while 40-45% is in Auto Ancillaries. We continue to have a bottom up approach of stock picking and currently the fund has a skew towards PVs, Exports and in general auto ancillary names.					

Scheme Name	SBI INNOVATIVE OPPORTUNITIES FUND
Allotment Date	Aug 20, 2024
Type of scheme	An open-ended equity scheme following the innovation theme.
Investment Objective	The investment objective of the scheme is to provide investors with opportunities for long term capital appreciation by investing in equity and equity related instruments of companies that seeks to benefit from adoption of innovative strategies & theme. However, there is no assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The scheme will predominantly be actively managed to achieve its investment objective. The Scheme aims to maximize long-term capital appreciation by investing in primarily (at least 80% of the net assets) in equity and equity related instruments of companies which are innovators (demonstrated through innovation in product/process or through innovative business models) or are significantly investing into research and development for creation of innovative products/processes. The fund manager will adopt an active management style & will follow bottom-up approach to stock picking to optimize returns. The scheme will invest in diversified portfolio of stocks across market capitalization. The identification of innovator companies will be on basis of the following three categories: Product & Service innovators: Companies which are innovators of new products/service categories or are investing into research and development of new product innovation (existing or new product/service categories). These companies tend to be challengers in an existing product/service category or are creators of new product/service categories. These companies can be early identifiers or adopters of evolving demand patterns and/or technological advances. These can be companies which are potential creators of new product/service categories, which hitherto did not exist or are solving for uses cases unaddressed so far. Process innovators: Companies which are innovators of new processes or are investing into research and development of new process innovations. These companies tend to be disruptors of existing business models and would look to gain market share through adaption of technological advances and innovative processes developed in house which can provide either quality or cost advantage compared to peers. Innovation adapters: Companies which are adaptors of innovative business models, products or services evolving in their existing industry. These are incumbents who show agility/nimbleness in adapting to emergent business trends (either on account of innovative products/services or processes) or emergent product/service categories. These adaptive innovators may not necessarily overhaul their entire business model but exhibit innovative strategies in specific segments or verticals that has potential to meaningfully impact the business. The investment strategy of the Scheme would focus on identifying and investing in companies engaged in innovative strategies / theme from domestic as well as global universe. Further, to achieve diversification the Scheme may also invest residual net assets i.e. up to 20% of the net assets in companies other than the companies following innovation theme.

NAV Per Unit as on March 31, 2025	Option	Regular Plan	Direct Plan
	Growth	8.7215	8.7848
	IDCW	8.7219	8.7848
Corpus (₹ in Crs)	7,964.51	AAUM (₹ in Crs)	7,728.86

Performance	6 months	1 year	3 years	5 years	Since Inception Scheme	Since Inception Benchmark
Regular Growth (%)	(14.6658)	N.A.	N.A.	N.A.	(12.7850)	(8.0024)

Benchmark (%)	(11.6928)	N.A.	N.A.	N.A.		
Benchmark Name	Nifty 500 TRI					
Performance Justification (for 1 year period)	The Fund underperformed the benchmark over the last 6 months led by negative attribution from Tata Motors, Route Mobile, Honeywell automation and relatively high exposure towards small and mid-cap stocks which have underperformed during the year. The fund benefitted from bottom-up ideas including Zinka Logistics, Nazara, PB Fintech etc.					

Annexure-I

Scheme Name	**SBI QUANT FUND**
Allotment Date	Dec 26, 2024
Type of scheme	An open ended equity scheme following Quant based investing
Investment Objective	The investment objective of the scheme is to seek to generate long term capital appreciation by investing in equity and equity related instruments selected based on quant model theme. However, there is no assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The investment strategy outlined aims to achieve long-term capital appreciation by deploying a proprietary quantitative model that incorporates both fundamental and technical factors. This approach is designed to generate superior risk-adjusted returns compared to the benchmark index. The model employs a multi-faceted evaluation process, screening the investment universe for quantitative measures such as data availability and liquidity, and subsequently analyzing stocks based on a set of fundamental and technical parameters. Fundamental Factors: The quantitative model focuses on fundamental factors that provide insights into a company's growth outlook and valuation. These factors may act as an overarching framework. Some of these factors are •Value •Quality & •Growth The key sub indicators may include Return on Equity, Sales Growth, Cash Flow, Debt to Equity Ratio, Earnings Growth, Price to Book, Price to Earnings, Dividend Yield, and Earnings Yield. These factors are chosen for their strong academic basis and relevance in the assessment of a company's financial health. The model employs these indicators to filter stocks with the perspective to provide superior risk adjusted return. Technical Factors: In addition to fundamental factors, the model incorporates technical factors that capture behavioral attributes reflected in stock price movements. These include Liquidity, Stock Price Momentum, Volatility, and Historical Performance etc. By considering these aspects, the model aims to identify patterns and trends in stock price behavior, adding a layer of analysis beyond traditional fundamental metrics. The fund manager will review and maintain the model (including variables) on an ongoing basis and make changes as necessary. The same will be reviewed periodically by the Fund Manager. The portfolio of the scheme will be subject to regular reviews and rebalancing by the Fund Manager based on the output of the quantitative model. This dynamic approach ensures that the portfolio remains aligned with the evolving market landscape. The Fund Manager also retains the discretion to use other parameters, such as economic indicators and investment signals, supplementing the quant model as necessary. With continuous oversight the fund ensures that the model remains effective in capturing market dynamics and adapting to changing conditions. By integrating fundamental and technical factors and allowing for adjustments in response to market changes, the strategy seeks to deliver sustained long-term capital appreciation while effectively managing risk.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	9.1819	9.2110
	IDCW	9.1819	9.2110
Corpus (₹ in Crs)	3,922.25	**AAUM (₹ in Crs)**	3,529.87

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	N.A.	N.A.	N.A.	N.A.	(8.1810)	(3.1671)
Direct Growth (%)	N.A.	N.A.	N.A.	N.A.	(7.8900)	(3.1671)
Benchmark (%)	N.A.	N.A.	N.A.	N.A.		
Benchmark Name	BSE 200 TRI					
Performance Justification (for 1 year period)	Performance of only 1 quarter is captured as the NFO closed in December 2024. The model had a higher tilt towards Quality & Momentum and a lower allocation towards Value factor. Accordingly, the portfolio was tilted towards IT which hurt the performance. At stock level ,negative attribution was from overweight in Infosys, Wipro, REC, Lupin. Positive Attribution came from overweight in Auto & underweight in Consumer Services. Among stocks, positive attribution was from being overweight on Eicher Motors, Bajaj Finance					

Annexure-I

Scheme Name	**SBI EQUITY HYBRID FUND**					
Allotment Date	Oct 09, 1995					
Type of scheme	An open-ended Hybrid Scheme investing predominantly in equity and equity related instruments					
Investment Objective	To provide investors long term capital appreciation along with the liquidity of an open-ended scheme by investing in a mix of debt and equity. The scheme will invest in a diversified portfolio of equities of high growth companies and balance the risk through investing the rest in fixed income securities. However, there can be no assurance that the investment objective of the scheme will be achieved.					
Basis and Policy of Investment (Strategy)	The scheme will invest in a diversified portfolio of equities of high growth companies and balance the risk through investing the rest in fixed income securities.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	280.8940	309.6629			
	IDCW	59.5228	90.6135			
Corpus (₹ in Crs)	3,086.60	**AAUM (₹ in Crs)**	71,103.56			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(2.6005)	11.3392	11.3272	18.7910	15.1640	N.A.*
Direct Growth (%)	(2.2802)	12.0820	12.0820	19.6069	14.8592	12.3524
Benchmark (%)	(5.7224)	7.3635	11.3803	18.9887		
Benchmark Name	CRISIL Hybrid 35+65 - Aggressive Index					
Performance Justification (for 1 year period)	Equity Hybrid has done well over the last one year thanks to a bias towards quality and a tilt towards large caps which is a consequence of the size of the fund. The debt portfolio has been maintaining a higher duration over the last year, primarily through sovereign securities. This has enabled the portfolio to capture the downmove in interest rates.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Scheme Name	**SBI CONSERVATIVE HYBRID FUND**					
Allotment Date	Apr 09, 2001					
Type of scheme	An open ended hybrid scheme investing predominantly in debt instruments					
Investment Objective	The investment objective is to provide the investors an opportunity to invest primarily in Debt and Money market instruments and secondarily in equity and equity related instruments. However, there is no guarantee or assurance that the scheme's objective will be achieved. The scheme does not guarantee or assure any returns.					
Basis and Policy of Investment (Strategy)	Investments under the fund will be a mix of debt, equity & money market instruments. Debt instruments will be invested based on evaluation of macro-economic factors, market dynamics and issuer specific factors. Maximum exposure to equities is capped at 25% in this scheme.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	69.9918	76.3548

Benchmark (%)	1.9393	8.4388	7.6845	9.4323		
Benchmark Name	NIFTY 50 Hybrid Composite Debt 15:85 Index					
Performance Justification (for 1 year period)	Fixed Income benefitted from falling yields in the market and the fund towards sovereign and high grade bonds. Active call on credit spreads helped the fund to add accrual.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Annexure-I

Scheme Name	**SBI MULTI ASSET ALLOCATION FUND**					
Allotment Date	Dec 21, 2005					
Type of scheme	An open-ended scheme investing in equity, fixed income, gold/silver related instruments including ETFs and such other asset classes as SEBI may prescribe from time to time.					
Investment Objective	To provide the investors an opportunity to invest in an actively managed portfolio of multiple asset classes. However, there is no guarantee or assurance that the investment objective of the scheme will be achieved. The scheme doesn't assure or guarantee any returns.					
Basis and Policy of Investment (Strategy)	Investments under the fund will be predominantly in a mix of debt & debt related instruments, equity & equity related instruments & gold/silver related instruments, including domestic and overseas ETFs, ETCDs, units of REITs and InvITs and such other asset classes as SEBI may prescribe from time to time. Debt instruments will be invested based on evaluation of macro-economic factors, market dynamics and issuer specific factors.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**

Benchmark (%)	(1.6833)	11.4071	11.4503	14.4996		
Benchmark Name	45% BSE 500 TRI + 40% Crisil Composite Bond Fund Index + 10% Domestic prices of Gold + 5% Domestic prices of Silver					
Performance Justification (for 1 year period)	Fund underperormed is benchmark by 0.95% over past one year on the back of higher allocation to small cap stocks which hurt the fund in this period and higher allocation to silver over gold which also impacted the fund negatively. The endeavour of the fund is to generate good absolute returns over any medium term timeframe.					

Scheme Name	**SBI ARBITRAGE OPPORTUNITIES FUND**					
Allotment Date	Nov 03, 2006					
Type of scheme	An open ended scheme investing in arbitrage opportunities					
Investment Objective	The investment objective of the Scheme is to provide capital appreciation and regular income for unitholders by identifying profitable arbitrage opportunities in the cash and derivative segments of the equity markets and the arbitrage opportunities available within the derivative segment and by investing the balance in debt and money market instruments. However, there is no guarantee or assurance that the investment objective of the scheme will be achieved.					
Basis and Policy of Investment (Strategy)	Arbitrage opportunities arise due to market inefficiencies. Fund seeks to exploit such inefficiencies that will manifest as mispricing in the cash and derivative segments of the equity markets and the arbitrage opportunities available within the derivative segment. The fund manager may use corporate action or event driven strategy where there is a potential opportunity for arbitrage in cash or derivate market such as dividend arbitrage or buy-back arbitrage or merger etc. Fund Manager will carry-out such arbitrage opportunities seeking to generate tax efficient risk free returns. In cases where gainful arbitrage opportunities does not exist, the scheme may hold its assets in debt and money market instruments till such time reasonable arbitrage opportunities present itself. The scheme would aim to seize arbitrage opportunities by buying stock in the cash market and simultaneously selling futures on the same stock in F&O segment of the exchange. It is the intention of the scheme to hold the cash market position and the derivative position till expiry to realize the arbitrage. However, if the opportunity is available the same positions will be rolled over to next month expiry by buying the current month future and selling the next month future. In this instance, the strategy would be to keep the underlying, buy back the current future position and sell the next month future position. Debt & money market portion managed by the fund manager by considering factors such as credit quality, interest rates, duration etc. For detailed investment strategy, please refer Scheme Information Document					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	33.2561	35.313			
	IDCW	17.489	19.0801			
Corpus (₹ in Crs)	8,948.60	**AAUM (₹ in Crs)**	31,391.01			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	3.6209	7.3172	6.8213	5.4213	6.7414	N.A.*
Direct Growth (%)	3.8896	7.8793	7.3622	5.9325	6.8514	6.0911
Benchmark (%)	4.3905	7.6481	7.0084	5.4161		
Benchmark Name	Nifty 50 Arbitrage Index					
Performance Justification (for 1 year period)	SBI Arbitrage Opportunities Fund has generated a portfolio return of 7.32% under regular plan and 7.88% under direct plan as compared to a return of 7.65% for its benchmark (Nifty 50 Arbitrage Index). Scheme has outperformed benchmark by 0.23% (direct plan). With the advent of technology on the trading desks and increase in size of arbitrage funds, arbitrage opportunities have shrunk drastically over the last few years.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Annexure-I

Scheme Name	**SBI EQUITY SAVINGS FUND**
Allotment Date	May 27, 2015
Type of scheme	An open ended scheme investing in equity, arbitrage and debt
Investment Objective	The investment objective of the scheme is to generate income by investing in arbitrage opportunities in the cash and derivatives segment of the equity market, and fixed income instruments. The Scheme also aims to generate long-term capital appreciation by investing a part of the Scheme's assets in equity and equity related instruments. However, there is no guarantee or assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The net assets of the Scheme are invested primarily into equity and equity related instruments including equity derivatives. The Scheme invests rest of the assets into debt and money market instruments for liquidity and regular income. The expected returns from this Scheme can be attributed to the following return drivers: Cash and Futures Equity Arbitrage: The scheme endeavours to achieve its primary objective of generating income by exploitation of arbitrage opportunities in equities market. Majority of equity exposure to stocks shall be offset by simultaneously taking equivalent exposure in derivatives. The scheme may invest into equity stocks in the cash market and take short position in futures market equivalent to the extent of equity assets that covers the exposure and only avail arbitrage between cash & futures market. Thus, the entire position may be used to lock risk free returns. Net Long Equity: The Scheme may take limited long only exposures to equity stocks in order to generate market related returns. The secondary objective of the Scheme to generate long-term capital appreciation is endeavoured to be achieved by investing a portion of the Scheme's assets in equity. The Scheme shall invest into a well-diversified portfolio of equity and equity related securities across market capitalisation and sectors to participate in the all-round growth of the Indian economy. Debt and Money Market Instruments: The Scheme may invest 10% - 35% of the net assets of the Scheme into debt and money market instruments. This portion of the scheme assets is discretionary to provide liquidity into the scheme, management of derivative margins and accrual of regular income. Foreign Securities: The scheme may seek investment opportunities in foreign securities including ADR/GDR/Foreign equity and overseas ETFs and debt securities subject to Regulations. Such investment may not exceed 35% of the net assets of the scheme. Exchange Traded Commodity derivatives: The Scheme may invest upto 10% in Exchange Traded Commodity Derivatives i.e., both futures and options contracts of the underlying assets. REITs / InvITs: The Scheme may invest in REIT / InvITs for regular income and capital appreciation.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	22.7194	25.0128

Benchmark (%)	(0.3855)	7.7597	8.7806	12.3318		
Benchmark Name	NIFTY Equity Savings Index					
Performance Justification (for 1 year period)	The fund continues to do well on a 3yr/5Yr basis providing positive excess return when compared to the benchmark. The fund over the last 1 year has marginally outperformed the benchmark. While 9MFY25 performance was good, the fund got impacted in Q4FY25 impacted by sharp volatility in the market especially in small & midcaps. Segment wise contribution across Equity, Fixed income, Arbitrage has been positive. REIT/Invit continue to providea dditional kicker to portfolio returns. On the Core equity, We continue to run concentrated bottom up fund strategy while maintaining the asset allocation recommendation in a band of +-5%. Equity maintained at 65% for equity taxation. We target absolute low double digit returns in the portfolio in the long term.					

Annexure-I

Scheme Name	**SBI BALANCED ADVANTAGE FUND**
Allotment Date	Aug 31, 2021
Type of scheme	An open-ended dynamic asset allocation fund
Investment Objective	The investment objective of the scheme is to provide long term capital appreciation / income from a dynamic mix of equity and debt investments.
Basis and Policy of Investment (Strategy)	The scheme endeavours to provide long term capital appreciation/income from a mix of equity and debt investments. The scheme may also invest in Government securities, money market instruments, securitised debt, corporate debentures and bonds, quasi Government bonds or any other debt instruments, equity and equity related instruments etc as permitted by regulations. Different asset classes exhibit different risk-return profile and relatively low correlation to each other as compared to investments within the same asset class. The fund manager will determine asset allocation between equity and debt depending on prevailing market and economic conditions. The debt-equity mix at any point of time will be a function of various factors such as equity valuations, interest rates, view on the asset classes and risk management etc. Equity: The scheme will invest in a well-diversified portfolio of equity & equity related instruments. The fund manager while selecting stocks will focus on the fundamentals of the business, the quality of management, the financial strength of the company, market leadership etc. The scheme will invest across sectors without any market cap or sectoral bias. Debt: The Scheme will invest in a diversified range of debt and money market instruments. The fund manager will allocate the assets of the scheme taking into consideration the prevailing interest rate scenario, yield curve, yield spread & the liquidity of the different instruments. The portfolio duration and credit exposures will be based on a thorough research of the general macroeconomic condition, political and fiscal environment, inflationary expectations & other economic considerations. The Scheme may also invest a part of its corpus in overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time. The Scheme may engage in Stock Lending activities. The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	14.67	15.2027
	IDCW	14.6702	15.203
Corpus (₹ in Crs)	23,108.34	**AAUM (₹ in Crs)**	32,075.34

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(2.2853)	7.3514	12.4829	N.A.	11.2865	8.5593
Direct Growth (%)	(1.8566)	8.3107	13.5411	N.A.	12.3997	8.5593
Benchmark (%)	(2.4246)	7.8451	9.4790	N.A.		
Benchmark Name	Nifty 50 Hybrid composite debt 50:50 Index					
Performance Justification (for 1 year period)	For Equity: The fund underperformed its benchmark by 0.5% in regular plan over past one year. Relatively low allocation to equities in the first six months of the year and underperformance of certain security bets hurt the fund over this period. For Debt: Fixed Income benefitted from falling yields in the market and the fund towards sovereign and high grade bonds.					

Scheme Name	**SBI OVERNIGHT FUND**
Allotment Date	Oct 01, 2002
Type of scheme	An open-ended debt scheme investing in overnight securities. A relatively low interest rate risk and relatively low credit risk.
Investment Objective	The objective is to provide the investors an opportunity to invest in overnight securities maturing on the next business day. There is no assurance that the investment objective of the Scheme will be achieved.
Basis and Policy of Investment (Strategy)	The Fund will invest in overnight securities to generate returns corresponding to the overnight rates in the money markets.

Benchmark Name	NIFTY Medium Duration Debt Index A-III					
Performance Justification (for 1 year period)	The Fund has outperformed the benchmark with 1 year returns for Direct and Regular plan being 8.8773% and 8.3101% vs 8.6445% for benchmark. Active duration management and allocation to high accrual bonds has helped achieve the performance.					

Annexure-I

Scheme Name	**SBI DYNAMIC BOND FUND**
Allotment Date	Feb 09, 2004
Type of scheme	An open ended dynamic debt scheme investing across duration. A relatively high interest rate risk and relatively low credit risk
Investment Objective	To provide investors attractive returns through investment in an actively managed portfolio of high quality debt securities of varying maturities
Basis and Policy of Investment (Strategy)	The investment strategy of the Scheme would be to allocate fund corpus across debt securities including Central and State Government securities, debt derivatives and money market instruments of various maturities on the basis of the expected interest rate scenario. Since the interest rates can be volatile at times, the fund will always endeavour to invest in highly liquid debt and money market instruments. The fund will follow an active duration management strategy as a result of which the portfolio turnover could be high. The scheme will predominantly be actively managed to achieve its investment objective.

Benchmark Name	CRISIL Dynamic Bond A-III Index					
Performance Justification (for 1 year period)	Active allocation to duration and judicious allocation to Gsec and corporate bonds have helped achieve the out performance over the benchmark.					

Scheme Name	**SBI SAVINGS FUND**
Allotment Date	Jul 19, 2004
Type of scheme	An open ended debt scheme investing in money market instruments. A relatively low interest rate risk and moderate credit risk.
Investment Objective	To provide the investors an opportunity to invest in money market instruments
Basis and Policy of Investment (Strategy)	An open-ended debt scheme investing in money market instruments as defined by SEBI / RBI from time to time. The investment strategy would be towards generating stable returns through a portfolio of Money Market instruments seeking to capture the term and credit spreads. The scheme will predominantly be actively managed to achieve its investment objective.

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	3.6377	7.2948	6.4800	5.5859	7.0063	6.9893
Direct Growth (%)	3.8779	7.8189	7.0256	6.1377	7.5545	7.0498
Benchmark (%)	3.6137	7.3671	6.8950	5.8204		
Benchmark Name	CRISIL Money Market A-I Index					
Performance Justification (for 1 year period)	The scheme has outperformed the benchmark, even as the overall portfolio construct focuses on higher yield as well as active duration management within the overall constraints . Active management of interest rate risks is being done within the broader mandate of the portfolio on duration.					

Annexure-I

Scheme Name	**SBI CREDIT RISK FUND**
Allotment Date	Jul 17, 2014
Type of scheme	An open-ended debt scheme predominantly investing in AA and below rated corporate bonds (excluding AA+ rated corporate bonds). A relatively high interest rate risk and relatively high credit risk.
Investment Objective	To provide the investors an opportunity to predominantly invest in corporate bonds rated AA or below (excluding AA+ rated corporate bonds) so as to generate attractive returns while maintaining moderate liquidity in the portfolio through investment in money market securities.
Basis and Policy of Investment (Strategy)	The scheme aims to generate attractive returns through high-yielding corporate debt securities which are rated below the highest rating. The fund will follow an active credit management strategy. Performance will depend on the Asset Management Company's ability to accurately assess the financial position of the security issuers regarding paying off its debt. The investments may be made in primary as well as secondary markets. The portfolio will be sufficiently diversified to minimize credit risk. The Scheme being open-ended, some portion of the portfolio will be invested in money market instruments so as to meet the liquidity requirements. The scheme will predominantly be actively managed to achieve its investment objective.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	44.6291	48.114
	Daily IDCW	14.7712	15.2672
	IDCW	20.1761	22.3903
Corpus (₹ in Crs)	502.95	**AAUM (₹ in Crs)**	2,356.62

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	4.1045	8.3844	7.2619	7.0730	7.7186	8.4532
Direct Growth (%)	4.4451	9.0991	7.9501	7.7567	8.4187	8.4532
Benchmark (%)	3.8617	7.9684	7.7157	8.0060		
Benchmark Name	NIFTY Credit Risk Bond Index B-II					
Performance Justification (for 1 year period)	Allocation to higher yielding NBFCs, units of Invit have helped to outperform the benchmark. Returns for 1 year in direct and regular schemes are 9.0991% and 8.3844% vs 7.9684% for benchmark.					

Scheme Name	**SBI MAGNUM CONSTANT MATURITY FUND**
Allotment Date	Jan 10, 2001
Type of scheme	An open-ended Debt Scheme investing in government securities having a constant maturity of around 10 years. A relatively
Investment Objective	To provide returns to the investors generated through investments predominantly in Government securities issued by the Central Government and/or State Government such that the Average Maturity of the portfolio is around 10 years.
Basis and Policy of Investment (Strategy)	Investment in Central and/or State Government securities are free of credit risk. However, the aim of the portfolio will be to make capital gains by actively managing interest rate risk. The scheme will predominantly be actively managed to achieve its investment objective.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	62.4521	64.8827
	IDCW	20.3116	21.1053

Benchmark (%)	4.2680	9.8559	7.3057	5.2071		
Benchmark Name	Nifty 10 yr Benchmark G-Sec Index					
Performance Justification (for 1 year period)	The scheme has a broad passive mandate with respect to maintaining a average maturity closer to 10y.					

Annexure-I

Scheme Name	**SBI MAGNUM GILT FUND**					
Allotment Date	Dec 30, 2000					
Type of scheme	An open-ended Debt Scheme investing in government securities across maturity. A relatively high interest rate risk and relatively low credit risk.					
Investment Objective	To provide returns to the investors generated through investments in Government securities issued by the Central Government and/or State Government(s).					
Basis and Policy of Investment (Strategy)	Investment in Central and/or State Government securities are considered to be free of credit risk. However the aim of the portfolio will be to make capital gains by actively managing interest rate risk. The scheme will predominantly be actively managed to achieve its investment objective.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**	**PF 1 Year**	**PF 2 Year**	**PF 3 Year**
	Growth	65.3284	69.1029	N.A.	65.3284	39.1851
	IDCW	20.0883	22.0547	20.1837	20.4246	19.8032
	PF Regular Growth	41.9393				
	PF Regular IDCW	N.A.				
Corpus (₹ in Crs)	1,760.38	**AAUM (₹ in Crs)**	10,012.48			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	3.3435	8.9377	7.7792	6.8268	8.0412	N.A.*
Direct Growth (%)	3.5876	9.4581	8.2955	7.3380	9.3490	7.5601
Benchmark (%)	4.0731	9.8149	7.7849	6.7398		
Benchmark Name	Nifty All Duration G-Sec Index					
Performance Justification (for 1 year period)	Curve steepening led by easing liquidity negatively impacted the 10x30y sovereign spreads over the second half of the last fiscal. This resulted in widening spreads and relative underperformance even as the broader yields moved lower.					

* Plan / Option launched prior to the existence of the benchmark index, hence benchmark returns for since inception period are not available.

Scheme Name	**SBI MAGNUM LOW DURATION FUND**					
Allotment Date	Jul 27, 2007					
Type of scheme	An open ended low duration debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 6 months and 12 months. A moderate interest rate risk and relatively high credit risk.					
Investment Objective	To provide investors an opportunity to generate regular income with reasonable degree of liquidity through investments in debt and money market instruments in such a manner that the Macaulay duration of the portfolio is between 6 months and 12 months.					
Basis and Policy of Investment (Strategy)	The scheme will invest its corpus in the entire range of debt and money market securities in line with the investment objective to provide attractive risk-adjusted returns to its investors through active management of credit risk and interest rate risk in its portfolio. The scheme will predominantly be actively managed to achieve its investment objective.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**	**Institutional Plan**

Benchmark (%)	3.7255	7.7981	6.0826	6.1014		
Benchmark Name	NIFTY Banking & PSU Debt Index A-II					
Performance Justification (for 1 year period)	Active allocation to duration and judicious allocation to Gsec and corporate bonds have helped achieve the out performance over the benchmark.					

Annexure-I

Scheme Name	**SBI CORPORATE BOND FUND**
Allotment Date	Feb 01, 2019
Type of scheme	An open-ended debt scheme predominantly investing in AA+ and above rated corporate bonds. A relatively high interest rate risk and moderate credit risk.
Investment Objective	To provide the investors an opportunity to predominantly invest in corporate bonds rated AA+ and above to generate additional spread on part of their debt investments from high quality corporate debt securities while maintaining moderate liquidity in the portfolio through investment in money market securities. However, there is no guarantee or assurance that the scheme's objective will be achieved. The scheme does not guarantee or assure any returns.
Basis and Policy of Investment (Strategy)	The scheme aims to generate attractive returns through high quality corporate debt securities which are rated AA+ and above. Performance will depend on the Asset Management Company's ability to accurately assess the financial position of the security issuers regarding paying off its debt. The investments may be made in primary as well as secondary markets. The portfolio will be sufficiently diversified to minimize credit risk. The Scheme being open-ended, some portion of the portfolio will be invested in money market instruments to meet the liquidity requirements.The scheme will predominantly be actively managed to achieve its investment objective.

Benchmark (%)	3.6009	7.6807	6.2489	6.3554		
Benchmark Name	NIFTY Corporate Bond Index A-II					
Performance Justification (for 1 year period)	Active allocation to duration and judicious allocation to Gsec and corporate bonds have helped achieve the out performance over the benchmark.					

Scheme Name	**SBI FLOATING RATE DEBT FUND**
Allotment Date	Oct 27, 2020
Type of scheme	An open-ended debt scheme investing predominantly in floating rate instruments (including fixed rate instruments converted to floating rate exposures using swaps/ derivatives). A moderate interest rate risk and relatively low credit risk.
Investment Objective	The investment objective of the scheme is to generate regular income through investment in a portfolio comprising substantially of floating rate debt instruments. The scheme may invest a portion of its net assets in fixed rate debt securities swapped for floating rate returns and money market instruments. However, there is no guarantee or assurance that the scheme's objective will be achieved. The scheme does not guarantee or assure any returns.
Basis and Policy of Investment (Strategy)	An open-ended debt scheme investing predominantly in floating rate instruments (including fixed rate instruments converted to floating rate exposures using swaps/derivatives). The scheme will predominantly be actively managed to achieve its investment objective.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	3.6444	8.0445	7.0321	N.A.	6.1515	5.6422
Direct Growth (%)	3.7325	8.2445	7.2407	N.A.	6.3617	5.6422
Benchmark (%)	3.6763	7.7872	6.4081	N.A.		
Benchmark Name	NIFTY Short Duration Debt Index A-II					
Performance Justification (for 1 year period)	Duration of the fund is closer to the higher tolerance band of 2. We continue to remain positive on the sovereign floaters given the steepness of the curve. Also allocation to CDs as well as AAA non SLR has helped capture some spread compression which we continue to remain positive upon.					

Annexure-I

Scheme Name	**SBI LONG DURATION FUND**			
Allotment Date	Dec 21, 2022			
Type of scheme	An open-ended debt scheme investing in instruments such that the Macaulay duration of the portfolio is greater than 7 Years (Please refer to the page no.44 for details on Macaulay's Duration). A Relatively High interest rate risk and Moderate Credit Risk			
Investment Objective	To generate returns by investing in debt and money market instruments such that the Macaulay duration of the scheme portfolio is greater than 7 years. However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.			
Basis and Policy of Investment (Strategy)	SBI Long Duration Fund will invest its corpus in debt and money market instruments in line with the investment objective to provide attractive risk-adjusted returns to its investors through active management of credit risk and interest rate risk in its portfolio. The scheme aims to generate returns through investment in long term bonds. The Scheme being open-ended, some portion of the portfolio may be invested in money market instruments to meet the liquidity requirements. The scheme will predominantly be actively managed to achieve its investment objective.

Benchmark (%)	1.9393	8.4388	7.6845	9.4323		
Benchmark Name	NIFTY 50 Hybrid Composite Debt 15:85 Index					
Performance Justification (for 1 year period)	Active management of interest rates along with a core portolio in corporate bonds has enabled the scheme to maintian a reasoanble carry while benefiting from interest rate movements.					

Annexure-I

Scheme Name	**SBI MAGNUM CHILDREN'S BENEFIT FUND- INVESTMENT PLAN**
Allotment Date	Sep 29, 2020
Type of scheme	An open-ended fund for investment for children having a lock-in for at least 5 years or till the child attains age of majority (whichever is earlier)
Investment Objective	The investment objective of the scheme is to generate long term capital appreciation by investing predominantly in equity and equity related securities of companies across sectors and market capitalizations. The scheme will also invest in debt and money market instruments with an endeavour to generate income. However, there can be no assurance that the investment objective of the Scheme will be realized.
Basis and Policy of Investment (Strategy)	The Scheme seeks to invest in Equity and equity related instruments, debt, Money Market Instruments including derivative. The investment strategy for Equity and Debt are as follows: Equity: The scheme will invest in a well-diversified portfolio of equity & equity related securities. The fund manager while selecting stocks will focus on the fundamentals of the business, the quality of management, the financial strength of the company, market leadership etc. The scheme will invest across sectors without any market cap or sectoral bias. Debt: The Scheme will invest in a diversified portfolio of high quality debt and money market instruments. The fund manager will allocate the assets of the scheme taking into consideration the prevailing interest rate scenario, yield curve, yield spread & the liquidity of the different instruments. The portfolio duration and credit exposures will be based on a thorough research of the general macroeconomic condition, political and fiscal environment, inflationary expectations & other economic considerations.

Performance Justification (for 1 year period)	For Equity Portion only: The one year performance of the fund has been slightly below benchmark, and the key drags have been stock selection in capital goods (OW Carborundum, Esab, AIA, Grindwell, Timken), besides stock specific drags (Kajaria, Sona BLW, Teamlease, LTTS); where we remain confident of the long term positioning. Within the equity allocation, we follow a largely bottom-up stock selection methodology, focusing on core long term stock ideas that can be held for the longer term given the retirement solution-oriented nature of the fund, as well as medium term satellite stock ideas that can benefit from improvement in industry cycles or valuation anomalies.					

Scheme Name	**SBI RETIREMENT BENEFIT FUND - CONSERVATIVE HYBRID PLAN**					
Allotment Date	Feb 10, 2021					
Type of scheme	An open-ended retirement solution oriented scheme having a lock-in of 5 years or till retirement age (whichever is earlier)					
Investment Objective	The investment objective of the scheme is to provide a comprehensive retirement saving solution that serves the variable needs of the investors through long term diversified investments in major asset classes. However, there can be no assurance that the investment objective of the Scheme will be realized.					
Basis and Policy of Investment (Strategy)	The total assets of this plan will be primarily invested in Debt and Money market instruments. However, this plan also provides for flexibility of investment in equity and equity related instruments. This Plan seeks to generate steady long-term capital appreciation with relatively low levels of risk.

Scheme Name	**SBI GOLD FUND**					
Allotment Date	Sep 12, 2011					
Type of scheme	An open ended Fund of Fund Scheme investing in SBI-ETF Gold					
Investment Objective	The investment objective of the Scheme is to seek to provide returns that closely correspond to returns provided by SBI-ETF Gold (erstwhile known as SBI Gold Exchange Traded Scheme). However, there can be no assurance that the investment objective of the Scheme will be realized.					
Basis and Policy of Investment (Strategy)	The scheme would invest in gold and endeavor to track price of the gold. The scheme invests in gold and gold bullion as underlying asset regardless of investment merit. The scheme may buy or sell gold at different points of time during the trading session at the then prevailing prices which may not correspond to its closing price, disinvestments to meet redemptions, transactions cost and recurring expenses, execution of large buy/sell orders etc. This may cause some distortion, but the scheme will try to minimize the tracking error. The scheme will use a passive approach to achieve scheme's investment objective.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	26.2528	27.4532

Benchmark (%)	20.2910	34.5188	20.1375	15.4764		
Benchmark Name	Price of Gold - The price here refers to the morning fixing of Gold by London Bullion Market association (LBMA)					
Performance Justification (for 1 year period)	SBI Gold Fund has generated a return of 30.9523% under regular plan & 31.1956% under direct plan for the year ended 31st March 2025, as compared to a return of 34.5188% for its benchmark. The fund does not take any view on the market, the objective being to replicate the performance of Gold.					

Annexure-I

Scheme Name	**SBI SILVER ETF FUND OF FUND**			
Allotment Date	Jul 11, 2024			
Type of scheme	An open ended Fund of Fund Scheme investing in SBI Silver ETF			
Investment Objective	The investment objective of the Scheme is to seek to provide returns that closely correspond to returns provided by SBI Silver ETF. However, there can be no assurance that the investment objective of the Scheme will be realized.			
Basis and Policy of Investment (Strategy)	The Scheme will invest in silver and/or silver related instruments and will endeavor to track performance of physical silver in domestic prices. The scheme will use a "passive" or indexing approach to achieve scheme's investment objective. The AMC does not make any judgments about the investment merit of a particular commodity, nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/ underperformance vis-à-vis a benchmark.			
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**	
	Growth	10.8245	10.8535

Benchmark (%)	11.6192	N.A.	N.A.	N.A.		
Benchmark Name	Domestic price of silver (Based on LBMA Silver daily spot fixing price)					
Performance Justification (for 1 year period)	SBI Silver ETF Fund of Fund scheme has generated a return of 8.2450% under regular plan and 8.5350% under direct plan for the period 11 July 2024 to 31 March 2025 (i.e. since inception), as compared to a return of 8.6971% for its benchmark (Domestic price of silver (Based on LBMA Silver daily spot fixing price). The scheme does not take any view on the market, the objective being to replicate the performance of its benchmark.					

Scheme Name	**SBI NIFTY INDEX FUND**			
Allotment Date	Jan 17, 2002			
Type of scheme	An open-ended Scheme tracking Nifty 50 Index.			
Investment Objective	The scheme will adopt a passive investment strategy. The scheme will invest in stocks comprising the Nifty 50 index in the same proportion as in the index with the objective of achieving returns equivalent to the Total Returns Index of Nifty 50 index by minimizing the performance difference between the benchmark index and the scheme. The Total Returns Index is an index that reflects the returns on the index from index gain/ loss plus dividend payments by the constituent stocks.			
Basis and Policy of Investment (Strategy)	The scheme will adopt a passive investment strategy. The scheme will invest in stocks comprising the Nifty 50 index in the same proportion as in the index with the objective of achieving returns equivalent to the Total Returns Index of Nifty 50 index by minimizing the performance difference between the benchmark index and the scheme. The Total Returns Index is an index that reflects the returns on the index from index gain/ loss plus dividend payments by the constituent stocks. The scheme will primarily invest in the securities constituting the underlying index. However, due to changes in underlying index the scheme may temporarily hold securities which are not part of the index. For example, the portfolio may hold securities not included in the respective underlying index as result of certain changes in the underlying index such as such as reconstitution, addition, deletion etc. The fund manager's endeavour would be to rebalance the portfolio in order to mirror the index; however, there may be a short period where the constituents of the portfolio may differ from that of the underlying index. These investments which fall outside the underlying index as mentioned above shall be rebalanced within a period of 7 calendar days.			
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**

Benchmark (%)	(8.5113)	6.6536	11.7734	23.7233		
Benchmark Name	Nifty 50 TRI					
Performance Justification (for 1 year period)	SBI Nifty Index Fund has generated a return of 6.083% under regular plan & 6.3638% under direct plan for the year ended 31st March 2025, as compared to a return of 6.6536% for its benchmark (Nifty 50 Index). The fund does not take any view on the market, the objective being to replicate the performance of its benchmark.					

Annexure-I

Scheme Name	**SBI NIFTY NEXT 50 INDEX FUND**
Allotment Date	May 19, 2021
Type of scheme	An Open Ended Scheme tracking Nifty Next 50 Index
Investment Objective	The investment objective of the scheme is to provide returns that closely correspond to the total returns of the securities as represented by the underlying index, subject to tracking error. However, there is no guarantee or assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The scheme will adopt a passive investment strategy. The scheme will invest in stocks comprising the Nifty Next 50 index in the same proportion as in the index with the objective of achieving returns equivalent to the Total Returns Index of Nifty Next 50 index by minimizing the performance difference between the benchmark index and the scheme. The Total Returns Index is an index that reflects the returns on the index from index gain/ loss plus dividend payments by the constituent stocks. The scheme will primarily invest in the securities constituting the underlying index. However, due to changes in underlying index the scheme may temporarily hold securities which are not part of the index. For example, the portfolio may hold securities not included in the respective underlying index as result of certain changes in the underlying index such as reconstitution, addition, deletion etc. The fund manager's endeavour would be to rebalance the portfolio in order to mirror the index; however, there may be a short period where the constituents of the portfolio may differ from that of the underlying index. 	Growth	16.2158	16.4491
	IDCW	16.2163	16.4486
Corpus (₹ in Crs)	748.62	**AAUM (₹ in Crs)**	1,046.85

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(18.2296)	4.6903	N.A.	N.A.	21.3965	23.0074
Direct Growth (%)	(18.0381)	5.2614	N.A.	N.A.	22.0940	23.0074
Benchmark (%)	(17.8189)	6.0177	N.A.	N.A.		
Benchmark Name	Nifty Smallcap 250 TRI					
Performance Justification (for 1 year period)	SBI Nifty Smallcap 250 Index Fund scheme has generated a return of 4.6903% under regular plan and 5.2614% under direct plan for the period 31st March 2024 to 31st March 2025, as compared to a return of 6.0177% for its benchmark (Nifty Smallcap 250 TRI). The scheme does not take any view on the market, the objective being to replicate the performance of its benchmark.					

Scheme Name	**SBI CPSE BOND PLUS SDL SEP 2026 50 50 INDEX FUND**
Allotment Date	Jan 19, 2022
Type of scheme	An open-ended Target Maturity Index Fund investing in constituents of Nifty CPSE Bond Plus SDL Sep 2026 50:50 Index. A relatively high interest rate risk and relatively low credit risk.
Investment Objective	The investment objective of the scheme is to provide returns that closely correspond to the total returns of the securities as represented by the underlying index, subject to tracking error. However, there is no guarantee or assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The Scheme will track Nifty CPSE Bond Plus SDL Sep 2026 50:50 Index and will use a "passive" or indexing approach to endeavour to achieve scheme's investment objective. Unlike other funds, the scheme will not try to "beat" the market it tracks and do not seek temporary defensive positions when market decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular security nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/ underperformance vis-à-vis a benchmark. Since the scheme is an index fund, the scheme will only invest in the securities constituting the underlying index. However, under certain circumstances the scheme may temporarily hold securities which are not part of the index. For example, including but not limited to the below situations: 1. post allotment of the scheme until full deployment is achieved, 2. the portfolio may hold securities not included in the respective underlying index as result of certain changes in the underlying index such as reconstitution, addition, deletion etc. The fund manager's endeavor would be to rebalance the portfolio in order to mirror the index; however, there may be a short period where the constituents of the portfolio may differ from that of the underlying index. The Scheme may also invest a portion of its portfolio in Government securities maturing on or before the maturity date of the Scheme, Repo in government securities and TREPS to manage the liquidity requirement. In case of any deviation from the asset allocation pattern, the portfolio to be rebalanced by AMC within 7 days from the date of said deviation.

NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	11.9812	12.0498

Performance Justification (for 1 year period)	The portfolio is an index , roll down product and is being managed as per the benchmark and regulatory constraints.					

Annexure-I

Scheme Name	**SBI CRISIL IBX SDL INDEX-SEPT 2027 FUND**
Allotment Date	Oct 04, 2022
Type of scheme	An open-ended Target Maturity Index Fund investing in constituents of CRISIL IBX SDL Index – September 2027 Index. A
Investment Objective	The investment objective of the scheme is to provide returns that closely correspond to the total returns of the securities as represented by the underlying index, subject to tracking error. However, there is no guarantee or assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The Scheme will track CRISIL IBX SDL Index – September 2027 and will use a "passive" or indexing approach to endeavour to achieve scheme's investment objective. Unlike other funds, the scheme will not try to "beat" the market it tracks and do not seek temporary defensive positions when market decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular security nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/ underperformance vis-à-vis a benchmark. Since the scheme is an index fund, the scheme will only invest in the securities constituting the underlying index. However, under certain circumstances the scheme may temporarily hold securities which are not part of the index. For example, including but not limited to the below situations:post allotment of the scheme until full deployment is achieved, the portfolio may hold securities not included in the respective underlying index as result of certain changes in the underlying index such as reconstitution, addition, deletion etc. The Scheme may also invest a portion of its portfolio in government securities maturing on or before the maturity date of the Scheme, money market instruments including triparty repo and units of liquid mutual fund to manage the liquidity requirement.

Benchmark Name	CRISIL IBX SDL Index September-2027					
Performance Justification (for 1 year period)	The portfolio is an index , roll down product and is being managed as per the benchmark and regulatory constraints.					

Scheme Name	**SBI BSE SENSEX INDEX FUND (PREVIOUSLY KNOWN AS SBI S&P BSE SENSEX INDEX FUND)**
Allotment Date	May 26, 2023
Type of scheme	An open-ended scheme tracking S&P BSE Sensex Index
Investment Objective	The investment objective of the scheme is to replicate the composition of the BSE Sensex Index and to generate returns that are commensurate with the performance of the S&P BSE Sensex Index, subject to tracking errors. However, there is no guarantee or assurance that the investment objective of the scheme will be achieved.
Basis and Policy of Investment (Strategy)	The scheme will adopt a passive investment strategy. The scheme will invest in stocks comprising the S&P BSE Sensex Index in the same proportion as in the index with the objective of achieving returns equivalent to the Total Returns Index of S&P BSE Sensex Index by minimizing the performance difference between the benchmark index and the scheme. The Total Returns Index is an index that reflects the returns on the index from index gain/ loss plus dividend payments by the constituent stocks.

Benchmark (%)	(7.8778)	6.3878	N.A.	N.A.		
Benchmark Name	BSE Sensex TRI					
Performance Justification (for 1 year period)	SBI BSE Sensex Index Fund has generated a return of 5.8056% under regular plan & 6.0534% under direct plan for the year ended 31st March 2025, as compared to a return of 6.3878% delivered by its benchmark (BSE Sensex Index) for the same period. The scheme does not take any view on the market, the objective being to replicate the performance of its benchmark.					

Annexure-I

Scheme Name	**SBI NIFTY50 EQUAL WEIGHT INDEX FUND**
Allotment Date	Jan 31, 2024
Type of scheme	An open-ended scheme replicating/tracking NIFTY50 Equal Weight Index
Investment Objective	The investment objective of the scheme is to provide returns that correspond to the total returns of the securities as represented by the underlying index, subject to tracking errors. However there is no guarantee or assurance that the investment objective of the scheme would be achieved
Basis and Policy of Investment (Strategy)	The Scheme will track NIFTY50 Equal Weight Index and will use a "passive" or indexing approach to endeavour to achieve scheme's investment objective. Unlike other funds, the scheme will not try to "beat" the market it track and do not seek temporary defensive positions when market decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/ underperformance vis-à-vis a benchmark. The scheme will primarily invest in the securities constituting the underlying index. However, Due to corporate action in companies comprising of the index, the scheme may be allocated/allotted securities which are not part of the index. The scheme may hold upto 5% of their total assets in stocks not included in the corresponding Underlying Index. For example, the AMC may invest in stocks not included in the relevant underlying index in order to reflect various corporate actions (such as mergers) and other changes in the relevant Underlying Index (such as reconstitutions, additions, deletions and these holdings will be in anticipation and in the direction of impending changes in the underlying index). These investments which fall outside the underlying index shall be rebalanced within a period of 7 calendar days. Derivative Strategies The Scheme may take exposure to derivatives for hedging and/or non-hedging purpose as permitted by regulations from time to time. Such exposure to derivative instruments will be in line with the investment objective and overall strategy of the scheme. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies". The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Benchmark Name	S&P 500					
Performance Justification (for 1 year period)	SBI International Access- US Equity FoF is a Fund of fund structure and the performance is driven by the underlying fund's performance.					

Annexure-I

Scheme Name	**SBI GOLD ETF**		
Allotment Date	May 18, 2009		
Type of scheme	An open ended Gold Exchange Traded Scheme		
Investment Objective	The investment objective of the fund is to seek to provide returns that closely correspond to returns provided by price of gold through investment in physical Gold. However, the performance of the scheme may differ from that of the underlying asset due to tracking error. However, there can be no assurance that the investment objective of the Scheme will be realized.		
Basis and Policy of Investment (Strategy)	The scheme would invest in gold and endeavor to track price of the gold. The scheme invests in gold and gold bullion as underlying asset regardless of investment merit. The scheme may buy or sell gold at different points of time during the trading session at the then prevailing prices which may not correspond to its closing price, disinvestments to meet redemptions, transactions cost and recurring expenses, execution of large buy/sell orders etc. This may cause some distortion, but the scheme will try to minimize the tracking error. The scheme will use a passive approach to achieve scheme's investment objective.		
NAV Per Unit as on March 31, 2025	**Single Plan**	77.9175	
Corpus (₹ in Crs)	97.97	**AAUM (₹ in Crs)**	5,550.91

Benchmark Name	Price of Gold - The price here refers to the morning fixing of Gold by London Bullion Market association (LBMA)					
Performance Justification (for 1 year period)	The fund does not take any view on the market, the objective is to replicate the performance of Gold.					

Scheme Name	**SBI SILVER ETF**		
Allotment Date	Jul 03, 2024		
Type of scheme	An open-ended Exchange Traded Fund tracking price of silver		
Investment Objective	The investment objective of the scheme is to generate returns that are in line with the performance of physical silver in domestic prices, subject to tracking error.		
Basis and Policy of Investment (Strategy)	The Scheme will invest in silver and/or silver related instruments and will endeavor to track performance of physical silver in domestic prices. The scheme will use a "passive" or indexing approach to achieve scheme's investment objective. The AMC does not make any judgments about the investment merit of a particular commodity, nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/ underperformance vis-à-vis a benchmark.		
NAV Per Unit as on March 31, 2025	**Single Plan**	99.2828	
Corpus (₹ in Crs)	78.81	**AAUM (₹ in Crs)**	494.45

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**

Benchmark Name	CRISIL Medium Term Debt Index					
Performance Justification (for 1 year period)	Scheme investments as per SID Limits and Asset Allocation Re-investment of Coupon is done as per FMP Maturity. The falling interest rate scenario has negatively impacted the re-investment rates of coupons and intermediate maturities as compared with the assumed levels at the time of inception.					

Scheme Name	**SBI RESURGENT INDIA OPPORTUNITIES SCHEME**			
Allotment Date	Apr 10, 2006			
Type of scheme	An open-ended equity scheme			
Investment Objective, basis and policy of Investment Strategy	To provide investors with opportunities for long-term growth in capital through well-researched investments in a diversified basket of stocks of Indian Companies. However, there can be no assurance that the investment objective of the Scheme will be realized.			
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**		
	Single Plan	222.3548		
Corpus (₹ in Crs)	26.24	**AAUM (₹ in Crs)**	611.59	

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(10.2134)	13.3358	18.8077	30.3976	17.7466	12.8165
Benchmark (%)	(9.7350)	6.8207	13.0485	24.7852		
Benchmark Name	S&P BSE 100 TRI					
Performance Justification (for 1 year period)	The Funds strategy of running high active share and higher portion of smaller cap companies worked well. Additionally, exposure to cyclical sectors and having more concentrated positions worked. Over the recent times, we have reduced active share, reduced concentration, and sporadically increased cash levels in response to changing market dynamics. The portfolio is more tuned to bottom up stock picks and we have increased exposure to consumption, textile and healthcare					

Annexure-I

Scheme Name	**SBI LONG TERM ADVANTAGE FUND - SERIES III**					
Allotment Date	Mar 31, 2016					
Type of scheme	A 10 year close ended Equity Linked Savings Scheme					
Investment Objective	To generate capital appreciation over a period of ten years by investing predominantly in equity and equity-related instruments of companies along with income tax benefit. However, there can be no assurance that the investment objective of the Scheme will be realized.					
Basis and Policy of Investment (Strategy)	The funds collected under the scheme shall be invested in equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of twelve months. SBI Long Term Advantage Fund is a diversified equity fund. The fund will invest into equity stock ofcompanies listed in India. it's long term equity strategy, the portfolio would be constructed using combination of Asset allocation, top-down approach and bottom-up approach.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	41.1896	43.8793			
	IDCW	34.8778	36.9807			
Corpus (₹ in Crs)	16.89	**AAUM (₹ in Crs)**	74.65			

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(13.1933)	8.6691	16.1136	32.0494	17.0222	15.5952
Direct Growth (%)	(13.0161)	9.1150	16.6064	32.6340	17.8471	15.5952
Benchmark (%)	(11.8411)	5.9644	13.7736	26.3340		
Benchmark Name	BSE 500 TRI					
Performance Justification (for 1 year period)	The fund continued its outperformance versus benchmark on a 1Yr/3Yr/5Yr basis. Our focus on ‘change at margin’ continue to deliver outperformance in the fund. We run a bottom-up stock picking up strategy with a larger proportion to mid and small caps. With market valuations remaining high. We intend to be nimble footed and the small size of the funds helps us to generate decent returns.					

Scheme Name	**SBI LONG TERM ADVANTAGE FUND - SERIES IV**					
Allotment Date	Mar 31, 2017					
Type of scheme	A 10 year close ended Equity Linked Savings Scheme					
Investment Objective	To generate capital appreciation over a period of ten years by investing predominantly in equity and equity-related instruments of companies along with income tax benefit. However, there can be no assurance that the investment objective of the Scheme will be realized.					
Basis and Policy of Investment (Strategy)	The funds collected under the scheme shall be invested in equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of twelve months. SBI Long Term Advantage Fund is a diversified equity fund. The fund will invest into equity stock ofcompanies listed in India. it's long term equity strategy, the portfolio would be constructed using combination of Asset allocation, top-down approach and bottom-up approach.					
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**			
	Growth	42.9701	45.0521			
	IDCW	36.4043	38.2278

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(15.3692)	8.9130	12.9116	31.7860	19.9752	14.4095
Direct Growth (%)	(15.1849)	9.3960	13.4167	32.3896	20.6864	14.4095
Benchmark (%)	(11.8411)	5.9644	13.7736	26.3340		
Benchmark Name	BSE 500 TRI					
Performance Justification (for 1 year period)	The fund is benchmarked to the BSE500 which is nearly 80% large cap (top 100 companies on market cap rank). While we were running a bottom-up strategy till recently, we are now running stock selection basis the q-score model which is biased towards large caps. This is given our negative view on small and mid-caps and to protect the significant excess returns that we’ve generated over the last eight years.					

Annexure-I

Scheme Name	**SBI LONG TERM ADVANTAGE FUND - SERIES V**		
Allotment Date	Mar 27, 2018		
Type of scheme	A 10 year close ended Equity Linked Savings Scheme		
Investment Objective	To generate capital appreciation over a period of ten years by investing predominantly in equity and equity-related instruments of companies along with income tax benefit. However, there can be no assurance that the investment objective of the Scheme will be realized.		
Basis and Policy of Investment (Strategy)	The funds collected under the scheme shall be invested in equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of twelve months. SBI Long Term Advantage Fund is a diversified equity fund. The fund will invest into equity stock ofcompanies listed in India. it's long term equity strategy, the portfolio would be constructed using combination of Asset allocation, top-down approach and bottom-up approach.		
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	26.7776	27.7993
	IDCW	26.7665	27.8003
Corpus (₹ in Crs)	127.45	**AAUM (₹ in Crs)**	346.00

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**

Direct Growth (%)	(5.9684)	27.9688	17.6612	27.7083	15.6871	14.4529
Benchmark (%)	(11.8411)	5.9644	13.7736	26.3340		
Benchmark Name	BSE 500 TRI					
Performance Justification (for 1 year period)	The fund is outperforming benchmark due to our bottom-up stock selection strategy which focuses on high conviction ideas from the research team and sizes them up with high weights in the portfolio.					

Scheme Name	**SBI LONG TERM ADVANTAGE FUND - SERIES VI**		
Allotment Date	Jul 17, 2018		
Type of scheme	A 10 year close ended Equity Linked Savings Scheme		
Investment Objective	To generate capital appreciation over a period of ten years by investing predominantly in equity and equity-related instruments of companies along with income tax benefit. However, there can be no assurance that the investment objective of the Scheme will be realized.		
Basis and Policy of Investment (Strategy)	The funds collected under the scheme shall be invested in equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of twelve months. SBI Long Term Advantage Fund is a diversified equity fund. The fund will invest into equity stock ofcompanies listed in India. it's long term equity strategy, the portfolio would be constructed using combination of Asset allocation, top-down approach and bottom-up approach.		
NAV Per Unit as on March 31, 2025	**Option**	**Regular Plan**	**Direct Plan**
	Growth	27.5990	28.6381
	IDCW	27.6048	28.6138
Corpus (₹ in Crs)	93.84	**AAUM (₹ in Crs)**	294.36

Performance	**6 months**	**1 year**	**3 years**	**5 years**	**Since Inception Scheme**	**Since Inception Benchmark**
Regular Growth (%)	(16.5692)	4.7182	16.5361	27.4631	16.3351	14.4190
Direct Growth (%)	(16.4222)	5.0924	16.9701	27.9922	16.9777	14.4190
Benchmark (%)	(11.8411)	5.9644	13.7736	26.3340		
Benchmark Name	BSE 500 TRI					
Performance Justification (for 1 year period)	Fund performance over longer periods (3 and 5 years) continues to be strong and 1 year performance is marginally below benchmark. Fund runs very high active share (~90%) and is more tuned to smaller companies. Recently market has moved towards large caps and we have (i) reduced active share to ~80% and (ii) reduced portfolio concentration. However, we overall continue with the high conviction bottom up approach for the fund and expect long term outperformance to continue notwithstanding some drawdowns over the last 6 months.					

Annexure-I

Scheme Name	**SBI LONG TERM ADVANTAGE FUND - SERIES I**					
Allotment Date	Feb 04, 2015					
Type of scheme	A 10 year close ended Equity Linked Savings Scheme					
Investment Objective	To generate capital appreciation over a period of ten years by investing predominantly in equity and equity-related instruments of companies along with income tax benefit. However, there can be no assurance that the investment objective of the Scheme will be realized.					
Basis and Policy of Investment (Strategy)	The funds collected under the scheme shall be invested in equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of twelve months. STEWARDSHIP REPORT

2024-25

JUNE 19, 2025

SBI FUNDS MANAGEMENT LIMITED

Introduction

Welcome to SBIFML's Stewardship Report 2024-25, where we delve into the vital world of responsible investment and the crucial role stewardship plays within this framework. In an era of growing awareness and concern about environmental, social, and governance (ESG) factors, responsible investment has emerged as a powerful means of aligning financial goals with sustainable practices. Stewardship, as an integral component of responsible investment, provides investors with the opportunity to exercise active ownership, engage with companies, and leverage their voting rights to drive positive change.

The concept of responsible investment goes beyond the traditional focus on financial returns; it recognizes that businesses have broader responsibilities to society and the environment. Responsible investors seek to integrate ESG considerations into their investment decisions, aiming to generate both financial and societal value. By allocating capital to companies that demonstrate sound ESG practices, investors can encourage sustainable business models and contribute to a more inclusive and sustainable future.

At the heart of responsible investment lies the principle of stewardship. Stewardship entails the active and engaged management of investments, where investors adopt a long-term perspective and assume a fiduciary duty to protect and enhance the value of their assets. Stewards go beyond passive ownership; they actively monitor and influence the companies in which they invest, fostering accountability, transparency, and responsible practices.

Engagement and voting are two pivotal tools of active ownership. Engagement involves direct dialogue and collaboration between investors and companies to address ESG concerns, influence strategic decisions, and promote positive change. By engaging with company management, investors can encourage the adoption of sustainable practices, advocate for improved corporate governance, and foster better stakeholder relations. This active dialogue serves as a catalyst for positive transformation within companies and helps to align their practices with sustainable development objectives.

Voting, on the other hand, allows investors to exercise their rights as shareholders during corporate decision-making processes. By casting votes on matters such as board appointments, executive compensation, and related party transactions, investors can influence company behaviour and shape corporate practices. Voting acts as a tangible expression of investor values, providing an avenue for collective action and holding companies accountable for their actions.

SBI Funds Management Limited's (SBIFML/the AMC) vision is to be a trusted and respected Asset Manager by being an ethical, responsive and innovative partner in investment solutions. The AMC's fiduciary responsibilities towards its clients include long-term wealth creation, protection of interest of investors and risk mitigation; and towards the community at large include matters of social, governance and environmental factors.

At SBIFML, it is a core belief that a business run in the best interests of all stakeholders seldom fails to create lasting value for its investors. This responsibility of not trying to maximize short-term profitability but ensuring optimization of long-term return and risks is well elucidated in our Responsible Investment Policy. The Stewardship Code (Policy) is a natural extension of the AMC's responsibility to protect and enhance the long-term economic value of our clients' assets. This policy is applicable for Mutual Fund as well as AIF (Alternative Investment Fund) activities undertaken by SBI Funds Management Limited.

In this stewardship report, we account for the stewardship activities undertaken in FY25 by SBIFML.

SEBI vide its circular no. CIR/CFD/CMDI/168/2019 dated December 24, 2019 ("SEBI circular") has mandated all Mutual Funds and Alternative Investment Funds to frame Stewardship Code in relations to their investments in listed equities. The circular requires reporting of stewardship activities as prescribed in the circular. SEBI also circulated a Consultation Paper on ESG Disclosures, Rating and Investing in Feb 2023[1] which advocated for a separate section on Stewardship Activities performed under the ESG Fund. Post this, SEBI, under its circular no. SEBI/HO/IMD/IMD-I – PoD1/P/CIR/2023/125 dated July 20, 2023[2], mandated the ESG Funds to provide the fund manager's commentary highlighting the stewardship initiatives under the fund. This commentary and stewardship activities carried out under the fund are available in the scheme annual report of the SBI ESG Exclusionary Strategy Fund.

Principle 1 Institutional Investors should formulate a comprehensive policy on the discharge of their stewardship responsibilities, publicly disclose it, review and update it periodically

Compliance Status: Complied with

The Board of AMC and Trustee Company approved the Stewardship Code on February 26, 2020. Further, an updated policy was reviewed and approved by the Board of AMC and Trustee Company at their meeting held on October 28, 2024 and October 29, 2024 respectively.

Our Stewardship Code may be accessed here: https://www.sbimf.com/docs/default-source/disclosures/sbi-mutual-fund's-stewardship-code.pdf

Principle 2 Institutional investors should have a clear policy on how they manage conflicts of interest in fulfilling their stewardship responsibilities and publicly disclose it.

Compliance Status: Complied with

SBIFML has designed the Policy for Management of Conflict of Interest to ensure that the interest of the client/beneficiary is placed before the interest of the AMC. A Committee comprising of Deputy CEO, Chief Risk Officer and Chief Compliance Officer & Company Secretary has been constituted to deal with exceptional circumstances of conflict. The Chief Investment Officer (s) will be a permanent invitee to this committee.

SBIFML will identify actual or potential conflict of interest situations and shall manage them in line with the Policy. In FY25, there were 33 voting resolutions from 5 group companies of SBI. Since SBIFML's MD is appointed by SBI, he recuses himself from voting on such resolutions. In FY25, SBIFML MD recused himself from voting on all 33 resolutions in accordance with the proxy voting policy.

There was no other significant instance of conflict of interest noted / reported during the period. SBIFML's dealings with investee companies which are a group entity have been carried out at arms-length basis and are in compliance with applicable laws and regulations.

[2] https://www.sebi.gov.in/legal/circulars/jul-2023/new-category-of-mutual-fund-schemes-for-environmental-social-and-governance-esg-investing-and-related-disclosures-by-mutual-funds_74186.html

Principle 3 Institutional investors should monitor their investee companies Compliance Status:

Compliance Status: Complied with

The Fund Management & Research Team (referred to as investment team) is responsible for the monitoring of the companies invested in their company's performance. The investment team continues to monitor each investee company. As a part of this process, the fund manager/analysts, where feasible, attend meetings/conference calls conducted by the management of the investee company. Fund Managers and analysts use publicly available information, sell side research and industry information and endeavour to engage with selected investee companies at least once a year, through any means detailed above. The Investment Committee has reviewed the investee company monitoring and engagement activities for the said period.

Principle 4 Institutional investors should have a clear policy on intervention in their investee companies. Institutional investors should also have a clear policy for collaboration with other institutional investors where required, to preserve the interests of the ultimate investors, which should be disclosed.

Compliance Status: Complied with

SBIFML would intervene in its investee companies, on a case-to-case basis, wherever it deems necessary. The decision in this regard will be taken by the Committee consisting of Chief Investment Officer (CIO) - Equity, CIO - Fixed Income, respective Fund Managers(s), ESG analyst(s), Chief Risk Officer, Chief Compliance Officer or any other official(s) as invited.

Following are the details of our engagements, especially on ESG related topics in Financial Year (FY) 2024-25:

SBIFML believes in being a steward for all its investee companies and nudge them towards better ESG disclosures as well as improving their initiatives year on year. SBIFML also believes that along with corporate engagements, interactions with other non-corporate stakeholders like regulators, investors, industry associations, NGOs, research organisation etc. are critical to creating the whole ecosystem around ESG as part of the AMC's fiduciary responsibility.

In FY25, SBIFML expanded its reach and engaged with corporate and non-corporate stakeholders on a variety of ESG topics to gain more knowledge on ESG issues, to better incorporate the ESG lens on investments and to make an impact on the ESG ecosystem at large.

Corporate Engagements

In FY25, SBIFML conducted 274[3] corporate engagements, out of which 93 (35.4%) were carried out during proxy voting, 107 (39.05%) were carried out to encourage investee companies to improve ESG disclosures and to know more about their ESG initiatives, and 74 (27.01%) were carried out on specific ESG topics material to the companies. Of all these engagements, overall ESG practices were discussed in 118 (43.07%) engagements, environmental topics were discussed in 56 (20.44%) engagements and social topics were discussed in 3 (1.09%) engagements. Table 1 and 2 provide the summary.

[3] *Note: The numbers between FY24 and FY25 look different because of change in methodology for counting voting engagements. From FY25, we count only the engagements where companies have provided written clarifications or set calendars for calls vs FY24 where telephonic/verbal communications were also considered as engagements.*

Table 1: Corporate Engagements in FY25		
Engagements	**Numbers**	**Percentage**
Engagements on material topics	74	27.01%
Engagements on ESG assessment	107	39.05%
Engagements during voting	93	33.94%
Total engagements	274	

Table 2: Pillar-wise Corporate Engagements in FY25		
Pillar wise Engagements	**Numbers**	**Percentage**
Overall ESG Initiatives	118	43.07%
Environmental	56	20.44%
Social	97	35.40%
Governance	3	1.09%
Total	274	

Engagement Process and Levels:

SBIFML prioritizes companies for engagement through the course of a financial year based on presence in ESG fund and themes decided in the beginning of the financial year. However, based on requests from investee companies and due to any concerns or opportunities, observed through the year, ad-hoc engagements are added. The AMC reaches out to the companies via letters, emails or queries using various forums and meetings to raise ESG related issues. At least one meeting with the company, where ESG issues are discussed as considered as level 1 engagements. If a second meeting is held to discuss the ESG issues further, it is considered as level 2 engagement. Materiality assessments where SBIFML participates are considered level 2 engagements as they help companies define their ESG strategies. Level 3 engagements are those in which more than two meetings have been held to discuss the ESG issues in depth, or an outcome has been achieved. These outcomes can vary from improvement in ESG ratings of the firm, increased disclosures by the firm, improved initiatives by the firm, voting by the AMC based on their ESG initiatives or divestment or reduction in position due to ESG issues etc.

Select case studies from the engagements are presented in the Stewardship Report. Engagements can be a multi-year process, therefore SBIFML team keeps engaging with companies continuously when objective-led engagements are undertaken. SBIFML team records and circulates meeting notes as it not only helps to understand the progress in an engagement but also helps during ESG Audits.

Out of the 274 corporate engagements carried out through the year, 151 engagements (55.11%) were level 1 engagements, 13 (4.74%) were level 2 and 110 (40.15%) were level 3 engagements. Table 3 provides the summary.

Table 3: Levels of Corporate Engagement in FY25		
Level 1	151	55.11%
Level 2	13	4.74%
Level 3	110	40.15%
Total	274	

Under corporate engagements, SBIFML focused on deepening the focus on identification of ESG related red flags and opportunities within investee companies and also explored ways of effective communication and engagement with the companies. Much progress was made in ESG integration initiatives with wider adoption of internal ESG assessment framework for unlisted companies and new IPOs where ESG data is not published, nor the issuers are rated by external ESG ratings providers. The sheer number of new ESG assessments done on SBIFML's internal framework is testimony to the robust integration mechanism followed by the fund house since this research is done in-house by the financial and the ESG analysts together and is verified by the Head of Research and subsequently by CIO-Equities or CIO-Fixed Income. This ESG assessment is made a part of the initiation report for each stock which is invested in for the first time. Following were the learnings from this exercise[4]:

- Engagement with investee companies is quite effective when the companies are in the fund-raise process or IPO process. At this time, prospective investors have the chance to ask for more ESG disclosures, better initiatives and reinforce the importance of ESG oriented practices as a pre-requisite by investors.

- Assessment of long ESG risks, opportunities and management capability to handle such risks adds value to investment decision making as it helps screen out stocks where the gap of unmanaged risks is high or to identify companies where engagement can lead to improvements.

- In external ESG ratings, investors often face issues like no correlation between ratings provided by different ESG Rating Providers (ERPs) and contextualisation of domestic market. With the ESG assessment done internally, SBIFML is able to cover the issuers not rated by ERPs, engage at length with companies, encourage them towards improved ESG practices and disclosures and produce internal ratings that are comparable.

In FY25, SBIFML assessed 107 companies on its internal ESG assessment framework and used these ratings to inform the investment decisions. Out of these, 92 were under Equities and 15 under Fixed Income. SBIFML counts these as a part of Level 1 engagements (under ESG Disclosures) as SBIFML reaches out to these companies for data on ESG actively in many such cases. Financial analysts and Fund Managers meet the company many times during the course of assessment. Moreover, governance discussions form an active part of such meetings. When Environmental and Social issues find prominence in the internal ESG assessments, these are pursued with renewed vigour with multiple meetings with the managements under level 1, 2 and 3 engagements as described above.

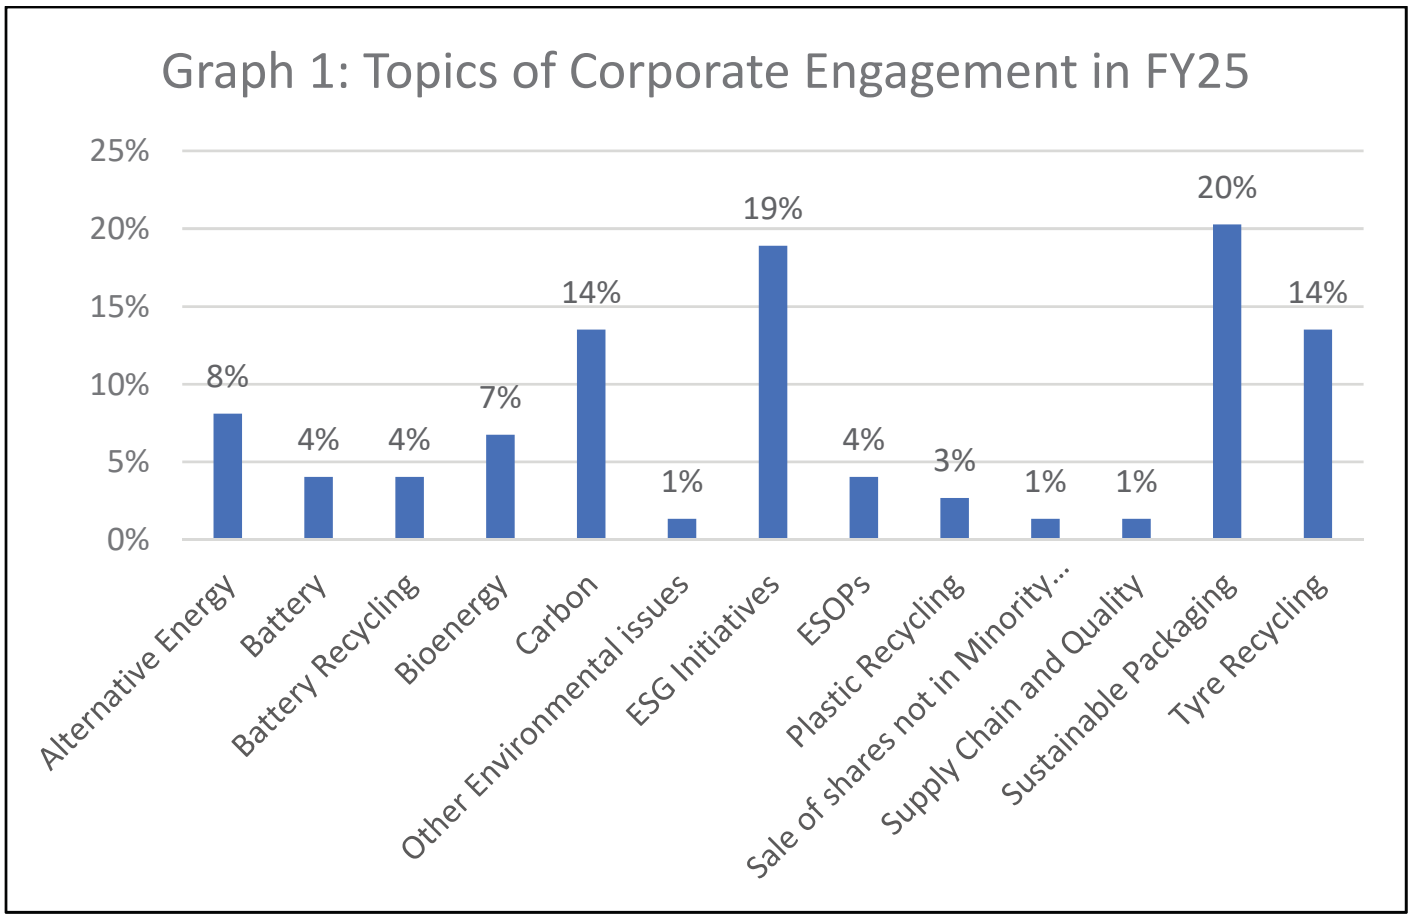
Out of the total 274 corporate engagements, 93 were especially conducted with investee companies at the time of proxy voting[5]. SBIFML believes that engagement at the time of voting is an extremely important tool to help companies improve their governance practices. We discuss the merits of such a strategy in the voting section. The 107 engagements carried out during ESG Assessments were on overall ESG initiatives, disclosures and improvements expected. The rest 74 corporate engagements were conducted on a variety of topics ranging from improvement of general ESG disclosures to discussing current ESG initiatives and investor expectations around ESG initiatives, environmental themes like alternative energy, sustainable packaging, bioenergy, battery, plastic and tyre recycling

---

[4] The engagement related data presented in this report does not include unlisted companies engaged with for debt coverage of SBIFML, though it does include ESG assessments done for fixed income.

[5]Note: The number of Voting related engagements looks different between FY24 and FY25 due to change in methodology for counting such engagements. Till last year every communication from SBIFM to companies for voting related activities was counted, however from FY25, only engagements where companies actively participated via emails or calls have been counted to present this data.

etc. to social issues like supply chain sustainability to product and service quality. Following graph provides an insight about the engagements carried out topic-wise.

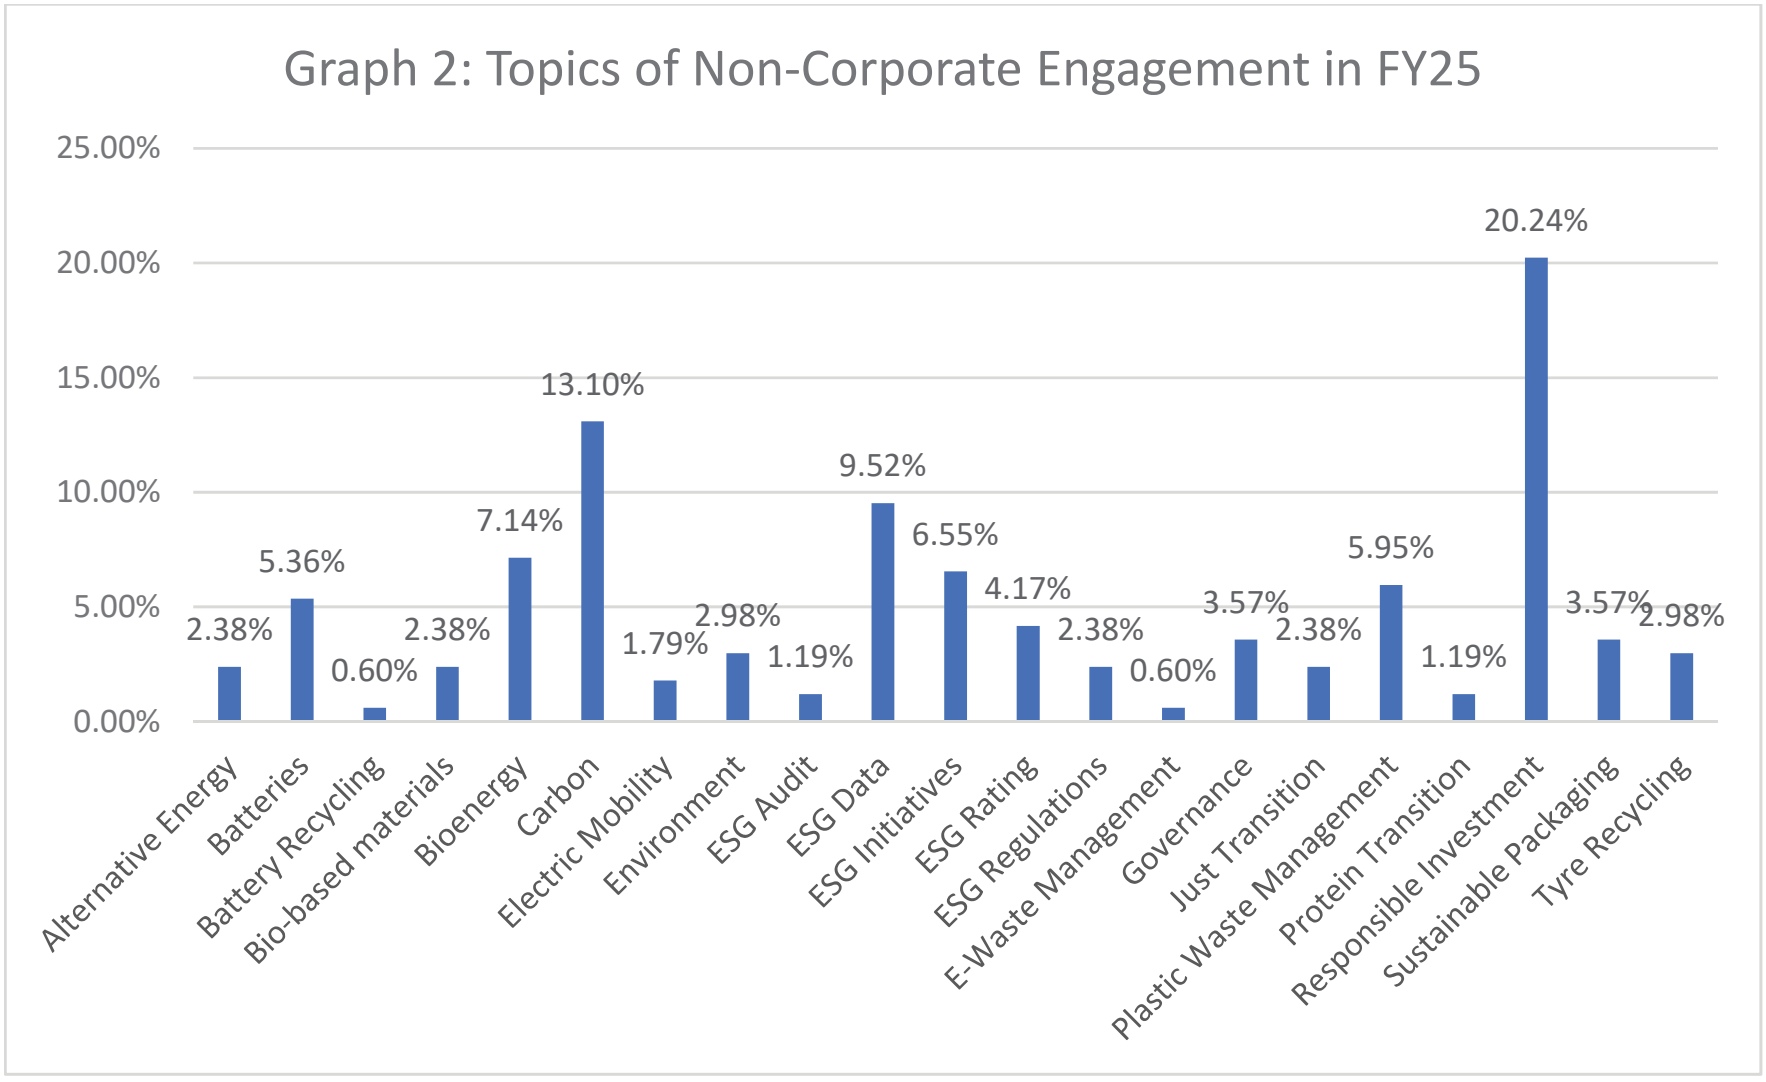


SBIFML remains a committed signatory to UNPRI and Climate Action 100+ and conducted multiple meetings with Indian companies identified as high carbon emitters from India by Climate Action 100+. SBIFML is the lead engaging-investor for 5 of the 7 such companies identified in India, and a collaborating engaging-investor for the remaining 2. The AMC's engagement with PSUs covered under CA100+ has especially been a highlight since significant progress has been made by PSUs in the context of climate mitigation initiatives across the years. Two of these PSUs have declared net zero carbon targets for 2026 and 2038 and the third PSU has started on the journey to set its targets with the help of NITI Aayog. The above graph includes such engagements under the "Carbon" sub-topic. In FY25, ESG team focussed on certain topics and engaged with companies that had significant involvement in these topics. Some of such engagement led to investment related outcome too. For instance, an elaborate engagement was designed on the topic of sustainable packaging. In this engagement, various companies involved in production of sustainable packaging materials, convertors of such materials to usable packaging items and user industry for such materials were engaged with. The engagement ended up investing in two companies that are involved in the production of sustainable packaging materials.

A few case studies of corporate engagements have been presented in the annexure to this report titled "Case Studies".

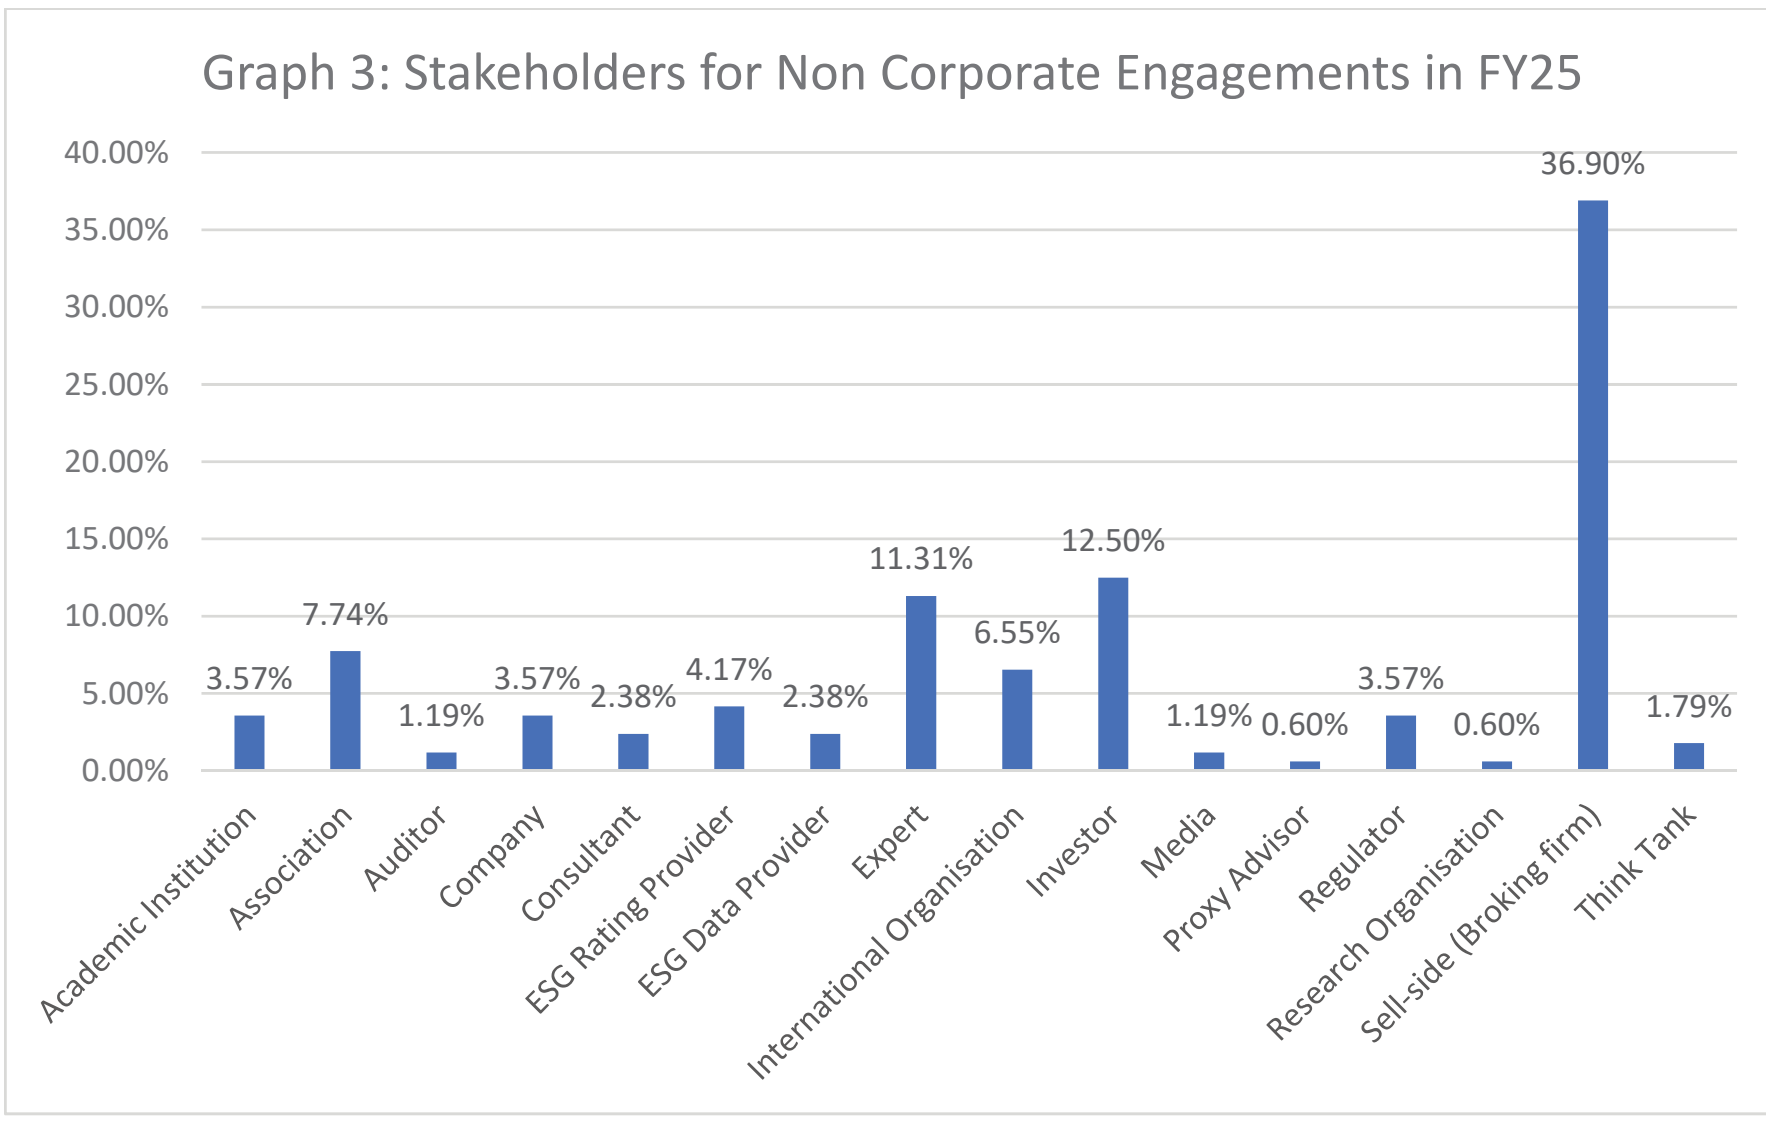
Non-Corporate Engagements

The Indian market is still warming to the idea of responsible investment. Regulatory frameworks are evolving rapidly, as is evident from the multitude of circulars and consultation papers published by SEBI and RBI respectively in the last financial year. In such a scenario, being one of the largest asset manager in India in mutual fund segment, SBIFML has the responsibility to help create an ecosystem where sustainable finance can flourish. The AMC is a part of critical ESG taskforces and committees to contribute to the evolving ESG ecosystem like the SEBI ESG Advisory Committee, AMFI ESG Committee and FICCI ESG Committee to name a few.



As visible from the graph, maximum engagements were on the topics related to responsible investment, followed by discussions on decarbonisation, and then on ESG data and bioenergy.

From the perspective of stakeholders with whom these engagements were conducted, the maximum was with broking houses and their analysts who provide theme specific research, followed by investors and experts. This was followed by SBIFML's in-depth discussions on various forums and trade associations. The following graph represents the stakeholder groups engaged with in FY25.



Principle 5 Institutional investors should have a clear policy on voting and disclosure of voting activity

Compliance Status: Complied with

SBIFML exercises its voting responsibilities for its investments through the corporate proxy voting policy which is available on our website. When voting proxies, SBIFML takes utmost care to ensure that all decisions are made solely in the interests of the funds/unitholders and with the goal of maximizing the value of their investments. However, at no point in time does it intend to participate directly or indirectly in the management of the companies. The details of the voting process are available in the Proxy Voting Policy which is available on SBIFML website.

Voting exercised along with the rationale supporting their voting decisions is disclosed on a quarterly basis within ten working days from the end of the quarter in the format prescribed by SEBI as amended from time to time. The AMC discloses the proxy voting exercised on an annual basis on the website of SBI Mutual Fund along with due certification from the 'scrutinizer' in terms of Rule 20 (3) (ix) of Companies (Management and Administration) Rules, 2014 and any future amendment/s to the said Rules thereof. SBIFML takes Proxy Voting very seriously as it is considered an important engagement tool for the AMC.

In FY25, SBIFML Voted on 5,669 individual resolutions, out of which, 5,425 resolutions were voted in favour and 244 were voted against. None of the resolutions were abstained.

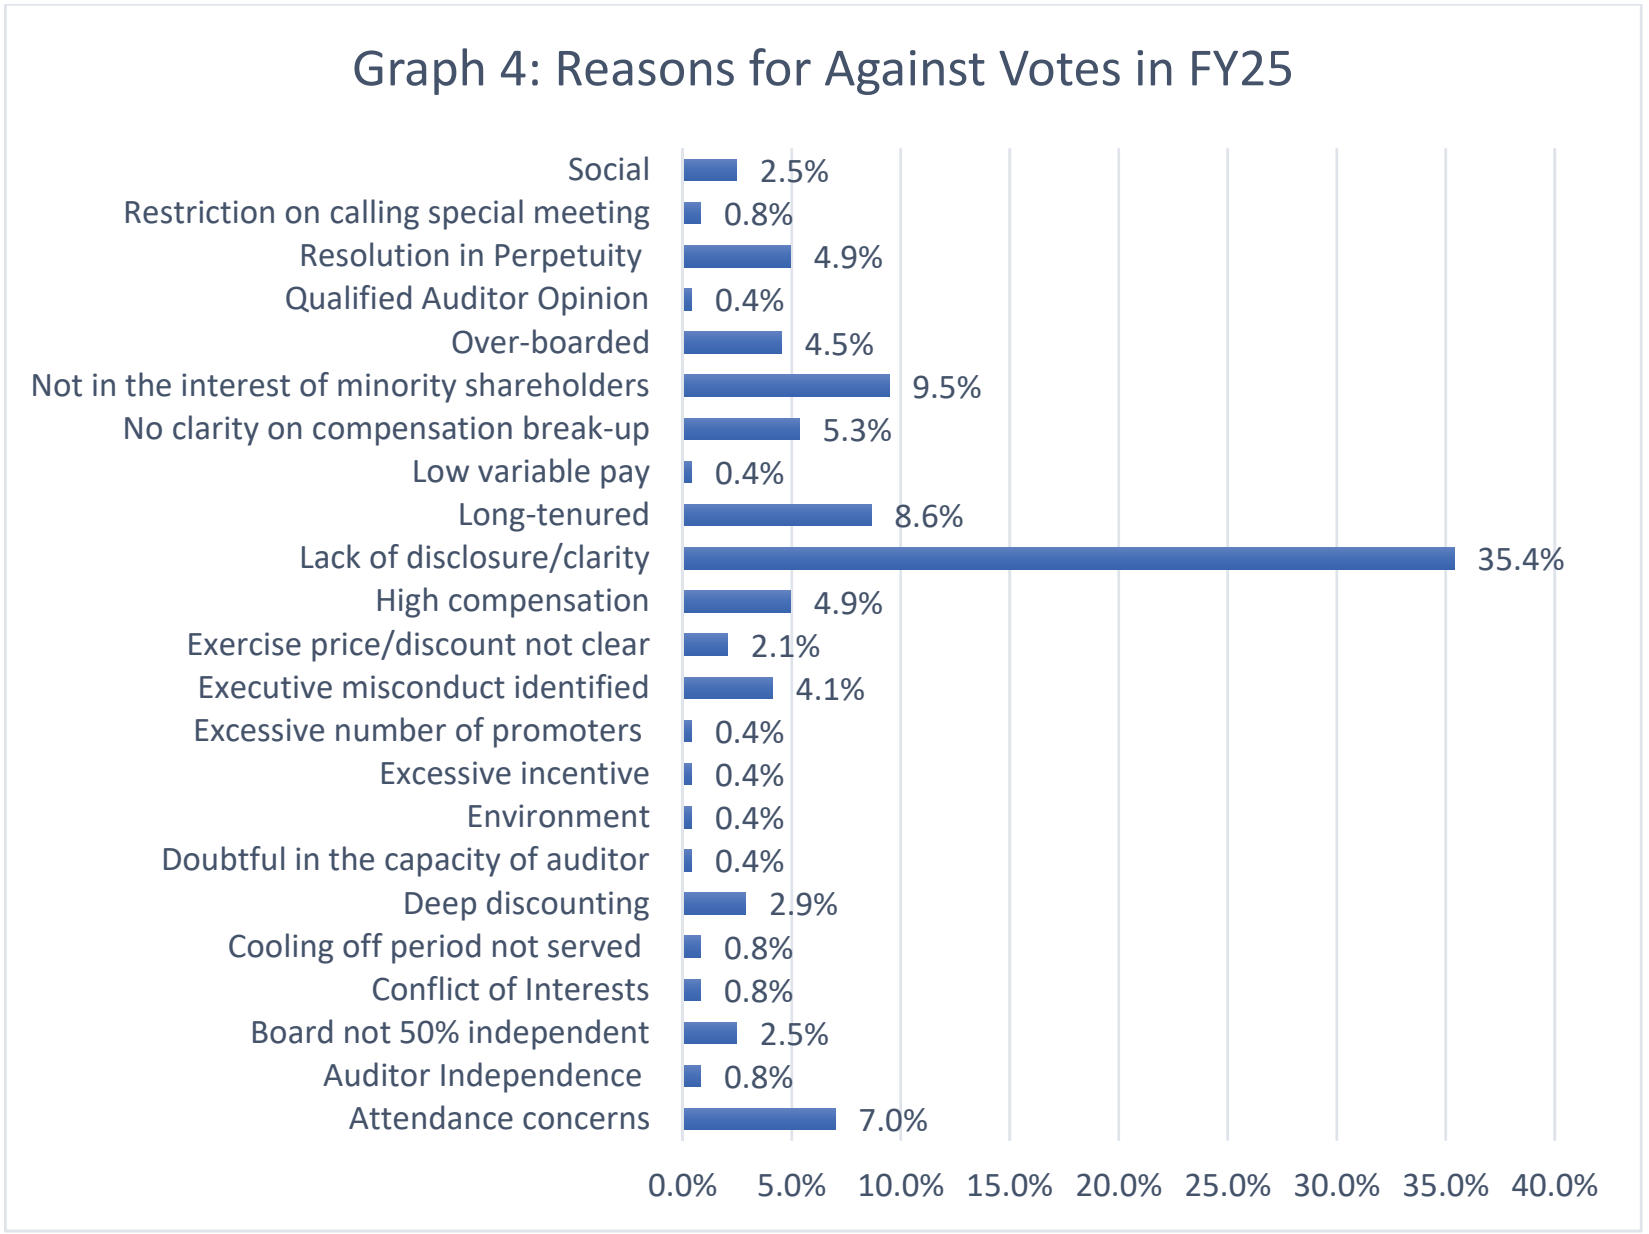
Table 4: Summary of Votes cast during the Financial Year 2024-25 (Mutual Fund level)

F.Y.	Quarter	Total no. of resolutions	Break-up of Vote decision	
			For	Against
2024-25	Quarter 1 - April to June	959	884	75
2024-25	Quarter 2 - July to September	3744	3643	101
2024-25	Quarter 3 - October to December	442	404	38
2024-25	Quarter 4 - January to March	524	494	30

Out of the 244 against votes, 21% were related to Related Party Transaction approval. 28% resolutions were related to director re-appointments and appointments and 14% for ESOP/RSU schemes. 7% were singularly related to approval of director compensation and 9% were combined resolutions of director appointment/re-appointment and compensation. Rest of the against votes for adoption of accounts, amendments in articles of associations, auditor appointment, charitable contributions in excess of limits etc. formed 3-5% each of the against votes casted in FY24. These have been voted against since the premise did not fit within SBIFML's broad proxy voting framework and generally accepted good governance practices.

Table 5: Types of Resolutions Voted Against	
Type of Resolution	**Percentage of resolutions voted against in each type**
Related Party Transaction approval	20.99%
Director re-appointment	19.75%
ESOP approval	13.99%
Director appointment	8.23%
Director Compensation	6.58%
Director re-appointment & Compensation	6.58%
Loan Approval	5.35%
Shareholder resolution	4.94%
Director appointment & Compensation	2.88%
Office of Profit appointment	2.88%
Auditor re-appointment	2.47%
Reclassification of directors	1.65%
AoA amendment	1.23%
Auditor appointment	0.41%
Charitable Contributions	0.41%
Investment Approval	0.41%
Issuance of equity	0.41%

Of the 244 against votes casted by SBIFML in FY25, 35% were voted against because of lack of sufficient disclosure or clarity in the resolutions, 10% were rejected because they were not in the interest of the minority shareholders, 9% of the resolutions were rejected as the directors were long tenured, 7% were related to attendance concerns, 5% were related to the resolutions being in perpetuity, 5% were rejected due to high compensations being offered to directors and 5% due to lack of clarity regarding the compensation breakup. Rest was rejected due to, excessive incentive, conflict of interest, qualified auditor opinions, , auditor independence concerns, audit quality, executive misconduct, etc. These details ae available in the graph below:



While voting "against" resolutions is traditionally seen as a way of exercising the minority shareholders' rights when they do not agree with board decisions or wish to send a clear signal to the companies to improve their performance, at SBIFML, we believe that more than voting "against" alone, engagement and clarification with the companies at the time of voting, helps to create more immediate impact. This is why SBIFML engages with companies when the resolutions proposed by them are not in line with SBIFML's broad proxy voting framework. With such engagement, the AMC has been able to get numerous resolutions corrected and changed while helping companies in realising the investors' expectations around governance.

In FY25, SBIFML engaged with companies for 116 resolutions where the resolutions did not seem aligned to SBIFML's understanding of good governance. However, the companies responded to the AMC's questions and either corrected or made commitments to bring about critical changes. SBIFML keeps track of such commitments for accountability and keeps engaging with companies to guide them further with their ESG journey. The following table provides the types of resolutions which were voted in favour after rigorous engagement with the companies, which either led to greater clarity and understanding about the resolution, helping SBIFML to use its vote judiciously, or helped the company to make the required changes so as to change the resolution or the governance practice itself. In both the cases, we found that companies highly appreciated the engagement and forged a long-term relationship with the AMC for continued engagement. We also find that companies now pro-actively reach out to the AMC to seek guidance and discuss investors' opinions and expectations from upcoming policy changes that may require shareholder approvals.

Table 5: Types of Resolutions Voted in Favour with Engagement	
ESOP approval	29%
Director re-appointment	24%
Director appointment	23%
Director re-appointment & Compensation	10%
Director Compensation	6%
Director appointment & Compensation	4%
Loan Approval	2%
AoA amendment	1%

Most of the engagement was carried out when ESOPs were being proposed where proposed compensations did not have clarity on the ESOP exercise prices or performance parameters for granting/vesting of ESOPs. Similarly, there were high number of engagements carried out to get clarity regarding the appointment and reappointments of directors. Various companies wrote back to the AMC with a commitment to improve board constitution in this direction, which is when the AMC decided to vote in favour. We expect such engagements to bring in more collaborative changes in the corporate governance practices in the country.

Stewardship Reporting of SBI ESG Exclusionary Strategy Fund

SEBI had circulated a Consultation Paper on ESG Disclosures, Rating and Investing in Feb 2023[6] which advocated for a separate section on Stewardship Activities performed under the ESG Fund. Post this SEBI, under its circular no. SEBI/HO/IMD/IMD-I –PoD1/P/CIR/2023/125 dated July 20, 2023[7], mandated the ESG Funds to provide the fund manager's commentary highlighting the stewardship initiatives under the fund. The stewardship activities carried out under the SBI ESG Exclusionary Strategy Fund in 2024-25 are included in this section of the Stewardship Report.

Corporate Engagements:

In FY25, SBIFML engaged with 19 companies under the ESG Fund on ESG issues. These engagements are summarised in case studies as follows:

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
1	Auto Company 1	As part of our stewardship process, we engaged with an auto company regarding the proposed appointment of an independent director, where concerns had been raised under our internal overboarding policy. Specifically, our ESG team sought clarification on the director's role at a privately held advisory firm where he is a designated partner and chairperson. Our policy considers such roles equivalent to whole-time directorships when determining board-level capacity. The company responded that the firm operates as a strategic consultancy with limited scale and clarified that the director's involvement is minimal, not comparable to the demands of a whole-time executive role in a listed entity. They also emphasised that the appointment had been made after evaluating the director's ability to contribute meaningfully to board responsibilities. Based on the detailed clarification and alignment with the intent of our policy, we assessed that the director could not be considered overboarded and voted in favour of the resolution. This engagement highlights the importance of context-driven assessments and direct dialogue in proxy decision-making.	Governance; via email
2	Bank 1	SBIMF met the risk management team of a large bank to discuss their views on RBI's latest draft on TCFD framework. The framework guides companies to disclose climate-related financial risks and opportunities, structured around four key pillars: governance, strategy, risk management, and metrics and targets. The bank's board and senior management oversees climate-related matters through a dedicated ESG committee, ensuring that climate considerations are integrated into the overall business strategy and decision-making processes. Under	Decarbonisation ; via meeting

[6] https://www.sebi.gov.in/reports-and-statistics/reports/feb-2023/consultation-paper-on-esg-disclosures-ratings-and-investing_68193.html

[7] https://www.sebi.gov.in/legal/circulars/jul-2023/new-category-of-mutual-fund-schemes-for-environmental-social-and-governance-esg-investing-and-related-disclosures-by-mutual-funds_74186.html

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		the strategy pillar, the bank evaluates short, medium, and long-term climate-related risks and opportunities, especially how climate change could impact its lending portfolio and operational resilience. In the risk management domain, it has begun integrating physical and transition risks into its broader risk assessment framework. Tools such as hazard heat maps, environmental due diligence, and preliminary climate stress testing are being applied, although data availability remains a significant challenge. Importantly, climate risks are now considered as part of capital adequacy assessments, and the bank has been engaging with regulators to promote uniform climate risk databases across banks to ensure consistency in disclosures and scenario analyses. The Bank is monitoring financed emissions and green lending exposure. It has also started incorporating internal ESG scores for borrowers, though these currently do not feed into formal credit ratings. The bank is facing difficulties in defining "green finance" due to the absence of a standardized Indian climate finance taxonomy, unlike the EU (before May 2025 release of Indian Climate Taxonomy draft). Its ESG framework includes an internal borrower rating system, though not yet linked to credit ratings. It is monitoring global developments like IFRS S1 and S2 standards and preparing for future compliance, while remaining focused on financial stability.	
3	FMCG Company	We engaged with a major FMCG player, who is actively exploring sustainable packaging solutions, particularly compostables, in response to emerging regulations and long-term environmental goals. However, the company highlighted several challenges hindering immediate adoption. While bagasse, PLA, PHA, and PBAT-based alternatives are available, most are imported and lack standardisation in India, leading to widespread mis-marketing and unreliable performance. Functionality is critical as packaging must endure India's extreme climatic conditions during transport while maintaining product integrity. Currently, compostable materials fail to consistently meet required barrier properties like WVTR and OTR, and their quality can vary from batch to batch due to agri-based raw materials. Extensive validation and multi-batch trials are underway, but costs remain a significant roadblock. Compostable packaging can cost 2.5–3x more than plastics, making them unviable for mass-market products in a highly price-sensitive economy. The company believes that compostables may initially find utility in secondary or double-layer packaging formats, especially where metallised coatings can help	Sustainable Packaging; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		meet barrier needs. However, until regulatory enforcement increases or costs reduce, these will largely remain experimental. Meanwhile, the company is prioritising recyclability through a shift from multi-layer plastic (MLP) to mono-material layered (MML) packaging, which is more compatible with India's Extended Producer Responsibility (EPR) framework. MMLs are easier to recycle and meet recycled content targets, unlike MLPs that mostly end up in landfills. The brand is already using 70% recyclable packaging, with further improvements in progress. It is plastic-neutral and processes over 43,000 tonnes of plastic annually. While high-margin SKUs may absorb the cost of sustainable materials, large-scale adoption is only likely when regulation mandates change or supply-side innovation reduces cost. Through collaborative initiatives with innovators, the company remains committed to long-term sustainable packaging transformation.	
4	NBFC Company	During our stewardship engagement with a listed entity, we reviewed a resolution proposing the appointment of an independent director. The resolution was incorrectly classified as an Ordinary Resolution, despite the Companies Act, 2013 mandating a Special Resolution for such appointments. We promptly flagged this discrepancy to the company, citing the legal requirements under Section 149(10) and applicable SEBI regulations. The company acknowledged the oversight and responded by filing an addendum with the stock exchanges, rectifying the resolution classification to a Special Resolution. This engagement underscores the importance of vigilant review of proxy voting materials and the constructive role investors can play in ensuring regulatory compliance and strengthening governance practices.	Governance; via email
5	Industrials company 1	As part of our stewardship responsibilities, we engaged with a listed industrials sector company to seek clarity on a resolution proposing the appointment and continuation of an independent director beyond the age of 75. Our internal policy flags overboarding concerns where individuals hold more than three board positions while occupying roles equivalent to whole-time directors in their own firms. In this case, we requested details on the individual's responsibilities, revenue involvement, and client engagement across two firms he was associated with. The company facilitated a detailed response outlining that the director spends limited time (2–3 days per month) on strategic advisory for a small number of clients through his personal consultancy, while his role in a second startup venture is non-lead and minimal. Based on this clarification, and the director's assurance of	Governance; via email

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		sufficient bandwidth to fulfil board duties effectively, we determined that he did not meet our threshold for overboarding and subsequently voted in favour of his appointment. This case underscores the importance of context-specific engagement and evidence-based evaluation over rigid application of quantitative thresholds.	
6	Auto Company 2	As part of our stewardship responsibilities, we participated in the materiality assessment exercise of a large automotive company, providing investor perspectives on key ESG priorities. We shared our views on the most financially and reputationally significant sustainability issues for the sector, including supply chain resilience, decarbonisation pathways, responsible sourcing, and product safety. Our engagement aimed to support the company in aligning its sustainability disclosures and strategy with stakeholder expectations and global best practices.	ESG disclosures; via form sent by company
7	Life Insurance company	As part of our stewardship process, we engaged with a company to evaluate the proposed appointment of an independent director, specifically to assess concerns around potential overboarding under our internal policy. Our ESG team sought clarity on the director's role at a privately held CA firm, where he is a designated partner. Our internal framework considers such positions equivalent to whole-time directorships when evaluating board-level capacity. The company clarified that the director is a practicing Chartered Accountant with over four decades of experience in audit, tax, and corporate advisory services. He has been a partner at the audit and assurance firm since 1984. While the company was unable to share further details regarding the director's responsibilities within the external firm—citing confidentiality and limited access—they confirmed that neither the company nor any of its group entities have availed audit or non-audit services from the said firm. The company also confirmed that all statutory disclosures had been received, and that the director meets the independence criteria under the Companies Act, SEBI LODR, and IRDAI. Based on the clarity provided and alignment with the intent of our overboarding policy, we concluded that the director's board commitments were manageable and voted in favour of the resolution. This engagement underscores the value of direct dialogue and contextual evaluation in exercising stewardship responsibilities.	Governance; via email
8	Metals company	We engaged with the sustainability team of a leading metals producer to understand its copper recycling strategy and the potential impact of the EU Carbon	Decarbonisation ; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		Border Adjustment Mechanism (CBAM). The company has announced a ₹2,000 crore investment in a copper and e-waste recycling facility, which will add 50 KT capacity through pyrometallurgy, making it India's first large-scale organized copper recycler. The unit will rely on imported scrap and formal tie-ups due to limited domestic availability and is expected to generate mid-teen IRRs while enabling recovery of precious metals. Though environmental concerns were raised locally around slag disposal, the company claims these have been addressed. On the aluminium side, the company's exposure to CBAM is expected to be limited since most emissions are Scope 2, which are currently excluded. It had also partnered to supply aluminium coaches and wagons, but the project is stalled due to pricing challenges, though the company remains open to future bids if aluminium is mandated.	
9	Bank 2	SBIMF met the risk management team of a large bank to discuss on RBI's latest draft on TCFD framework and broad ESG strategies of bank. RBI initiated discussions on climate risk through a 2022 discussion paper based on the Task Force on Climate-related Financial Disclosures (TCFD), followed by the 2024 draft disclosure framework. However, no formal mandate exists yet for climate stress testing or scenario analysis, leading banks to adopt individualized, board-approved assessments aligned with global frameworks like TCFD and GRI. Banks are therefore using sector-specific questionnaires and borrower engagement to assess ESG risks, applying this uniformly to listed and unlisted entities. Disclosure timelines vary across banking categories, with Scheduled Commercial Banks and NBFCs expected to disclose on governance, strategy, and risk management by FY26, and on metrics and targets by FY28. RBI is also developing a location-based climate risk database in collaboration with climate scientists and tech firms. Meanwhile, some banks are working with external agencies for granular physical risk mapping, particularly in agriculture and retail lending. Climate stress testing is gradually expanding to retail portfolios, although data gaps persist. This Bank, for example, conducts internal climate scenario analyses, which inform capital adequacy assessments under ICAAP, though detailed capital impacts are undisclosed. Banks use internal ESG frameworks for due diligence in project finance and term loans, and subscribe to ESG data providers for secondary insights. Adoption of RBI's green deposit framework has been limited, as regulatory constraints prevent incentive pricing. Further, Lack of "green premium" in bank borrowings also restricts competitive green financing.	Decarbonisation ; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
10	QSR Company	As part of our stewardship efforts, we engaged with the sustainability leadership team of a leading quick-service restaurant (QSR) company in India to understand its approach to managing social and environmental factors. The company has implemented a robust, tech-enabled system to track and resolve consumer complaints, supported by structured escalation and training protocols. Despite rising sales, complaint volumes have remained stable. Significant investments have been made in modernizing food processing infrastructure, and efforts are underway to localize key ingredients without compromising quality. The company has set a target of 50% renewable energy use by decade-end, with solar already installed at major facilities. It operates one of the largest EV delivery fleets in India and is working with academic partners to quantify emissions reductions. Waste management initiatives include Zero Liquid Discharge systems and in-house biodiesel production from used cooking oil. While a plant-based product launch saw limited uptake, the company continues to invest in healthier recipes and sustainable packaging. Governance concerns were addressed with clarity, and the company is focused on improving global ESG benchmark scores through continued innovation and operational efficiency.	Environmental and Social Initiatives; via meeting
11	Bank 3	Amid increasing shareholder pushback on ESOP and RSU proposals due to high discounts and lack of performance transparency, a leading private sector bank in India proactively engaged with institutional investors to understand their expectations around equity-linked compensation. During the engagement, we emphasized the need for clear performance-based vesting conditions, limited dilution, transparency in disclosures, and the inclusion of clawback provisions. In response, the bank introduced a new Performance Linked Restricted Stock Unit (PRSU) Scheme, reallocating shares from a previously approved ESOP pool to cap dilution at 1.0% of the expanded capital base. The scheme excluded promoters and non-executive directors and prioritized inclusion of junior to mid-level employees, who would receive the majority of the grants. Vesting was designed over 1–4 years and tied to both company-level metrics—such as return on equity, asset quality, and profitability—and individual performance ratings. While the PRSUs were proposed at a significant discount to market price (face value of ₹5 versus a market price near ₹1,928), the bank addressed potential misalignment by embedding strict vesting thresholds, malus and clawback provisions, and structured transparency	Governance; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		commitments. These included annual disclosures on the number of PRSUs granted, vesting status, target achievements, and performance parameters used. The final scheme demonstrated a balanced approach to talent retention and shareholder alignment. Given the thoughtful incorporation of investor feedback and the commitment to governance and disclosure, we supported the resolution and view this as a model engagement outcome in the evolving landscape of executive compensation in India.	
12	IT Services Company 1	We engaged with a prominent company in the sector of engineering research and development services. The engagement provided useful insights into the company's structured ESG journey, highlighting its shift from basic disclosures to integrated sustainability practices, including SBTi-approved carbon and water neutrality goals for 2030. It offered clarity on environmental initiatives such as 23% renewable energy use (targeting 50%), HVAC efficiency upgrades, and cloud adoption to reduce Scope 2 emissions. The discussion shed light on sustainability-led engineering efforts, including reduced material usage in auto components. Social initiatives around employee development through structured programs were emphasized, although progress on gender diversity—both at employee and board levels—remains limited. The company clarified governance enhancements through updated materiality assessments, third-party ESG ratings, and integrated reporting practices. They also provided some clarity around the company's involvement in 5G project execution, not operations, and that it does not manage data centers directly but provides engineering support for energy efficiency. While the company acknowledged increasing client ESG expectations and decarbonization-led business shifts, it does not yet track green revenues separately. Discussions on attrition clarified that voluntary exits are below 20%, with past spikes attributed to industry-wide post-pandemic trends. The company also shared its outlook on AI's workforce impact and noted it is actively monitoring global reporting mandates like IFRS and CSRD. The engagement was valuable in obtaining these operational clarifications.	Environmental and Social Initiatives; via meeting
13	IT services Company 2	SBI MF met the senior management of a leading technology company to understand ESG initiatives. It has adopted robust cybersecurity measures to address the risks of data traveling across diverse environments. With stringent data protection regulations in regions like the EU, the company has invested significantly in cybersecurity infrastructure and secure data handling. Measures include disabling the ability to reproduce, print,	Environmental and Social Initiatives; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		or screenshot confidential emails. These efforts have helped the company avoid major data breaches or penalties. With banks facing regulatory scrutiny, the company sees an opportunity to offer enhanced cybersecurity services to this sector. In terms of sustainability, the company integrates environmental considerations into project delivery rather than treating sustainability as a standalone service. Although consulting remains a small revenue segment, it designs software with energy efficiency in mind and has assisted energy sector clients in improving operational efficiency through AI and IoT solutions. Company focuses on internal talent development, with 50–75% of new project roles filled from within. It runs regular training programs, hackathons, and internal events to foster continuous learning. Delivery managers often double as trainers, and a 10% project team buffer is maintained for on-the-job upskilling. Non-adoption of new technologies could result in employees exiting the organization. In geospatial and weather forecasting, the company provides highly accurate forecasts for agricultural planning, supporting 150,000 acres of farmland with services including soil testing and organic farming advice. In e-commerce, it offers digital tools for demand forecasting and inventory optimization. Although the Indian share is modest (4–5%), global markets drive this segment.	
14	Auto Company 3	SBIMF met the senior management team of one of the leading automobile companies in the country's renewable energy accounted for only 2.66% of its total energy use—much lower than peers, though the company aims to increase this to 30% by 2025 with incremental capex. Electrification is on the horizon, with plans to launch six premium battery EVs by 2030 in the mid-size SUV segment. These vehicles will offer a 550 km range, powered by 60 kWh NMC battery chemistry. By 2031, the company targets a powertrain mix of 25% hybrids and 15% battery EVs. Despite its current lack of EV models, the company's average CO2 emissions (111.06 g/km) are the industry's lowest, due to its focus on compact, fuel-efficient vehicles. The company believes India's EV adoption will remain modest in the short term and argues that aggressive EV strategies by some OEMs may not be sustainable, citing examples of foreign car makers scaling back EV production in the U.S. Hybrid vehicles are gaining ground in India, partly due to potential GST reductions (from 48% to 12%) and consumer concerns about range anxiety and limited charging infrastructure. In the hybrid vehicles, currently	Sustainable Mobility; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		the company offers strong hybrid models through a partnership with a Japanese auto major and mild hybrids across several models. Strong hybrids are about 30% more fuel-efficient than ICE vehicles, while mild hybrids deliver a 22–23% improvement. The company is also investing in ethanol-based flex fuel technology, showcasing a model in 2022, with a commercial launch expected in FY25. This fuel can reduce CO2 emissions by up to 79% and is biogenic in nature. To ease the ethanol transition, the company is developing kits to make older vehicles E20-compliant and working with industry bodies for broader availability of blended fuels. Additionally, the company is piloting a biogas project with its Japanese parent and a Dairy company, exploring bio-CNG from cow dung, backed by a ₹2.3 billion investment and recent government incentives.	
15	Bank 4	As part of our ongoing stewardship efforts, we participated in a climate risk engagement session conducted by a major financial institution to understand its climate strategy and risk mitigation roadmap. The institution shared its approach to integrating climate-related risks within its enterprise risk framework, including plans to assess physical and transition risks, measure financed emissions at borrower level, and develop a Net Zero transition strategy. It also outlined its alignment with RBI's evolving climate regulations, its adoption of internationally accepted tools like PCAF and TCFD, and its focus on sectoral decarbonization and stress testing methodologies. The session provided valuable insights into the institution's commitment to embedding climate considerations into lending, investment decisions, and disclosures, reinforcing the relevance of financial system alignment with India's broader net-zero goals.	Decarbonization ; via meeting
16	Industrials company 2	We engaged with a diversified industrial solutions provider to understand its sustainability-aligned growth strategy and climate-relevant business pivots. The company has seen strong demand for its water and air pollution control offerings, particularly in the steel and cement sectors, where clients are proactively targeting emission and water efficiency improvements beyond regulatory mandates. The shift from conventional to advanced water treatments such as ZLD, effluent recycling, and desalination—now comprises two-thirds of the water business and is expected to drive future growth, supported by in-house thermal engineering capabilities. Similarly, its air pollution control business is moving from particulate control to gaseous emissions, with scrubbing solutions expanding into new sectors like carbon, silicon, and bio-CNG. The acquisition of a high-purity water	Environmental Opportunities; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		treatment firm has opened doors in pharma, personal care, and potentially semiconductor sectors, aligning with rising water quality standards. In the boilers business, exports have picked up post the acquisition of a tech company and domestic demand is growing due to industrial expansion. The company is also scaling its green energy portfolio, deploying solar, wind, and biomass-based heating with competitive equity returns, while strategically building internal capability in chemicals and streamlining its underperforming industrial infrastructure segment. Overall, the engagement highlighted the company's evolving role as a technology-led solutions provider to industrial decarbonization, backed by a measured approach to capital deployment and a focus on high-margin, sustainability-linked opportunities.	
17	Auto Company 4	We engaged with a listed company ahead of a resolution seeking shareholder approval for a new Employee Stock Option Plan (ESOP). The scheme proposed issuing over 1 million options through secondary acquisition, with key terms such as exercise price and vesting criteria delegated to the company's Nomination and Remuneration Committee (NRC). In line with our internal ES G framework, which emphasizes transparency in incentive structures, we reached out to seek clarity on how the discount and performance linkage would be determined. The company clarified that the NRC would be responsible for defining individual-specific performance parameters, assessing eligibility, and setting the exercise price. Given the varied roles across the organization, they argued for flexibility in applying role-specific performance criteria. They confirmed that vesting would be subject to appropriate conditions—time-based, performance-based, or both—and agreed that the parameters set by the NRC would be objective and tailored to each role. This clarification enabled us to assess the alignment of the scheme with long-term shareholder value and vote in favour of the resolution.	Governance; via email
18	Consumer Durables Company	As part of our stewardship responsibilities, we engaged with a listed consumer durable company following the announcement by its foreign parent to reduce its shareholding from a majority stake to a minority one. We expressed our concerns about the decision, highlighting that it the parent entity had earlier indicated that it would retain a controlling stake. The engagement was designed to communicate directly with the Independent Directors of the board to understand the rationale for the divestment and understand any potential conflicts of interest, impact on brand royalties, supply chain synergies, and board representation etc. The board of	Governance; via email

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		directors responded to our communication with a commitment towards good governance principles within both the entities. We find that engaging with independent directors provides a platform for investors to express their concerns, fostering a culture of openness and mutual respect.	
19	Cement Company	We engaged with one of the largest cement producers in the country and also the largest carbon emitter among its peers. It has committed to achieving an 85% green energy mix by 2030, progressing from its current 34% (20% from Waste Heat Recovery Systems and 14% from other renewables) to a targeted 65% by 2028. The company employs a diversified renewable strategy for integrating solar with battery storage, wind, and hybrid systems, aiming to reduce energy costs and mitigate risks from dependence on a single source. Retrofitting older plants and leveraging state policies like energy banking are key to this transition, though challenges like state-level levies persist. The company is also improving its cement-to-clinker ratio from 1.44 to 1.54 by FY27–28 through increased use of supplementary cementitious materials (SCMs), such as fly ash and slag, significantly reducing CO_2 emissions. Investments in composite cement facilities, especially in Eastern and Southern India, support this shift, though broader acceptance in infrastructure projects may require policy adjustments. The company is raising its Thermal Substitution Rate (TSR), currently around 5.1–5.2%, with plans to reach 13–15% in the long term through alternative fuels like RDF and biomass. It is also piloting a technology to reduce kiln-related emissions, potentially lowering total CO_2 emissions by 10–15%. Approximately 11–14% of CapEx is directed toward sustainability initiatives, including renewable energy and waste recovery upgrades, and this allocation will continue over the next five years. While Carbon Capture, Utilization, and Storage (CCUS) is under evaluation with various partners, progress hinges on supportive policies and viable economics. The acquisition of another Cement company offers scope for modernization, renewable integration, and operational standardization to reduce emissions across older facilities. However, to decarbonise the old plants will require time. Additionally, company uses an internal carbon price of $10/tonne, expected to be revised post the launch of India's Carbon Credit Trading Scheme	Decarbonisation ; via meeting

Voting done under the SBI ESG Exclusionary Strategy Fund:

In FY25, total resolutions voted on companies which were held in the ESG Exclusionary Strategy Fund were 397. Out of them 396 were voted in favour, and 1 was voted against. The vote cast against was due to less than 75% attendance of the proposed director in the last 3 years. There were 5 resolutions where SBIFM engaged with the company to either receive more information, to get resolutions corrected or to get a written intent from the company towards improvement before voting in favour. All the resolutions under the SBI ESG Exclusionary Strategy were voted on "governance" rationales.

Table 6: Voting in SBI ESG Exclusionary Strategy Fund

	No of resolution	Percentage of resolutions
Total Resolutions	**397**	
Against Votes	1	0.25%
For Votes	391	98.49%
Engagement	5	1.26%

Annexure: Stewardship Case Studies

Case Study 1: In-Depth engagement with a paper company undergoing transformation to a compostable packaging solution company

Introduction:

In the context of rising global demand for sustainable alternatives to plastic, our engagement focused on a small cap Indian paper company that specializes in compostable packaging materials. Over the past decade, the company has undergone a strategic transformation, moving away from incompatible high-strength paper products to a focused portfolio aligned with its raw material strengths, notably bagasse-based pulp. The company's offerings now span greaseproof paper, tableware, and flexible packaging—critical components for food-grade, compostable applications. With growing regulatory and consumer pressure to eliminate single-use plastics, this business has positioned itself as a key enabler of circular economy solutions, targeting both domestic and export markets.

The company’s operations are rooted in Ayodhya, U.P., India, but are now expanding to Guatemala to tap global demand, particularly in the US market for tableware and flexible packaging. Its R&D strategy has also evolved globally, with a material science team in Portland, USA, focused on refining water vapor barrier properties essential for food packaging. Over time, the company has emerged as an innovator in home-compostable packaging, with significant ambitions to scale both in India and overseas.

Engagement Process and Discussion:

We engaged extensively with the company’s leadership including the Managing Director, Executive Director, CFO, and business heads across multiple meetings. Our dialogue focused on product innovation, resource efficiency, quality control, and long-term sustainability of raw materials. One of the standout themes was the company's decision to transition towards an asset-light model in tableware by outsourcing production while retaining control over pulp and product specifications. This was driven by bagasse availability constraints and aimed at optimizing cost structures.

Our engagement also examined the company's aggressive expansion in greaseproof paper and flexible packaging. We evaluated capacity addition plans, cost economics (e.g., greaseproof paper at INR 140/kg and flexible packaging at INR 300/kg), expected EBITDA margins of 25–33%, and lifecycle tracking initiatives for clients with green targets. Notably, discussions with the team clarified how strategic tie-ups (e.g., with sugar mills and overseas packaging firms) are securing long-term access to raw materials and strengthening market linkages.

In addition, we explored R&D priorities, such as the shift to non-metallized packaging for home compostability and collaborations for food-grade sealing solutions. Through our engagement, we gained visibility into the company's global partnerships, fundraising plans, and its nuanced response to evolving sustainability trends and policy mandates.

Conclusion:

Based on the depth of innovation, raw material strategy, and globally scalable product offerings in compostable packaging, we gained strong conviction in the long-term value proposition of the company. As a result of this engagement, we decided to initiate a stake in the company.

Case study 2: Understanding Decarbonisation Plans in steel industry

Introduction:

We met the sustainability team of one of the India's largest steel makers. Given the sector's high emissions intensity and strategic importance to the economy, decarbonizing steel production has become a national imperative. The engagement was focused on understanding the government's policy landscape, impact of EU CBAM (Carbon Border Adjustment Mechanisms) and industry long-term decarbonisation strategy.

Engagement Process and Discussion:

The Ministry of Steel has acknowledged the challenge of decarbonizing a heterogeneous sector, where over half of India's steel production comes from informal players lacking the financial and technological capacity for rapid transition. Although the government has released a high-level framework, *Greening the Steel Sector in India*, it stops short of offering mandates or financial incentives akin to those in developed markets. To drive implementation, 14 task forces have been formed across three key areas: (i) incentivization and ecosystem development (including taxonomy, demand creation, and monitoring), (ii) decarbonization levers (such as energy efficiency and process innovation), and (iii) R&D and financing, with a focus on workforce readiness and new technologies.
India estimates that $283 billion will be needed to decarbonize its steel industry. An interim target is to increase renewable energy use in steelmaking from 7.2% in FY22 to 43% by 2030. An India-specific green steel taxonomy is also under development. While the initial emissions target was 1.7 tCO_2e/tcs, industry consultations suggest a more achievable 2.2 by 2030, down from the current 2.6. Informal players using coal-based DRI face steeper challenges due to higher baseline emissions.

The decarbonization roadmap involves near-term renewable capacity additions (up to 10 GW by 2030), potentially reducing emissions by 20–30%. Long-term strategies include transitioning to electric arc furnaces (EAFs), establishing green steel facilities, and increasing scrap use—backed by logistics infrastructure. Emissions intensity has declined at a ~3.5% CAGR since 2017, with a 2030 target of 1.95 tCO_2e/tcs.

The EU's CBAM presents both a threat and a catalyst. From 2026, Indian exporters must report actual emissions and pay border taxes, with penalties of €10/ton for misreporting. Free allowances phase out by 2033. Given limited EU exposure, India is considering serving European markets via low-carbon facilities.

Green hydrogen, supported under the National Green Hydrogen Mission, is seen as critical but longer-term. Pilots are underway to replace natural gas in gas-based DRI units. However, high costs, technical challenges, and infrastructure constraints mean large-scale adoption is unlikely before 2030.

Conclusion:

Our engagement with the company helped us understand that steel sector in India is navigating a complex transition, with emerging policy clarity, rising compliance expectations, and evolving market pressures from global climate regulation. We understand that EU CBAM will have a severe impact on Indian steel players who have a footprint in Europe and have high emissions, post 2030, since the free allocation for under the Emission Trading Scheme (ETS) will slowly phase out.

Case Study 3: New Bioplastics Opportunity being explored by a Sugar Company

Introduction:

With the goal of reducing cyclicality in its traditional sugar business and aligning with global sustainability trends, a leading Indian sugar manufacturer has announced its strategic entry into bio-based compounds for eco-friendly packaging. The company aims to derive 50% of its revenue from non-sugar segments by H2 FY27, marking a significant pivot towards green chemistry. The company's marquee investment is a Polylactic Acid (PLA) production facility based on sugar-derived feedstock (bagasse), positioning it as a first-mover in India's nascent bioplastics market. This move is particularly timely, given India's regulatory push to phase out single-use plastics and growing FMCG demand for compostable packaging solutions.

Engagement Process and Discussions:

We engaged with the company's senior leadership, including the promoter family, CFO, and Head of PLA Business, to understand the execution roadmap, risk mitigation, policy engagement, and economics of the PLA project. The plant is expected to commence operations in November 2026, reaching 90% utilization by FY28. Capex is estimated at ₹2,850 crore, with ₹1,100 crore as capital subsidy, and an effective borrowing cost of just 2.4%. The project targets ₹2,000 crore topline with 35% EBITDA margins, enabled by process partnerships with international technology providers.

India's phased ban on single-use plastics (SUPs), which account for over 8 million tonnes of annual consumption (domestic + imported), creates a significant substitution opportunity for compostable alternatives like PLA. With regulatory pressure mounting and FMCG brands seeking compliant packaging solutions, the company's entry into PLA is both timely and aligned with national priorities. As the only scalable bio-based, compostable alternative currently available, PLA is poised to benefit from growing demand, especially as enforcement of the SUP ban strengthens.

To de-risk market entry, the company is already importing and selling PLA to build customer relationships and understand product-market fit. It is engaging with over 25 FMCG and healthcare brands, including discussions on PLA bottles with beverage companies. Regulatory engagement includes advocating for import duties on low-cost Chinese PLA, handheld scanners to detect non-compliant plastics, and collaboration with policymakers on EPR and composting standards.

From a product development standpoint, the company is investing ₹50–60 crore in a dedicated R&D lab focused on polymer innovation, recyclability, and compostable grades. It is also producing biopotash from distillery waste and exploring circular solutions like chemical recycling and anaerobic digestion. The company will be an anchor tenant in a proposed Bioplastics Park in UP, aimed at integrating compounders, converters, and recyclers.

Conclusion:

Our stewardship engagement affirmed that the company's PLA initiative is a well-thought-out strategic diversification with meaningful environmental benefits and solid financial underpinnings. The project combines a strong moat, first-mover advantage, policy support, and high-impact applications across sectors. Based on the company's credible execution roadmap, regulatory alignment, and deep investment in sustainable materials, we decided to increase our holding in the company.

Case Study 4: Understanding the Preparedness for Nuclear Energy as a means of Non-Fossil Energy Source in India

Introduction:

We met the nuclear team of one of the largest power companies in India. We wanted to understand the evolving role in India's nuclear energy landscape, amid the country's strategic push to diversify its energy mix and enhance energy security. With India aiming to reach 100 GW of nuclear capacity by 2047, the company has emerged as a key player, bringing its execution strength, financial capability, and experience in large-scale infrastructure to nuclear energy.

Engagement Process and Discussions:

India's nuclear journey has been shaped by self-reliance, especially post the technology denial regime following Pokhran-I, which drove indigenous development under leading nuclear institutions in India. The stabilization of PHWR (Pressurized Heavy Water Reactor) technology led to scalable 220 MW and 700 MW reactors, recently operational at sites like Kakrapar and Rawatbhata. India currently operates 24 reactors with 8.2 GW capacity, with 6.8 GW under construction and another 7 GW planned, aiming for 22.5 GW by 2031–32 and 100 GW by 2047.

Company has entered nuclear energy through partnerships and JVs, focusing on fleet-mode construction of 700 MW PHWRs at Mahi Banswara. These efforts aim to reduce per MW costs (currently ₹18–21 crore/MW) and targeting a levelized cost of ₹6–7/unit—slightly above thermal power but with long-term viability due to low fuel costs and high plant life (60+ years). Company is investing ₹42,000 crore in a 2.8 GW Kudankulam project using Russian PWRs, benefitting from bulk procurement and economies of scale, bringing the cost down to ₹15 crore/MW. However, nuclear projects face unique challenges, particularly the delayed signing of PPAs. This is due to regulatory uncertainties, long gestation periods (7–10 years), evolving tariffs, and state discoms' reluctance to commit to long-term nuclear power purchases.

To address supply chain limitations, company and India's largest nuclear operator are developing a vendor ecosystem through clear capacity roadmaps and pre-feasibility studies at potential sites. The engagement revealed that only ~50% of identified sites typically move to execution, reflecting challenges in land acquisition, site suitability, and environmental approvals. It is working with manufacturers and regulatory agencies to streamline these processes.

Company's entry also marks a shift in private sector participation in nuclear energy. Previously restricted to equipment supply under the Atomic Energy Act, new JV structures to allow operational roles, though ownership eventually rests with India's nuclear operator. Fuel supply remains a critical bottleneck—India currently imports ~50% of its uranium, with local production managed by Indian Uranium Company and fuel rods fabricated at the Nuclear Fuel Complex in Hyderabad. The company is also investing in thorium R&D and reprocessing technologies to align with India's long-term three-stage nuclear program.

Conclusion:

Our engagement with the company, helped us gain more clarity regarding how nuclear energy landscape will evolve in the country and company's plan to foray into increasing nuclear energy capacity to support the base load power as thermal power retires, in near future. However, we

found that nuclear energy will take time to evolve in the country. We continue to engage with the company to understand on the evolving landscape on nuclear energy.

Case Study 5: Engagement with a battery manufacturer on upcoming Li Ion Battery facility

Introduction:

The Indian energy storage sector is undergoing a transformation, driven by evolving mobility patterns, rising electrical loads in modern vehicles, and the gradual shift towards electrification. One of the companies is emerging as an important player in this transition, with a dual focus on advanced lead-acid batteries and lithium-ion innovation. Historically governed through a joint venture with a global battery leader, governance practices have progressively matured over the years. A generational leadership shift is also underway, with younger family members assuming operational roles and the founder moving into public life. The company's continued investments in capacity expansion, technology partnerships, and global market reach reflect a deliberate and future-facing growth strategy.

Engagement Process and Discussions:

The company's competitive positioning within the telecom, UPS, and solar inverter battery markets also underscores its diversification across energy applications. It holds a 40% share in the ₹2,800 Cr telecom battery market and leads the premium end of the ₹8,000 Cr UPS segment with a 50% share. Its entry into the ₹600 Cr solar inverter battery market marks another adjacent growth avenue, especially as inverter battery demand spikes cyclically due to grid reliability issues. This overlap between solar, inverter, and energy backup markets creates natural synergies for capacity utilization and market depth, particularly as grid stress may rise with increased EV adoption.

Our engagement focused on the company's strategic alignment with emerging trends and its governance transition. Discussions covered multiple dimensions: Operationally, the company manufactures ~50,000 batteries per day with 70% utilization and 90% yield, sustaining ~11% EBITDA margins. It dominates India's aftermarket segment and holds leadership in telecom and premium UPS batteries, while aggressively pursuing OEM partnerships. Efforts to localize AGM and enhanced flooded battery production cater to increased electrical loads in vehicles with start-stop systems and EV auxiliaries.

Strategically, the company's ₹9,500 Cr investment in a 16 GWh lithium-ion gigafactory aligns with anticipated EV demand. The partnership with one of the top-five global li-ion battery players, supports tech transfer for both NMC and LFP cell lines. Current plans include 2 GWh NMC by 2026 and 4–6 GWh LFP by 2027, scaling to 16 GWh by 2030–31. Simultaneously, the company has enhanced lead-acid manufacturing with stamped grid technology and is exploring bipolar batteries and 4680 formats.

Its presence in 51 countries underscore its global aspirations, while brand flexibility and capex discipline further strengthen positioning. Our dialogue also examined price competition in the OEM space, evolving risks from raw material imports, and readiness for regulations like India's Battery Waste Management Rules.

Conclusion:

Our stewardship engagement highlighted the company's strategic clarity and operational resilience across both lead-acid and lithium-ion segments. While the lithium investment roadmap and global

partnerships reflect promising long-term potential, we continue to monitor execution milestones, regulatory developments, and competitive dynamics—particularly in the OEM and export segments. Governance progress and sustainability initiatives have been noteworthy, but given the evolving technology landscape and margin pressures, we maintain a close watch on the developing ecosystem.

Case study 6: Exploring opportunities in India's Battery Recycling Sector

Introduction:

As part of our engagement in India's battery recycling sector, we interacted with three companies to understand how they are tackling critical mineral demand, aligning with EPR regulations, and building scalable, tech-led, and ESG-compliant recycling models.

Engagement Process and Discussions:

The company is one of India's largest lithium-ion battery recyclers and a vertically integrated critical materials player, with operations spanning reverse logistics, diagnostics, refurbishment, recycling, and hydrometallurgical refining. It sources used batteries from OEMs, aggregators, and financiers, achieving lithium recovery rates of 85–90% and material purity of 99.9%, supported by proprietary processes and strong in-house R&D in diagnostics and traceability. With eight facilities totalling 25,000 TPA and further expansion underway in India, the UAE, and the U.S., the company aims to scale lithium, nickel refining, and cathode active material production to 20,000 TPA each. Backed by strong EBITDA margins and profitability, it is targeting a five- to tenfold revenue increase and plans to raise $100 million ahead of a potential IPO by 2026–27, with India's evolving EPR framework and digital infrastructure seen as key growth drivers.

The second company is an innovation-led startup that transitioned from gas infrastructure to circular economy solutions. It focuses on refining black mass into battery-grade materials using a proprietary, low-temperature, zero-liquid-discharge hydrometallurgy process. This delivers high recovery yields—lithium carbonate at 99.5% purity and cobalt sulfate at 100%—while minimizing environmental impact. Although currently smaller in scale, the company plans to increase processing capacity fivefold in the near term and tenfold in the long term. A year-long shutdown due to environmental permit delays led to process improvements and increased lithium recovery from 85% to 99.5%. The company has begun EPR credit sales, which are a growing share of revenue, and is pursuing certifications to monetize carbon and water efficiency. Future strategy includes expanding its footprint, automating certificate issuance, and becoming a science-driven partner for OEMs.

The third company is one of India's most established non-ferrous recyclers, with operations across lead, aluminium, copper, and plastics. Lead remains the core revenue contributor, though the company is expanding in other segments to meet rising EPR and regulatory expectations. Lead recycling capacity has nearly doubled, and domestic sourcing has improved. The company operates a 70-country procurement network, enabled by integrated tracking software, and complies with stringent environmental and EPR norms. Despite OEMs increasingly internalizing recycling, it believes its technical expertise, international customer base, and cost efficiency make it a key third-party player. Future plans include further diversification into lithium-ion recycling, investment in new refining technologies, and capturing EPR-linked opportunities in plastics and aluminium.

Conclusion:

The three companies represent different but complementary facets of India's emerging battery recycling ecosystem. All three are leveraging the evolving EPR mandates not just as a compliance necessity but as a strategic growth opportunity. Their efforts are helping build the critical mineral backbone required for India's clean energy transition. With tightening regulation, rising EV penetration, and growing OEM interest in traceable circularity, the battery recycling sector is poised for an upscale in the near future.

Case study 7: Evolving engagement with a QSR company

Introduction:

We engaged with a prominent QSR operator in India, which manages the master franchise for a leading global fast-food brand. The engagement was initially triggered through our ESG-related proxy voting process and later evolved into a deeper ESG dialogue with a senior company executive leading its sustainability initiatives.

Initial Engagement:

Our engagement began with the aim of understanding the company's preparedness for reporting under the Business Responsibility and Sustainability Report (BRSR) framework, as well as clarifying specific voting resolutions. Proxy advisors had recommended voting against the remuneration of the executive directors due to inadequate public disclosure. Subsequently, we interacted with the company to better understand the components of the executive compensation package, including the ESOPs and the breakdown of variable pay. After receiving the necessary details, we assessed the compensation structure using our internal framework, enabling us to take an informed position and ultimately vote in favour of the resolution.

Materiality Analysis and Best Practice Document:

The company sought our assistance in identifying ESG best practices adopted by Indian and global peers, particularly around net-zero strategies and sustainability leadership. To ensure relevance, we conducted a materiality analysis supported by a Best Practices Document referencing the SASB framework for the restaurant and hospitality sector. This helped identify priority ESG topics based on the company's operating model and stakeholder expectations. Environmental issues such as GHG emissions, energy efficiency, and packaging waste stood out, especially under growing EPR-related regulatory pressure. Social themes included food safety, nutritional transparency, employee well-being, and customer health, given the company's consumer-facing nature. Governance concerns like grievance redressal, data privacy, and vendor oversight were also material amid rising digitalisation. This formed the basis for benchmarking against domestic and global QSR peers. While the company showed intent and early progress, gaps remained in disclosure quality, third-party certification, quantitative metrics, and long-term target setting. The review also highlighted emerging practices like science-based targets, EPR tracking, and circular packaging innovations.

Conclusion:

This engagement provided the company with an independent perspective on its ESG positioning and helped clarify investor expectations. The company acknowledged several gaps and expressed a commitment to addressing them in future sustainability reports and initiatives. The exercise highlighted critical ESG priorities for the company, presented a clear view of where peers are

advancing, and outlined actionable opportunities to enhance transparency, accountability, and alignment with global ESG norms.

Case study 8: Evolving engagement with a QSR company

Introduction:

As part of our ESG screening and stewardship process, we conducted a detailed assessment of a mid-sized textile and garment manufacturing company to evaluate its performance across environmental, social, and governance parameters. While the company exhibits several strengths on the social and operational fronts, our assessment flagged significant governance concerns. This prompted a follow-up engagement with company representatives for further clarity.

Engagement Process and Discussions:

The ESG assessment revealed multiple governance-related issues. There was a sequence of changes in statutory auditors, beginning with a small firm that lacked scale and later transitioning to another firm that struggled with audit complexity. Eventually, the company appointed separate auditors for tax and statutory purposes. While this was presented as a practical solution, the overall audit oversight structure appeared fragmented and lacked robustness.

The company had also experienced tensions with local regulatory authorities in the past, including allegations of excessive inspections and policy harassment, which led to the cancellation of a proposed large-scale capital expenditure plan. Although the situation had since stabilized following relocation support and incentives offered by another state government, the episode highlighted sensitivity in regulatory relationships and public communication practices—factors that contribute to governance risk.

In our engagement, we raised these concerns and received responses regarding audit changes, regulatory developments, and timelines for internal corporate restructuring and political interventions. However, despite the company's responsiveness, governance standards remained below acceptable thresholds. There was limited evidence of strong independent oversight, structured board processes, or clearly articulated long-term ESG strategy.

Conclusion:

The case underscores the centrality of governance in ESG integration. Despite positive indicators on the social and operational dimensions, governance shortcomings—particularly around audit quality, transparency, and political alignment—represent material risks that outweigh the positives. The engagement offered valuable insight into the company's ESG posture and highlighted the importance of a well-rounded framework in long-term investment decisions. While certain explanations were provided, governance gaps persisted, ultimately contributing to a low ESG score and aided the team in taking a call on their long-term investment consideration on this company.

ESG Exclusionary Strategy Fund
Fund Manager Commentary (2024-25)

Fund Manager's insights on Strategy and Stock Selection:

In accordance with SEBI Circular Dated 20-July-2023, the ESG Fund was renamed as SBI ESG Exclusionary Strategy Fund in FY24. The Fund excludes sectors with a negative social connotation like habit forming substances/ practices like alcohol, tobacco, gambling and pornography. The fund also excludes controversial weapons that especially include weapons of mass destruction. The scheme also excludes the lowest scoring companies on the SEBI registered ESG Rating Provider's (ERP's) framework that SBIFM subscribes to, at the time of purchase of the security.

On a monthly basis, the ESG Research Team at SBIFM provides a list of securities from the SBIFM equity universe that should be excluded in the Fund in the above-mentioned sectors and companies to the SBIFM Risk Team. Besides these, the ESG Research Team also provides to the Risk Team a list of securities from the SBIFM equity universe that have not reported BRSRs and hence, cannot be purchased in the Fund. The Risk Team then blocks the purchase of these securities in the front office system for the SBI ESG Exclusionary Strategy Fund. As per clause 3.11.4.2.1 of SEBI's master circular, ESG schemes are mandated to invest at least 65% of their AUM in companies which are reporting on comprehensive BRSR and are also providing assurance on BRSR Core disclosures. The balance AUM of the scheme can be invested in companies having BRSR disclosures. This requirement was applicable with effect from October 01, 2024. In accordance with this mandate, the ESG Research Team also provides a list of companies that publish BRSR Core with reasonable assurance to Risk Team so that the trade restrictions may be made applicable for the fund.

We continued to track the ESG scores from the ERP and industry exposures of our portfolio companies through the year. No portfolio positions were sold as a result of change in ESG scores or industry exposures, rather these were driven more by evaluation of fundamental factors such as business, management and valuations. Increases in weights or new stock additions were based on a combination of fundamental and ESG analysis.

Apart from the ERP, we continued to leverage SBIFM's internal ESG Research Teams insights. From these insights, there emerged both ideas around risks and opportunities that we considered for new ideas and existing portfolio holdings. Some examples were:

- The ESG team conducted extensive ESG checks on a building materials stock to identify any environmental supply chain risks. After in-depth research and engagement with the company, ex-employees, competitors, regulators, distributors and transporters involved in the supply chain, the ESG team determined that no illegal mining or supply chain concerns were identified in the stock. Due to this due-diligence on environmental aspects related to the company, a "buy" decision was made.
- In yet another stock, the parent entity announced a plan to reduce its holding from 51% to 20% in the Indian entity creating potential business as well as corporate governance concerns for minority shareholders. In this context, an engagement was designed to approach the independent directors on the board to understand the rationale behind this decision. Such high-level engagements highlight investors' concerns and interests directly to the board and help build a foundation of trust and accountability that strengthens long-term corporate governance.

ESG Engagements:

SBI FM's ESG team organizes meetings with the company management independently, or utilizes analyst meets/sell-side organized conferences to secure one-on-one meetings with them. ESG related questions are asked, and records are maintained. At times, companies wish to extend the discussions, and subsequent meetings are undertaken to deliberate on the issues at length. Companies also provide clarifications via email in some cases. SBIFM does not record an interaction as an engagement unless at least one meeting with the management has happened on ESG-related topics.

Voting interactions are considered as engagements where the company either responds to SBI FM's email/telephonic conversations or provides clarity to proxy advisor/stock exchanges on the resolutions highlighted by SBIFM. While voting related engagements lead to quicker outcomes, as explained in the case studies in the table below, the other discussions may be long term and focus on understanding the ESG initiatives of companies better and pushing them towards improvements. These long-term engagements may not lead to measurable or reportable outcomes but create an understanding in companies around investor expectations around ESG.

Engagements were carried out with 19 companies in the fund for various environmental, social and governance (voting) related topics. Details of engagements are provided in table 1. The topics of engagement varied from governance to carbon to sustainable packaging etc. The in-house ESG team monitors the companies in the portfolio and identifies issues that require conversations with the companies. At times, engagements are carried out to better understand the ESG initiatives of a company. The ESG approach is utilized as both a risk mitigation tool as well as an opportunity for responsible investments. For instance, the unpreparedness of a bank to report on portfolio emissions and stress testing could be a regulatory as well as financial risk in the future, whereas a company's move into low carbon products could be an opportunity for the company. SBIFM uses the ESG lens from both perspectives and decides to engage with selected companies from the portfolio.

In general, these engagements are carried out with heads of sustainability, heads of finance and investor relations functions, however, increasingly CEOs and promoters are also joining these conversations. Some of the important engagements that were carried out this year included a governance-related engagement that was carried out with a consumer durables company following the announcement by its foreign parent to reduce its shareholding from a majority stake to a minority one. We expressed our concerns about the decision to the Board and Independent Directors of the Indian entity and sought to engage on the issue. By facilitating open communication channels, such engagements help in building a resilient governance framework that prioritizes stakeholder interests.

Another engagement was with a large bank where the bank proactively engaged with institutional investors to understand their expectations and views around equity-linked compensation and ESOP/RSU policies which safeguard minority shareholder interests. During the engagement, SBI FM was able to emphasize and push for the need for clear performance-based allocation/vesting conditions, limited dilution, transparency in disclosures, and the inclusion of claw back provisions. In response, the bank Announced the scheme, reallocating shares from a previously approved ESOP pool to cap dilution at 1.0% of the expanded capital base. The scheme excluded promoters and non-executive directors and prioritized the inclusion of junior to mid-level employees, who would receive the majority of the grants. Vesting was designed over 1–4 years and tied to both company-level metrics such as return on equity, asset quality, and profitability and individual performance ratings. As a result, the proposed PRSU scheme garnered the approval of minority investors.

Engagements with banks highlighted the efforts of the banks to comply with RBI's expectations around Climate related stress testing of their portfolios. On the other hand, a dialogue with companies involved in information and technology highlighted their efforts to integrate sustainability and ESG practices into core operations, including energy efficiency, carbon neutrality targets, and AI-driven resource optimization. Also, social aspects like employee development and internal talent upskilling, with structured training programs and internal mobility for project roles were emphasized upon. Engagement with an FMCG major highlighted its foray into sustainable packaging and its challenges and conversations with a Cement major highlighted its carbon reduction efforts.

Table 1: ESG Engagements done in FY25

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
1	Auto Company 1	As part of our stewardship process, we engaged with an auto company regarding the proposed appointment of an independent director, where concerns had been raised under our internal over boarding policy. Specifically, our ESG team sought clarification on the director's role at a privately held advisory firm where he is a designated partner and chairperson. Our policy considers such roles equivalent to whole-time directorships when determining board-level capacity. The company responded that the firm operates as a strategic consultancy with limited scale and clarified that the director's involvement is minimal, not comparable to the demands of a whole-time executive role in a listed entity. They also emphasized that the appointment had been made after evaluating the director's ability to contribute meaningfully to board responsibilities. Based on the detailed clarification and alignment with the intent of our policy, we assessed that the director could not be considered over boarded and voted in favour of the resolution. This engagement highlights the importance of context-driven assessments and direct dialogue in proxy decision-making.	Governance; via email
2	Bank 1	SBIMF met the risk management team of a large bank to discuss their views on RBI's latest draft on TCFD framework. The framework guides companies to disclose climate-related financial risks and opportunities, structured around four key pillars: governance, strategy, risk management, and metrics and targets. The bank's board and senior management oversees climate-related matters through a dedicated ESG committee, ensuring that climate considerations are integrated into the overall business strategy and decision-making processes. Under the strategy pillar, the bank evaluates short, medium, and long-term climate-related risks and opportunities, especially how climate change could impact its lending portfolio and operational resilience. In the risk management domain, it has begun integrating physical and transition risks into its broader risk assessment framework. Tools such as hazard heat maps, environmental due diligence, and preliminary climate stress testing are being applied,	Decarbonisation; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		although data availability remains a significant challenge. Importantly, climate risks are now considered as part of capital adequacy assessments, and the bank has been engaging with regulators to promote uniform climate risk databases across banks to ensure consistency in disclosures and scenario analyses. The Bank is monitoring financed emissions and green lending exposure. It has also started incorporating internal ESG scores for borrowers, though these currently do not feed into formal credit ratings. The bank is facing difficulties in defining "green finance" due to the absence of a standardized Indian climate finance taxonomy, unlike the EU (before May 2025 release of Indian Climate Taxonomy draft). Its ESG framework includes an internal borrower rating system, though not yet linked to credit ratings. It is monitoring global developments like IFRS S1 and S2 standards and preparing for future compliance, while remaining focused on financial stability.	
3	FMCG Company	We engaged with a major FMCG player, who is actively exploring sustainable packaging solutions, particularly compostables, in response to emerging regulations and long-term environmental goals. However, the company highlighted several challenges hindering immediate adoption. While bagasse, PLA, PHA, and PBAT-based alternatives are available, most are imported and lack standardization in India, leading to widespread mis-marketing and unreliable performance. Functionality is critical as packaging must endure India's extreme climatic conditions during transport while maintaining product integrity. Currently, compostable materials fail to consistently meet required barrier properties like WVTR and OTR, and their quality can vary from batch to batch due to agri-based raw materials. Extensive validation and multi-batch trials are underway, but costs remain a significant roadblock. Compostable packaging can cost 2.5–3x more than plastics, making them unviable for mass-market products in a highly price-sensitive economy. The company believes that compostables may initially find utility in secondary or double-layer packaging formats, especially where metallised coatings can help meet barrier needs. However, until regulatory enforcement increases or costs reduce, these will largely remain experimental. Meanwhile, the company is prioritizing recyclability through a shift from multi-layer plastic (MLP) to mono-material layered (MML) packaging, which is more compatible with India's Extended Producer Responsibility (EPR) framework. MMLs are easier to recycle and meet recycled content targets, unlike MLPs that mostly end up in landfills. The brand is already using 70% recyclable packaging, with further improvements in progress. It is plastic-neutral and processes over 43,000 tonnes of plastic annually. While high-	Sustainable Packaging; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		margin SKUs may absorb the cost of sustainable materials, large-scale adoption is only likely when regulation mandates change or supply-side innovation reduces cost. Through collaborative initiatives with innovators, the company remains committed to long-term sustainable packaging transformation.	
4	NBFC Company	During our stewardship engagement with a listed entity, we reviewed a resolution proposing the appointment of an independent director. The resolution was incorrectly classified as an Ordinary Resolution, despite the Companies Act, 2013 mandating a Special Resolution for such appointments. We promptly flagged this discrepancy to the company, citing the legal requirements under Section 149(10) and applicable SEBI regulations. The company acknowledged the oversight and responded by filing an addendum with the stock exchanges, rectifying the resolution classification to a Special Resolution. This engagement underscores the importance of vigilant review of proxy voting materials and the constructive role investors can play in ensuring regulatory compliance and strengthening governance practices.	Governance; via email
5	Industrials company 1	As part of our stewardship responsibilities, we engaged with a listed industrials sector company to seek clarity on a resolution proposing the appointment and continuation of an independent director beyond the age of 75. Our internal policy flags over boarding concerns where individuals hold more than three board positions while occupying roles equivalent to whole-time directors in their own firms. In this case, we requested details on the individual's responsibilities, revenue involvement, and client engagement across two firms he was associated with. The company facilitated a detailed response outlining that the director spends limited time (2–3 days per month) on strategic advisory for a small number of clients through his personal consultancy, while his role in a second startup venture is non-lead and minimal. Based on this clarification, and the director's assurance of sufficient bandwidth to fulfil board duties effectively, we determined that he did not meet our threshold for over boarding and subsequently voted in favour of his appointment. This case underscores the importance of context-specific engagement and evidence-based evaluation over rigid application of quantitative thresholds.	Governance; via email
6	Auto Company 2	As part of our stewardship responsibilities, we participated in the materiality assessment exercise of a large automotive company, providing investor perspectives on key ESG priorities. We shared our views on the most financially and reputationally significant sustainability issues for the sector, including supply chain resilience, decarbonization pathways, responsible	ESG disclosures; via form sent by company

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		sourcing, and product safety. Our engagement aimed to support the company in aligning its sustainability disclosures and strategy with stakeholder expectations and global best practices.	
7	Life Insurance company	As part of our stewardship process, we engaged with a company to evaluate the proposed appointment of an independent director, specifically to assess concerns around potential over boarding under our internal policy. Our ESG team sought clarity on the director's role at a privately held CA firm, where he is a designated partner. Our internal framework considers such positions equivalent to whole-time directorships when evaluating board-level capacity. The company clarified that the director is a practicing Chartered Accountant with over four decades of experience in audit, tax, and corporate advisory services. He has been a partner at the audit and assurance firm since 1984. While the company was unable to share further details regarding the director's responsibilities within the external firm—citing confidentiality and limited access—they confirmed that neither the company nor any of its group entities have availed audit or non-audit services from the said firm. The company also confirmed that all statutory disclosures had been received, and that the director meets the independence criteria under the Companies Act, SEBI LODR, and IRDAI. Based on the clarity provided and alignment with the intent of our over boarding policy, we concluded that the director's board commitments were manageable and voted in favour of the resolution. This engagement underscores the value of direct dialogue and contextual evaluation in exercising stewardship responsibilities.	Governance; via email
8	Metals company	We engaged with the sustainability team of a leading metals producer to understand its copper recycling strategy and the potential impact of the EU Carbon Border Adjustment Mechanism (CBAM). The company has announced a ₹2,000 crore investment in a copper and e-waste recycling facility, which will add 50 KT capacity through pyrometallurgy, making it India's first large-scale organized copper recycler. The unit will rely on imported scrap and formal tie-ups due to limited domestic availability and is expected to generate mid-teen IRRs while enabling recovery of precious metals. Though environmental concerns were raised locally around slag disposal, the company claims these have been addressed. On the aluminum side, the company's exposure to CBAM is expected to be limited since most emissions are Scope 2, which are currently excluded. It had also partnered to supply aluminum coaches and wagons, but the project is stalled due to pricing challenges, though the company remains open to future bids if aluminum is mandated.	Decarbonisation; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
9	Bank 2	SBIMF met the risk management team of a large bank to discuss on RBI's latest draft on TCFD framework and broad ESG strategies of bank. RBI initiated discussions on climate risk through a 2022 discussion paper based on the Task Force on Climate-related Financial Disclosures (TCFD), followed by the 2024 draft disclosure framework. However, no formal mandate exists yet for climate stress testing or scenario analysis, leading banks to adopt individualized, board-approved assessments aligned with global frameworks like TCFD and GRI. Banks are therefore using sector-specific questionnaires and borrower engagement to assess ESG risks, applying this uniformly to listed and unlisted entities. Disclosure timelines vary across banking categories, with Scheduled Commercial Banks and NBFCs expected to disclose on governance, strategy, and risk management by FY26, and on metrics and targets by FY28. RBI is also developing a location-based climate risk database in collaboration with climate scientists and tech firms. Meanwhile, some banks are working with external agencies for granular physical risk mapping, particularly in agriculture and retail lending. Climate stress testing is gradually expanding to retail portfolios, although data gaps persist. This Bank, for example, conducts internal climate scenario analyses, which inform capital adequacy assessments under ICAAP, though detailed capital impacts are undisclosed. Banks use internal ESG frameworks for due diligence in project finance and term loans, and subscribe to ESG data providers for secondary insights. Adoption of RBI's green deposit framework has been limited, as regulatory constraints prevent incentive pricing. Further, Lack of "green premium" in bank borrowings also restricts competitive green financing.	Decarbonization; via meeting
10	QSR Company	As part of our stewardship efforts, we engaged with the sustainability leadership team of a leading quick-service restaurant (QSR) company in India to understand its approach to managing social and environmental factors. The company has implemented a robust, tech-enabled system to track and resolve consumer complaints, supported by structured escalation and training protocols. Despite rising sales, complaint volumes have remained stable. Significant investments have been made in modernizing food processing infrastructure, and efforts are underway to localize key ingredients without compromising quality. The company has set a target of 50% renewable energy use by decade-end, with solar already installed at major facilities. It operates one of the largest EV delivery fleets in India and is working with academic partners to quantify emissions reductions. Waste management initiatives include Zero Liquid	Environmental and Social Initiatives; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		Discharge systems and in-house biodiesel production from used cooking oil. While a plant-based product launch saw limited uptake, the company continues to invest in healthier recipes and sustainable packaging. Governance concerns were addressed with clarity, and the company is focused on improving global ESG benchmark scores through continued innovation and operational efficiency.	
11	Bank 3	Amid increasing shareholder pushback on ESOP and RSU proposals due to high discounts and lack of performance transparency, a leading private sector bank in India proactively engaged with institutional investors to understand their expectations around equity-linked compensation. During the engagement, we emphasized the need for clear performance-based vesting conditions, limited dilution, transparency in disclosures, and the inclusion of claw back provisions. In response, the bank introduced a new Performance Linked Restricted Stock Unit (PRSU) Scheme, reallocating shares from a previously approved ESOP pool to cap dilution at 1.0% of the expanded capital base. The scheme excluded promoters and non-executive directors and prioritized inclusion of junior to mid-level employees, who would receive the majority of the grants. Vesting was designed over 1–4 years and tied to both company-level metrics—such as return on equity, asset quality, and profitability—and individual performance ratings. While the PRSUs were proposed at a significant discount to market price (face value of ₹5 versus a market price near ₹1,928), the bank addressed potential misalignment by embedding strict vesting thresholds, malus and clawback provisions, and structured transparency commitments. These included annual disclosures on the number of PRSUs granted, vesting status, target achievements, and performance parameters used. The final scheme demonstrated a balanced approach to talent retention and shareholder alignment. Given the thoughtful incorporation of investor feedback and the commitment to governance and disclosure, we supported the resolution and view this as a model engagement outcome in the evolving landscape of executive compensation in India.	Governance; via meeting
12	IT Services Company 1	We engaged with a prominent company in the sector of engineering research and development services. The engagement provided useful insights into the company's structured ESG journey, highlighting its shift from basic disclosures to integrated sustainability practices, including SBTi-approved carbon and water neutrality goals for 2030. It offered clarity on environmental initiatives such as 23% renewable energy use (targeting 50%), HVAC efficiency upgrades, and cloud adoption to reduce Scope 2 emissions. The discussion shed light on sustainability-led engineering	Environmental and Social Initiatives; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		efforts, including reduced material usage in auto components. Social initiatives around employee development through structured programs were emphasized, although progress on gender diversity—both at employee and board levels—remains limited. The company clarified governance enhancements through updated materiality assessments, third-party ESG ratings, and integrated reporting practices. They also provided some clarity around the company's involvement in 5G project execution, not operations, and that it does not manage data centers directly but provides engineering support for energy efficiency. While the company acknowledged increasing client ESG expectations and decarbonization-led business shifts, it does not yet track green revenues separately. Discussions on attrition clarified that voluntary exits are below 20%, with past spikes attributed to industry-wide post-pandemic trends. The company also shared its outlook on AI's workforce impact and noted it is actively monitoring global reporting mandates like IFRS and CSRD. The engagement was valuable in obtaining these operational clarifications.	
13	IT services Company 2	SBI MF met the senior management of a leading technology company for understanding ESG initiatives. It has adopted robust cybersecurity measures to address the risks of data traveling across diverse environments. With stringent data protection regulations in regions like the EU, the company has invested significantly in cybersecurity infrastructure and secure data handling. Measures include disabling the ability to reproduce, print, or screenshot confidential emails. These efforts have helped the company avoid major data breaches or penalties. With banks facing regulatory scrutiny, the company sees an opportunity to offer enhanced cybersecurity services to this sector. In terms of sustainability, the company integrates environmental considerations into project delivery rather than treating sustainability as a standalone service. Although consulting remains a small revenue segment, it designs software with energy efficiency in mind and has assisted energy sector clients in improving operational efficiency through AI and IoT solutions. Company focuses on internal talent development, with 50–75% of new project roles filled from within. It runs regular training programs, hackathons, and internal events to foster continuous learning. Delivery managers often double as trainers, and a 10% project team buffer is maintained for on-the-job upskilling. Non-adoption of new technologies could result in employees exiting the organization. In geospatial and weather forecasting, the company provides highly accurate forecasts for agricultural planning, supporting 150,000 acres of farmland with services including soil testing	Environmental and Social Initiatives; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		and organic farming advice. In e-commerce, it offers digital tools for demand forecasting and inventory optimization. Although the Indian share is modest (4–5%), global markets drive this segment.	
14	Auto Company 3	SBIMF met the senior management team of one of the leading automobile company in the country renewable energy accounted for only 2.66% of its total energy use—much lower than peers, though the company aims to increase this to 30% by 2025 with incremental capex. Electrification is on the horizon, with plans to launch six premium battery EVs by 2030 in the mid-size SUV segment. These vehicles will offer a 550 km range, powered by 60 kWh NMC battery chemistry. By 2031, the company targets a powertrain mix of 25% hybrids and 15% battery EVs. Despite its current lack of EV models, the company's average CO2 emissions (111.06 g/km) are the industry's lowest, due to its focus on compact, fuel-efficient vehicles. The company believes India's EV adoption will remain modest in the short term and argues that aggressive EV strategies by some OEMs may not be sustainable, citing examples of foreign car makers scaling back EV production in the U.S. Hybrid vehicles are gaining ground in India, partly due to potential GST reductions (from 48% to 12%) and consumer concerns about range anxiety and limited charging infrastructure. In the hybrid vehicles, currently the company offers strong hybrid models through a partnership with a Japanese auto major and mild hybrids across several models. Strong hybrids are about 30% more fuel-efficient than ICE vehicles, while mild hybrids deliver a 22–23% improvement. The company is also investing in ethanol-based flex fuel technology, showcasing a model in 2022, with a commercial launch expected in FY25. This fuel can reduce CO2 emissions by up to 79% and is biogenic in nature. To ease the ethanol transition, the company is developing kits to make older vehicles E20-compliant and working with industry bodies for broader availability of blended fuels. Additionally, the company is piloting a biogas project with its Japanese parent and a Dairy company, exploring bio-CNG from cow dung, backed by a ₹2.3 billion investment and recent government incentives.	Sustainable Mobility; via meeting
15	Bank 4	As part of our ongoing stewardship efforts, we participated in a climate risk engagement session conducted by a major financial institution to understand its climate strategy and risk mitigation roadmap. The institution shared its approach to integrating climate-related risks within its enterprise risk framework, including plans to assess physical and transition risks, measure financed emissions at borrower level, and develop a Net Zero transition strategy. It also outlined its	Decarbonization; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		alignment with RBI's evolving climate regulations, its adoption of internationally accepted tools like PCAF and TCFD, and its focus on sectoral decarbonisation and stress testing methodologies. The session provided valuable insights into the institution's commitment to embedding climate considerations into lending, investment decisions, and disclosures, reinforcing the relevance of financial system alignment with India's broader net-zero goals.	
16	Industrials company 2	We engaged with a diversified industrial solutions provider to understand its sustainability-aligned growth strategy and climate-relevant business pivots. The company has seen strong demand for its water and air pollution control offerings, particularly in the steel and cement sectors, where clients are proactively targeting emission and water efficiency improvements beyond regulatory mandates. The shift from conventional to advanced water treatments such as ZLD, effluent recycling, and desalination—now comprises two-thirds of the water business and is expected to drive future growth, supported by in-house thermal engineering capabilities. Similarly, its air pollution control business is moving from particulate control to gaseous emissions, with scrubbing solutions expanding into new sectors like carbon, silicon, and bio-CNG. The acquisition of a high-purity water treatment firm has opened doors in pharma, personal care, and potentially semiconductor sectors, aligning with rising water quality standards. In the boilers business, exports have picked up post the acquisition of a tech company and domestic demand is growing due to industrial expansion. The company is also scaling its green energy portfolio, deploying solar, wind, and biomass-based heating with competitive equity returns, while strategically building internal capability in chemicals and streamlining its underperforming industrial infrastructure segment. Overall, the engagement highlighted the company's evolving role as a technology-led solutions provider to industrial decarbonisation, backed by a measured approach to capital deployment and a focus on high-margin, sustainability-linked opportunities.	Environmental Opportunities; via meeting
17	Auto Company 4	We engaged with a listed company ahead of a resolution seeking shareholder approval for a new Employee Stock Option Plan (ESOP). The scheme proposed issuing over 1 million options through secondary acquisition, with key terms such as exercise price and vesting criteria delegated to the company's Nomination and Remuneration Committee (NRC). In line with our internal ES G framework, which emphasizes transparency in incentive structures, we reached out to seek clarity on how the discount and performance linkage would be determined. The company clarified that the NRC would be responsible for	Governance; via email

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		defining individual-specific performance parameters, assessing eligibility, and setting the exercise price. Given the varied roles across the organization, they argued for flexibility in applying role-specific performance criteria. They confirmed that vesting would be subject to appropriate conditions—time-based, performance-based, or both—and agreed that the parameters set by the NRC would be objective and tailored to each role. This clarification enabled us to assess the alignment of the scheme with long-term shareholder value and vote in favour of the resolution.	
18	Consumer Durables Company	As part of our stewardship responsibilities, we engaged with a listed consumer durable company following the announcement by its foreign parent to reduce its shareholding from a majority stake to a minority one. We expressed our concerns about the decision, highlighting that it the parent entity had earlier indicated that it would retain a controlling stake. The engagement was designed to communicate directly with the Independent Directors of the board to understand the rationale for the divestment and understand any potential conflicts of interest, impact on brand royalties, supply chain synergies, and board representation etc. The board of directors responded to our communication with a commitment towards good governance principles within both the entities. We find that engaging with independent directors provides a platform for investors to express their concerns, fostering a culture of openness and mutual respect.	Governance; via email
19	Cement Company	We engaged with one of the largest cement producers in the country and also the largest carbon emitter among its peers. It has committed to achieving an 85% green energy mix by 2030, progressing from its current 34% (20% from Waste Heat Recovery Systems and 14% from other renewables) to a targeted 65% by 2028. The company employs a diversified renewable strategy for integrating solar with battery storage, wind, and hybrid systems, aiming to reduce energy costs and mitigate risks from dependence on a single source. Retrofitting older plants and leveraging state policies like energy banking are key to this transition, though challenges like state-level levies persist. The company is also improving its cement-to-clinker ratio from 1.44 to 1.54 by FY27–28 through increased use of supplementary cementitious materials (SCMs), such as fly ash and slag, significantly reducing CO_2 emissions. Investments in composite cement facilities, especially in Eastern and Southern India, support this shift, though broader acceptance in infrastructure projects may require policy adjustments. The company is raising its Thermal Substitution Rate (TSR), currently around 5.1–5.2%, with plans to reach 13–15% in the	Decarbonization; via meeting

Sr. No.	Nature of Business	Engagement Case Study	Topic and Mode of Engagement
		long term through alternative fuels like RDF and biomass. It is also piloting a technology to reduce kiln-related emissions, potentially lowering total CO_2 emissions by 10–15%. Approximately 11–14% of CapEx is directed toward sustainability initiatives, including renewable energy and waste recovery upgrades, and this allocation will continue over the next five years. While Carbon Capture, Utilization, and Storage (CCUS) is under evaluation with various partners, progress hinges on supportive policies and viable economics. The acquisition of another Cement company offers scope for modernization, renewable integration, and operational standardization to reduce emissions across older facilities. However, to decarbonize the old plants will require time. Additionally, company uses an internal carbon price of $10/tonne, expected to be revised post the launch of India's Carbon Credit Trading Scheme	

SBIFM is guided by the AMC's Stewardship Code for any escalation. During these engagements, we did not face the need for further escalation in this Financial Year

Voting on Companies under ESG Exclusionary Strategy Fund:

SBI Funds Management Limited (SBIFM) considers voting to be an important shareholder right and a valuable tool in the engagement process and votes on all resolutions of investee companies, which are critical for protecting and enhancing the investors' interests. The AMC casts votes for all schemes of mutual fund. The AMC uses a proxy voting advisory service to help analyse company proxy materials and statements, however, all final voting decisions are taken in house by Proxy Voting Committee, in consultation with analyst team or the portfolio manager/s or such other persons as it feels necessary. These voting decisions and the process undertaken to arrive at the decision is uploaded on the AMC's website (Proxy Voting Policy). The AMC engages with and votes on the various resolutions by the investee companies with related disclosures being made available online.

Clause 3.11.4.3.3 of SEBI's master circular dated June 27, 2024 states, "in order to enhance transparency on votes cast by ESG schemes, it is decided that under the rationale for voting decisions (whether" in favour" or "against"), the AMCs shall categorically disclose whether the resolution has or has not been supported due to any environmental, social or governance reasons. In instances wherein the voting approach for ESG and non-ESG schemes of any Mutual Fund is not same, the details and rationale for votes cast on behalf of ESG schemes and non-ESG schemes shall be disclosed separately." In compliance with the requirement, in the annual disclosure of the proxy voting activity for the fund house, two new columns have been added. One categorises all resolutions voted on as "Environmental", "Social" or "Governance" and the other mentions if the company being voted on, was held in the ESG Fund at the time of voting or not. With respect to the ESG Exclusionary Strategy Fund, in FY25, the fund has not casted any vote differently than the AMC, and that is available in the annual proxy voting disclosure.

In FY25, total resolutions voted on companies which were held in the ESG Exclusionary Strategy Fund were 397. Out of them 396 were voted in favour, and 1 was voted against. The vote casted against was due to less than 75% attendance of the proposed director in the last 3 years. There were 7 resolutions

where SBIFM engaged with the company to either receive more information, to get resolutions corrected or to get a written intent from the company towards improvement before voting in favour. Out of these, 2 engagements have been carried out prior to FY25, however, the explanation obtained has been used for taking voting decisions. All the resolutions under the SBI ESG Exclusionary Strategy were voted on “governance” rationales.

Percentage of companies with no BRSR and impact on fund score (if any)

Indian companies started publishing BRSRs actively from May 2023 as per SEBI regulations. All Indian portfolio companies reported BRSR for FY25, except illiquid shares forming less than 0.005% of the fund. The foreign security held in the portfolio reported its Environmental Sustainability Report, according to GRI, a global equivalent of BRSR, as specified by AMFI in their email communication to all Mutual Funds dated Aug 24, 2023.

In FY25, the Fund’s ESG score appears to have increased from 60.35 in Apr 2025 to 70.48 in Mar 2025. This is primarily due to the change in SEBI Registered ERP in the month of July 2025. The ERP was changed due to delayed updates on ESG scores and quality issues in ESG Reports being received from the ERP. The change in ERP has been notified in July Portfolio disclosure and the methodology of the new ERP is available in the SID of the fund.

In accordance with clause 3.11.4.3.2 SEBI master Circular. dated June 27, 2024 which states that disclosures should be made on “Security wise BRSR Core scores {as and when the same is made available by SEBI registered ESG Rating Provider (ERPs)}, along with the BRSR scores”, the links of the BRSR Core reports with reasonable assurance and the BRSR Core scores provided by the ERP have been made available in monthly portfolio disclosures from July and November 2025 respectively. Please note that the term “BRSR Score” is used interchangeably with “ESG score” and the term “BRSR Core score” is used interchangeably with “ESG core score”.

Table 2 provides the ESG scores of portfolio companies on a monthly basis:

Table 2: ESG Exclusionary Strategy Fund Monthly Scores

Note: The ESG scores cannot be compared between June and July due to change of ERP.

Real World Outcome:

The SBI ESG Exclusionary Strategy Fund, as the name suggests excludes sectors which have a socially negative connotation. These are tobacco, alcohol, pornography and gambling. These are all habit-forming sectors. The Fund also avoids investments in controversial weapons which includes weapons of mass destruction. In this context, the real-world outcome from the fund is that it has been able to avoid flow of money into such sectors with negative and habit-forming connotation.

KPI Monitoring of Fund Constituents:

Under the ESG Fund, we systematically monitor key data points across the Environmental, Social, and Governance (ESG) pillars to assess and encourage sustainable business practices. Under the Environmental pillar, we track metrics such as energy and water intensity, carbon emissions (Scope 1 and 2), and waste generation to understand each company's resource efficiency and climate impact. On the Social front, we evaluate workforce diversity, including female representation across employee and leadership levels, as well as employee and worker turnover to gauge inclusivity and workplace stability. In the Governance pillar, we focus on board independence, both reported and effective (based on SBIFM's own assessment) and gender diversity on boards. These indicators help us engage with companies constructively and align our investments with long-term value creation and ESG stewardship. Table 3 provides the ESG parameters that the fund monitors annually.

Certificate on compliance with the requirements as per SEBI letter dated 08.02.2022 and Para 3.11 of SEBI master circular dated 27.06.2024 in respect of SBI ESG Exclusionary Strategy Fund

This certificate is issued in accordance with our engagement with SBI Funds Management Limited (SBIFML) vide their appointment letter dated 28.05.2024 for conducting the ESG assurance service of SBI Mutual Fund Scheme (SBI ESG Exclusionary Strategy Fund) for the Financial Year 2024-2025. Pursuant thereto, we have examined the relevant data and records in respect of the aforesaid ESG scheme, provided by SBIFML. The scope of work for the said assurance service is guided by the requirements as per SEBI letter dated 08.02.2022 regarding "Disclosure norms for ESG Mutual Fund schemes" along with para 3.11.4.3.5 of SEBI master circular for Mutual Funds dated 27.06.2024 regarding "Assurance on ESG schemes".

Management's Responsibility

1. The Management of SBIFML is *inter-alia* responsible for compliance with the requirements as per SEBI letter dated 08.02.2022 along with para 3.11 of SEBI master circular for Mutual Funds dated 27.06.2024 in respect of SBI ESG Exclusionary Strategy Fund. This responsibility includes design, implementation, maintenance of and adherence to the internal controls relevant to the preparation and maintenance of the relevant data and records and providing all relevant information to us. Also, this responsibility includes ensuring that the relevant data and records provided to us for our verification are correct and complete in all aspects.

Assurance Provider's Responsibility

2. Our responsibility for the purpose of this assurance certificate is limited to the verification of compliance with the regulatory requirements as per SEBI letter dated 08.02.2022 along with para 3.11.4.3.5 of SEBI master circular for Mutual Funds dated 27.06.2024.

3. Based on the scope of work agreed with SBIFML, we have reviewed - Disclosures in the Scheme Information Document (Name of the Scheme, Investment Objective and other related information), Responsible Investment Policy / ESG policy related to investments, Investment strategy (Exclusion, Integrated, Impact investing, Sustainable objective, Best-in-class & positive Screening, transition or transition related investment), Asset Allocation and Benchmark, Disclosures on material Risks and disclaimers, Stewardship and shareholder engagement disclosure, Periodic Portfolio disclosure and Documents / data / disclosures made under the aforesaid ESG Scheme.

4. We have conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes ("the Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.

5. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

6. Based on our examination, as above, and the information and explanations given to us, we are of the opinion that SBI ESG Exclusionary Strategy Fund has complied with the requirements as per SEBI letter dated 08.02.2022 and Para 3.11 of SEBI master circular dated 27.06.2024 regarding disclosure norms for the FY 2024-25.

Restriction on use

7. This certificate has been issued pursuant to our assurance engagement with SBIFML for ESG assurance of SBI ESG Exclusionary Strategy Fund, for reference of the respective Boards of SBIFML and SBI Mutual Fund Trustee Company Private Limited and for including in the scheme's annual report as per the requirements of SEBI letter dated 08.02.2022 and SEBI master circular dated 27.06.2024. It should not be used for any other purpose or by any other person. Accordingly, we do not accept or assume any liability or duty of care for any other purpose or to any other person to whom this certificate is shown or into whose hands it may come without our prior consent in writing.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of SBI Mutual Fund

Report on the Audit of the Ind AS Financial Statements

Opinion

1. We have audited the accompanying Ind AS Financial Statements of the Schemes as mentioned in 'Annexure A' (Collectively "the Schemes") of SBI Mutual Fund, which comprises the Balance Sheets as at 31.03.2025, the Revenue Accounts, the statement of changes in net assets attributable to unitholders and the Statement of Cash Flow for the period/ year then ended and notes to the Ind AS financial statements, including a summary of material accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements of the Schemes give a true and fair view in conformity with the accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ('the SEBI Regulations') read with SEBI Circular dated 04.02.2022 on Guidelines on Accounting with respect to Indian Accounting Standards (IND AS)
   a. in the case of Balance Sheets, of the state of affairs of the Schemes as at 31.03.2025;
   b. in the case of the Revenue Accounts, of the surplus/deficit, as the case may be, for the period/ year ended on that date; and
   c. in the case of the Statement of Cash Flow, of the cash flows for the period/ year ended on that date.
   d. in the case of Statement of changes in Net Assets, changes in the net assets attributable to the unit holders of the scheme for the period ended on that date.

Basis for Opinion

3. We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ('ICAI'). Our responsibilities under those SAs are further described in the 'Auditor's Responsibilities for the Audit of Ind AS Financial Statements' section of our report. We are independent of the Schemes in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the Financial Statements under the SEBI Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

4. The Management of SBI Mutual Fund Trustee Company Private Limited (hereinafter referred to as 'the Trustee Company'), being the Schemes' Trustees, and SBI Funds Management Limited (hereinafter referred to as 'the AMC'), being the Schemes' asset manager, are responsible for the other information. The other information comprises the information included in the Trustees' Report, but does not include the Ind AS Financial

CHOKSHI & CHOKSHI LLP FRN

Statements and our auditor's report thereon. The Trustees' report is expected to be made available to us after the date of this auditor's report.

5. Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

6. In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

7. When we read the Trustees' Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Ind AS Financial Statements

8. The Management of the Trustee Company and the AMC are responsible for the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, cash flows and changes in the net assets attributable to unitholders of the Schemes in accordance with the accounting principles generally accepted in India, including accounting policies and standards as specified in the Ninth Schedule of the SEBI Regulations. This responsibility also includes the maintenance of adequate accounting records in accordance with the SEBI Regulations for safeguarding the assets of the Schemes and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

9. In preparing the Ind AS Financial Statements, the Management and Board of Directors of the Trustee Company and the AMC are responsible for assessing the Schemes' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Scheme or to cease operations of a Scheme, or has no realistic alternative but to do so.

10. The Board of Directors of the Trustee Company and the AMC are also responsible for overseeing the Schemes' financial reporting process.

Auditor's Responsibility for the Audit of Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could

reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Schemes' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

13. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:

CHOKSHI & CHOKSHI LLP FRN 101720W/W100045

a) We have sought and obtained all the information and explanations which, to the best of our knowledge and belief were necessary for the purpose of our audit;

b) The Balance Sheets, the Revenue Accounts, the Statement of Cash Flow and the Statement of Changes in Net Assets attributable to unitholders dealt with by this Report are in agreement with the books of account of the respective Schemes; and

c) In our opinion, the Balance Sheets and Revenue Accounts dealt with by this report have been prepared in accordance with the accounting policies and standards as specified in the Ninth Schedule to the SEBI Regulations.

14. As required by the Eight Schedule of the SEBI Regulations, we report that:

a) In our opinion, and on the basis of information given to us, the methods used to value non-traded securities as at 31.03.2025, where applicable, are in accordance with the SEBI Regulations and other guidelines approved by the Board of Directors of the Trustee Company and are fair and reasonable.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of SBI Mutual Fund

Report on the Audit of the Ind AS Financial Statements

Opinion

1. We have audited the accompanying Ind AS Financial Statements of the Schemes as mentioned in '**Annexure A**' (Collectively "the Schemes") of SBI Mutual Fund, which comprises the Balance Sheets as at 31.03.2025, the Revenue Accounts, the statement of changes in net assets attributable to unitholders and the Statement of Cash Flow for the year then ended and notes to the Ind AS financial statements, including a summary of material accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements of the Schemes give a true and fair view in conformity with the accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ('the SEBI Regulations') read with SEBI Circular dated 04.02.2022 on Guidelines on Accounting with respect to Indian Accounting Standards (IND AS)
   a. in the case of Balance Sheets, of the state of affairs of the Schemes as at 31.03.2025;
   b. in the case of the Revenue Accounts, of the surplus for the year ended on that date; and
   c. in the case of the Statement of Cash Flow, of the cash flows for the year ended on that date.
   d. in the case of Statement of changes in Net Assets, changes in the net assets attributable to the unit holders of the scheme for the year ended on that date.

Basis for Opinion

3. We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ('ICAI'). Our responsibilities under those SAs are further described in the 'Auditor's Responsibilities for the Audit of Ind AS Financial Statements' section of our report. We are independent of the Schemes in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the Financial Statements under the SEBI Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS Financial Statements for the financial year ended 31.03.2025. These matters were addressed in the context of our audit of the Ind AS Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements

Description of Key Audit Matters

Sr. No.	Key audit matter	How our audit addressed the key audit matter
1	**Existence of investments** The investments held by the Schemes as at 31.03.2025 mainly comprised of listed and unlisted debt instruments. There is a risk on existence of investments not determined appropriately. Accordingly, the existence of investments is considered as a key audit matter.	We performed the following procedures in relation to existence of investments: • Assessed the design and implementation of controls over existence of investments. • On a sample basis, tested the key controls set up by Management on existence of Investments. • Reconciled the quantity held as per books of account with the confirmation/statements of custodians and Clearing Corporations of India Limited as at 31.03.2025. • Assessed the disclosures in the financial statements are in accordance with the SEBI Regulations.
2	**Information Technology systems and controls** The reliability of Information Technology ('IT') systems plays a key role in the business operations in a Mutual Fund. Since large volume of transactions are processed, the IT controls are required to ensure that systems process data as expected and that changes are made in an appropriate manner. The IT infrastructure is critical for smooth functioning of the Fund's business operations as well as for timely and accurate financial accounting and reporting.	Our audit procedures focused on the IT framework and applications relevant to financial reporting of the Fund. We performed the following procedures: • We assessed the information systems used by the Fund for IT General Controls (ITGC) and IT Application Controls (ITAC); • We obtained an understanding of the process and tested the operating effectiveness of the controls. • Performed tests of controls (including other compensatory controls, wherever applicable) on the IT application controls and IT dependent manual controls of the system; and • Tested the operating effectiveness of compensating controls, wherever required.

Sr. No.	Key audit matter	How our audit addressed the key audit matter
	Due to the pervasive nature and complexity of the IT environment and large volume of transactions we have considered IT systems and controls as a key audit matter.	

Information Other than the Financial Statements and Auditor's Report Thereon

5. The Management of SBI Mutual Fund Trustee Company Private Limited (hereinafter referred to as 'the Trustee Company'), being the Schemes' Trustees, and SBI Funds Management Limited (hereinafter referred to as 'the AMC'), being the Schemes' asset manager, are responsible for the other information. The other information comprises the information included in the Trustees' Report, but does not include the Ind AS Financial Statements and our auditor's report thereon. The Trustees' report is expected to be made available to us after the date of this auditor's report.

6. Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

7. In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Ind AS Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

8. When we read the Trustees' Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Ind AS Financial Statements

9. The Management of the Trustee Company and the AMC are responsible for the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, cash flows and changes in the net assets attributable to unitholders of the Schemes in accordance with the accounting principles generally accepted in India, including accounting policies and standards as specified in the Ninth Schedule of the SEBI Regulations. This responsibility also includes the maintenance of adequate accounting records in accordance with the SEBI Regulations for safeguarding the assets of the Schemes and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

10. In preparing the Ind AS Financial Statements, the Management and Board of Directors of the Trustee Company and the AMC are responsible for assessing the Schemes' ability to continue as a going concern, disclosing, as applicable, matters related to going concern

and using the going concern basis of accounting unless management either intends to liquidate the Scheme or to cease operations of a Scheme, or has no realistic alternative but to do so.

11. The Board of Directors of the Trustee Company and the AMC are also responsible for overseeing the Schemes' financial reporting process.

Auditor's Responsibility for the Audit of Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

13. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Schemes' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

CHOKSHI & CHOKSHI LLP FRN W100045

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS Financial Statements for the financial year ended 31.03.2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

14. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:

    a) We have sought and obtained all the information and explanations which, to the best of our knowledge and belief were necessary for the purpose of our audit;

    b) The Balance Sheets, the Revenue Accounts, the Statement of Cash Flow and the Statement of Changes in Net Assets attributable to unitholders dealt with by this Report are in agreement with the books of account of the respective Schemes; and

    c) In our opinion, the Balance Sheets and Revenue Accounts dealt with by this report have been prepared in accordance with the accounting policies and standards as specified in the Ninth Schedule to the SEBI Regulations.

15. As required by the Eight Schedule of the SEBI Regulations, we report that:

    a) In our opinion, and on the basis of information given to us, the methods used to value non-traded securities as at 31.03.2025, where applicable, are in accordance with the SEBI Regulations and other guidelines approved by the Board of Directors of the Trustee Company and are fair and reasonable.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of SBI Mutual Fund

Report on the Audit of the Ind AS Financial Statements

Opinion

1. We have audited the accompanying Ind AS Financial Statements of the Schemes as mentioned in '**Annexure A**' (Collectively "the Schemes") of SBI Mutual Fund, which comprises the Balance Sheets as at 31.03.2025, the Revenue Accounts, the statement of changes in net assets attributable to unitholders and the Statement of Cash Flow for the period/year then ended and notes to the Ind AS financial statements, including a summary of material accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements of the Schemes give a true and fair view in conformity with the accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ('the SEBI Regulations') read with SEBI Circular dated 04.02.2022 on Guidelines on Accounting with respect to Indian Accounting Standards (IND AS)
   a. in the case of Balance Sheets, of the state of affairs of the Schemes as at 31.03.2025;
   b. in the case of the Revenue Accounts, of the surplus/deficit, as the case may be, for the period/year ended on that date; and
   c. in the case of the Statement of Cash Flow, of the cash flows for the period/year ended on that date.
   d. in the case of Statement of changes in Net Assets, changes in the net assets attributable to the unit holders of the scheme for the period/year ended on that date.

Basis for Opinion

3. We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ('ICAI'). Our responsibilities under those SAs are further described in the 'Auditor's Responsibilities for the Audit of Ind AS Financial Statements' section of our report. We are independent of the Schemes in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the Financial Statements under the SEBI Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS Financial Statements for the financial period/ year ended 31.03.2025. These matters were addressed in the context of our audit of the Ind AS Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context

CHOKSHI & CHOKSHI LLP
FRN 101851W/W100045

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements

Description of Key Audit Matters

Sr. No.	Key audit matter	How our audit addressed the key audit matter
1	**Existence of investments** The investments held by the Schemes as at 31.03.2025 mainly comprised of listed equity shares, listed and unlisted debt instruments, gold and silver. There is a risk on existence of investments not determined appropriately. Accordingly, the existence of investments is considered as a key audit matter.	We performed the following procedures in relation to existence of investments: • Assessed the design and implementation of controls over existence of investments. • On a sample basis, tested the key controls set up by Management on existence of Investments. • Reconciled the quantity held as per books of account with the confirmation/statements of custodians and Clearing Corporations of India Limited as at 31.03.2025. • Assessed the disclosures in the financial statements are in accordance with the SEBI Regulations.
2	**Information Technology systems and controls** The reliability of Information Technology ('IT') systems plays a key role in the business operations in a Mutual Fund. Since large volume of transactions are processed, the IT controls are required to ensure that systems process data as expected and that changes are made in an appropriate manner. The IT infrastructure is critical for smooth functioning of the Fund's business operations as well as for timely and accurate financial accounting and reporting.	Our audit procedures focused on the IT framework and applications relevant to financial reporting of the Fund. We performed the following procedures: • We assessed the information systems used by the Fund for IT General Controls (ITGC) and IT Application Controls (ITAC); • We obtained an understanding of the process and tested the operating effectiveness of the controls. • Performed tests of controls (including other compensatory controls wherever applicable) on the IT application controls and IT dependent manual controls of the system; and • Tested the operating effectiveness of compensating controls,

Sr. No.	Key audit matter	How our audit addressed the key audit matter
	Due to the pervasive nature and complexity of the IT environment and large volume of transactions we have considered IT systems and controls as a key audit matter.	wherever required.

Information Other than the Financial Statements and Auditor's Report Thereon

5. The Management of SBI Mutual Fund Trustee Company Private Limited (hereinafter referred to as 'the Trustee Company'), being the Schemes' Trustees, and SBI Funds Management Limited (hereinafter referred to as 'the AMC'), being the Schemes' asset manager, are responsible for the other information. The other information comprises the information included in the Trustees' Report, but does not include the Ind AS Financial Statements and our auditor's report thereon. The Trustees' report is expected to be made available to us after the date of this auditor's report.

6. Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

7. In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Ind AS Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

8. When we read the Trustees' Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Ind AS Financial Statements

9. The Management of the Trustee Company and the AMC are responsible for the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, cash flows and changes in the net assets attributable to unitholders of the Schemes in accordance with the accounting principles generally accepted in India, including accounting policies and standards as specified in the Ninth Schedule of the SEBI Regulations. This responsibility also includes the maintenance of adequate accounting records in accordance with the SEBI Regulations for safeguarding the assets of the Schemes and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

10. In preparing the Ind AS Financial Statements, the Management and Board of Directors of the Trustee Company and the AMC are responsible for assessing the Schemes' ability to

continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Scheme or to cease operations of a Scheme, or has no realistic alternative but to do so.

11. The Board of Directors of the Trustee Company and the AMC are also responsible for overseeing the Schemes' financial reporting process.

Auditor's Responsibility for the Audit of Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

13. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Schemes' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS Financial Statements for the financial year ended 31.03.2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

14. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:

    a) We have sought and obtained all the information and explanations which, to the best of our knowledge and belief were necessary for the purpose of our audit;

    b) The Balance Sheets, the Revenue Accounts, the Statement of Cash Flow and the Statement of Changes in Net Assets attributable to unitholders dealt with by this Report are in agreement with the books of account of the respective Schemes; and

    c) In our opinion, the Balance Sheets and Revenue Accounts dealt with by this report have been prepared in accordance with the accounting policies and standards as specified in the Ninth Schedule to the SEBI Regulations.

15. As required by the Eight Schedule of the SEBI Regulations, we report that:

    a) In our opinion, and on the basis of information given to us, the methods used to value non-traded securities as at 31.03.2025, where applicable, are in accordance with the SEBI Regulations and other guidelines approved by the Board of Directors of the Trustee Company and are fair and reasonable.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of SBI Mutual Fund

Report on the Audit of the Ind AS Financial Statements

Opinion

1. We have audited the accompanying Ind AS Financial Statements of the Schemes as mentioned in '**Annexure A**' (Collectively "the Schemes") of SBI Mutual Fund, which comprises the Balance Sheets as on redemption dates (as mentioned in '**Annexure A**'), the Revenue Accounts, the statement of changes in net assets attributable to unitholders and the Statement of Cash Flow for the period then ended and notes to the Ind AS financial statements, including a summary of material accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements of the Schemes give a true and fair view in conformity with the accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ('the SEBI Regulations') read with SEBI Circular dated 04.02.2022 on Guidelines on Accounting with respect to Indian Accounting Standards (IND AS):
   a. in the case of Balance Sheets, of the state of affairs of the Schemes as on redemption date;
   b. in the case of the Revenue Accounts, of the surplus/deficit, as the case may be, for the period ended on that date; and
   c. in the case of the Statement of Cash Flow, of the cash flows for the period ended on that date.
   d. in the case of Statement of changes in Net Assets, changes in the net assets attributable to the unit holders of the scheme for the period ended on that date.

Basis for Opinion

3. We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ('ICAI'). Our responsibilities under those SAs are further described in the 'Auditor's Responsibilities for the Audit of Ind AS Financial Statements' section of our report. We are independent of the Schemes in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the Financial Statements under the SEBI Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Management of SBI Mutual Fund Trustee Company Private Limited (hereinafter referred to as 'the Trustee Company'), being the Schemes' Trustees, and SBI Funds Management Limited (hereinafter referred to as 'the AMC'), being the Schemes' asset manager, are responsible for the other information. The other information comprises the

CHOKSHI & CHOKSHI LLP FRN - 101872W/W100045

information included in the Trustees' Report, but does not include the Ind AS Financial Statements and our auditor's report thereon. The Trustees' report is expected to be made available to us after the date of this auditor's report.

5. Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

6. In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Ind AS Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

7. When we read the Trustees' Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Ind AS Financial Statements

8. The Management of the Trustee Company and the AMC are responsible for the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, cash flows and changes in the net assets attributable to unitholders of the Schemes in accordance with the accounting principles generally accepted in India, including accounting policies and standards as specified in the Ninth Schedule of the SEBI Regulations. This responsibility also includes the maintenance of adequate accounting records in accordance with the SEBI Regulations for safeguarding the assets of the Schemes and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

9. In preparing the Ind AS Financial Statements, the Management and Board of Directors of the Trustee Company and the AMC are responsible for assessing the Schemes' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Scheme or to cease operations of a Scheme, or has no realistic alternative but to do so.

10. The Board of Directors of the Trustee Company and the AMC are also responsible for overseeing the Schemes' financial reporting process.

Auditor's Responsibility for the Audit of Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate,

CHOKSHI & CHOKSHI LLP
W100045

they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Schemes' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

13. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:

CHOKSHI & CHOKSHI LLP FRN 101872W W100942

a) We have sought and obtained all the information and explanations which, to the best of our knowledge and belief were necessary for the purpose of our audit;

b) The Balance Sheets, the Revenue Accounts, the Statement of Cash Flow and the Statement of Changes in Net Assets attributable to unitholders dealt with by this Report are in agreement with the books of account of the respective Schemes; and

c) In our opinion, the Balance Sheets and Revenue Accounts dealt with by this report have been prepared in accordance with the accounting policies and standards as specified in the Ninth Schedule to the SEBI Regulations.

14. As required by the Eight Schedule of the SEBI Regulations, we report that:

a) In our opinion, and on the basis of information given to us, the methods used to value non-traded securities as at redemption dates, where applicable, are in accordance with the SEBI Regulations and other guidelines approved by the Board of Directors of the Trustee Company and are fair and reasonable.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of SBI Mutual Fund

Report on the Audit of the Ind AS Financial Statements

Opinion

1. We have audited the accompanying Ind AS Financial Statements of **SBI Resurgent India Opportunities Scheme** (hereinafter referred to as 'Scheme') of SBI Mutual Fund, which comprises the Balance Sheet as at 31.03.2025, the Revenue Account, the statement of changes in net assets attributable to unitholders and the Statement of Cash Flow for the year then ended and notes to the Ind AS financial statements, including a summary of material accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements of the Scheme give a true and fair view in conformity with the accounting principles generally accepted in India, including the accounting policies and standards specified in the Ninth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, as amended ('the SEBI Regulations') read with SEBI Circular dated 04.02.2022 on Guidelines on Accounting with respect to Indian Accounting Standards (IND AS):
   a. in the case of Balance Sheet, of the state of affairs of the Scheme as at 31.03.2025;
   b. in the case of the Revenue Account, of the surplus for the year ended on that date; and
   c. in the case of the Statement of Cash Flow, of the cash flows for the year ended on that date.
   d. in the case of Statement of changes in Net Assets, changes in the net assets attributable to the unit holders of the scheme for the period ended on that date.

Basis for Opinion

3. We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ('ICAI'). Our responsibilities under those SAs are further described in the 'Auditor's Responsibilities for the Audit of Ind AS Financial Statements' section of our report. We are independent of the Scheme in accordance with the 'Code of Ethics' issued by the ICAI together with the ethical requirements that are relevant to our audit of the Financial Statements under the SEBI Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

4. The Management of SBI Mutual Fund Trustee Company Private Limited (hereinafter referred to as 'the Trustee Company'), being the Scheme's Trustees, and SBI Funds Management Limited (hereinafter referred to as 'the AMC'), being the Scheme's asset manager, are responsible for the other information. The other information comprises the information included in the Trustees' Report, but does not include the Ind AS Financial

CHOKSHI & CHOKSHI LLP FRN 101851W

Statements and our auditor's report thereon. The Trustees' report is expected to be made available to us after the date of this auditor's report.

5. Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

6. In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

7. When we read the Trustees' Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Ind AS Financial Statements

8. The Management of the Trustee Company and the AMC are responsible for the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, cash flows and changes in the net assets attributable to unitholders of the Scheme in accordance with the accounting principles generally accepted in India, including accounting policies and standards as specified in the Ninth Schedule of the SEBI Regulations. This responsibility also includes the maintenance of adequate accounting records in accordance with the SEBI Regulations for safeguarding the assets of the Scheme and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

9. In preparing the Ind AS Financial Statements, the Management and Board of Directors of the Trustee Company and the AMC are responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Scheme or to cease operations of a Scheme, or has no realistic alternative but to do so.

10. The Board of Directors of the Trustee Company and the AMC are also responsible for overseeing the Scheme's financial reporting process.

Auditor's Responsibility for the Audit of Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate,

CHOKSHI & CHOKSHI LLP

they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

13. As required by Regulation 55(4) and clause 5(ii)(2) of the Eleventh Schedule of the SEBI Regulations, we report that:

CHOKSHI & CHOKSHI LLP FRN 100045

a) We have sought and obtained all the information and explanations which, to the best of our knowledge and belief were necessary for the purpose of our audit;

b) The Balance Sheet, the Revenue Account, the Statement of Cash Flow and the Statement of Changes in Net Assets attributable to unitholders dealt with by this Report are in agreement with the books of account of the Scheme; and

c) In our opinion, the Balance Sheet and Revenue Account dealt with by this report have been prepared in accordance with the accounting policies and standards as specified in the Ninth Schedule to the SEBI Regulations.

14. As required by the Eight Schedule of the SEBI Regulations, we report that:

a) In our opinion, and on the basis of information given to us, the methods used to value non-traded securities as at 31.03.2025, where applicable, are in accordance with the SEBI Regulations and other guidelines approved by the Board of Directors of the Trustee Company and are fair and reasonable.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

NOTE - I

Material Accounting Policies and Notes to Accounts:

A. BACKGROUND

The SBI Mutual Fund Trustee Company Private Limited ('the Trustees'), being the Trustee of SBI Mutual Fund ('the Fund') has appointed SBI Funds Management Limited (A Joint Venture between SBI and AMUNDI) ('AMC'), a subsidiary of the State Bank of India ('SBI'), to manage the Fund's affairs and operate its schemes.

Scheme details are given in **Annexure I**.

B. MATERIAL ACCOUNTING POLICIES

1. Preparation of Financial Statements of the Schemes:

The financial statements have been prepared in accordance with the Indian Accounting Standards (IND AS) and any addendum thereto, as notified by the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time. Further, the accounting policies and standards specified in the Ninth and Eleventh Schedules of SEBI (Mutual Funds) Regulations, 1996 and amendments thereto, as applicable (the "Regulations") are followed for preparation of the financial statement. In case of any conflict between the requirements of IND AS and the MF Regulations and guidelines issued thereunder, the requirements specified under the MF Regulations are followed. These policies have been consistently applied to both the periods presented, unless otherwise stated.

These financial statements of the Fund are presented in the format prescribed in SEBI circular no "SEBI/HO/IMD-II/DOF8/P/CIR/2022/12 " dated February 04, 2022. The disclosures as required under Ind AS, as applicable to the Fund, are included in these financial statements.

2. Functional and presentational currency

Item included in the Financial Statement of the Fund are measured using the currency of the primary economic environment in which the Fund operates ("the functional currency"). The Financial Statements are presented in Indian rupee (INR), which is Fund's functional and presentation currency, and all values are rounded to the nearest lakhs (INR 00,000), except when otherwise indicated.

3. Basis of Measurement:

The financial statements have been prepared under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values through Profit and Loss at the end of each reporting period , as explained below:

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

4. Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and accompanying disclosures (including contingent liabilities) at the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of financial statements. Actual results could differ from these estimates. Any revisions to accounting estimates are recognized prospectively in the current and future periods.

Estimates and underlying assumptions are reviewed on an ongoing basis. Key sources of estimation of uncertainty at the date of financial statements, which may cause a material adjustment to the carrying amount of assets and liabilities within the next financial year are included in the following notes:

a. Fair value measurement

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

b. Provisions and Contingent Liabilities

The Scheme estimates the provisions that have present obligations as a result of past events, and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates. The Scheme uses significant judgements to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Scheme or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

5. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

5.01 Financial Assets

a. Initial recognition and measurement of Financial Assets

Financial assets include investment in securities, cash & cash equivalent, balance with banks, receivables and other financial assets.

All financial assets are initially recognised when the Scheme becomes a party to the contractual provisions of the instrument.

Financial assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition of financial assets measured at fair value through profit or loss(FVTPL) are expensed in the revenue account.

b. Subsequent measurement and Classification of Financial Assets

Evaluation of Business Model - classification and measurement of financial assets depends on the results of business model and the solely payments of principal and interest ("SPPI") test.

Based on the business model and the contractual characteristics of the financial assets, the Fund classifies its financial assets into following measurement categories:

- Amortised cost
- Fair value through other comprehensive income (‘FVOCI’)
- Fair value through profit and loss (‘FVTPL’)

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

i) Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:
Financial Assets
- it is held within a business model whose objective is to hold assets to collect contractual cash flows (i.e. solely payments of principal and interest on the principal amount outstanding) ; and
- it's contractual terms define specified dates on which cash flows occur.

Such financial assets are subsequently measured at amortised cost using effective interest rate ('EIR') method. Interest income and impairment expenses are recognised in Revenue Account Statement. Any gain or loss on derecognition is also recognised in Revenue Account Statement.

The EIR method is a method of calculating the amortised cost of a financial instrument and of allocating interest over the relevant period. The EIR is the rate that exactly discounts estimated future cash flows (including all fees paid or received that form an integral part of the EIR, transaction costs and other premiums or discounts) through the expected life of the instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

ii) Financial assets at Fair Value Through Other Comprehensive Income (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to sole payments of principal and interest on the principal amount outstanding and by selling financial assets.

Movements in the carrying amount of such financial assets are recognised in Other Comprehensive Income ('OCI'), except dividend income and interest income which is recognised in Revenue Account statement. Equity instruments at FVTOCI are not subject to an impairment assessment.

iii) Financial assets at Fair Value Through Profit or Loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Classification and measurement of financial assets depends on the business model and results of SPPI test. The Scheme determines a business model which reflects the manner in which the Scheme achieves its business objective. Further, the Scheme assesses the contractual terms of the financial assets to identify whether they meet the SPPI test.

Assessment whether contractual cash flows are SPPI

As per clause 47 of the SEBI Regulations, every mutual fund shall ensure that the AMC computes and carries out valuation of investments made by its fund in accordance with the investment valuation norms specified in Eighth Schedule. As per Eighth Schedule, the valuation of investments shall be based on the principles of fair valuation i.e. valuation shall be reflective of the realizable value of the Securities. The Valuation shall be done in good faith and in true and fair manner through appropriate valuation policies and procedures.

The Fund's portfolio of financial assets is managed, and its performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy, together with other related financial information.

The Fund is required to fair value investment as per SEBI Regulations. Hence, the Fund has not performed the SPPI Test.

Investments at fair value through profit or loss (FVTPL)

All investments are measured at FVTPL. Investments at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognized in the Revenue account. The gain recognized in the Revenue account is included in the 'Gain on Fair Value Change' line item and in case of loss recognized in the Revenue account is included in the 'Loss on Fair Value Change' line item.

Other Financial Assets and Liabilities

All other financial assets and liabilities are measured at amortized cost, which approximates their fair value.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

c. Reclassification

Financial assets are not reclassified subsequent to their initial recognition unless the Scheme was to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

d. De-recognition

The Scheme derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Scheme neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Scheme enters into transactions whereby it transfers assets recognised on its Balance Sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

5.02 Financial Liabilities

A financial liability is a contractual obligation to deliver cash or another financial asset or a contract that will or may be settled in the scheme's own equity instruments and is a non-derivative contract for which the scheme is or may be obliged to deliver a variable number of its own equity instruments, or a derivative contract over own equity that will or may be settled other than by the exchange of a fixed amount of cash (or another financial asset) for a fixed number of the scheme's own equity instruments.

a. Initial recognition and measurement of Financial Liabilities

"All financial liabilities are recognised initially at
- Amortised cost, where fair value is adjusted for incremental transaction costs that are directly attributable to the financial liabilities or;
- FVTPL, where the transaction costs are charged to the revenue account.

Derivative contracts that have a negative fair value are presented as liabilities at FVTPL."

b. Subsequent measurement and Classification of Financial Liabilities

After initial recognition, all financial liabilities except derivative contracts are subsequently measured at amortised cost. Interest expense is recognised in the Revenue account.

c. Reclassification

Financial liabilities are not reclassified.

d. De-recognition

The Scheme derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

5.03 Equity instruments (i.e. Units issued by the Schemes of the Fund)

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Fund is recognised at the proceeds received, net of directly attributable transaction costs.

5.04 Financial instruments not measured at fair value

The carrying value of other financial assets and other financial liabilities are assumed to approximate their fair values due to their short-term nature.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

5.05 Financial Instruments – Fair Value Hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability.

5.06 Off-setting financial instruments

Financial assets and liabilities are offset, and the net amount is presented in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Fund or the counterparty.

6. Revenue Recognition:

Income is recognised on an accrual basis when the rights of receipt is established and there is reasonable certainty of collection. The recognition criteria for major classes of income are stated below:

a. Dividends are recognized on the ex-dividend date. For foreign securities, dividends are recorded net of applicable taxes withheld and any associated expenses.

b. Interest on interest bearing investments is recognised on a day to day basis as it is earned. On purchase of such investments, interest paid for the period from the last interest due date upto a day prior to the date of purchase is not treated as cost of purchase but is treated as interest recoverable. Similarly, interest received at the time of sale for the period from the last interest due date upto a day prior to the date of sale is not treated as part of sale value but is treated as realisation of interest recoverable.

c. Profit or loss on sale of investments, square off/expiry of derivative contracts, inter-scheme transfer is recognised on trade date except in respect of investments in mutual fund schemes including other schemes of the Fund, which is recognised on the next working day, when trade confirmation is received. The cost of investments sold is determined on “weighted average cost basis”.

d. In case of money market and debt securities classified as "below investment grade but not default", an indicative haircut as suggested by the valuation agencies appointed by Association of Mutual Funds in India (AMFI) (currently, CRISIL and ICRA) is applied on interest accrued from the date of credit event. In respect of money market and debt securities classified as "default", no further interest accrual is made. Any recovery is first adjusted against the outstanding interest recognised in the NAV and thereafter balance is adjusted against the value of principal recognised in the NAV. Any recovery more than the carried value (i.e. the value recognized in NAV) is applied first towards interest written off and then towards principal written off.

e. Futures & Options contracts are recognized on trade date. Income on Futures & Options contracts are measured at difference between the settlement price of the previous day and the valuation day. In case of Options, Premium paid is marked to market to the settlement price and the difference amount is treated as asset / liability till the expiry of the position.

f. Lending fees (net of brokerage) on the security lending is recognised on the basis of amortisation over the period of lending of security.

g. Interest Rate Swap (IRS) contract is recognised on the trade date and income on IRS contract is measured at net basis i.e. different between the interest on Fixed leg and Floating leg of IRS contract and mark to market gain / (loss) on IRS contract i.e. difference between notional value and fair value of IRS contract as provided by the valuation agencies.

h. Dividend and interest income for units of Infrastructure Investment Trust (InvIT) and Real Estate Investment Trust (REIT) is accrued on ex-date. Capital reduction is adjusted towards cost of investment on ex-date.

i. Other income of miscellaneous nature is accounted for when there is certainty of realisation.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

7. Expenses:

a. All expenses are accounted on an accrual basis within the limits prescribed under the SEBI (Mutual Funds) Regulations, 1996 and amendments thereto.

b. Expenses not identifiable with any particular scheme are allocated to the schemes on the basis of Assets under Management/Number of Folios/Number of PANs, as appropriate.

c. Expenses other than Management Fees are disclosed inclusive of Goods and Services Tax (GST).

d. As per Securities Exchange and Board of India (SEBI) Circular No. SEBI/HO/IMD/DF2/CIR/P/2019/42 dated March 25, 2019 and AMFI best practice guidelines Circular No. 71/2017-18 dated March 23, 2018 cost of borrowing to the extent of Portfolio Yield / Yield to Maturity (YTM) of the Scheme as on previous day is charged to the Scheme and excess, if any, is borne by the AMC.

e. Brokerage and transaction costs (excluding Securities Transaction Tax (STT)) which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions and Securities Transaction Tax are charged to the scheme in addition to the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Finds) Regulations, 1996. Any payment towards brokerage and transaction cost (excluding STT), over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively are charged to the scheme within the maximum limit of TER as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.

8. Investments:

a. Investments are accounted on trade date except for investments in schemes of mutual funds including other schemes of the Fund, which are accounted on the next working day and off-market transactions including acquisitions through private placement/ private treaty are accounted when the scheme/s obtain/s the enforceable obligation/right. Till June 30, 2023, Investments in foreign securities and overseas mutual fund units are accounted on a date, when trade confirmation is received from the broker. w.e.f July 01. 2023, Investments in foreign securities and overseas mutual fund units are accounted on trade date. Such change in the policy is in accordance with the change in the regulation and there is no impact on P&L of the scheme.

b. Cost of investments are accounted at transaction price excluding all transaction costs such as brokerage, stamp charges and any charge customarily included in the broker's contract note that are attributable to acquisition/ sale of investments.

c. Upfront fees received on subscription/purchase of investments are reduced from the cost of investments.

d. Rights entitlements are recognised on ex-right date.

e. Bonus entitlements are recognised on ex-bonus date.

9. Derivative transactions

Initial margin paid against equity derivatives is accounted as current assets. Realized gain/loss on square off of equity derivatives are accounted as realized gain/loss on derivative transaction. If the position is not squared off or rolled over until the expiry date, the outstanding derivative position is physically settled at the price at which the derivative transaction was initiated.

10. Foreign Currency Transactions

a. Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

b. Conversion

Foreign currency monetary and non -monetary items are reported using an exchange rate prevalent on the valuation day.

c. Exchange differences

Exchange differences arising on the settlement of monetary items or on reporting monetary items of the Scheme at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

11. Computation of Net Asset Value (NAV)

The net asset value of the units of the Scheme is determined separately for the units issued under each of the plans/options. The Scheme's investments and other net assets are managed as a single portfolio. For computing the NAV's for various plans/options within the portfolio, the Scheme's daily income earned, including realised profit or loss and unrealised gain or loss in the value of investments are allocated to the respective plans in proportion to their respective net assets (net assets of previous day plus subscription and redemption for the day of the plan) and expenses are charged at respective plan level.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

12. Unit Capital

Unit capital represents the net outstanding units at the balance sheet date, thereby reflecting all transactions relating to the period ended on that date.

Upon issue and redemption of units, the net premium or discount to the face value of units is adjusted against the unit premium reserve of each option, after an appropriate portion of the issue proceeds and redemption payouts is credited/debited to the equalisation account.

13. Income Equalisation Reserve (i.e. Equalisation Account)

a. The purpose of equalisation reserve is to maintain the per unit amount of plan's share of the Scheme's undistributable income earned during the accounting period, so that continuing unit holders' share of undistributable income remains unchanged on issue or repurchase of Units under that Plan.

b. When Units are issued / repurchased by the Scheme at a premium or discount to face value, an appropriate part of realised gain / loss in the issue proceeds and repurchase consideration, is credited or debited respectively to the Equalisation Account. At the balance sheet date, the balance in the equalisation account is transferred to Revenue Account.

14. Unit Premium Reserve

When units are issued / repurchased, after considering the income equalisation as above, the difference between the issue / repurchase price and the face value of the unit, is transferred to Unit Premium Reserve.
Unit Premium Reserve and unrealised appreciation in the value of the investments is not considered for computation of distributable surplus.

15. Load charges

Load represents the amount charged to investors at the time of entry into or exit from a scheme.

No entry load is collected by the schemes for fresh purchases of units after July 31, 2009.

Entry / Exit Load collected upto September 30, 2012 are utilised towards selling and distribution expenses and any unutilised amount of load so collected is carried forward to subsequent year unless the same is considered excess by the Trustees. In the event, if the load is considered excess by the Trustees, the same is recognised as income of the scheme.

Exit load (net of GST) collected after September 30, 2012 is credited as income to the Scheme.

16. Provisions

Provisions are made by charging to the Revenue Account, in respect of:

a. Income receivable on investments but has not been received.

b. In case of debt securities classified as below investment grade, provision is made for the income so accrued in the manner specified in SEBI guidelines.

c. In case of securities in default beyond maturity date, provision is made for the amount of principle receivable in the manner specified in SEBI guidelines.

d. Securities where the certificates are not received / traceable for a protracted period.

e. Assets other than investments, which in the opinion of the Trustee have suffered substantial impairment in their value.

17. Taxes

No income tax provision has been made as the Fund qualifies as a recognized Mutual Fund under section 1O(23D) of the Income Tax Act, 1961. However, some dividend and interest income received by the Fund is subject to witholding tax imposed in certain countries of origin. Income that is subject to such tax is recognised net of the taxes and the corresponding witholding tax is not recognised as tax expense.

18 Cash and cash equivalents

The Scheme considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value. Cash and cash equivalents includes balances in banks current account, deposits placed with schedule banks (with original maturity up to three months), Reverse Repo and Tri-party Repo (TREPS).

19. Statement of Cash Flows

The cash flow statement has been prepared under the indirect method set out in Indian Accounting Standard ("Ind AS") - 7 on Statement of Cash Flows issued by the Institute of Chartered Accountants of India ("ICAI").

20. Portfolio Valuation

A Valuation of Investments:

All investments for the purpose of Financial Statements and NAV computation are Marked to Market on each valuation day. The valuation policies detailed below are in conformity with the fair valuation guidelines issued by the SEBI or AMFI, where SEBI guidelines are not available.

20.01 Equity and Equity related securities

i) On a valuation day, traded equity shares are valued at the last quoted closing price on the principal stock exchange. Where equity shares are not traded on principal stock exchange, the closing price quoted on secondary stock exchange is considered. When an equity shares is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day is considered provided such day is not more than 30 days prior to valuation day. The National Stock Exchange of India Ltd. (NSE) is considered as the principal stock exchange and The BSE Limited (BSE) as secondary stock exchange for equity valuation. On a valuation day, Exchange Traded Funds (ETFs) / Index Funds are valued at the last quoted closing price on the Stock Exchange based on underlying index.

ii) Thinly traded/Non-traded/ Unlisted Equity shares are valued in good faith by the Asset Management Company in accordance with guidelines issued by the SEBI.

iii) In case of rights entitlements where it is decided not to subscribe to such rights entitlements i.e. renounce the rights entitlements, such rights entitlements are valued at the closing price of such right entitlements on the stock exchange. If it is decided to subscribe to the rights entitlement, such rights entitlements are valued at difference between the closing price of the security on the stock exchange and the rights issue price.

iv) In case partly paid-up equity shares are traded separately, they are valued as per the valuation guidelines applicable to traded equity shares.

Thinly Traded / Non-Traded / Unlisted partly paid-up equity shares are valued at lower of (a) value of the underlying fully paid-up equity shares as reduced by the amount of balance call money payable and (b) closing price of partly paid-up equity shares, if traded on valuation day.

v) In case warrants are traded separately, they are valued as per the valuation guidelines applicable to traded equity shares. Thinly Traded / Non-Traded / Unlisted warrants are valued at the value of the equity share which would be obtained on exercise of the warrant as reduced by the amount which would be payable on exercise of the warrant.

vi) In case preference shares are traded separately, they are valued as per the valuation guidelines applicable to traded equity shares.

Thinly Traded / Non-Traded / Unlisted preference shares are valued as follows:

a. The non-convertible preference shares are valued at the present value of all the future contracted dividend payments and the maturity value, discounted at the expected return on such preference shares.

b. Convertible Preference shares are valued at the value of the equity shares which would be obtained on conversion, with appropriate discount for illiquidity.

c. In case, security level valuation (SLV) price is provided by the valuation agencies, appointed by AMFI, then the same will be used for valuation.

vii) In case Compulsorily Convertible Debentures (CCD) are traded separately, they are valued as per the valuation guidelines applicable to traded equity shares i.e. valued on closing traded price similar to equity shares. The value of CCD so derived, shall be treated as dirty price of the CCD and accordingly valuation will be done.

Thinly Traded / Non-Traded / Unlisted CCD are valued as follows:

a. The non-convertible component of CCD are valued on the same basis as would be applicable to debt instrument.

b. Convertible component of CCD are valued at the value of the equity shares which would be obtained on conversion, with appropriate discount for illiquidity.

c. In case, security level valuation (SLV) price is provided by the valuation agencies, appointed by AMFI, then the same will be used for valuation.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

viii) Shares purchased awaiting listing in Initial Public Offering are valued at allotment price.

ix) Shares acquired with lock-in period of more than 3 months are valued net of illiquidity discount as determined by the Valuation Committee.

x) In case trading in an equity shares is suspended upto 30 days, the last traded price is considered for valuation of that security. If an equity security is suspended for more than 30 days, the fair valuation as applicable in the case of Thinly Traded / Non-Traded Security is applied.

xi) Aggregate value of "illiquid securities" of the Scheme, which consists of non-traded, thinly traded and unlisted equity shares, if exceed 15% of the total assets of the Scheme, it is assigned Zero value for illiquid securities in excess of 15% of total assets of the scheme.

20.02 Indian Depository Receipts (IDRs)

Valuation of IDRs listed on the Indian Stock Exchanges is as per valuation guidelines applicable for traded equity shares. In case the IDRs are classified as thinly traded / non-traded, they are valued at fair value in good faith.

20.03 Money Market and Debt Securities (including government securities) :-

Nature of Security	Valuation Norms
(i) Investment Grade Money Market and Debt Securities (including Government Securities & Treasury Bills):	Valued at the average of the scrip level prices obtained from valuation agencies.
(ii) Money Market and Debt Securities which are rated "Below Investment Grade" or "Default"	Valued at the price provided by valuation agencies. In the absence of price from valuation agencies, valued on the basis of indicative haircuts provided by these agencies.

20.04 Market linked debentures and all OTC derivatives including Interest Rate Swaps (IRS) / Forward Rate Agreements (FRA)

Market linked debentures and all OTC derivatives are valued at average of security level prices obtained from valuation agencies appointed by AMFI.

20.05 Units of Domestic Mutual Fund (MF), units of Exchange Traded Fund (ETF) and units of Alternative Investment Fund (AIF)

i) Units traded on stock exchanges (NSE or BSE) on valuation day are valued at closing traded price as on the valuation day.

ii) Unlisted / Non-traded units are valued at the last available NAV as per AMFI website or any other appropriate source.

20.06 Tri-Party Repo (TREPS) / Reverse Repo (including Corporate Reverse Repo)

i) Till December 31, 2024, TREPS / Reverse Repo with residual maturity greater than 30 days were valued at average of security level prices obtained from valuation agencies appointed by AMFI. In case security level prices given by valuation agencies were not available for a new TREPS (which is currently not held by any Mutual Fund), such TREPS were valued at purchase yield on the date of purchase.

TREPS / Reverse Repo with residual maturity of up to 30 days were valued at cost plus accrual basis. Whenever a security moved from 31 days residual maturity to 30 days residual maturity, the price as on 31st day was used for amortization from 30th day.

ii) W.e.f January 01, 2025, Valuation of TREPS / Reverse Repo, except overnight TREPS / Reverse Repo, are valued at average of security level prices obtained from valuation agencies appointed by AMFI. In case security level prices given by valuation agencies are not available for a new TREPS / Reverse Repo (which is currently not held by any Mutual Fund), then such TREPS / Reverse Repo are valued at purchase yield on the date of purchase. Overnight TREPS / Reverse Repo are valued on cost plus accrual basis. Such change in the policy is in accordance with the change in the regulation and there is no impact on P&L of the scheme.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

20.07 Fixed Deposits

Fixed Deposits are valued at cost. Interest on Fixed Deposits are accrued on daily basis.

20.08 Gold

Gold is valued at the AM fixing price of London Bullion Market Association (LBMA) in US dollars per troy ounce for gold having a fineness of 995.0 parts per thousand, subject to the following:
a) adjustment for conversion to metric measure as per standard conversion rates;
b) adjustment for conversion of US dollars into Indian rupees at RBI reference rate; and
c) Addition of:
i) transportation and other charges that may be normally incurred in bringing such gold from London to the place where it is stored on behalf of the mutual fund; and
ii) notional customs duty and other applicable taxes and levies, except to the extent set off is available, that may normally be incurred to bring the gold from London to the place where it is actually stored on behalf of the mutual fund.

The adjustment under clause (c)(i) above is made based on a notional premium that is usually charged for delivery of gold to the place where it is stored on behalf of the Scheme;
Where the gold held has a greater fineness, the relevant LBMA prices is proportionately adjusted.
If on any day the LBMA AM fixing or RBI reference rate is not available due to holiday, then the immediately previous day's prices are applied for the purpose of calculating the value of gold.

Premium or discount may be applied to the valuation price arrived as per above methodology to ensure it reflects the fair value / spot price of Gold in the domestic market.

20.09 Silver

Silver is valued at the AM fixing price of London Bullion Market Association (LBMA) in US dollars per troy ounce for Silver having a fineness of 999.0 parts per thousand, subject to the following:
a) adjustment for conversion to metric measure as per standard conversion rates;
b) adjustment for conversion of US dollars into Indian rupees at RBI reference rate; and
c) Addition of:
i) transportation and other charges that may be normally incurred in bringing such Silver from London to the place where it is stored on behalf of the mutual fund; and
ii) notional customs duty and other applicable taxes and levies, except to the extent set off is available, that may normally be incurred to bring the Silver from London to the place where it is actually stored on behalf of the mutual fund.

The adjustment under clause (c)(i) above is made based on a notional premium that is usually charged for delivery of Silver to the place where it is stored on behalf of the Scheme;
Where the Silver held has a greater fineness, the relevant LBMA prices is proportionately adjusted.
If on any day the LBMA AM fixing or RBI reference rate is not available due to holiday, then the immediately previous day's prices are applied for the purpose of calculating the value of Silver.

Premium or discount may be applied to the valuation price arrived as per above methodology to ensure it reflects the fair value / spot price of Silver in the domestic market.

20.10 Foreign Securities

Valuation of American Depository Receipt (ADR), Global Depository Receipt (GDR), Units of Overseas Mutual Fund / ETF and all Overseas Securities

i) On a valuation day, traded foreign securities will be valued at latest available closing price on the stock exchange on which the security is traded. In case the security is traded on more than one stock exchange, the security will be valued at the latest available closing price on the principal stock exchange. Principal stock exchange is decided by the AMC at the time of purchase of securities. When on a valuation day, a security has not been traded on the principal stock exchange; the value at which it is traded on secondary stock exchange is used. When a security is not traded on any stock exchange on a particular valuation day, the value at which it is traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day is considered provided such date is not more than 30 days prior to valuation day.

ii) A non-traded foreign security is valued by the AMC using the principles of fair valuation after considering relevant factors on case to case basis.

iii) Overseas Mutual Fund units traded on stock exchange on valuation day are valued at closing traded price as on the valuation day. Overseas Mutual Fund units not traded on valuation date are valued at lower of their last available NAV as on the valuation date and previous day closing traded price. Overseas Mutual Fund units that are not traded for more than 1 day, are valued at their last available NAV as on the valuation date. Unlisted Mutual Fund units are valued at the last available NAV as on the valuation date.

iv) Due to differences in the time zones across different markets, till June 30 2023, the AMC considered a cut off time of 5.00 PM (IST) for availability of the closing market price for the purpose of valuation i.e. if any market closes on or before 5.00 pm (IST) that day's last closing price will be considered for valuation else the previous day's closing price of that stock exchange will be considered. W.e.f July 01, 2023, same day price of the foreign securities are considered for valuation irrespective of market closing time. Such change in the policy is in accordance with the change in the regulation and there is no impact on P&L of the scheme.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

v) In case of Fund of Fund scheme investing in Overseas Mutual Fund units, till June 30, 2023, AMC considered a cut off time of 5.00 AM (IST) T+1 for availability of the closing market price for the purpose of valuation i.e. if any market closes on or before 5.00 AM (IST) T+1 that day's last closing price will be considered for valuation else the previous day's closing price of that stock exchange will be considered. W.e.f July 01, 2023, same day price are considered for valuation irrespective of market closing time. Such change in the policy is in accordance with the change in the regulation and there is no impact on P&L of the scheme.

vi) The price in local currency is converted by using RBI reference rate. If the security is listed in currency for which RBI reference rate is not available, the exchange rate available on Bloomberg/Reuter's is considered. In case the direct exchange rates are not available on Bloomberg/Reuter's, cross currency rate with USD is considered and converted as per INR/USD RBI reference rate.

vii) Till June 30, 2023, all corporate actions for foreign securities were recorded on the same basis as valuation of foreign securities by considering a cut off time of 5.00 PM (IST) / 5.00 AM (IST) T+1 as the case may be. The corporate actions of the securities were recorded on T day or T+1 day, depending upon the closure of business hours of the stock exchange on which the particular securities are traded / listed. W.e.f July 01, 2023, all corporate actions for foreign securities are recorded on T day. Such change in the policy is in accordance with the change in the regulation and there is no impact on P&L of the scheme.

20.11 Valuation of Infrastructure Investment Trust (InvITs) & Real Estate Investment Trust (ReITs)

i) On a valuation day, traded units of InvITs/ReITs are valued at the last quoted closing price on the principal stock exchange.

ii) When on a particular valuation day, units of InvITs/ReITs has not been traded on the principal stock exchange; the value at which it is traded on secondary stock exchange is used.

iii) When units of InvITs/ReITs is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day is used provided such date is not more than 30 days prior to valuation day.

iv) When unit of InvITs and ReITs are unlisted or thinly traded or not traded on any stock exchange for continuous period of 30 days, then the valuation for such units of InvITs and ReITs is determined based on the price provided by an independent agency(ies) or at latest NAV declared by investment managers of the trust, as the case may be.

v) National Stock Exchange of India Ltd. (NSE) is considered as the principal stock exchange and The BSE Limited (BSE) as secondary stock exchange.

B Change in unrealised gain or loss on account of change in fair value of investments is determined separately for each category of investment and disclosed as under:

i) The changes on account of unrealised gain on fair value changes or the changes on account of unrealised loss on fair value changes at investment category level is recognised in the Revenue Account.

ii) The unrealised gain at investment category level as at balance sheet date is shown under "Unrealised Appreciation Reserves" in "Statement of changes in net asset attributable to unit holders of scheme".

iii) For the purpose of Income Distribution cum Capital Withdrawal (IDCW), the unrealised gain / unrealised loss in the value of investments is determined at scheme level.

C Valuation guidelines as outlined above are as per prevailing regulations and are subject to change to make them in conformity with the SEBI guidelines.
The Valuation Policy is available on our website: www.sbimf.com

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

11. Unclaimed Redemption and Dividend / Income Distribution cum Capital Withdrawal (IDCW)

In compliance with SEBI circular no. MFD/CIR/9/120/2000 dated November 24, 2000, for unclaimed redemption & dividend / IDCW amount and deployment in money market instruments, the Fund has created a separate scheme "SBIMF-Unclaimed Dividend and Redemption Scheme".

The unclaimed amount has been deployed in money market instruments. As and when any investor claims the amount the same is paid along with the proportionate appreciation/income earned thereon. Such appreciation/income is passed on to the investor up to a period of three years. At the end of the third year, the amount payable to the investor is frozen. Any appreciation/income from the beginning of fourth year is utilised for investor education. The scheme wise details as on March 31, 2025 are given in **Annexure XXIV**.

12. Borrowings

The details of borrowings are given in **Annexure XXV**.

State Bank of India (SBI) has sanctioned an intra-day facility (IDF) of Rs. 18.000. As per the terms of the sanction letter, SBI has been granted a right (in the event of default) to exercise lien on the assets (held with the custodian) of the relevant schemes of the Fund to the tune of 100% of IDF.

The Fund has created floating charges on securities held with the Custodians viz, HDFC Bank Limited and SBI-SG Global Securities Services Private Limited to the extent of Rs. 15,000 crores to secure the limit of Rs. 12,000 crores sanctioned by the HDFC Bank.

13. In compliance with the SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012 and SEBI (Mutual Funds) (Second Amendment) Regulation 2012: -

i. Direct Plan had been introduced having lower expense ratio due to subscription not routed through a distributor. This plan has a separate NAV.

ii. The AMC has decided not to accept any fresh / additional subscription under the following plans w.e.f October 01, 2012. Scheme accepts fresh subscriptions only under one surviving plan and is not accepting any fresh / additional subscription including switches in discontinued plans. The discontinued plans will continue till the existing investors remain invested in such plan(s).

Scheme Name	Plan	Options

SBI MAGNUM GILT FUND	PF Regular	Growth Option IDCW Option
	PF 1 Year	IDCW Option
	PF 2 Year	IDCW Option
	PF 3 Year	Growth Option IDCW Option
SBI MAGNUM LOW DURATION FUND	Institutional	Growth Option Daily IDCW Option Weekly IDCW Option
SBI SHORT TERM DEBT FUND	Retail	Growth Option Weekly IDCW Option Fortnightly IDCW Option Monthly IDCW Option

iii. GST on Management Fees is accrued in addition to the maximum limit of Total Expense Ratio (TER) as per SEBI Regulation 52.

iv. An additional expense not exceeding 0.30 % of daily net assets is accrued over and above the maximum limit of TER as per Regulation 52 in case of new inflows coming from beyond top 30 cities as specified by SEBI. In terms of the SEBI letter no. SEBI/HO/IMD/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 read with AMFI letter no. 35P/MEM-COR/85-a/2022-23 dated March 02, 2023, B-30 incentive structure has been kept in abeyance w.e.f. March 01, 2023. B-30 expenses are accrued w.e.f. March 01, 2023 only on B-30 inflows received prior to March 01, 2023. B-30 incentives payment made on these inflows for a maximum period of 1 year (i.e. up to February 28, 2024).

v. A separate expense @ 0.02 % p.a. of daily net assets has been accrued for Investor Education and Awareness Initiatives Fund (IEF) within the maximum limit of TER as per regulation 52. Further w.e.f July 01, 2022, IEF expenses @ 0.01 % p.a. of daily net assets has been accrued for ETFs & Index Funds and no IEF expenses has been accrued for Fund of Funds Schemes (i.e. scheme investing more than 80% of its NAV in underlying domestic funds) in compliance with SEBI circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022. Further w.e.f. March 16, 2025, in respect to passive schemes for which the underlying indices are notified by SEBI / AMFI in line with the SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated December 31, 2024, the Schemes of the Fund has annually set apart 5% of the Total TER charged to direct plans subject to maximum of 0.5 bps of daily net asset of the Schemes towards IEF expenses.

14. Custodian Fees:
SBI-SG Global Securities Services Private Ltd. and HDFC Bank Ltd. provide custodial services to the Schemes for which the Schemes pays custody fees including transaction and safe keeping fees.

15. Registrar & Transfer Agent's (R&T) fees:
Computer Age Management Services Limited, provides Registrar and Transfer service to the Schemes for which the Schemes pays R&T fees.

16. Principal Bank
The AMC has engaged the services of State Bank of India to provide banking services to the Mutual Fund.

17. Other Income:
Other Income includes, wherever applicable, exit load income (net of GST), Security lending fees and miscellaneous income (if any).

18. Investor Education Fund:
As per SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012, an annual charge of 0.02% p.a. of daily net assets, being part of total recurring expenses is set aside for Investor Education and Awareness Initiatives Fund (IEF) in accordance with SEBI (Mutual Funds) Regulations, 1996 and guidelines issued thereunder. Further w.e.f July 01, 2022, IEF expenses @ 0.01 % p.a. of daily net assets has been accrued for ETFs & Index Funds and no IEF expenses has been accrued for Fund of Funds Schemes (i.e. scheme investing more than 80% of its NAV in underlying domestic funds) in compliance with SEBI circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022. Further w.e.f. March 16, 2025, in respect to passive schemes for which the underlying indices are notified by SEBI / AMFI in line with the SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated December 31, 2024, the Schemes of the Fund has annually set apart 5% of the Total TER charged to direct plans subject to maximum of 0.5 bps of daily net asset of the Schemes towards IEF expenses. The funds set aside is used only for meeting expenses for Investor Education and Awareness Initiatives.

As per SEBI circular no. IMD/DF2/RS/813/2016 dated January 08, 2016, 50% of the unutilised portion of IEF as on March 31, 2016 had been transferred to AMFI. From April 1, 2016 onwards, 50% of IEF accrued on daily net assets (as per above SEBI's directive) has been transferred to AMFI on a monthly basis.

In view of the AMFI Best Practices Guidelines Circular No. 56/2015-16, the IEF accrual is credited to a separate bank account. The movement of IEF balances during the financial year and the consolidated balance across all schemes as on March 31, 2025 and March 31, 2024 are as under:

Amount Rupees in Lakhs

Particulars	FY 2024-25	FY 2023-24
Opening Balance	4,314.48	5,387.54
Add: Accrual during the year	17,721.48	13,804.71
Add: Investment Income for the year	452.60	317.15
Less: AMFI contribution for the year	8,860.74	6,902.35
Less: Amount Spent during the year	2,259.23	8,292.56
Closing Balance	11,368.59	4,314.48

19. The following Schemes have invested in units of overseas mutual fund scheme / ETF during the year. In compliance with the SEBI Circular No. SEBI/IMD/CIR No.7/104753/07 dated September 26, 2007, the expense ratio charged by the domestic mutual fund scheme and by the overseas mutual fund / ETF scheme are within the total limits on expenses as prescribed under regulation 52(6), calculation of which are as under:

FY 2024-25

Scheme Name	Investment Type	ISIN	Overseas Security Name	Extent of Investment in Overseas Security	Base Total Expense Ratio (Base TER)				Period
					Limit u/r 52(6)	of Domestic Mutual Fund Scheme	of Overseas Mutual Fund / ETF	Total TER charged	
SBI INTERNATIONAL ACCESS- US EQUITY FOF	Units of Overseas Mutual Fund	LU2428739630	Amundi Funds US Pioneer Fund -I15 USD C	Full Investment	2.22%*	1.47%	0.75%	2.22%	01-04-2024 to 31-03-2025

* In case of Fund of Fund schemes the TER shall not exceed two times the weighted average of the total expense ratio levied by the underlying scheme, subject to the cumulative TER not exceeding the overall ceilings of 2.25% of daily net assets. Effective limit for TER is less than the above-mentioned limit of 2.25% on account of Management fee not being charged on AMC's investments / inter-scheme investments / FD investments as per SEBI Regulation.

FY 2023-24

Scheme Name	Investment Type	ISIN	Overseas Security Name	Extent of Investment in Overseas Security	Base Total Expense Ratio (Base TER)				Period
					Limit u/r 52(6)	of Domestic Mutual Fund Scheme	of Overseas Mutual Fund / ETF	Total TER charged	
SBI INTERNATIONAL ACCESS- US EQUITY FOF	Units of Overseas Mutual Fund	LU2428739630	Amundi Funds US Pioneer Fund -I15 USD C	Full Investment	2.23%*	1.48%	0.75%	2.23%	01-04-2023 to 31-03-2024
SBI MULTI ASSET ALLOCATION FUND	Units of Overseas ETF	US78463V1070	SPDR Gold Shares	Part Investment	1.62%	1.22%	0.40%	1.62%	01-04-2023 to 25-10-2023
SBI CONSUMPTION OPPORTUNITIES FUND	Units of Overseas ETF	US46090E1038	INVESCO QQQ TRUST, SERIES 1	Part Investment	1.97%	1.77%	0.20%	1.97%	01-04-2023 to 19-09-2023

* In case of Fund of Fund schemes the TER shall not exceed two times the weighted average of the total expense ratio levied by the underlying scheme, subject to the cumulative TER not exceeding the overall ceilings of 2.25% of daily net assets.

20. Details of Credit Default Swaps (CDS) transactions are as follows:

1. No. of transactions during the year - NIL (Previous Year : NIL)

2. Amount of protection bought during the year - NIL (Previous Year : NIL)

3. No. of transactions where credit event payment was received during the year:
a. Pertaining to current years transactions. - NIL (Previous Year : NIL)
b. Pertaining to previous year (s) transactions- NIL (Previous Year : NIL)

4. Outstanding transactions as on year end:
a. No. of transactions - NIL (Previous Year : NIL)
b. Amount of protection - NIL (Previous Year : NIL)

5. Net income/ expense in respect of CDS transactions during year-to-date:
a. Premium Paid - NIL (Previous Year : NIL)
b. Credit event payments received (net of value of derivable obligations)- NIL (Previous Year : NIL)

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

21. Fair value measurement

The Scheme measures its financial assets and financial liabilities at fair value at each reporting date.

Investments for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability.

Valuation Techniques and Classification:

a. Equity and Equity Related Instruments

Listed and traded equity shares and equity related instruments which are valued at the closing market price on the stock exchange have been classified as Level 1.
Equity related instruments (viz. convertible debentures) which are valued at average of scrip level prices provided by CRISIL & ICRA LTD have been classified as Level 2.
Thinly traded/Non-traded Equity shares are valued in accordance with guidelines issued by the SEBI. These have been classified as Level 2.
Unlisted Equity shares are valued in good faith by the Asset Management Company in accordance with guidelines issued by the SEBI. The inputs that are significant to valuation on reporting date are generally unobservable. These have been classified as Level 3.

b. Debt and Money Market Instruments

Debt and Money Market instruments are valued at average of scrip level prices provided by CRISIL & ICRA Ltd. for individual securities. If security level price for new security purchased (primary allotment or secondary market) is not available from Valuation Agencies, the valuation of such securities shall be done at the weighted average yield of all the purchases made by the Fund for the day of allotment/purchase. The inputs that are significant to valuation are generally observable. These instruments are classified as Level 2.

c. Foreign Securities

Listed and traded foreign securities are valued at the closing market price on the stock exchange. These have been classified as Level 1.
Unlisted units of overseas mutual funds are valued at the latest NAV declared by the investment manager. These have been classified as Level 1.

d. Other Financial Instruments

Listed and traded instruments are valued at the closing market price on the stock exchange. These have been classified as Level 1.
Unlisted units of domestic mutual funds are valued at the latest NAV declared by the investment manager. These have been classified as Level 1.
Gold/Silver is valued in line with guidelines specified in SEBI regulation. These have been classified as Level 1.
Thinly traded / Non traded InvIT and REITS are valued at last NAV declared by investment managers of the trust. These have been classified as Level 2.

Classification of Investments into Level 1, Level 2 and Level 3 as at Balance Sheet date is given in **Annexure XXVI**.

Details of securities transferred between Level 1, Level 2 and Level 3 during the year is given in **Annexure XXVI - (A).**

Reconciliation from the opening balances to the closing balances for securities classified under Level 3 fair value is given in **Annexure XXVI - (B).**

Financial assets other than investments and financial liabilities are carried at amortised cost which is a reasonable approximation of its fair value largely due to the short term maturities of these instruments. Accordingly, fair value hierarchy for these financial instruments.

The classification of other financial assets and other financial liabilities into Amortized cost, Fair Value Through Other Comprehensive Income (FVTOCI) and Fair Value Through Profit & Loss (FVTPL) is given in **Annexure XXVII**.

22. Financial risk management

The Fund's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

The Fund's AMC has overall responsibility for the establishment and oversight of the Fund's risk management framework. The Fund's risk management policies are established to identify and analyse the risks faced by the Fund, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Fund's activities.

In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market. Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Internal limits are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. There are Board level Committees, the Risk Management Committee of the Board of AMC and Trustee, which enables a dedicated focus on risk factors and the relevant risk mitigants.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below.

22.01 Market Risks

Market risk is the risk of loss of future earnings, fair values or future cash flows related to financial instrument that may result from adverse changes in market rates and prices (such as foreign currency rates, interest rates, other price risks). The Fund is exposed to market risk primarily related to Price risk, Foreign currency risk, and Interest rate risk.

a. Price Risks

Price risk is the risk that the fair value of the future cashflows of the financial instrument will fluctuate as a result of changes in market prices and related market variables whether caused by factors specific to an individual investment, its issuer or the market including geographical factors.

The Equity and Equity related instruments, Foreign Equity shares and American Depositary Receipt ("Equity Instruments") are subject to price fluctuations on daily basis. The volatility in the value of the Equity Instruments is due to various micro and macro-economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.

The fund's exposure to price risk with respect to Equity Instruments as at Balance Sheet date is as specified in Note 5 "Investments" under Notes to financial statements.

The Fund reviews the concentration of Equity Instruments held based on counterparties and industries as at Balance Sheet date. The industry wise concentrations of the Equity Instruments is given in **Annexure XXVIII**.

There were no significant concentrations in the Equity Instruments to any individual issuer or group of issuers, as these investments are made in accordance with the guidelines on investment limits/restrictions prescribed by SEBI/AMFI/SID from time to time.

The sensitivity of the Fund's net assets attributable to holders of redeemable units to price movements in Equity Instruments as at Balance Sheet date is given in **Annexure XXIX**.

The sensitivity analysis of price risk for below category of schemes are not presented:

i) **For Open Ended Hybrid Schemes (equity oriented):** The scheme holds other asset classes like Fixed Income Instruments as part of its portfolio, in addition to Equity Instruments owing to which the scheme will not be as sensitive to Price Risk movements. Hence price risk sensitivity has not been provided.

ii) **For SBI ARBITRAGE OPPORTUNITIES FUND:** Since this scheme runs an arbitrage strategy which involves holding opposing positions in Cash market as well as in Futures Market, the price risk is largely mitigated. Hence, sensitivity for this scheme with regards to market movement may not be applicable.

iii) **For SBI BALANCED ADVANTAGE FUND and SBI EQUITY SAVINGS FUND:** In addition to the explanation given under open ended hybrid schemes category, this scheme also includes an arbitrage component, which involves holding opposing positions in Cash market as well as in Futures Market where the price risk is largely mitigated. Hence, sensitivity for this scheme with regards to market movement may not be applicable.

b. Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises from recognised financial assets and liabilities denominated in a currency that is not its functional currency (Indian Rupees). The Fund is exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates.

The effect on the net assets attributable to the unit holders of a reasonably possible weakening of the INR against the USD by 1% as at Balance Sheet date is given in **Annexure XXX.** The analysis assumes that all other variables remain constant. A strengthening of the INR against the USD would have resulted in an equal but opposite effect to the amounts shown in the aforesaid **Annexure XXX.**

c. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Fund manager regularly assesses the economic condition, monitor changes in interest rates outlook and take appropriate measures accordingly to control the impact of interest rate risk.

The majority of the Fund's exposure to Debt and Money Market instruments are in Non-Convertible Debenture, Corporate Bond, Certificates of Deposit, Commercial Paper, Treasury Bills, State Government Securities and Central Government Securities, which are interest bearing.

As at Balance Sheet date, if prevailing interest rates had risen or declined by specified basis points, assuming a parallel shift in the yield curve with all other variables held constant, the Fund's net assets would have decreased or increased, respectively is given in **Annexure XXXI.** In practice, actual results may differ from this sensitivity analysis and the difference could be material.

The sensitivity analysis of interest rate risk for below category of schemes are not presented:

i) **For Open Ended Hybrid Schemes (debt oriented):** The scheme holds other asset classes like Equity instruments as part of its portfolio, in addition to Fixed Income Instruments owing to which the scheme will not be as sensitive to Interest Rate movements. Hence, interest rate sensitivity has not been provided.

ii) **For Closed Ended Debt Schemes:** Since this scheme is a close ended scheme, the scheme's investments are invested in line with the Scheme's maturity date and are held till maturity. Hence, interest rate sensitivity has not been provided.

The Fund's assets and liabilities bearing interest rate risk are included at their carrying amount and categorised by the earlier of it's contractual re-pricing or maturity dates as at Balance Sheet date is given in **Annexure XXXII**.

22.02 Credit risk

Credit risk is the risk that the Fund will incur a loss because its counterparties fail to discharge their contractual obligations. The Fund is exposed to the risk of credit-related losses that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations.

The AMC's policy is to closely monitor the creditworthiness of the Fund's counterparties by reviewing their credit ratings, financial statements and press releases on a regular basis.

a. **Credit quality analysis**

The Scheme's exposure to credit risk arises in respect of the following financial instruments:
- Cash and cash equivalents:
- Contract for sale of investment in securities and Derivative financial instruments receivable:
- Securities Lending and Borrowing (SLB):
- Investments in debt and money market securities; and
- Derivative assets:

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

i) Cash and cash equivalents

The cash and cash equivalents are held with bank. Reverse Repo in Corporate Bond, Reverse Repo in Government Securities and Tri Party Repo (TREPS).

Reverse Repo in Government Securities and Tri Party Repo (TREPS) has zero credit risk as transactions in these securities are executed on CCIL platform with guaranteed settlement.

Reverse Repo in Corporate Bond transactions are currently done on OTC basis and settled on non-guaranteed basis. Credit risks could arise if the counterparty does not repay the lent amount as contracted on due date. The liquidation of underlying bonds in case of counterparty default would depend on the liquidity of the bond and market conditions at that time. This risk is largely mitigated, as the choice of counterparties is largely restricted and also haircuts are applicable on the underlying bonds depending on credit ratings.

ii) Contract for sale of investment in securities and Derivative financial instruments receivable

Contract for sale of investment in securities and Derivative financial instruments receivable represent margin accounts and sales transactions awaiting settlement. Credit risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used and contracts are generally settled through clearing agent of recognised stock exchange.

iii) Securities Lending and Borrowing

Credit risk relating to receivables from Securities Lending and Borrowing is considered small due to the amount and quality of collateral and the high credit quality of the counterparties / intermediaries used and contracts are generally settled through clearing agent of recognised stock exchange.

iv) Investments in debt and money market securities

Investments in debt instruments comprise investments in governments securities and in corporate debt and money market securities. Government securities have zero credit risk while other debt instruments are rated according to the issuers' ability to meet the obligations. The ratings of debt instruments are provided by an independent credit rating agencies. Rating wise exposures of the Scheme's debt and money market instruments as at Balance Sheet date is given in **Annexure XXXIII**.

v) Derivatives

The Scheme may use derivatives instruments like Interest Rate Swaps or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the SEBI Regulations and guidelines. Usage of derivatives will expose the Schemes to risk inherent to such derivatives e.g. when a credit event such as a default occurs - all outstanding transactions under the agreement with the counterparty are terminated, the termination value is assessed and only a single net amount is payable in settlement of all transactions with the counterparty.

The derivatives are entered into with bank and financial institution counterparties, which has investment grade ratings, based on ratings provided by credit rating agencies.

b. Concentration of credit risk

The AMC reviews the credit concentration of debt and money market instruments held based on counterparties and industries.

Industry wise concentrations of the Scheme's debt and money market instruments as at Balance Sheet date is given in **Annexure XXVIII**.

There were no significant concentrations in the debt and money market instruments portfolio of credit risk to any individual issuer or group of issuers, as these investments are made in accordance with the guidelines on investment limits/restrictions prescribed by SEBI/AMFI/SID from time to time.

SBI MUTUAL FUND

Schedule Annexed to and forming part of the Financial Statements for the year ended/As at March 31, 2025 (or up to maturity date for schemes matured during the year)

22.03 Liquidity risks

Liquidity risk is the risk that the Fund will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Fund's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation.

The responsibility for liquidity risk management rests with the AMC and the Trustees, who has established an appropriate liquidity risk management framework for the management of the Fund's short-term, medium-term and long-term funding and liquidity management requirements. The Fund manages liquidity risk by investing in securities having a relatively liquid market, and by maintaining adequate banking facilities and by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The liquidity analysis of financial liabilities of the Fund based on contractually agreed undiscounted cash flows as at Balance Sheet date is given in **Annexure XXXIV**.

22.04 Operational risk

'Operational risk' is the risk of direct or indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Scheme's activities with financial instruments, either internally within the Scheme or externally at the Scheme's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment management behaviour.

The Scheme's objective is to manage operational risk so as to balance the limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns to investors.

The primary responsibility for the development and implementation of controls over operational risk rests with the AMC. This responsibility is supported by the development of overall standards for the management of operational risk, which encompasses the controls and processes at the service providers and the establishment of service levels with the service providers, in the following areas:

– documentation of controls and procedures;
– requirements for:
  - appropriate segregation of duties between various functions, roles and responsibilities;
  - reconciliation and monitoring of transactions; and
  - periodic assessment of operational risk faced;
– the adequacy of controls and procedures to address the risks identified;
– compliance with regulatory and other legal requirements;
– development of contingency plans;
– training and professional development;
– ethical and business standards; and
– risk mitigation, including insurance if this is effective.

The AMC's assessment of the adequacy of the controls and processes in place at the service providers with respect to operational risk is carried out via regular discussion with the service providers and a review of the service providers' Service Organisation Controls (SOC) 1 reports on internal controls, if any are available.

Substantially all of the assets of the Scheme are held by SBISG Global Securities Services Pvt. Ltd. The bankruptcy or insolvency of the Scheme's custodian may cause the Scheme's rights with respect to the securities held by the custodian to be limited. The AMC monitors the credit ratings and capital adequacy of its custodian on a regular basis, and reviews the findings documented in the SOC 1 report on the internal controls annually.

22.05 Capital Risk management

The Scheme considers its net assets attributable to unit holders as capital. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Scheme is subject to daily subscriptions and redemptions at the discretion of unitholders. Daily subscriptions and redemptions are reviewed relative to the liquidity of the Scheme's underlying assets on a daily basis by the AMC.

23. Offsetting financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. The Scheme has not offset any financial assets and financial liabilities during the year.
