Telecommunication 15. Transportation 16. Urban Infrastructure including Housing & Commercial Infrastructure 17. Commercial Vehicles 18. Industrial Manufacturing 19. Logistic Service provider	Equity and equity related securities of companies in infrastructure sector (including foreign securities*) – 80% - 100% Other equities and equity related instruments – 0% - 20% Units issued by REIT/InVIT – 0% - 10% Debt instruments (including securitized debt) – 0% - 20% Money Market Instruments – 0% -20%	4,680.97	338300
SBI PSU Fund	To provide investors with opportunities for long-term growth in capital along with the liquidity of an open-ended scheme through an active management of investments in a diversified basket of equity stocks of domestic Public Sector Undertakings (and their subsidiaries) and in debt and money market instruments issued by PSUs and others.	The primary strategy of the scheme would be to invest in the stocks of the PSU companies and their subsidiaries. The scheme may invest in quasi PSUs /subsidiaries of PSUs: 1. which could be part of PSU index 2. defined by management control or ability to appoint key managerial personnel and not necessarily by equity stake of 51% (but minimum PSU/ Central govt / state govt stake of 35% and highest among others is required).The scheme would endeavor to identify market opportunities and at the same time would sufficiently diversify its equity portfolio and control liquidity risks and non-systematic risks by selecting well researched stocks which have growth prospects on a long and mid-term basis in order to provide stability and possibility of returns in the scheme Investment in equities would be done through primary as well as secondary market, private placement / QIP, preferential/firm allotments or any other mode as may be prescribed/ available from time to time.	Equities of PSU companies and their subsidiaries (including derivatives) – 80% -100% Other equities and equity related instruments – 0% -20% Units issued by REIT/InVIT – 0% - 10% Debt instruments (including securitized debt) – 0% - 20% Money Market Instruments – 0% - 20%	4,788.77	1217190
SBI Small Cap Fund	To provide investors with opportunities for long-term growth in capital along with the liquidity of an open-ended scheme by investing predominantly in a well-diversified basket of equity stocks of small cap companies.	The scheme follows a blend of growth and value style of investing. The scheme will follow a bottom-up approach to stock-picking and choose companies within the small cap space. Small Cap means: 251st company onwards in terms of full market capitalization. The exposure will be as per limits/classification defined by AMFI/SEBI from time to time.	Equity and equity related instruments of small cap companies (including derivatives) – 65% - 100% Other equities and equity related instruments – 0% - 35% Units issued by REIT/InVIT – 0% - 10% Debt instruments (including securitized debt) – 0% - 35% Money Market Instruments – 0% - 35%	30,074.36	3054666
SBI Contra Fund	To provide the investor with the opportunity of long term capital appreciation by investing in a diversified portfolio of equity and equity related securities following a contrarian investment strategy.	The fund will follow a combination of top-down and bottom-up approach to stock-picking and choose companies within the contrarian investment theme.	Equity and equity related instruments of companies which follow the contrarian investment theme (including derivatives) – 65%-100% Other equities and equity related instruments – 0%-35% Units issued by REIT/InVIT – 0%-10% Debt instruments (including securitized debt) – 0%-35% Money Market Instruments – 0% - 35%	42,220.04	3083822
SBI Long Term Equity Fund	The prime objective of scheme is to deliver the benefit of investment in a portfolio of equity shares, while offering deduction on such investment made in the scheme under section 80C of the Income-tax Act, 1961. It also seeks to distribute income periodically depending on distributable surplus.Investments in this scheme would be subject to a statutory lock-in of 3 years from the date of allotment to avail Section 80C benefits.	Fund will be investing in equity & equity related instruments as also debt instruments, and money market instruments (such as money market, term/notice money market, repos, reverse repos and any alternative to the call money market as may be directed by the RBI). Investment shall also be made in Partly Convertible Debentures (PCDs) and bonds including those issued on rights basis subject to the condition that as far as possible the non-convertible portion of the debentures so acquired or subscribed shall be divested within a period of 12 months. The balance funds shall be invested in short term money market instruments or other liquid instruments or both. In line with CBDT guidelines, the Fund will invest at least 80% of the net assets in equity and equity related instruments.	Equities, Cumulative Convertible Preference Shares, and Fully Convertible Debentures (FCDs) & Bonds – 80 -100% Money Market Instruments – 0% - 20%	27,730.33	2081235

Scheme Name	Investment objectives	Investment Strategy	Asset Allocation	AUM (Rs. In crores) (as on March 31, 2025)	Folio (as on March 31, 2025)
SBI ESG Exclusionary Strategy Fu	The objective of the scheme is to provide investors with opportunities for long-term growth in capital through an active management of investments in a diversified basket of companies following Environmental, Social and Governance (ESG) criteria using exclusionary strategy. However, there is no assurance that the investment objective of the scheme will be achieved.	SBI ESG Exclusionary Strategy Fund shall follow the following strategy and process for stock selection: Exclusionary/Negative Screening based on adverse impact: The Fund excludes sectors with a negative social connotation like habit forming substances/practices like alcohol, tobacco, gambling and pornography. The fund also excludes controversial weapons that especially include weapons of mass destruction. The strategy will cover the following: i. Characteristic: Social adverse impact ii. Threshold/Conditions for exclusion: The fund shall not invest in companies in the above-mentioned sectors if they derive 5% or more consolidated revenue from such sectors iii. Reference: Ethical or Socially Responsible investors across the world tend to exclude sin stocks, as the companies involved are thought to be making money from exploiting human weaknesses and vices. These exclusions may arise from faith-based preferences, or an organisation's own interpretation of ethics or sustainability. The scheme shall use a blended approach and exclude sectors such as alcohol, tobacco, gambling, pornography, and controversial weapons. The scheme shall also exclude the lowest scoring companies on the empaneled ERP's framework that SBIFM subscribes to, at the time of purchase of the security. Decision-making process for Investing: The Fund will use a SEBI Registered third-party, ESG Ratings Provider for Ratings Reports, and other research to aid the decision-making process. The ESG ratings provider (ERP) follows a sector agnostic framework and provides weightages to environmental, social and governance pillars, with governance having the highest weight in accordance with the importance provided to the factors by the ERP's methodology. Companies are scored on a scale of 1-100, where 100 is the highest. Under "E" and "S" assessment, the final score is a combination of company scores and sector scores. The company scores assess a company's material parameters within the "E" or "S" pillars in relation to its peers within a sector, whereas the sector scores indicate how the sector fares relative to other sectors on "E" or "S" parameters. Controversial incidents invite a negative scoring or deflator on the "E", "S" or "G" pillar scores. The methodology of the ERP is available here: https://www.sbimf.com/docs/default-source/esg-fund-documents/esg_methodology.pdf SBI Funds Management also has a proprietary framework which is sector agnostic in construct but provides guidelines to rate parameters based on relevance to the business. Governance is the most highly weighted pillar as SBI FM believes that well governed companies with strong leadership are able to create environmental and social positive value too. SBI FM's ESG rating framework looks at ESG risks based on business activities and the mitigation measures taken by the company to avoid/reduce the impact. This is complemented by controversy tracking and all three components help in arriving at an ESG score. The Responsible Investment Policy explains the process in detail.	Equity and equity related instruments following Environmental, Social and Governance (ESG) criteria (including derivatives and foreign securities)– 80% - 100% Other equity and equity related instruments - 0%- 20% Units issued by REIT/InVIT - 0% - 10% Debt instruments (including securitized debt) - 0% - 20%Money Market Instruments - 0% - 20%	5,433.25	374592
SBI Multicap Fund	The investment objective of the scheme is to provide investors with opportunities for long term growth in capital from a diversified portfolio of equity and equity related instruments across market capitalization. However, there can be no assurance that the investment objective of the Scheme will be realized.	The scheme will follow a bottom-up approach to stock-picking and choose companies across sectors. The scheme will invest in diversified portfolio of stocks across market capitalization. Large Cap Stocks – 1st -100th company in terms of full market capitalization. Mid Cap:101st to 250th company in terms of full market capitalization. Small Cap: 251st company onwards in terms of full market capitalization. The exposure across these stocks will be in line with limits/classification defined by AMFI/SEBI from time to time.	Equity and Equity related instruments: Minimum investment in equity & equity related instruments (including derivatives) – 75% of total assets in the following manner: Large Cap Companies 25-50%Mid Cap Companies 25-50% Small Cap Companies 25-50% Debt securities (including securitized debt^ & debt derivatives) and money market instruments 0-25% Units issued by REITs and InvITs* 0-10%	19,192.41	946515
SBI Banking & Financial Services	The investment objective of the scheme is to generate long-term capital appreciation to unit holders from a portfolio that is invested predominantly in equity and equity related securities of companies engaged in banking and financial services. However, there can be no assurance that the investment objective of the Scheme will be realized.	The Scheme aims to maximize long-term capital appreciation by investing primarily in equity and equity related securities of companies engaged in Banking and Financial services. The portfolio manager will adopt an active management style to optimize returns. The scheme would invest in Banks as well as Non-banking Financial Services companies, Insurance companies, Rating agencies, Broking companies, Microfinance companies, Housing Finance, Wealth Management, Stock/ commodities exchange etc. Financial services companies are firms that are engaged in providing non-banking financial services to customers. The classification of Financial service companies will be largely guided by AMFI sector classification. The indicative list of industry under financial services includes: •Housing Finance •Micro Finance •Stock broking & Allied •Wealth Management •Rating Agencies •Asset Management Companies •Insurance Companies •Stock/ Commodities Exchange •Other NBFC's Any other company which may derive 70% or more of its revenue from companies engaged in financial services	Equity and equity related securities of companies engaged in banking & financial services - 80% - 100% Other equities and equity related instruments – 0% - 20% Units issued by REIT/InVIT – 0% - 10% Debt instruments (including securitized debt) – 0% - 20% Money Market Instruments – 0% - 20%	7,111.34	266064

Scheme Name	Investment objectives	Investment Strategy	Asset Allocation	AUM (Rs. In crores) (as on March 31, 2025)	Folio (as on March 31, 2025)
SBI Dividend Yield Fund	The investment objective of the scheme is to provide investors with opportunities for capital appreciation and/or dividend distribution by investing predominantly in a well-diversified portfolio of equity and equity related instruments of dividend yielding companies. However, there can be no assurance that the investment objective of the Scheme will be realized	The scheme would invest predominantly (at least 65% of the net assets) in companies that have a relatively high dividend yield, at the time of making the investment. Companies may also choose to do a buyback in addition to or as an alternative to dividend. This also constitutes a yield to shareholders and will be accordingly used while calculating dividend yield. The Scheme will consider dividend yielding stocks which have paid dividend (or done a buyback) in at least one of the three preceding financial years. While trailing dividend yield will be an important factor in selecting a stock, the fund manager will also consider on business fundamentals, industry outlook, absolute as well as relative valuations, quality of management, ESG parameters & various other fundamental factors. Further, to achieve diversification the Scheme may also invest residual net assets i.e. up to 35% of the net assets in companies other than Dividend Yielding Companies. The overall endeavour is to construct a portfolio with aggregate dividend yield that is at least 50% higher than that of the Nifty 50 Index. The scheme will follow a bottom-up approach to stock-picking and choose companies across sectors. The scheme will invest in diversified portfolio of stocks across market capitalization. Thus, the investment strategy of the Scheme would focus on identifying and investing in a basket of dividend yield companies from domestic as well as global universe.	Equity and equity related instruments of dividend yielding companies (including equity derivatives) - 65% - 100% Other equities and equity related instruments – 0% - 35% Debt securities (including securitized debt^ & debt derivatives) and money market instruments – 0% -35% Units issued by REITs and InvITs - 0%-10%	8,871.77	356066
SBI Consumption Opportunities	To provide the investor with the opportunity of long term capital appreciation by investing in a diversified portfolio of equity and equity related securities in Consumption space.	The fund will follow a bottom-up approach to stock-picking and choose companies within the Consumption space. The scheme will invest in stocks of companies engaged in: 1.Consumer durables 2.Consumer non-durables 3.Retail 4.Textiles 5.Auto OEM's 6.Media & entertainment 7.Hotels, resorts & travel services. 8.Education services 9.Airlines 10.E-commerce Consumer transportation & logistics services.	Equities and equity related securities in Consumption sector (including derivatives and foreign securities) – 80%-100% Other equities and equity related instruments – 0%- 20% Units issued by REIT/InVIT – 0% -10% Debt instruments (including securitized debt) – 0% -20% Money Market Instruments – 0% - 20%	2,903.68	165306
SBI Technology Opportunities Fu	To provide the investor with the opportunity of long term capital appreciation by investing in a diversified portfolio of equity and equity related securities in technology and technology related companies.	The fund will follow a bottom-up approach to stock-picking and choose companies which are expected to derive benefit from development, use and advancement of technology. These will predominantly include companies in the following industries: · Technology services, including IT management, software, Data and IT Infrastructure services including Cloud computing, mobile computing infrastructure · Internet technology enabled services including e-commerce, technology platforms, IoT (Internet of Things) and other online services · Electronic technology, including computers, computer products, and electronic components Telecommunications, including networking, wireless, and wireline services, equipment and support; Media and information services, including the distribution of information and content providers IT products, hardware and components like PCs, Laptops, Servers, Chips, Semi-conductors etc.	Equities and equity related securities in technology and technology related securities (including derivatives and foreign securities) – 80%-100% Other equities and equity related instruments – 0% -20% Units issued by REIT/InVIT – 0%-10% Debt instruments (including securitized debt) – 0% - 20% Money Market Instruments – 0%-20%	4,203.00	341210
SBI Energy Opportunities Fund	The investment objective of the scheme is to provide investors with opportunities for long term capital appreciation by investing in equity and equity related instruments of companies engaging in activities such as exploration, production, distribution, transportation and processing of traditional & new energy including but not limited to sectors such as oil & gas, utilities and power. However, there is no assurance that the investment objective of the scheme will be achieved.	The scheme aims to maximize long-term capital appreciation by investing (at least 80% of the net assets) in domestic and/or overseas companies engaging in activities such exploration, production, distribution, transportation and processing of traditional & new energy including but not limited to sectors such as oil & gas, utilities and power. The fund manager will adopt an active management style & will follow bottom-up approach to stock picking to optimize returns. The scheme will invest in diversified portfolio of stocks across market capitalization. The scheme will predominantly invest in the following sectors. The classification of companies will be largely guided by AMFI basic industry classification. The indicative list of the sectors includes: 1.Offshore Support Solution Drilling 2.Power - Transmission 3.Power Generation 4.Integrated Power Utilities 5.Trading - Gas 6.Trading - Coal 7.Lubricants 8.Oil Equipment & Services 9.LPG/CNG/PNG/LNG Supplier 10.Refineries & Marketing 11.Coal 12.Oil Exploration & Production 13.Gas Transmission/Marketing 14.Oil Storage & Transportation 15.Other Utilities 16.Power Trading	Equity and equity related instruments of companies engaged in energy (traditional & new) and allied business activities theme. -	-	Further to the above, the fund may also invest in domestic and/or overseas companies that are predominantly into energy ancillary businesses including but not limited to: Chemicals & Petrochemicals companies Industrial & capital goods companies that are engaged in energy consultancy manufacturing pipelines used in energy sector manufacturing electrical equipment's for production, transmission & distribution of energy, companies involved bio energy value chain companies making components of new energy Ancillary companies in power transmission & distribution space The Fund Manager will have the discretion to invest in all those sectors / areas which are engaged either directly or indirectly in the traditional & new energy sectors. Traditional energy includes but is not limited to sources of energy such as crude oil, natural gas, coal and new energy refers to renewable energy such as hydropower, solar, wind among others. Further, to achieve diversification the Scheme may also invest residual net assets i.e. up to 20% of the net assets in companies other than the energy and allied sector universe.	-	#N/A	#N/A
SBI Automotive Opportunities F	The investment objective of the scheme is to generate long-term capital appreciation to unit holders from a portfolio that is invested in equity and equity related instruments of companies engaged in automotive & allied business activities theme. However, there is no assurance that the investment objective of the scheme will be achieved.	The Scheme aims to maximize long-term capital appreciation by investing in primarily (atleast 80% of the net assets) in equity and equity related instruments of companies engaged in automotive & allied business activities theme. The fund manager will adopt an active management style & will follow bottom-up approach to stock picking to optimize returns. The scheme will invest in diversified portfolio of stocks across market capitalization. The classification of companies following the automotive & allied business activities theme will be largely guided by AMFI basic industry classification. The indicative list of sectors following automotive & allied business activities theme includes: •Automobile •Auto Dealer •Automobile components & equipment •Abrasives & Bearings •Tyres & Rubber products •2/3 wheelers •Tractors •Passenger vehicles & utility vehicles •Construction vehicles •Trading – Auto components •Commercials vehicles •Castings & forgings •Compressors, Pumps & Diesel Engines •Semiconductor & electronics companies catering to auto companies. •Dealers–Commercial Vehicles, Tractors, Construction Vehicles The Fund Manager will have the discretion to invest in all those sectors / areas which are engaged either directly or indirectly in the automotive & allied business activities theme. The investment strategy of the Scheme would focus on identifying and investing in companies engaged in automotive & allied business activities theme from domestic as well as global universe. Further, to achieve diversification the Scheme may also invest residual net assets i.e. up to 20% of the net assets in companies other than automotive & allied business activities theme. The scheme will predominantly be actively managed to achieve its investment objective.	Equity and equity related instruments of companies engaged in automotive & allied business activities theme (including equity derivatives) – 80%-100% Equity & equity related instruments of companies other than above (including equity derivatives)– 0%-20% Debt & debt related instruments (including securitized debt^ & debt derivatives) and money market instruments including tri-party Repos – 0%-20% Units issued by REITs and InvITs – 0%-10%	5,220.22	418178

Scheme Name	Investment objectives	Investment Strategy	Asset Allocation	AUM (Rs. In crores) (as on March 31, 2025)	Folio (as on March 31, 2025)
SBI Innovative Opportunities Fu	The investment objective of the scheme is to provide investors with opportunities for long term capital appreciation by investing in equity and equity related instruments of companies that seeks to benefit from adoption of innovative strategies & theme. However, there is no assurance that the investment objective of the scheme will be achieved.	The scheme will predominantly be actively managed to achieve its investment objective. The Scheme aims to maximize long-term capital appreciation by investing in primarily (at least 80% of the net assets) in equity and equity related instruments of companies which are innovators (demonstrated through innovation in product/process or through innovative business models) or are significantly investing into research and development for creation of innovative products/processes. The fund manager will adopt an active management style & will follow bottom-up approach to stock picking to optimize returns. The scheme will invest in diversified portfolio of stocks across market capitalization. The identification of innovator companies will be on basis of the following three categories: Product & Service innovators: Companies which are innovators of new products/service categories or are investing into research and development of new product innovation (existing or new product/service categories). These companies tend to be challengers in an existing product/service category or are creators of new product/service categories. These companies can be early identifiers or adopters of evolving demand patterns and/or technological advances. These can be companies which are potential creators of new product/service categories, which hitherto did not exist or are solving for uses cases unaddressed so far. Process innovators: Companies which are innovators of new processes or are investing into research and development of new process innovations. These companies tend to be disruptors of existing business models and would look to gain market share through adaption of technological advances and innovative processes developed in house which can provide either quality or cost advantage compared to peers. Innovation adapters: Companies which are adaptors of innovative business models, products or services evolving in their existing industry. These are incumbents who show agility/nimbleness in adapting to emergent business trends (either on account of innovative products/services or processes) or emergent product/service categories. These adaptive innovators may not necessarily overhaul their entire business model but exhibit innovative strategies in specific segments or verticals that has potential to meaningfully impact the business. The investment strategy of the Scheme would focus on identifying and investing in companies engaged in innovative strategies / theme from domestic as well as global universe. Further, to achieve diversification the Scheme may also invest residual net assets i.e. up to 20% of the net assets in companies other than the companies following innovation theme.	- Equity and equity related instruments of companies that seek to benefit from adoption of innovative strategies & theme. (including equity derivatives)-80%-100% - Other equity & equity related instruments (including equity derivatives)-0%-20% - Debt securities (including securitized debt^ & debt derivatives) and money market instruments including triparty repos-0%-20% - Units issued by REITs and InvITs – 0%-10%	6,951.38	432843
SBI Quant Fund	The investment objective of the scheme is to seek to generate long term capital appreciation by investing in equity and equity related instruments selected based on quant model theme. However, there is no assurance that the investment objective of the scheme will be achieved.	The investment strategy outlined aims to achieve long-term capital appreciation by deploying a proprietary quantitative model that incorporates both fundamental and technical factors. This approach is designed to generate superior risk-adjusted returns compared to the benchmark index. The model employs a multi-faceted evaluation process, screening the investment universe for quantitative measures such as data availability and liquidity, and subsequently analyzing stocks based on a set of fundamental and technical parameters. Fundamental Factors: The quantitative model focuses on fundamental factors that provide insights into a company's growth outlook and valuation. These factors may act as an overarching framework. Some of these factors are •Value •Quality & •Growth The key sub indicators may include Return on Equity, Sales Growth, Cash Flow, Debt to Equity Ratio, Earnings Growth, Price to Book, Price to Earnings, Dividend Yield, and Earnings Yield. These factors are chosen for their strong academic basis and relevance in the assessment of a company's financial health. The model employs these indicators to filter stocks with the perspective to provide superior risk adjusted return. Technical Factors: In addition to fundamental factors, the model incorporates technical factors that capture behavioral attributes reflected in stock price movements. These include Liquidity, Stock Price Momentum, Volatility, and Historical Performance etc. By considering these aspects, the model aims to identify patterns and trends in stock price behavior, adding a layer of analysis beyond traditional fundamental metrics. The fund manager will review and maintain the model (including variables) on an ongoing basis and make changes as necessary. The same will be reviewed periodically by the Fund Manager. The portfolio of the scheme will be subject to regular reviews and rebalancing by the Fund Manager based on the output of the quantitative model. This dynamic approach ensures that the portfolio remains aligned with the evolving market landscape. The Fund Manager also retains the discretion to use other parameters, such as economic indicators and investment signals, supplementing the quant model as necessary. With continuous oversight the fund ensures that the model remains effective in capturing market dynamics and adapting to changing conditions. By integrating fundamental and technical factors and allowing for adjustments in response to market changes, the strategy seeks to deliver sustained long-term capital appreciation while effectively managing risk.	Equity & Equity related instruments selected based on a quantitative model - 80%-100% Other Equity and Equity related instruments - 0%-20% Debt Securities (including securitized debt^ & debt derivatives) & Money Market Instruments(including Tri Party Repo) - 0%-20% Units issued by REITs and InvITs - 0%-20%	3,602.68	230745
