The particulars of the Scheme/Funds have been prepared in accordance with the Securities and Exchange Board of India (Mutual Funds) Regulations 1996, (hereinafter referred to as SEBI (MF) Regulations) as amended till date, and filed with SEBI, along with a Due Diligence Certificate from the AMC. The units being offered for public subscription have not been approved or recommended by SEBI nor has SEBI certified the accuracy or adequacy of the Scheme Information Document.

The Scheme Information Document sets forth concisely the information about the scheme that a prospective investor ought to know before investing. Before investing, investors should also ascertain about any further changes to this Scheme Information Document after the date of this Document from the Mutual Fund / Investor Service Centres / Website / Distributors or Brokers.

The investors are advised to refer to the Statement of Additional Information (SAI) for details of SBI Mutual Fund, Tax and Legal issues and general information, on www.sbimf.com

SAI is incorporated by reference (is legally a part of the Scheme Information Document). For a free copy of the current SAI, please contact your nearest Investor Service Centre or log on to our website. The Scheme Information Document should be read in conjunction with the SAI and not in isolation. This Scheme Information Document is dated March 16, 2011

“As required, a copy of this Scheme Information Document has been submitted to National Stock Exchange of India Limited (hereinafter referred to as NSE). NSE has given, vide its letter NSE/LIST/159149-Z dated February 23, 2011, permission to the Mutual Fund to use the Exchange's name in this Scheme Information Document as on the stock exchanges on which the Mutual Fund's units are proposed to be listed, subject to the Mutual Fund fulfilling the various criteria for listing. The Exchange has scrutinized this Scheme Information Document for its limited internal purpose of deciding on the matter of granting the aforesaid permission to the Mutual Fund. It is to be distinctly understood that the aforesaid permission given by NSE should not in any way be deemed or construed that the Scheme Information Document has been cleared or approved by NSE; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Scheme Information Document; nor does it warrant that the Mutual Fund's units will be listed, or will continue to be listed, on the Exchange; nor does it take any responsibility for the financial or other soundness of the Mutual Fund, its sponsors, its management or any scheme of the Mutual Fund.

Every person who desires to apply for or otherwise acquire any units of the Mutual Fund may do so pursuant to independent inquiry, investigation and analysis and shall not have any claim against the Exchange whatsoever by reason of any loss which may be suffered by such person consequent to or in connection with such subscription / acquisition, whether by reason of anything stated or omitted to be stated herein or any other reason whatsoever.”

This being a Closed Ended Scheme, no premature redemption can be made through redemption instruction to the Mutual Fund until maturity. However, the Scheme provides for liquidity through listing on the NSE (and/or any other recognized stock exchange where the units are listed). Unitholders who intend to avail of the facility to trade in units are required to have a Demat Account.

I. INTRODUCTION

A. RISK FACTORS

1. Standard Risk Factors

- a. Mutual funds and securities investments are subject to market risks and there is no assurance or guarantee that the Fund's objective will be achieved.
- b. As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down
- c. Past performance of the Sponsor / AMC / Mutual Fund or its affiliates does not guarantee the future performance of the scheme(s) of the Mutual Fund.
- d. State Bank of India, the sponsor, is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution made by it of an amount of Rs. 5 lakhs towards setting up of the mutual fund.
- e. SBI Debt Fund Series (SDFS) is only the name of the Scheme and does not, in any manner, indicate either the quality of the Scheme or its future prospects and returns.
- f. The NAV of the Schemes' Units may be affected by change in the general market conditions, factors and forces affecting capital markets in particular, level of interest rates, various market related factors and trading volumes.
- g. The present scheme is not a guaranteed or assured return scheme.
- h. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.

2. Scheme-specific Risk Factors

- a. The Trustees, AMC, Fund, their directors or their employees shall not be liable for any tax consequences that may arise in the event that the scheme is wound up for the reasons and in the manner provided under the SID & SAI.
- b. Redemption by the Unit Holder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, AMC, Fund, their directors or their employees shall not be liable for any tax consequences that may arise.
- c. The tax benefits described in Statement of Additional Information (SAI) are as available under the present taxation laws and are available subject to relevant condition. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the investors and Unit Holders should be aware that the relevant fiscal rules or their interpretation may change. As in the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of the investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each investor / Unit Holder is advised to consult his/her/its own professional tax advisor.
- d. Investors in the Scheme are not being offered any guaranteed / assured returns.
- e. SBI Debt Fund Series (SDFS) will be investing in debt instruments, Government Securities and money market instruments (such as term/ notice money market, repos and reverse repos). Trading volumes and settlement periods inherently restrict the liquidity of the scheme's investments. In the event of a restructuring of the scheme's investment portfolio, these periods may become significant.
- f. The Mutual Fund is not assuring any returns nor is it assuring that it will make periodic distributions. All dividend distributions are subject to the investment performance of the scheme, availability of distributable profits and computed in accordance with SEBI (MF) Regulations.
- g. Different types of securities in which the scheme would invest as given in the SID carry different levels of risk. Accordingly the scheme's risk may increase or decrease depending upon the investment pattern. For e.g. corporate bonds carry a higher amount of risk than Government Securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risk than bonds, which are AA rated.
- h. No person has been authorized to issue any advertisement or to give any information or to make any representations other than that contained in this SID. Circulars in connection with this offering not authorized by the Mutual Fund and any information or representations not contained herein must not be relied upon as having been authorized by the Mutual Fund.
- i. Debt & money market securities investments under the scheme may also be subject to the following risks:
 - I. Credit risk: Credit risk is risk resulting from uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest. Government Securities have zero credit risk while other debt instruments are rated according to the issuers' ability to meet the obligations.

- II. Liquidity Risk pertains to how saleable a security is in the market. If a particular security does not have a market at the time of sale, then the scheme may have to bear an impact depending on its exposure to that particular security.
 - III. Interest Rate risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The value of investments will appreciate/depreciate if the interest rates fall/rise. However if the investments are held on till maturity of the investments, the value of the investments will not be subjected to this risk.
 - IV. Reinvestment risk: This risk arises from uncertainty in the rate at which cash flows from an investment may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received.
- j. **Risks associated with Investing in Foreign Securities** – The Scheme shall not invest in Foreign Securities.
- k. **Risks associated with Investing in Derivatives** – The Scheme shall not invest in derivatives.
- l. **Securitized debt investments under the scheme may also be subject to the following risks :**
- **Liquidity risk:** There is no assurance that a deep secondary market will develop for the instrument. This could limit the ability of the investor to resell them.
 - **Limited Recourse:** The instruments represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the buyer of the security against the Investors' Representative.
 - **Delinquency and Credit Risk:** Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Monthly Investor Payouts to the Holders may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Servicer may repossess and sell the Vehicle/ Asset. However many factors may affect, delay or prevent the repossession of such Vehicle/ Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Vehicle/Asset may be sold may be lower than the amount due from that Obligor.
 - **Risks due to possible prepayments:** Full prepayment of a contract may lead to an event in which investors may be exposed to changes in tenor and yield.
 - **Bankruptcy of the Originator or Seller:** If the service provider becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that either the sale from each Originator was not a sale then an Investor could experience losses or delays in the payments due under the instrument.
- m. **Risk associated with Stock Lending:** The Scheme shall not engage in stock lending.

B. Risk Control strategies:

Investments in debt securities carry various risks such as inability to sell securities, trading volumes and settlement periods, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification.

In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.

Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Internal limits are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. There is a Board level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigants.

For risk control, the following may be noted:

Liquidity risks:

The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. Liquidity Risk can be partly mitigated by diversification, staggering of maturities as well as internal risk controls that lean towards purchase of liquid securities.

Interest Rate Risk:

Changes in interest rates affect the prices of bonds. If interest rates rise the prices of bonds fall and vice versa. A well-diversified portfolio may help to mitigate this risk. Additionally, the fund will invest in securities maturing on or before the maturity of the fund. Hence, while the interim NAV will fluctuate in response to changes in interest rates, the final NAV will be more stable. To that extent the interest rate risk will be mitigated at the maturity of the scheme.

Volatility risks:

There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification. Further, the fund will invest in a basket of debt and money market securities maturing on or before maturity of the fund with a view to hold them till the maturity of the fund. To that extent the Volatility risk will be mitigated in the scheme.

Credit Risks

Credit risk shall be mitigated by investing in rated papers of the companies having the sound back ground, strong fundamentals, and quality of management and financial strength of the Company.

C. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Plan(s) under the Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Plan(s). These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme(s) shall be wound up in accordance with Regulation 39 (2) (c) of SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 6 weeks of the date of closure of the New Fund Offer.

D. SPECIAL CONSIDERATIONS, if any

a) Termination of the scheme

The Trustees reserve the right to terminate the scheme at any time. Regulation 39(2) of the SEBI Regulations provides that any scheme of a mutual fund may be wound up after repaying the amount due to the Unit holders:

- (i) on the happening of any event which, in the opinion of the Trustees, requires the scheme to be wound up; or
- (ii) if 75% of the Unit holders of a scheme pass a resolution that the scheme be wound up; or
- (iii) if SEBI so directs in the interest of the unit holders.

Where a scheme is wound up under the above Regulation, the trustees shall give a notice disclosing the circumstances leading to the winding up of the scheme:

- (i) to SEBI; and
- (ii) in two daily newspapers having circulation all over India & a vernacular newspaper circulating at the place where the mutual fund is formed.

In case of termination of the scheme, regulation 41 of the SEBI (Mutual Funds) Regulations, 1996 shall apply.

- b) 'The Mutual Fund / AMC and its empanelled broker has not given and shall not give any indicative portfolio and indicative yield in any communication, in any manner whatsoever. Investors are advised not to rely on any communication regarding indicative yield / portfolio with regard to the Scheme.'**
- c) Investors should study the Scheme Information Document carefully in its entirety and should not construe the contents thereof as advice relating to legal, taxation, investment or any other matters. Investors are advised to consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem Units.**

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME - SBI Debt Fund Series is a Close-ended Debt Scheme.

B. SCHEME SCHEDULE

Series	No. of funds to be launched from the date of the letter containing observation from SEBI	Name of the Funds
370 Days	5	1. SBI Debt Fund Series-370 Days Fund – 11 2. SBI Debt Fund Series-370 Days Fund – 12 3. SBI Debt Fund Series-370 Days Fund – 13 4. SBI Debt Fund Series-370 Days Fund – 14 5. SBI Debt Fund Series-370 Days Fund – 15

The decision to launch all or any of the above Funds would be at the discretion of the Managing Director of the AMC. The AMC may also cancel the launch of a particular Fund under any Series as laid down in the schedule on account of insufficient demand, without any notice to the general public. In case of adverse market conditions or unforeseen circumstances, the AMC reserves the right to cancel the launch of particular fund/funds under SBI Debt Fund Series. The AMC may launch the same Fund under this Series on the subsequent date laid down in the schedule.

The launch dates of schemes for SDFS will be informed from time to time.

C. INVESTMENT OBJECTIVE OF THE SCHEME

To provide regular income, liquidity and returns to the investors through investments in a portfolio comprising of debt instruments such as Government Securities, PSU & Corporate Bonds and Money Market Instruments maturing on or before the maturity of the scheme.

D. SCHEME ASSET ALLOCATION

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Maximum	Minimum	High/Medium/Low
Government of India dated Securities and Treasury Bills, PSU & Corporate Bonds/Debt Instruments *, Money Market instruments	100%	0%	Low to medium

* Exposure to securitized debt may be to the extent of 40% of the net assets

The portfolio allocation indicated above would be applicable to all the Funds of various maturities launched under the scheme. Individual Funds under every series will invest only in such securities which mature on or before the date of the maturity of the Fund.

The Scheme shall not invest in derivative products.

The Scheme shall not make any investment in ADRs / GDRs / Foreign Securities and also shall not engage in stock lending.

The proportion of each of the Fund portfolio invested in each type of security will vary in accordance with economic conditions, interest rates, liquidity and other relevant considerations, including the risks associated with each investment. Performance of the scheme will depend on the Asset Management Company's ability to assess accurately and react to changing market conditions. Individual Funds may also enter into repurchase and reverse repurchase obligation in all securities held by it as per the guidelines and regulations applicable for such transactions.

The above investment pattern is indicative and may be changed by the Fund Manager for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable SEBI (Mutual Funds) Regulations 1996, legislative amendments and other political and economic factors, the intention being at all times to seek to protect the interests of the Unit Holders. Review and rebalancing of the portfolio will be done when the asset allocation falls outside the range given above. If the exposure falls outside the above mentioned asset allocation pattern, it will endeavor to restore within 30 days. The Fund Manager shall adopt such strategy as may be required for portfolio rebalancing. The scheme does not intend to invest in securities that are issued by a State Government or are supported by Sovereign guarantees. The funds raised under the scheme shall be invested only in transferable securities as per Regulation 44(1), Schedule 7 of the SEBI (Mutual Funds) Regulations, 1996.

The Mutual Fund reserves the right to suitably alter the frequency of the dividend payments under the various Funds introduced under various Series depending on the performance and any change in the tax laws.

There can be no assurance that the investment objective of the scheme will be achieved. However, the scheme will largely invest in bonds/debt instruments of reputed and sound companies and Government Securities in accordance with the investment pattern stated above.

E. TYPE OF THE INSTRUMENTS IN WHICH SCHEME WILL INVEST

The Scheme shall invest in Government of India dated Securities, Treasury Bills, Money Market instruments, Bonds/Debt Instruments including Securitized Debt.

Debt Instruments & Money Market Instruments shall cover the following various instruments:

1. Certificate of Deposits (CDs) is a negotiable money market instrument issued by scheduled commercial banks and select all- India Financial Institutions that have been permitted by the RBI to raise short term resources.
2. Commercial Paper (CPs) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short term borrowings. They are issued at a discount to the face value as may be determined by the issuer. CP is traded in secondary market and can be freely bought and sold before maturity.
3. Treasury Bills (T-Bills) are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 91 days, 182 days and 364 days. T-bills are issued at a discount to their face value and redeemed at par.
4. Collateralised Borrowing and Lending Obligations (CBLO) is a money market instrument that enables entities to borrow and lend against sovereign collateral security. It is in electronic form. The maturity ranges from 1 day to 90 days and can also be made available upto 1 year. Central Government Securities including T-bills are eligible securities that can be used as collateral for borrowing through CBLO.
5. Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). Central Government Securities are sovereign debt obligations of the Government of India with zero-risk of default and issued on its behalf by RBI. They form part of Government's annual borrowing programme and are used to fund the fiscal deficit along with other short term and long term requirements. Such securities could be fixed rate, fixed interest rate with put/call option, zero coupon bond, floating rate bonds, capital indexed bonds, Fixed Interest security with staggered maturity payment etc. State Government Securities are issued by the respective State Government in co-ordination with the RBI.
6. Non Convertible Debentures as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies, which may or may not carry a Central/State Government guarantee, Public and private sector banks, All India Financial Institutions, Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements. Rate of interest on such instruments would depend upon spread over corresponding government security, perceived risk, rating, tenor etc. These instruments include Fixed Interest Security with/without put/call option, floating rate bonds, zero coupon bonds. Frequency of the interest payment could be either monthly/quarterly/half-yearly or annually.
7. Floating rate debt instruments are debt instruments issued by central government, state government, corporates, PSUs etc. with coupon reset periodically. The periodicity of reset could be daily, monthly, quarterly, half yearly and annually or any other periodicity as may be mutually agreed between the issuer and the Fund. The Fund Manager will have the flexibility to invest the debt component into floating rate debt securities in order to reduce the impact of rising interest rate in the economy. Short term debt consideration for this Scheme includes maintaining an adequate float to meet anticipated levels of redemptions, expenses and other liquidity needs.
8. Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. When the seller sells the security with an agreement to repurchase it, it is Repo transaction whereas from the perspective of buyer who buys the security with an agreement to sell it at a later date, it is reverse repo transaction. Presently in India, G-Secs, State Government Securities and T-Bills are eligible for Repo/Reverse Repo.
9. Securitized Debt (SD)/Pass Through Certificate (PTC) represent beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two wheeler loans and other assets subject to applicable regulations.
10. Bills Rediscounting

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The securities may be acquired through initial public offering (IPOs), secondary market, private placement, rights offers, negotiated deals. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency. Investment in unrated debt instruments shall be subject to complying with the provisions of SEBI Regulations and within the limit as specified in Schedule VII to SEBI Regulations.

F. INVESTMENT STRATEGIES

SBI Debt Fund Series is a Close-ended Debt Scheme and the objective is to provide regular income, liquidity and returns to the investors through investments in a portfolio comprising of debt instruments such as Government of India dated Securities, Treasury Bills, Money Market instruments, Bonds/Debt Instruments including Securitized Debt.

Investments under SDFS series would be made only in securities which mature on or before the date of the maturity of the Scheme. The scheme has the flexibility to invest in the entire range of debt instruments and would seek to minimize interest rate risk while avoiding credit risks. The issuer selection for credit exposure would be based on financial parameters such as Turnover, Net Worth, Gearing, Interest Coverage Ratio and Profitability track record. Companies in the investment universe are initially screened on the basis of Management quality, Business and Industry analysis & Feedback from creditors/ Rating agencies. Companies which meet the initial screening norms are then evaluated on the financial norms for consideration in the investment. The scheme would make investment in securities in the investment universe based on market spreads and liquidity, so as to match the investment horizon with the scheme maturity. Investment in sovereign papers would be based on interest rate expectations arising out of macroeconomic analysis. This includes analysis of inflation data and trends in macro variables such as credit growth, liquidity, money supply growth, fiscal numbers and the global interest environment.

Features of the series of funds are as follows:

Maturity: The fund matures at the end of 370 days.

Investor profile: Ideally suited for investors with investment horizon of 370 days

Liquidity: In normal market situation, 1 year papers have lower or similar liquidity compared to 90 day & 180 day papers and similar or higher liquidity compared to higher maturity papers (2 Years etc)

Yield: In normal market conditions, the yield of the portfolio constructed with papers maturing around 1 year will be higher than 90 day & 180 days fund but lower than higher maturity papers (2 years etc)

Securities: The fund will invest in short term debt assets with maturity not exceeding 370 days.

G. OPTION FOR INVESTMENT

SBI Debt Fund Series is a close-ended debt scheme offering investor two options for investment - Growth option and Dividend option (pay out). Both Dividend (pay out) and Growth option will be available under all the funds launched under SBI Debt Fund Series. The Dividend option would endeavor to declare dividends subject to the availability of distributable surplus and at the discretion of the Fund Manager, subject to the approval of the Trustees. The Growth option would not declare dividends and returns in this option would be through capital appreciation only. Both the options would be maintained as a common portfolio.

The Growth Option will be the default option and hence if an investor fails to specify the option applied for, he will be allocated Units under the Growth Option of the Scheme.

H. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) **Type of a scheme** : A close ended debt scheme

(ii) **Investment Objective** : To provide regular income, liquidity and returns to the investors through investments in a portfolio comprising of debt instruments such as Government Securities, PSU & Corporate Bonds and Money Market Instruments maturing on or before the maturity of the scheme.

- Main Objective - Income
- Investment pattern - The indicative portfolio break-up with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations is as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Maximum	Minimum	
Government of India dated Securities and Treasury Bills, PSU & Corporate Bonds/Debt Instruments*, Money Market instruments	100%	0%	Low to medium

* Exposure to securitized debt may be to the extent of 40% of the net assets

(iii) Terms of Issue

Provisions in respect of Liquidity, Aggregate fees and expenses as indicated in this Scheme Information document.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustee shall ensure that no change in the fundamental attributes of the Scheme there under or the trust or fee and expenses payable or any other change which would modify the Scheme and affect the interests of unitholders is carried out unless:

- i. A written communication about the proposed change is sent to each Unit holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- ii. The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

I. BENCHMARK OF THE SCHEME

- CRISIL Short Term Bond Fund Index.

The performance of the funds will have CRISIL Short Term Bond Fund Index as the benchmark, since these funds would predominantly invest in bonds or debt instruments having maturity below 3 years to closely resemble that of a Short Term Bond fund.

- a. The scheme shall not invest more than 15% of its NAV in debt instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 20% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of Asset Management Company. Such limit shall not be applicable for investments in government securities. Also investment within such limit can be made in mortgaged-backed securitized debt, which is rated not below investment grade by a credit rating agency registered with the Board.

No mutual fund scheme shall invest more than thirty percent of its net assets in money market instruments of an issuer:

Provided that such limit shall not be applicable for investments in Government securities, treasury bills and collateralized borrowing and lending obligations.”

- b. The Scheme shall not invest more than 10% of its NAV in unrated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the Scheme. All such investments shall be made with the prior approval of the Board of Trustees and the Board of Asset Management Company. Further, the aforesaid investment limits are applicable to all debt securities which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc guaranteed by either state or central government. Government securities issued by central/state government or on its behalf by the RBI are exempt from the above referred investment limits.

No mutual fund scheme shall invest more than thirty percent of its net assets in money market instruments of an issuer:

Provided that such limit shall not be applicable for investments in Government securities, treasury bills and collateralized borrowing and lending obligations.

- c. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments.
- d. Transfer of investments from one scheme to another scheme, including this scheme, under the Mutual Fund shall be allowed only if :
 - I. Such transfers are done at the prevailing market price for quoted securities on spot basis; explanation - "spot basis" shall have the same meaning as specified by the stock exchange for spot transactions, and
 - II. The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
- e. The scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate interscheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.
- f. Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.
- g. The assets of the scheme shall not in any manner be used for short selling and securities lending and borrowing. The Scheme shall not invest in derivative products.
- h. The scheme shall provide that the securities be purchased or transferred in the name of the Mutual Fund for the relevant scheme, wherever the investments are intended to be of a long-term nature.
- i. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to such Guidelines as may be specified by the Board.
- j. The scheme shall not make any investment in;

 - 3) The listed securities of group companies of the sponsor which is in excess of 25% of the net assets.
- k. The scheme shall not make any investment in any Fund of Funds scheme.

L. PAST PERFORMANCE OF THE SCHEME

This scheme is a new scheme and does not have any performance track record.

M. DISCLOSURES PERTAINING TO SECURITIZED DEBT

Risk profile of securitized debt vis-a-vis risk appetite of the scheme

Since the fixed income component of held-to-maturity portion of the scheme would not be traded and tenor of these securities of this component will be in line with the tenor of the scheme, to that extent, the liquidity risk would be minimized. Also the securities in this component would be of highest credit ratings.

Policy relating to originators:

A securitization transaction involves sale of receivables by the originator (a bank, non-banking finance company, housing finance company, or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass Through Certificates (PTCs), the proceeds of which are paid as consideration to the originator. In this manner, the originator, by selling his loan receivables to an SPV, receives consideration from investors much before the maturity of the underlying loans. Investors are paid from the collections of the underlying loans from borrowers. Typically, the transaction is provided with a limited amount of credit enhancement (as stipulated by the rating agency for a target rating), which provides protection to investors against defaults by the underlying borrowers.

The scheme will invest in instruments of the originator only if the originator has an investment grade rating. Over and above the credit rating assigned by credit rating agencies to the originator, SBI MF will conduct an additional evaluation on

- Previous track record on origination, servicing and performance of existing pools
- Willingness to pay, through credit enhancement facilities etc.
- Ability to pay

- Business risk assessment, wherein following factors are considered:
 - Outlook for the economy (domestic and global)
 - Outlook for the industry
 - Originator/Pool specific factors

For single loan PTC, credit evaluation of the underlying corporate will be carried out as with any other debt instruments

Risk mitigation strategies:

Risk mitigation strategies will depend on each asset class, whether they are unsecured loans or secured, seasoning, collection history, past recovery rates, originator's financial profile, servicing performance, etc for each asset class. SBI MF will invest in pools with investment grade rating by SEBI recognised rating agencies. In addition some specific risk mitigation measures will include

Risk	Mitigants
Credit Risk	Analysis of originator with respect to past track record, systems and processes, performance of pools, collateral adequacy and disclosure frequency; Analysis of specific pool with respect to nature of underlying asset, seasoning, loan sizes, loan to value ratio, geographical diversity, etc
Counterparty Risk	Past track record of handling securitized transactions, disclosure adequacy and frequency
Legal Risk	Check with rating agency that investors' interest is not compromised, specific protection measures like bankruptcy remoteness, etc are built in Separate in-house legal opinion on transactions,
Market Risk	Liquidity, Prepayment and Interest Rate Risk Analysis and level of their mitigation through transaction structure and credit enhancements provided

The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments:

Framework that will be applied while evaluating investment decision relating to a pool securitization transaction:

Characteristics/ Type of Pool	Mortgage Loan	Commercial Vehicle and Construction Equipment	CAR	2 wheelers	Micro Finance Pools	Personal Loans	Single Sell Downs	Others
Approximate Average maturity (in Months)	60-120 months	12-48 months	12-48 months	12-24 months	12 months	12-36 months	NA	NA
Collateral margin (including cash, guarantees, excess interest spread, subordinate tranche)	5-20%	5-20%	5-20%	5-20%	10-30%	10-30%	NA	NA
Average Loan to Value Ratio	Less than 90%	Less than 90%	Less than 90%	Less than 90%	NA	NA	NA	NA
Average seasoning of the Pool	6-12 months	3-6 months	3-6 months	3-6 months	3-12 weeks	1-3 months	0-3 months	
Maximum single exposure range	3-4%	3-4%	Retail	Retail	Retail	Retail	NA	NA
Average single exposure range %	1-1.5%	1.5-2%	Retail	Retail	Retail	Retail	NA	NA

Information illustrated in the Table above, is based on the current scenario relating to Securitized Debt market and is subject to change depending upon the change in the related factors.

We endeavor to consider some of the important risk mitigating factors for securitized pool i.e.

- Average original maturity of the pool: based on different asset classes and current market practices
- Collateral margin including cash collateral and other credit enhancements
- Loan to Value Ratio
- Average seasoning of the pool, which is a key indicator of past pool performance

- Default rate distribution
- Geographical Distribution
- Maximum single exposure: Retail pools (passenger cars, 2-wheelers, Micro finance, personal loans, etc) are generally well diversified with maximum and average single exposure limits within 1%.

As illustrated above, these factors vary for different asset classes and would be based on interactions with each originator as well as the credit rating agency

Minimum retention period of the debt by originator prior to securitization:

RBI has come out with discussion paper on minimum retention period for all securitized debt in April 2010. Generally, a requirement to keep the originated loans in its own books at least for some period until full disbursement of loans for an activity/purpose, acquisition of asset by the borrower, completion of project, as the case may be; OR, observing a minimum servicing of the loan by the borrower should ensure exercise of due diligence by the originating banks. SBI MF will follow RBI guidelines on the retention period or average seasoning of pool (as per above framework), whichever is more stringent.

Minimum retention percentage by originator of debts to be securitized

RBI has come out with discussion paper on minimum retention percentage for all securitized debt in April 2010. SBI MF will follow RBI guidelines on the retention percentage or collateral margin requirement (as per above framework), whichever is more stringent.

The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund

Investments made by the Scheme in any asset are done based on the requirements of the Scheme and is in accordance with the investment policy. All Investments are made entirely at an arm's length basis with no consideration of any existing / consequent investments by any party related to the transaction (originator, issuer, borrower etc.). Investments made in Securitized debt are made as per the Investment pattern of the Scheme and are done after detailed analysis of the underlying asset. There might be instances of Originator investing in the same scheme but both the transactions are at arm's length and avoid any conflict of interest.

The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

As with any other debt instruments, investment in securitized debt instruments will be closely monitored by a dedicated team of credit analysts, ratings of any such instruments will be continuously tracked and periodic performance report from Trustee and MIS from Originators, if any would be scrutinized closely

N. DEBT MARKET IN INDIA

The Indian debt markets are one of the largest and rapidly developing markets in Asia. Government and Public Sector enterprises are the predominant borrowers in the market. The debt markets have received lot of regulatory and governmental focus off late and are developing fast, with the rapid introduction of new instruments including derivatives. Foreign Institutional Investors are also allowed to invest in Indian debt markets subject to ceiling levels announced by the government. There has been a considerable increase in the trading volumes in the market. The trading volumes are largely concentrated in the Government of India Securities, which contribute a significant proportion of the daily trades.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) , Treasury Bills (issued by RBI) and the CBLO (collateralized lending and borrowing facility).

Government securities are largely traded on a Negotiated Order Matching system (NDS OM) apart from the OTC market. The settlement of trades both in the Gsec markets and the overnight repo and CBLO are guaranteed and done by a central counterparty, the Clearing corporation of India (CCIL). Money market deals involving CD's and CP's are traded and settled on an OTC basis. The clearing and settlement of corporate bond deals are now routed through a central counterparty established by the exchanges BSE (ICCL) and NSE (NSCCL) which settles deals on a DVP (Delivery versus payment) non guaranteed basis.

The current market yields of various instruments and the factors affecting prices of such securities are given hereunder. The securitized instruments of higher ratings generally offer yields which are 50-75 basis points higher than the comparable normal debt instruments.

Following are the yield matrix of various debt instruments:

Instruments	Indicative yield range
Overnight rates	5.00% - 5.25 %
90 day Commercial Paper	6.50%-6.75%
91-day T-bill	5.25%- 5.35%
1 year G-Sec.	5.60%- 5.65%
5 year G – Sec	7.25% – 7.30 %
10 year G-Sec.	7.50%-7.65%
1 year AAA Bond	6.85%-7.00 %
5 year AAA Bond	8.15%– 8.25 %

The interest rate market conditions are influenced by the Liquidity in the system, Credit growth, GDP growth, Inflows into the Country, Currency movement in the Forex market, demand and supply of issues and change in investors' preference. Generally when there is a rise in interest rates the price of securities fall and vice versa. The extent of change in price shall depend on the rating, tenor to maturity, coupon and the extent of fall or rise in interest rates. The Government securities carry zero credit risk, but they carry interest rate risk like any other Fixed Income Securities. Money market instruments such as CP's and CD's which are fairly liquid are not listed in exchanges. The impact cost of offloading the various asset classes differ depending on market conditions and may impair the value of the securities to that extent. Further, investments in securitized instruments or structured obligation papers carry a higher illiquidity risk. They also carry limited recourse to the originator, delinquency risk out of the defaults on the receivables and prepayment risk which affects the yields on the instruments.

O. INVESTMENTS OF AMC IN THE SCHEME

The AMC may invest in the scheme, such amount, as they deem appropriate. But the AMC shall not be entitled to charge any management fees on this investment in the scheme. Investments by the AMC will be in accordance with Regulation 24(3) of the SEBI (MF) Regulations, 1996 which states that:

"The asset management company shall not invest in any of its schemes unless full disclosure of its intention to invest has been made in the **Scheme Information Document (SID)**, provided that the asset management company shall not be entitled to charge any fees on its investment in the scheme."

P. INVESTMENTS IN OTHER SCHEMES

According to the Clause 4 of Schedule 7 read with Regulation 44(1), of the SEBI (MF) Regulations, 1996:

"A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investments made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund."

D. NAV INFORMATION

NAV of the sub-funds under the series is computed and declared on daily basis. The NAV under the Scheme shall be calculated up to 4 decimals as follows or such other formula as may be prescribed by SEBI from time to time:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No of Units outstanding under Scheme on the Valuation Date}}$$

NAV will be published in 2 newspapers as prescribed under SEBI (Mutual Funds) Regulations, 1996. NAV can also be viewed on www.sbimf.com and www.amfiindia.com.

The AMC shall update the NAVs on the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 9.00 p.m. on daily basis. In case of any delay, the reasons for such delay would be explained to AMFI and SEBI by the next day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.

Further, as per SEBI Regulations, the repurchase price shall not be lower than 93% of the NAV and the sale price shall not be higher than 107% of the NAV and the difference between the repurchase price and sale price shall not exceed 7% on the sale price. In the case of close-ended scheme the repurchase price shall not be lower than 95% of the NAV.

IV. FEES AND EXPENSES

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

The entire New Fund Offer expenses for the launch of each fund under the series will be borne by the AMC.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.25% of the weekly average net assets will be charged to the schemes as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund i.e. www.sbimf.com. The mutual fund would update the current expense ratios on the website within two working days mentioning the effective date of the change.

Particulars	% of Net Assets
Investment Management Fee	1.25%
Marketing and Distribution Expenses	0.60%
Registrar & Transfer Agent's fees and Stamp duty	0.05%
Custodial fees & expenses	0.05%
Listing Fee	0.05%
Trustee fees	0.01%
Other expenses	0.24%
Total expenses to be charged to the scheme	2.25%

The recurring expense structure, including the Investment Management Fee, indicated above would be applicable to each and every Fund launched by the scheme at various points of time.

The AMC reserves the right to increase and decrease the fee within the ceilings prescribed under SEBI Regulations. The above annual recurring expenses are only the estimates and the actual expenses may vary from the above estimates but will be restricted to the ceilings of recurring expenses stated in Regulation 52(6) of the SEBI (Mutual Funds) Regulations, 1996, which are as follows:

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per the SEBI (MF) Regulations. However, as per regulation 52 of SEBI (MF) Regulations, following maximum limits are applicable to the scheme:

- i) 2.25% on the first Rs.100 Crore of average weekly net assets.
- ii) 2.00% on the next Rs.300 Crore of average weekly net assets.
- iii) 1.75% on the next Rs.300 Crore of average weekly net assets.
- iv) 1.50% on the balance of the average weekly net assets.

Any recurring expenses incurred over and above the aforesaid limit shall be borne by AMC.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.sbimf.com) or contact your distributor.

Nature of expense	Charge (% of NAV)
Entry Load	Not Applicable, In terms of SEBI circular no. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009 has notified that w.e.f. August 01, 2009 there will be no entry load charged to the schemes of the Mutual Fund.
Exit Load	Not Applicable, Since the Scheme will be listed on National Stock Exchange or such other exchange as may be decided by the AMC for proving liquidity therefore no exit load will be applicable

No load shall be charged for redemption at maturity of the respective Series.

Bonus units and units issued on reinvestment of dividends shall not be subject to entry and exit load.

The upfront commission on investment made by the investor, if any, shall be paid to the ARN Holder directly by the investor, based on the investor's assessment of various factors including service rendered by the ARN Holder.

Exit load/ CDSC (if any) up to 1% of the redemption value charged to the unit holder by the Fund on redemption of units shall be retained by each of the schemes/ plans in a separate account and will be utilized for payment of commissions to the ARN Holder and to meet other marketing and selling expenses.

Any amount in excess of 1% of the redemption value charged to the unit holder as exit load/ CDSC shall be credited to the respective scheme/ plan immediately.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centers.

Any imposition or enhancement in the load shall be applicable on prospective investments only. However, AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of dividend for existing as well as prospective investors. At the time of changing the load structure, the mutual fund may consider the following measures to avoid complaints from investors about investment in the schemes without knowing the loads:

- 1) The addendum detailing the changes may be attached to Scheme Information Documents and key information memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- 2) Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centers and distributors/brokers office.
- 3) The introduction of the exit load/ CDSC along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load/CDSC.
- 4) A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
- 5) Any other measures which the mutual funds may feel necessary.

The investor is requested to check the prevailing load structure of the Scheme before investing.
