Debt instruments (including Central and State Government(s) securities, debt derivatives) and Money Market instruments	65%	100%	Low to medium															
Securitized Debt	0%	35%	Medium to High															
Risk Profile of the Scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific risk factors are summarized below:</p> <p>SBI Short Term Debt Fund (SSTDF) will be investing in debt instruments, Government Securities, securitized debt, debt derivatives and money market instruments. Trading volumes and settlement periods inherently restrict the liquidity of the scheme's investments. In the event of a restructuring of the scheme's investment portfolio, these periods may become significant.</p> <p>The Scheme is subjected to risk factors associated with investments in Government securities, Repo in Corporate Debt, debt derivatives, securitized debt, ADR/GDR/Foreign securities and segregated portfolio. Besides, the scheme is also subjected to risk associated with Foreign Securities, Currency Risk, imperfect hedge using interest rate futures, Delinquency and Credit Risk, & regulatory risk associated with securities as detailed in the SID.</p>																	
Risk Control	Investments in debt and debt related securities carry various risks such as inability to sell securities, trading volumes and settlement periods, market risk, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification and hedging.																	

	<p>In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.</p> <p>Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Internal limits are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. There is a Board Level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigates.</p> <p>For risk control, the following may be noted:</p> <p>Liquidity risks: The liquidity of the Scheme’s investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. Liquidity Risk can be partly mitigated by diversification, staggering of maturities as well as internal risk controls that lean towards purchase of liquid securities.</p> <p>Interest Rate Risk: Changes in interest rates affect the prices of bonds. If interest rates rise the prices of bonds fall and vice versa. A well-diversified portfolio may help to mitigate this risk.</p> <p>Credit Risks Credit risk shall be mitigated by investing in rated papers of the companies having the sound back ground, strong fundamentals, and quality of management and financial strength of the Company.</p> <p>Volatility risks: There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification.</p>
Plans /Options	<p>The scheme would have two plans viz. Direct Plan & Regular Plan.</p> <p>Direct Plan: Direct Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Mutual Fund or through Registered Investment Advisor (RIA) and is not available for investors who route their investments through a Distributor. All the features of the Direct Plan under Scheme like the investment objective, asset allocation pattern, investment strategy, risk factors, facilities offered, load structure etc. will be the same except for a lower expense ratio as detailed in Section IV – Fees and Expenses – B. – Annual Recurring Expenses of the SID. Brokerage/Commission paid to distributors will not be paid / charged under the Direct Plan. Both the plans shall have a common portfolio.</p> <p>Eligible investors: All categories of investors as permitted under the Scheme Information Document of the Scheme are eligible to subscribe under Direct Plan.</p> <p>Modes for applying: Investments under Direct Plan can be made through various modes offered by the Mutual Fund for investing directly with the Mutual Fund.</p> <p>How to apply: Investors desirous of subscribing under Direct Plan of a Scheme will have to ensure to indicate “Direct Plan” against the Scheme name in the application form. Investors should also indicate “Direct” in the ARN column of the application form.</p>

Regular Plan

This Plan is for investors who wish to route their investment through any distributor.

The default plan in following cases will be:

Scenario	Broker Code mentioned by the investor	Plan mentioned by the investor	Default Plan to be captured
1	Not mentioned	Not mentioned	Direct Plan
2	Not mentioned	Direct	Direct Plan
3	Not mentioned	Regular	Direct Plan
4	Mentioned	Direct	Direct Plan
5	Direct	Not Mentioned	Direct Plan
6	Direct	Regular	Direct Plan
7	Mentioned	Regular	Regular Plan
8	Mentioned	Not Mentioned	Regular Plan

In cases of wrong/ invalid/ incomplete ARN codes mentioned on the application form, the application shall be processed under Regular Plan. The AMC shall contact and obtain the correct ARN code within 30 calendar days of the receipt of the application form from the investor/ distributor. In case, the correct code is not received within 30 calendar days, the AMC shall reprocess the transaction under Direct Plan from the date of application without any exit load.

Both plans will have two options Growth and Income Distribution cum capital withdrawal (IDCW) option. IDCW option will have the facility of Reinvestment of Income Distribution cum capital withdrawal option (IDCW Re-investment), Payout of Income Distribution cum capital withdrawal option (IDCW Payout) & Transfer of Income Distribution cum capital withdrawal plan (IDCW Transfer). Under IDCW option the scheme offers, Weekly, fortnightly and monthly frequency with reinvestment, payout, transfer facilities. For weekly IDCW options, payout facility is available only for investment above Rs. 1 crore. Growth will be the default option & IDCW Payout will be default facility.

Investor can select only one option either IDCW Payout or IDCW Reinvestment or IDCW Transfer in IDCW plan at a Scheme and folio level. Any subsequent request for change in IDCW option viz. IDCW Payout to IDCW Reinvestment or IDCW Transfer or vice-versa would be processed at the Folio / Scheme level and not at individual transaction level. Accordingly, any change in IDCW option (IDCW Re-investment/ IDCW Payout/IDCW Transfer) will reflect for all the units held under the scheme / folio.
